

## UWI Research Expo 2013: Mini-Workshop Listing

### Thursday 3<sup>rd</sup> October, 2013

| <b>Time</b> | <b>Workshop Title</b>                                                                                                             | <b>Facilitator</b>                                             | <b>Venue</b>                                   |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------|------------------------------------------------|
| 8:30-9:30am | <i>Innovations in Agro-Processing</i>                                                                                             | Dr. Saheeda Mujaffar & Mr. Rodney Harinarine                   | Engineering Building Room 101                  |
| 1:00-2:00pm | <i>Geographical Information Systems (GIS )Analysis &amp; Demonstration</i>                                                        | Mr. Jason Tambie                                               | Department of Geography<br>GIS lab.            |
| 1:00-2:00pm | The Use of Data as Building Blocks for Analysis , Simulations & Forecasts                                                         | Dr. Regan Deonanan                                             | Faculty of Social Sciences Computer Laboratory |
| 1:30-2:30pm | <i>Smart Grid Technology</i>                                                                                                      | Dr. Davinder Sharma                                            | Engineering Building Room 105                  |
| 1:00-2:00pm | <i>Enhancing Breadfruit Potential for Food Security</i>                                                                           | Dr. Roberts-Nkrumah                                            | Engineering Building Room 108                  |
| 2:00-3:00pm | <i>'Them vs Us': Avoiding Prejudices &amp; Stereotypes</i>                                                                        | Dr. Jannel Philip                                              | Management Lecture Theatre                     |
| 2:30-3:30pm | <i>Enhancing Breadfruit Potential for Food Security</i>                                                                           | Dr. Roberts-Nkrumah                                            | Sir Frank Stockdale Bldg. Room C               |
| 2:30-3:30pm | <i>Targeting Dementia</i>                                                                                                         | Dr. Gershwin Davis,<br>Dr. Amanda Mc Rae, Dr. Nelleen Baboolal | Engineering Building Room 106                  |
| 3:00-4:00pm | <i>Global Positioning Systems (GPS) in Geography Demonstration</i>                                                                | Mr. Jason Tambie                                               | Department of Geography GPS lab.               |
| 3:00-4:00pm | <i>An Introduction to Producing Scientific Films</i>                                                                              | Prof. Dave Chadee                                              | Engineering Building Room 105                  |
| 3:00-4:00pm | <b><i>Institute of International Relations(IIR):Political Economy of Caribbean Development</i></b>                                | Dr. Matthew Bishop                                             | Engineering Building Room 107                  |
| 3:00-4:00pm | <b><i>Institute for Gender and Development Studies: Child Sexual Abuse as Gender-based Violence and its Impact on Society</i></b> | Dr. Natalie O'Brady                                            | Engineering Building Room 106                  |

**Friday 4<sup>th</sup> October, 2013**

| <b>Time</b>      | <b>Workshop Title</b>                                                                                                       | <b>Facilitator</b>                                                   | <b>Venue</b>                      |
|------------------|-----------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------|-----------------------------------|
| 10:00-11:00am    | <i>Technology &amp; Social Media in Education</i>                                                                           | Dr. Debra Ferdinand                                                  | Engineering Room 107              |
| 10:00-11:30am    | <i>Obesity Risk Factors among Children &amp; Adolescents in the Republic of Trinidad &amp; Tobago</i>                       | Dr. Sa'eed Bawa                                                      | JFK Lecture Theatre               |
| 2:00-4:00pm      | <i>Introduction to the Steelpan</i>                                                                                         | Mr. Jessel Murray                                                    | JFK Lecture Theatre               |
| 11:30am -12:30pm | <i>Chinese Business Etiquette</i>                                                                                           | Mrs. He Min                                                          | Engineering Room 107              |
| 1:00 -2:00pm     | <i>Deaf Sign Language: An Introduction To Signing</i>                                                                       | Ms. Kathy-Ann Drayton & Mr. Benjamin Braithwaite                     | Engineering Room 107              |
| 1:00 -2:00pm     | <i>The Case Approach To Solving Organizational Challenges</i>                                                               | Dr. Charlene Roach, Mrs. Jennifer Jones Morales/ Gloria Davis-Cooper | Faculty of Social Sciences Lounge |
| 1:30-2:30pm      | <i>Developing Critical Thinking Skills</i>                                                                                  | Ms. Kathy-Ann Lootawan                                               | Engineering Building Room 106     |
| 1:30-2:30pm      | <i>Renewable Energy Application in Trinidad, Wind &amp; Solar, Reality or Myth</i>                                          | Dr. Krishpersad Manohar                                              | Engineering Building Room 102     |
| 1:30-2:30pm      | <i>Understanding 4G Networks</i>                                                                                            | Dr. Patrick Hosein                                                   | Engineering Building Room 105     |
| 2:30-3:30pm      | <i>An Introduction to Photo Shop and other Photo Finishing Tools</i>                                                        | Dr. Christopher Meir & Mr. Yao Ramesar                               | Engineering Room 107              |
| 3:00-4:00pm      | <i>Unconventional Hydrocarbon Recovery Potentials in Trinidad</i>                                                           | Dr. Raffie Hosein                                                    | Engineering Building Room 102     |
| 3:00-4:00pm      | <b><i>Institute of International Relations(IIR):Caribbean Journal of International Relations &amp; Diplomacy Launch</i></b> | Dr. Matthew Bishop                                                   | Engineering Building Room 105     |
