Ranked Among the Best

Only Caribbean University Ranked Among BEST IN THE WORLD

- ▶ CARIBBEAN'S #1
- ▶ WORLD'S TOP 1.5 %
- ▶ LATIN AMERICA'S TOP 20
- ▶ WORLD'S GOLDEN AGE TOP 100
- ▶ IMPACT RANKINGS 2.5%

An innovative, internationally competitive, contemporary university deeply rooted in the Caribbean, The UWI is an international university, in every respect, with links extending beyond the region to well over 100 universities worldwide.

The Times Higher Education rankings in 2018 and 2019, placed The UWI as the number 1 ranked university in the Caribbean out of over 200 registered institutions across the region; and among the top 3% of some 2,000 registered universities in the wider Latin America and the Caribbean. In 2020 The UWI was ranked among the THE's top 100 "Golden Age" universities established between 1945 and 1967. [Read more ...](#)

About UWI

The first of UWI's five campuses began in 1948 at Mona, Jamaica, as a College of the University of London. The St. Augustine Campus in Trinidad & Tobago was added in 1961 and UWI achieved full university status in 1962. St. Augustine was followed by campuses at Cave Hill, Barbados (1963), the Open Campus (2008), and the Five Islands Campus in Antigua & Barbuda (2019). [Read more ...](#)

Our 8 Faculties

Teaching at the St. Augustine Campus takes place within eight faculties - Engineering, Food & Agriculture, Humanities & Education, Law, Medical Sciences, Science & Technology, Social Sciences, and Sport. Each Faculty offers a wide range of undergraduate and postgraduate programmes. [Find out more ...](#)

About the FACULTY OF MEDICAL SCIENCES

The Faculty of Medical Sciences was founded in 1948 at Mona, Jamaica as a College of the University of London.

In 1989, teaching began at the Faculty of Medical Sciences, St. Augustine for medical, dental, veterinary and pharmacy students. In 2005, the first cohort of nursing students was accepted and in 2012, the BSc Optometry was added to the Faculty of Medical Sciences' programmes.

The Faculty is located mainly on the Eric Williams Medical Sciences Complex, Mt. Hope, which is situated approximately eight (8) miles from Port of Spain and (2) miles from the main Campus at St. Augustine. Other clinical teaching sites include San Fernando and Port of Spain General Hospitals, Sangre Grande Hospital, Mt. Hope Maternity Hospital and Community Centres across the country.

Programmes in the Department of Preclinical Sciences

The Department of Preclinical Sciences, located at the Eric Williams Medical Sciences Complex (Mt. Hope), comprises the academic units of Human Anatomy, Human Physiology and Biochemistry. The Department admits students with seven years of high school education or with university degrees, and prepares students over two academic years for paraclinical and clinical training towards degrees in Medicine (MBBS) or Dental Surgery (DDS). The undergraduate programme is

delivered via a hybrid system of didactic lectures, laboratory practical sessions, and small group tutorials using Problem-based learning (PBL). The curriculum is based on an organ-system approach covering all the main body systems (e.g. Cardiovascular system, Respiratory System) rather than being discipline-based. Problem-based learning is an essential part of the Department's education philosophy and all applicants are expected to be sympathetic to this mode of programme delivery. At the postgraduate level, the Department offers MPhil/PhD programmes in Anatomy, Physiology, Biochemistry, Molecular Genetics and Neuroscience.

Tenure of Appointment

Appointment as Lecturer will normally be for three (3) years in the first instance, with eligibility for consideration for renewal.

Further details may be obtained from the Campus Registrar,
The University of the West Indies, St.
Augustine, Republic of
Trinidad and Tobago.

Research

The University of the West Indies supports the research activities of permanent members of staff by providing study leave, special leave for scholarly purposes, and sabbatical leave, as well as offering funding for research trips, fieldwork, institutional visits, conference participation and organization, and research assistants. For more information on research funding, see

<http://sta.uwi.edu/research/funding.asp>

Lecturer in Human Anatomy

Qualifications and Experience

The successful candidate must possess a PhD from a recognized university, which should be in Human Anatomy or a closely related field.

Candidates should also possess:

- Good record of research and publications in reputable, peer-reviewed journals
- Research expertise in Basic Medical Sciences or Translational Research

The following would be considered assets:

- MSc/MS in Anatomy or MBBS/MBChB as an additional qualification
- Experience in teaching Human Anatomy (gross, histology, embryology) to medical students
- Experience using modern methods of teaching Anatomy including the use of virtual reality/online anatomy teaching tools

Special Responsibilities

- Teaching courses at the undergraduate and postgraduate levels
- Coordinating undergraduate programmes, and providing academic advising and supervision for undergraduate students
- Providing advice, guidance and supervision for postgraduate research
- Fostering intra/inter Faculty/Campus teaching and research networks
- Attracting external research and development funding
- Serving on Committees at the Department, Faculty and University levels

- Participating in the design and development of courses, teaching materials and/or programmes
- Establishing research programmes that lead to publications in refereed journals
- Contributing to the Department's curriculum
- Engaging in community outreach initiatives
- Collaborating locally, regionally and internationally with colleagues in research and co-curricular activities
- Participating in Departmental and Faculty seminars

Personal Attributes

The Campus places high priority on individuals of integrity who can work well in a team and student friendly environment. Candidates should also possess good communication and interpersonal skills. A good command of both oral and written English is essential. Candidates should also:

- Be able to engage in team work with colleagues in teaching and research
- Have interest in the use of virtual and online Anatomy teaching tools
- Be familiar with Problem-based learning (PBL) or small group learning methods
- Be able to complement the Department's research agenda
- Have an interest in medical education research

Candidates are further encouraged to enhance their application by providing the following:

- Cover letter
- Teaching statement (1 page)
- Research statement (1 page)

Remuneration Package
