**Terms and Conditions**

**Fees and Payments**
1. The purpose of the Online Payment Facility is to allow students to make certain University payments directly to the University. The Online Payment Facility also allows for a third party to make payments on behalf of a student. For the purposes of this document “a student” is defined as a person registered for an academic program with the University.

2. Payments may only be made via the following approved credit cards: VISA or MasterCard.

3. All prices quoted are in TT dollars. Any costs associated with currency conversions or any other charges incurred in making a payment or processing a refund shall be for the account of the student or the person making the payment on his/her behalf. Any such costs/charges shall not be deductible from the relevant fees due to the University.

4. Upon a successful payment, the person making the payment shall be issued a transaction number which serves as a record of the transaction. This transaction number should be retained as confirmation of the payment made. The student will also receive an email receipt for the payment, which must be printed and submitted to Student Accounts, Bursary, together with the student’s other registration documents.

5. All payments made to the University through the Online Payment Facility will be reflected on the student’s account within 24 hours.

6. Payments made will be applied to the student’s account in accordance with the details submitted electronically. The University will not be liable where a payment does not reach the correct student account due to the entering of incorrect details by either the student or a third party making the payment on behalf of the student.

7. The University will not be liable where a payment is refused or declined by the relevant bank/credit card supplier for any reason. Further, if the bank/card supplier declines a payment, the University will be under no obligation to bring this fact to the student’s attention. The student or the third party making the payment on behalf of the student should check with his/her bank/credit card supplier to ensure that the payment has been deducted from the relevant account.

8. While the University will make every effort to ensure that the information contained in the Online Payment Facility with respect to University fees is accurate at the time of publication, the University cannot warrant with certainty that the said information will always be 100% accurate. The definitive amount of fees due may however at any time be confirmed by Student Accounts, Bursary.

9. Where an error is discovered in the information published in the Online Payment Facility and such error affects payment made by a student, the
Bursary will promptly notify the student upon becoming aware of such an error and where applicable, the correct fee shall thereafter become payable by the student.

10. In the event that there is an overpayment made, the student should complete a “Student’s Request Form” and submit it, together with the email receipt of the transaction to Student Accounts, Bursary so that any applicable refund may be processed. The Student Request Form is available on line.

11. Payments are not collected by the University directly but by the third party service provider, TouchNET Information Systems Inc. (the “Service Provider”).

12. Once payment is received by the Service Provider in cleared funds, the Service Provider will contact the University to confirm the details of the successful payment made.
