

## ***BSc Actuarial Science***

**FACULTY OF SCIENCE & AGRICULTURE**

**Department of Mathematics & Statistics**

### ***Duration of Study***

This programme is offered over three (3) academic years. Full Time only.

### ***General Requirements***

Applicants for admission to this course of study will be required to satisfy the minimum standards for entry to the degree programme as set out by the University Regulations governing matriculation as well as the specific requirements of the Faculty.

### ***Special Requirements***

Open to applicants who fulfil the following requirements:

1. Passes in two 2-Unit CAPE / GCE A'level subject, including Mathematics or approved equivalent qualification.

### ***About the Programme***

If you have enjoyed mathematics at CAPE advanced level and are interested in the applications of statistics to the social sciences you should consider this subject. Actuarial science applies mathematical skills to a range of applied subjects and helps to solve important problems for insurance, government, commerce, industry and academic researchers. Graduates may go on to work in the areas of insurance (life and general) as well as banking, finance and statistics.
