INTERPRETATIONS OF THE HUMAN FIGURE

A curated exhibition of drawings, paintings, design, sculpture and other works inspired by the human figure.

In 2012, the Visual Arts Unit of the Department of Creative and Festival Arts (DCFA), UWI, St. Augustine, hosted a grand exhibition of work by alumni, current students and past and present lecturers, to commemorate the twenty-fifth anniversary of the Department and the Unit. The curatorial committee of that exhibition committed to hosting regular themed exhibitions as a platform to show the wide range of work produced by our students, alumni and lecturers. Throughout the last year we did much work based around the human figure including figure drawing workshops, and costume design and experimental performance workshops and agreed that our first themed exhibition would be a show celebrating the human figure.

We launched a call for work inspired by the human figure in August 2013, and our alumni, current students and lecturers have responded to our call in a variety of expressions including drawings in various media, digital illustrations and installations, paintings and photography.

We took the decision to show this body of work at the Art Society of Trinidad and Tobago in support of its 70th anniversary and in an effort to move our work outside the walls of the University of the West Indies. The Visual Arts Unit of the DCFA has a long history with the Art Society, and this venue was the obvious choice for this exhibition as we seek to continue to build our relationship together. We look forward to much collaboration with the Art Society in the future.
