David Swift

Class of 20XX

When I applied to undergo the MSc in Strategic Leadership and Innovation (SLIN) at the University of the West Indies (UWI), I needed a course of study to help me grow personally and professionally. Naturally, I considered an array of the available options and costs of comparable Master's programs. During my search, I discovered that the MSc SLIN at UWI possessed modern, interesting, and robust academic content, for less than their academic competitors. The course is fully online and can be done in 1 year full-time or 2 years part-time in the comfort of your home. There is no need to worry about the commute or social distancing. You have access to all the electronic capabilities like physical students and you are taught by knowledgeable and relatable lecturers who refer to you as partners in learning. During my first semester, the knowledge gap I had about strategic management, change management, and leadership was narrowed at an incredible rate. The concepts I acquired changed my mindset which I then applied to my workplace, where I observed incremental changes. I would recommend the MSc SLIN for executives, managers, aspiring managers, and SME owners if they are desirous of stimulating the innate leader. My name is David Swift and the MSc SLIN has made me a better leader and a better version of myself.

Wendy Maynard

Class of 2022

The MSc in Strategic Leadership and Innovation has been a learning experience for me. My critical thinking was stretched beyond its typical limits, helping me to not only better manage real-world situations involving people, issues, opportunities, and solutions, but also to perceive them from multiple perspectives."
