COURSE TITLE: LEVEL 1B JAPANESE

SEMESTER: 2

LEVEL: 1

PREREQUISITES: LEVEL 1A JAPANESE

COURSE DESCRIPTION:

Level 1B Japanese is the second part of the introductory Japanese programme continuing the work begun in Level 1A Japanese. Online synchronous sessions are conducted as far as possible in the target language to give students maximum exposure to the language and culture during class time. During the course, students develop the ability to communicate in Japanese in basic situations relating to their personal lives.

Upon completion of this course, students should have the knowledge and skills and demonstrate the attitudes expected at Level A1 of the Common European Framework of Reference (CEFR) http://www.coe.int/t/dg4/linguistic/Source/Framework_en.pdf/ JF Standard http://jfstandard.jp/pdf/jfs2010_all_en.pdf in listening and speaking.

The course consists four contact hours per week over the course of the semester. In addition, students are expected to spend time on self-study to prepare for sessions and to review and consolidate work done during sessions. Students are also encouraged to develop a repertoire of strategies to promote their autonomy as language learners.

COURSE RATIONALE:

Mastery of Japanese, and an awareness of its culture, are assets for those in higher education, in business and in international trade and diplomacy. You have an initial communicative ability in this language. Having done an introductory course in Japanese, students understand the importance of this world language and its culture. The aim of this course, as of every other language course at the CLL, is to enable students to participate in the target language at the level specified.

Emphasis in this course is placed equally on the language and its culture. While the focus is mainly on speaking and listening skills as was the case in the level 1A, reading and writing skills will play a more important role than in the first course. Work on pronunciation, sentence patterns, vocabulary and so on will equip students to function successfully at this level and provide a solid base for further study of the language. Upon successful completion of this course, students will be eligible to begin Level 2A Japanese.

LETTER TO THE STUDENT

Dear Student,

Welcome to the Level 1B Japanese course. This is a beginners' language course for persons who have completed one semester or approximately 50 hours of Japanese. We hope that you have enjoyed your introduction to the Japanese language and culture in Level 1A and will continue to enjoy your exposure to the language and culture of Japan.

Students of Japanese require a longer instructional period to reach the higher proficiency levels, in comparison to the time required of learners of a Category I language such as French or Spanish. You should therefore plan to spend twice as much time in self-study, working on the language, as you spend during the synchronous sessions.

As this course will be taught remotely, we wish to remind you that learning a language is a social experience, which usually involves verbal and non-verbal communication. When teaching and learning remotely, it is even more important that we ensure that both types of communication can be had, allowing for that human element in every session. Therefore, in as much as your circumstances

allow, we would like to encourage you to turn your camera on during the sessions so that your tutor and classmates can interact with you.

Your tutors are here to support you in your learning, so do not hesitate to seek their advice. There are many online resources suitable even for beginning learners like you. Remember to use those resources, as well.

Enjoy your Japanese language adventure!

Warm regards,
Your tutor

COURSE EVALUATION:

Summative evaluation will be conducted using The UWI's SECL System. The CLL will disseminate a mid- and end-of-semester student feedback questionnaire.

TEACHING/LEARNING STRATEGIES:

Interactive sessions: While some of the class will involve direct teaching, language classes are not lecture-type classes, but sessions requiring the active participation of all learners. Classes will therefore be highly interactive with teachers using and encouraging the use of the target language.

Use of target language: A defining characteristic of a modern communicative language programme is the use of the target language as a gateway to the study of the societies and cultures in which it is used. Students will be expected to recognise and use Japanese in a way which is consistent with the competence of an A2 learner.

Development of learner autonomy: An explicit expectation of language students is a measure of learner autonomy and responsibility for the development of their language competence. This autonomy will be guided and developed alongside their classroom learning. At this level, for example, students are encouraged to self-evaluate their progress by comparing their current level with their performance in Level 1A or their personal goals. Students' learning experience will usually involve exposure to various forms of language learning technology both in and out of class.

Collaborative work: Finally, students will be expected to work in cooperative and collaborative ways with an attitude of mutual consideration and respect towards their peers.

ADDITIONAL INFORMATION:

Students must attend 75% of classes in order to be eligible for the final test.

HOW TO STUDY FOR THIS COURSE:

Attendance is compulsory, not only because students may be debarred from the final test if they are present for fewer than 75% of the classes, but also because language learning is incremental. Students need to work at their language learning regularly, both in class and out of class to consolidate what they have learnt. Japanese with its different writing systems represents a real challenge for the beginning learner.

Here are a few tips for studying for this course:

- Use all the resources at your disposal—your peers, your teachers and online materials to help you improve and build your confidence.
- Set small achievable goals for each week of the course.
- Reflect on your learning by recording personal goals, successful strategies, and new vocabulary and phrases.
- Remember to spend some time on all the skills.
- Explore Japanese language and culture Internet sites.
- Look and listen to Japanese language news broadcast on the Internet and on television.
