MESSAGE FROM THE DEAN

The Faculty of Humanities & Education considers its primary role to be that of producing members of the society who are assured of themselves as individuals, as members of a nation and as members of a region which has had a special social history. It is this positive concept of self, of nation and of region which will work towards ensuring total development. The Faculty offers degree programmes in History, Theology, Linguistics, French, Spanish, English Literature, Creative Arts and Education. These disciplines are the cornerstones of civilised existence.

The Faculty takes seriously its responsibility to provide its students with the tools for life. We try to provide the creative basis for the understanding and achievement which the individual, the region and the nation must attain. It is our imagination and creativity that must challenge the other areas to excellence. This challenge is all the more important in a world that seeks to define, refine, reshape and fit us into those moulds which it best understands and most easily manipulates even as we struggle against the limitations of these impositions.

Ian E. Robertson
Dean

<table>
<thead>
<tr>
<th>NON-G.P.A. SYSTEM</th>
<th>G.P.A. SYSTEM</th>

**Credits:** 3
**Prerequisite:** Normally passes in F15A and F15B
**Course Description:**
The post-war period of France saw a proliferation of new forms of representation across the cultural spectrum. This course will bring together and analyse the three most important and influential manifestations of this drive for the new: the Nouveau Roman, the Nouveau Théâtre/Theatre of the Absurd, and the Nouvelle Vague in French cinema. Introductory lectures will provide students with information on the cultural, political and social contexts which gave rise to these new forms. Close analysis of one prominent example from each genre – *La Modification* by Michel Butor, *En attendant Godot* by Samuel Beckett and *Les 400 coups* by François Truffaut – will thereafter lead to a more profound understanding of the ways in which previous, ‘conventional’ modes of representation were challenged and overturned. The emphasis is on a comparative approach: each piece is not treated discretely, but as a manifestation of a wider trend to rethink culture tradition, new conceptions of humanity in the post-war period, representations of time and place, the relationship between individual and society, the links between form and content.

The African Diaspora I:
From Earliest Times to A.D. 1800
Credits: 3
Prerequisite: Any TWO Level II courses in History (NOT UC courses)
Course Description:
The rationale behind this course and the follow-up “African Diaspora II: A.D. 1800 to Present Times”, is to present an Afro-centric, revisionist interpretation of the place of Africa, Africans and communities of African descent in the diaspora in Europe, Asia and the New World by A.D. 1800 in world history.

This is to counter the received ‘Hegelian’ and ‘scientific-racist’ view of the 19th century North Atlantic world, to the effect that Africa and Africans had been a civilisational nullity i.e. until the era of contact with the North Atlantic world from the 15th century.

Special focus will be given in the course to the history of the evolution of negative views of Africa and Africans from the writings of certain ancient Jewish, Talmudic writers, through the writings of medieval Muslim intellectuals and then to the 19th century school of scientific racism across the North Atlantic. Also too, the evolution of windows of African culture life by transfer from Africa, in New World slave societies by A.D. 1800.

THE AFRICAN DIASPORA II:
A.D. 1800 TO PRESENT TIMES
Credits: 3
Prerequisite: Any TWO Level II Departmental Courses in History (not UC courses)
Course Description:
This course covers the major developments which have shaped the history of Africa, Africans and diaspora communities in a wider world, that moved from Abolitionism and Emancipation through the “New Imperialism” and a new post-Emancipation phase of internal-colonialism-structuring; to a climax of self-determination from A.D. 1800 to the present. Emphasis will be placed on the survival initiatives, cultural and otherwise, of African-descended communities in the various parts of the New World; on the comparative historical experience of such diaspora communities’ and on linkages both between communities in the New World diaspora, and between these New World communities and Africa.

The ‘New Imperialism’ of the North Atlantic world, the age of Scientific Racism and developing ‘internal colonism’ in the United States, the reconsideration of Africa inclusive of Pan-Africanism; and related Self-Determination in the Diaspora in the Caribbean and the United States will be examined.

FROM MONROE TO CASTRO
Credits: 3
Prerequisite: Any Level II Course in Caribbean, U.S. or Latin American History EXCEPT FD 11A
Course Description:
This semester course is intended to give the student an insight into the historical evolution of U.S. relations with Latin America and the Caribbean since the enunciation of the Monroe Doctrine until the end of the Cuban missile crisis. It examines the implications of the Monroe Doctrine and Manifest Destiny ideology in the context of U.S. territorial expansionism in the nineteenth century and treats that expansionism against the background of West European rivalry for trade, territory and political influence in Latin America and the Caribbean. The emergence of the U.S.A. as a world power following the Cuban/Spanish/American war; the growth of gun-boat and dollar diplomacy; and the U.S. reaction to the rise of Latin American and Caribbean nationalism between the two world war are also themes that are addressed. The course ends with an examination of the drive towards the creation of a U.S.-led Pan-American system, formalised in the creation of the Organisation of American States, and the implications of that system for Latin America and the Caribbean in the context of the Cold War up to the Cuban revolution.

Within this introductory course to the discipline, examine fundamental sociolinguistic concepts and premises; we look at the ways in which social variation can be correlated with linguistic variation, and examine issues of gender, ethnicity, class, age and education as critical viables. Our main reference point is the Caribbean, but we compare language and its use in the Caribbean to language use throughout the world, highlighting critical issues that have been explicated by different kinds of studies. PART IV
POSTGRADUATE DEGREE PROGRAMMES

A. GENERAL

1. The Faculty of Humanities & Education accepts students to its various Departments to read for the M.A., M.Phil. and Ph.D. Degrees of this University.

M.Phil. and Ph.D. research degrees are available in English; Spanish; History; Linguistics and Cultural Studies.

Applicants must be graduates of an approved University holding a good Honours degree in a related discipline.

Candidates with Pass Degrees can be considered for entry to M.Phil. courses and if acceptable will normally be required to pass a qualifying examination before being allowed to enter the degree programme.

Graduates should request degree-granting Institutions other than UWI, St. Augustine to forward their official transcripts directly to the Admissions Section, UWI, St. Augustine.

Admission

2. All applications for postgraduate study must go before the University Board for Graduate Studies, through the Faculty Sub-Committee.

3. a. An applicant may be:
   - admitted without a Qualifying Examination;
   - required to pass a Qualifying Examination before being fully registered for postgraduate studies, or
   - refused admission

b. The nature of the Qualifying Examination shall be determined by the Department to which the candidate required admission, but shall be subject to the Faculty Sub-Committee on Graduate Studies.

c. A candidate who fails a required Qualifying Examination will not normally be permitted to re-sit the examination.
4. All postgraduate students seeking a research degree are normally required to register first for the M.Phil. degree.

5. Later transfer to the Ph.D. may be made if the student’s supervisor and the Departmental Graduate Supervision Committee recommended it, and if the recommendation is supported by the Faculty’s Sub-Committee on Graduate Studies and approved by the Board for Graduate Studies.

Part-time Studies

6. Students may be registered for full-time or part-time studies. No student may be registered for full-time studies if he spends an average of nine or more hours a week in paid employment.

7. Regulations concerning the length of periods of study for the award of postgraduate degrees to part-time students are given in the relevant sections below. In every other respect, e.g. qualifications for admission, attendance at seminars, conditions of award of the degree etc., part-time students are subject to the same regulations as full-time students.

Supervision

8. Whenever possible each Department or appropriate unit within a Department shall have a Graduate Supervision Committee.

9. The graduate Supervision Committee, shall propose to the Faculty Sub-committee for Graduate Studies a Supervisor or Supervisors of experience appropriate to proposed field of study of each candidate.

10. Postgraduate students are required to consult with their Supervisor(s) in person, at intervals to be specified by the Supervisor(s) but normally not less than once a term. However, a candidate not resident in the same territory as his Supervisor(s) may be permitted to report in writing except that a candidate who does not already hold a degree from this University is required to have face-to-face contact with his Supervisor(s) at least twice during his first year of registration.

Thesis

11. Dissertations and theses presented for a post-graduate degree in this Faculty must be written according to the stylistic conventions as set out in a separate leaflet.

N.B: The leaflet may be an existing style sheet recommended by the Faculty/Departments.

Oral Examination

12. The oral examination of a candidate presenting a thesis will be chaired by the Chairman of the Faculty Sub-committee for Graduate Studies, or his nominee who will also be responsible for seeing that a report on the examination is drawn up. The report shall be signed by all the Examiners present and by the Chairman and forwarded to the Board for Graduate Studies.

B. REQUIREMENTS FOR THE M. PHIL

1. a. A candidate may be required to attend courses during the period of registration. He may be required to write examinations. Such requirements must be approved by the Faculty Sub-committee at the time of registration of the student.

b. A candidate registered for full-time studies will be required to present a dissertation on an approved subject not less than twenty-one (21) months and not more than five (5) full calendar years after registration.

c. Part-time candidates will be required to present their dissertation not less than thirty-three (33) months and not more than (7) calendar years after registration.

2. The length of the dissertation shall be in accordance with specifications laid down by the departments of the Faculty but should not normally exceed 50,000 words excluding footnotes and appendices.
3. A candidate will normally be required to take an oral examination on the general field of study and on the dissertation. If the External Examiner is unable to be present at the oral examination his written report should be made available to the other examiners at the oral examination. Exemption from the oral examination will be at the discretion of the Chairman of the Board for Graduate Studies on the recommendation of the Board of Examiners.

4. A candidate, after consideration of his dissertation by the Board of Examiners and, where relevant, the oral examination may be:

- recommended to Senate for the award of the degree
- required to re-submit the dissertation and repeat the oral examination on one subsequent occasion within 18 months from the decision of University Board for Graduate Studies or
- failed outright.

METHODS OF RESEARCH AND LITERARY SCHOLARSHIP
SEMESTER I
(Credits: 4)

Introduction
This course is designed to help persons undertaking research degrees in the Humanities to develop the basic tools and understandings for graduate research.

Objectives:
At the completion of this course, students should be able to 1) demonstrate and understanding of the nature of research, 2) specify the distinctions between research and other ways of knowing, 3) identify various research paradigms, 4) identify the appropriate areas of application for such paradigms, 5) demonstrate an understanding of the roles of research in academic settings, 6) provide a satisfactory exploration of the Humanities as an area of academic activity, 7) identify appropriate strategies for research in specific aspects and areas of the Humanities, and 8) identify various stages in the research process and their particular characteristics.

Method of Instruction:
One 2-hour lecture/seminar per week

POSTGRADUATE STUDIES IN HISTORY

Entry requirements:
Applicants should hold at least a Second Class Honours degree in History (or any other subject or subjects approved by the Department of History). Normally, an applicant should have at least FOUR B grades in second and third year History courses (i.e. for those with the ‘old’, non-semesterised UWI degrees) or EIGHT in semesterised courses, for entry to the M.A. by Coursework.

For entry to the M.Phil., or Ph.D. an Upper Second Class degree in History, or its equivalent, is normally required.

Applicants should also possess at least a CXC Pass in a foreign language. However, if applicants are accepted (that is, have fulfilled all other requirements) but do not possess such qualification, they will be required to pursue a foreign language course offered at the UWI’s Centre for Language Learning.

The Department will accept only that number of applicants for whom it can provide proper supervision. Thus, the Department does not necessarily accept all applicants who meet the entry requirements. All applicants accepted for consideration must go before the Campus Committee on Graduate Studies and Research and the University Board for Graduate Studies and Research.
M.PHIL., PH.D. PROGRAMME

The Department will accept candidates for the M.Phil. degree if they are qualified (normally, a UWI Upper Second Class degree in History, or the equivalent at a foreign University), if they are deemed suitable for graduate study, and if their proposed research can be supervised by members of the Department, and can be carried out in Trinidad & Tobago.

All candidates for the M.Phil. and Ph.D., except those who have already taken the UWI M.A. programme or its equivalent will be required to pass either H650: Theory and Methods of History OR H680: Historiography (with special reference to the Caribbean).

Requirements for the M.Phil.
1. A pass (50% or above) in H650 or H680.

2. Presentation of a dissertation of suitable standard and length on an approved subject, not necessarily involving original research, but worthy of publication, not less than one calendar year after (1) above.

3. Where recommended by the examiners, an oral examination on the general field of study and on the subject of the thesis.

A candidate for the M.Phil. degree may, after the consideration of his thesis by the Examiners, be recommended for the award of the degree; may be required to re-submit the dissertation; or may be deemed to have failed outright.

An applicant for the Ph.D. will normally be required to register initially for the M.Phil., but candidates already holding a Master’s degree involving a major component of research may be considered for direct registration for the Ph.D. Not every applicant with such a degree, however, will be accepted for the Ph.D. programme at UWI Each applicant will be considered on his own merit.

Candidates registered for the M.Phil. degree may be permitted to transfer to the Ph.D. at a later date with credit for work already done, if their performance is judged to warrant it after a special assessment seminar, and if the transfer is approved by the Department and the Campus Committee for Graduate Studies and Research.

Requirements for the Ph.D.
1. Presentation of a thesis of suitable standard and length on an approved subject, not less than two calendar years after satisfactory completion of the Common First Year. A thesis for the Ph.D. will not be deemed adequate unless:
   a. it is judged to be a new contribution to knowledge in the subject;
   b. it shows clear evidence of original research;
   c. it is worthy of publication.

2. An oral examination on the general field of study and on the subject of the thesis. A candidate for the Ph.D. degree, having submitted the thesis and taken the oral examination, may be recommended by the Board of Examiners to Senate for the award of the degree; may be required to re-submit the thesis and/or repeat the oral examination; or may be deemed to have failed outright.
M.A. (HISTORY) BY COURSEWORK

This programme started in October 1979. Its main objective is to offer specialized training in the nature and practice of the discipline to teachers in the higher levels of the secondary schools, and to other interested persons. It is conceived as a one-year programme of full-time study but, for the time being, it is offered as a part-time programme spread over two years and candidates are admitted at the start of every second academic year.

Students are required to read three courses and to write a research paper of between 10,000 and 15,000 words. The courses offered at St. Augustine at present are:

H608 (HIST 6099)
THE DEVELOPMENT OF SOCIETY OF THE ENGLISH-SPEAKING CARIBBEAN AFTER EMANCIPATION
YEAR-LONG COURSE
(Credits: 8)

Prerequisites: for M.A. students only
The course considers in some detail how post-emancipation Caribbean societies developed between the 1830s and the 1930s. The focus is on social and cultural history, on race relations and class formation, and on the development of material and expressive culture among the different class and ethnic segments.

Assessment:
Coursework 50%
Examination 50%

H650
THEORY AND METHODS OF HISTORY
YEAR-LONG COURSE
(Credits: 8)

Prerequisites: For M.A. and new M.Phil. students only
H650 considers some of the major theoretical issues which historians grapple with (philosophy of history, causation and analysis, Marxist and other theories of historical change). It then deals with methods and sources, considering (among other topics) written primary sources, work in archives, oral history, oral traditions, quantification in history, and archaeology.

H680 (HIST 6899)
HISTORIOGRAPHY, WITH SPECIAL REFERENCE TO THE CARIBBEAN
YEAR-LONG COURSE
(Credits: 8)

Prerequisites: for M.A. and new M.Phil. students only
H680 is divided into two parts. Part One traces the evolution of Western historiography from the Renaissance to the 20th century. Part Two considers the development of a historiography of the Caribbean region, from the 16th to the 20th centuries. In Part Two, particular themes (which have been the focus of historiographical debate) are discussed.

Assessment:
Coursework 50%
Examination 50%

Each course is examined by means of coursework assessment and a three-hour examination in August. The coursework assessment counts for 50% of the final mark for each course. To qualify for the award of the Degree, candidates must pass all courses and the research paper. The pass mark for M.A. candidates is 50% which must be obtained in BOTH the coursework AND the examination. The research paper carries 25% of the total mark for the programme.
M.A. BY COURSEWORK AND RESEARCH PAPER IN LIBERAL ARTS: THE M.A. LIBERAL ARTS

The M.A. by Coursework and Research Paper was first introduced into the Faculty of Arts and General Studies of the University of the West Indies by the then department of English at St. Augustine. Since then it has been introduced at Cave Hill and Mona. The programme continues at the other campuses, and all three campuses have established it in History. The present proposal represents a re-introduction as far as English or Literatures in English is concerned.

With the amalgamation of Languages, Literatures, Linguistics and Creative Arts into one Department provisionally called Liberal Arts, an MA by Coursework and Research Paper in Liberal Arts serves the teaching and research interests of the units within Liberal Arts as well as permit the development in course of time of cross-disciplinary (integrated, topic-focused) MA’s.

M.A. ENGLISH

The programme offers advanced training in the nature, theory and practice of a discipline to candidates with a first degree in the subject or subject area from a recognised University.

It is important to remember for comparative purposes and for understanding the weight of the requirements that the programme is conceived as a one-year programme of full-time study that includes three taught courses and a research paper of between 10,000 and 15,000 words.

Until more funding becomes available, the programme will be offered part-time over two academic years.

The part-time two year programme will run as follows:

Year One: two taught (all-year) courses

E632 (LITS 6799)
CULTURE, CRITICISM AND SOCIETY
SEMESTERS I & II
(Credits: 8)

“Culture, Criticism and Society is designed to introduce students to the major schools of twentieth-century literary and cultural theory. The primary emphasis of the course will be on how these theories (from the New and the Old World as well as the Post-Colonial Diaspora) contribute to and/or distract from the specific contexts of the West Indies and the Caribbean. Rather than study theory and text in isolation, however, critical essays will be read with examples drawn from literature and culture. The goal of this approach is three-fold. First, a comparative analysis enables students to understand better how theories can be applied. Second, this approach can help to illuminate how a specific theoretician, or school of thought, understands literature, or culture. Third, as the course develop, by reading comparatively, students can more fully evaluate what the limits may be of a particular approach for analysing West Indian and Caribbean expression. Readings will be drawn from a variety of schools including, Russian Formalism, New Criticism, Structuralism, Marxism, Post-Structuralism, Deconstruction, Post-Modernism, Post-Colonialism, Feminism, New Historicism, and Cultural Criticism. Informal essays and formal theories from the West Indies and the Caribbean will also be read and include such thinkers as Antonio Benitez Rojo, Kamau Brathwaite, Franz Fanon, Edouard Glissant, Stuart Hall, Wilson Harris, Derek Walcott, Paul Gilroy and Sylvia Wynter.

E640 (LITS 6899)
POSTCOLONIAL LITERATURE
SEMESTERS I & II
(Credits: 8)
This course exposes students to postcolonial theory, postcolonial criticism, and postcolonial fiction. It attempts a syncretic definition and assessment of a multifaceted and sometimes bewildering movement in literary studies, stressing such elements as narrative form, gender, ethnicity and the use of language. It also familiarizes students with key texts from major geographical contexts of postcolonial literature: Africa, India, Canada, Australia and the Caribbean. Each text records a unique moment of postcolonial reclamation. The major emphasis of this course is the interpretation of literary texts through an understanding of postcolonial theory and criticism.
Objectives:
Students are expected to:
a) Identify the major characteristics of post-colonialism;
b) Recognize the significant differences among the various cultures and literatures reflected in the chosen novels;
c) Assess the relevance of post-colonialism as an approach to the chosen texts;
d) Debate the validity of the major critical statements made about the chosen texts;
e) Produce informed and independent opinions and judgments about the chosen texts.

THE DIPLOMA IN TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES (TESOL)

This programme currently on offer as part of the Department of Liberal Arts’ offerings. Upon successful completion of the Diploma with an overall grade of a clear ‘B’ or above, students may proceed to the M.A. in Applied Linguistics. Persons admitted to the MA on this basis may complete the requirements in a minimum of one year.

Target group: Persons desirous of pursuing a career in the Teaching of English to Speakers of Other Languages who have not had appropriate training for that purpose. Applicants must satisfy the admission requirements set out below.

Admission Requirements:
An Honours first Degree including at least 6 credits of undergraduate Linguistics. Students without any previous Linguistics may take L10A and L10C as Qualifying Courses.

Aim:
To equip candidates with the practical and theoretical bases for TESOL practice.

Programme:
Candidates must complete five semester-long theoretical courses and one Teaching Practicum. The programme will be offered full-time over one year and part-time over two-years. A successful candidate will achieve at least 50% in all courses and the research paper: a candidate achieving over 70% in the same will be awarded the Diploma with distinction.

Courses will remain as previously established with more options dependent on focus and perspective:

L21A Language Acquisition
L24B Structure of the English Language
L31A Applied Linguistics OR
L31B Teaching English as a second Language
(These courses will be taught in alternate years)

Students who have completed any of the above courses at the undergraduate level will be required to complete a ‘reading field’ and/or a Research Project. These will be undertaken on the advice of the Department. The research Project will normally be completed within the context of L300 (6 credits).
L50A
METHODS IN TESOL
This course is designed to give students a good understanding of the factors that can determine the use of different methodologies and approaches in the English Language classroom. It examines how changing views on the nature of language have shaped language teaching methodologies and redefined the role of the learner. It stresses that successful language teaching must reflect an awareness of the methodologies and consciousness of constraining factors in their implementation. The course underscores the links between theory and practice with the aim of encouraging trained teachers to apply their theoretical knowledge to resolving problems of teaching and learning in different classroom settings.

Assessment:

L50B
RESOURCES IN TESOL
This course is designed to enable students to work with the full range of available resources (teaching aids) and to comprehend their relative utility value and limitations in any given language classroom setting. The effective use of each resource is established through hands-on practice wherever possible. The cost of each item is weighed against its usefulness for day-to-day usage in a variety of settings. Students are equipped to produce their own materials and encouraged to do so through projects specified to particular learning skills and tasks. This course necessarily deals with the teaching of the four language skills, since the use of the resources is closely linked to their value in developing each skill area.

Assessment:
Coursework 40%
Final examination 60%

L50C
TEACHING PRACTICUM
This course provides students with an opportunity to get real classroom experience and to try out the different methodologies and techniques they have learnt during the TESOL Programme. It is comprised of instructional sessions on lesson planning and class organization and dynamics, observation sessions, real teaching (a minimum of 20 hours whenever possible) and individual and group feedback sessions.

L61D (LING 6104)
METHODS OF SECOND AND FOREIGN LANGUAGE TEACHING
This course will examine established methods of foreign language teaching and it will also explore more recent approaches. Traditional methods to be discussed will include: the grammar-translation method, the direct method, audio-lingual method and communicative language teaching. The course will also explore the theoretical approaches related to the methods studied. Concepts such as bottom-up and top-down approaches to listening and reading, the relevance of schema theory and other learner-centred approaches to language teaching will be examined.

THE M.PHIL. DEGREE IN LINGUISTICS
(Addition of Reading Fields)

Target Group:
Persons desirous of pursuing higher degrees in any of the Major sub-disciplines of Linguistics (Sociolinguistics, Historical, Descriptive, Applied, Creole Linguistics, etc.) Applicants must satisfy the admission requirements set out below.

Admission Requirements:
The norm for admission to the M. Phil in Linguistics is a First or Upper Second Class Degree in Linguistics or an M.A. in the same. Students who are taking the M.A. degree outlined above may transfer to the M. Phil degree upon successful completion of the coursework with an average of 60%. Admission to the programme will be determined by availability and deployment of appropriate supervisors.

Aim:
To equip candidates with the necessary theoretical knowledge to conduct advanced research into issues of a specific sub-discipline or combination of sub-disciplines within Linguistics e.g. Sociolinguistics, Creole Linguistics, Theoretical Linguistics, Applied Linguistics.

Programme:
All students without a higher degree are required to pursue a core of coursework to expand and strengthen disciplinary knowledge acquired at undergraduate level. This core shall consist of:

- A Research Methods Course (ED62A or ED62B or L67A) 3 Credits
- L60E Development of Theoretical Linguistics 4 Credits

After completion of this they are required to complete a reading field guided by their supervisor and assessed by a seminar paper (30%) and an annotated bibliography in the field (70%). Candidates will be expected to show an awareness of the major issues and findings in the particular field. Candidates must display a comprehensive grasp of the literature relevant to the field. In particular, students will be expected to be familiar with the most recent positions in the area and to provide links to earlier positions.
Candidates then have one further year of study in which to complete their research and submit a thesis (40,000-50,000 words) on a topic approved by the examiners. Students will be required to demonstrate extensive knowledge in their field through periodic seminar presentations.

Students may register full or part-time.

THE PH.D. DEGREE IN LINGUISTICS
(Addition of Reading Fields)

Target Group:
Persons who are interested in pursuing research in any of the major sub-disciplines of Linguistics and who satisfy the admission requirements below.

Admission Requirements:
Admission to the Ph.D. programme will be based on the possession of an M.Phil. degree or its equivalent (e.g. a research based Masters degree in Linguistics). Acceptance to the programme will be determined, in part, by staff deployment and availability.

Aim:
To equip candidates with the necessary theoretical knowledge to teach and to conduct advanced research into issues of a specific sub-discipline within Linguistics e.g. Sociolinguistics, Creole Linguistics, Theoretical Linguistics, Applied Linguistics or any acceptable combination thereof.

Programme:
Full-time candidates without an M. Phil. are required to complete two ‘reading fields’ in their first year, each guided by their supervisor and assessed as within the M.Phil. programme. Students will be expected to show an awareness of the major issues and findings in the particular field. Candidates must display a comprehensive grasp of the literature relevant to the field. In particular, students will be expected to be familiar with the most recent positions in the field and to provide links to earlier positions in the field.

Full-time candidates who already have the M.Phil. or are upgrading are required to complete only one further reading field. Candidates are expected to present and defend a thesis proposal of acceptable scope and quality for the Ph.D. At least two further years of research and study will be accompanied by periodic seminar presentations and will culminate in completion of a thesis of 80,000 words. Part-time candidates have twice as long to complete their work.
Several prizes are awarded annually to students reading courses in the Faculty.
