

Editorial

The newly constituted Publication Board of the Faculty of Engineering at The University of the West Indies takes this opportunity to express deep gratitude to our distinguished International Editorial Reviewers for their continued support.

At times, there are inadvertent delays in completing the reviews, hence delays in the publication of the Journal. We have worked assiduously to bring forward the publication date of the pending issues of the Journal.

Let me once again reiterate that despite our best efforts, both the readership of the Journal and the involvement of our local practicing professional engineers, in its growth and development, continue to be limited. In an effort to expand the Journal's readership and provide

Caribbean professional with greater involvement in its development, we invite you once again, to join us by way of writing articles/papers for possible publication, and also by advising your colleagues in the profession to subscribe to the Journal.

Finally, we wish to emphasise that the success of any Journal such as the **West Indian Journal of Engineering** depends on its readership, hence we seek your critical appraisal as well as constructive suggestions for its improvement.

Professor Anil K. Sharma
Editor
