

THE ST. AUGUSTINE CAMPUS

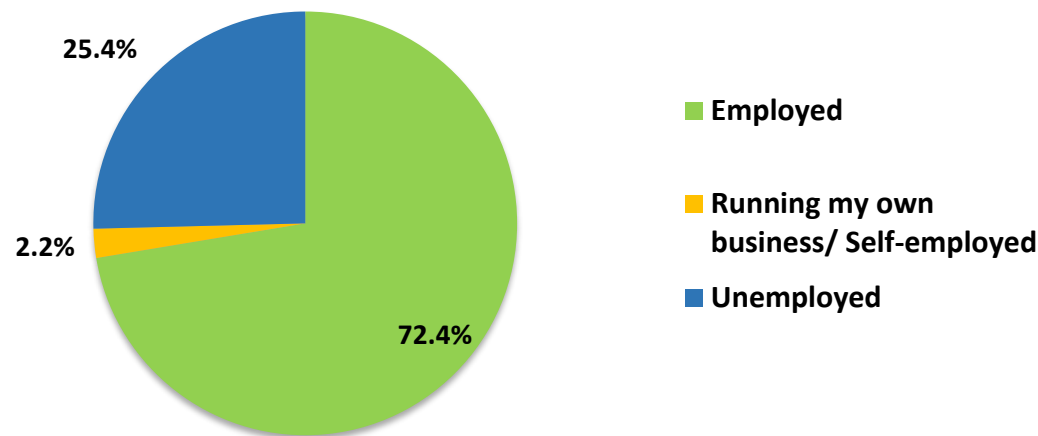

Graduate Tracer Survey 2023/2024 Highlights

The charts below represent an excerpt from the Graduate Tracer Survey (GTS) 2023/24. The GTS is an annual survey conducted by the Campus Office of Planning and Institutional Research on first degree graduates one year after graduating from The UWI. The study analyses the feedback received on the experience of the graduate in relation to their employment outcomes and their UWI programme and attempts to observe trends on the Institution’s capacity to prepare the distinctive UWI graduate. The survey was responded to by 28% of graduates from the undergraduate class.

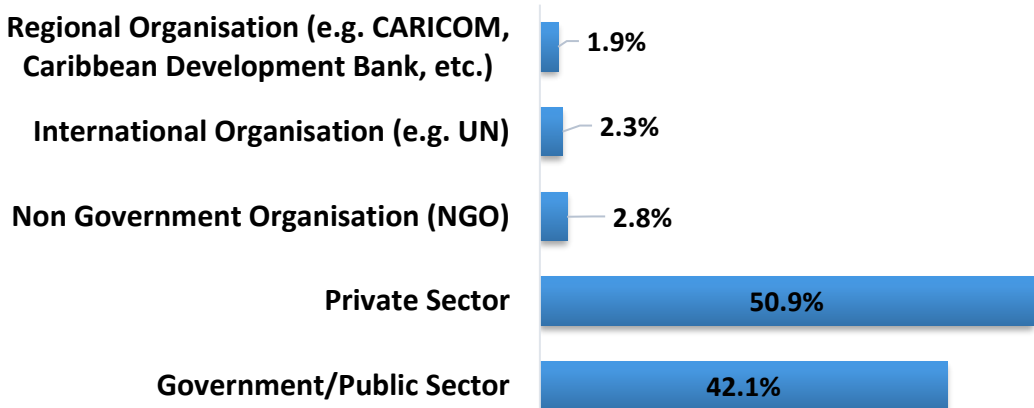

For the 2023/2024 period, survey findings showed that graduate employment was 72.4%, this was a 3.9% increase from the survey of 2022/2023, where the employment was 68.5%. An estimated 25.4% of the respondents reported being unemployed, with the main reasons for unemployment being the pursuit of further studies (35%), lack of work experience (21.3%) and limited job opportunities (21.3%), a continuous trend from 2022/2023.

Approximately 51% of the graduates surveyed reported that they were employed in the public sector. The main areas of employment activity are in the fields of Financial and Insurance activities, Education, and Healthcare and Social Services in 2023/2024. Most of the respondents (39.5%) were employed in the job category of Professional and/or Research Staff. Most of the respondents (79.8%) earned a monthly salary less than \$10,000 and approximately 20% earned \$10,000 and above, with average time taken to find employment being approximately five months.

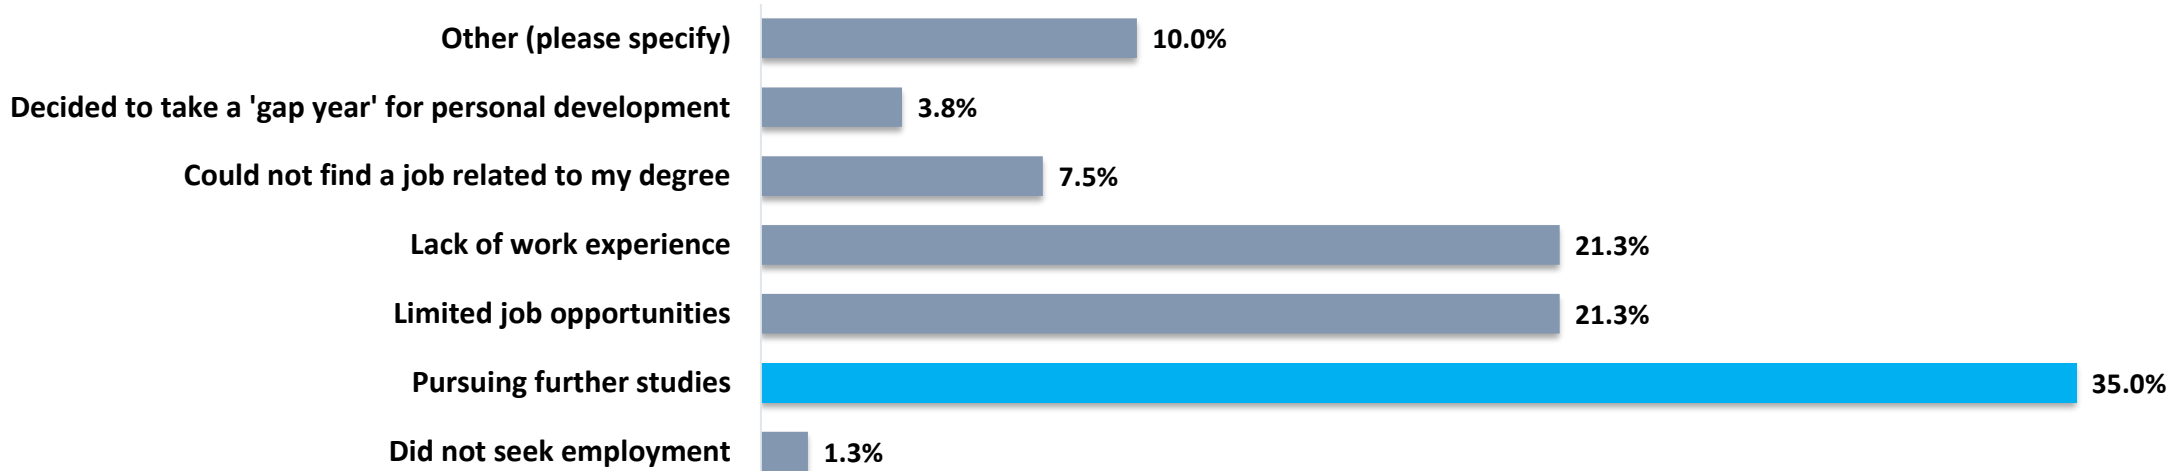

Graduates Employment Status
