Ranked Among the Best

Only Caribbean University Ranked Among BEST IN THE WORLD

An innovative, internationally competitive, contemporary university deeply rooted in the Caribbean, The UWI is an international university, in every respect, with links extending beyond the region to well over 100 universities worldwide.

The Times Higher Education rankings in 2018 and 2019, placed The UWI as the number 1 ranked university in the Caribbean out of over 200 registered institutions across the region; and among the top 3% of some 2,000 registered universities in the wider Latin America and the Caribbean. In 2020 The UWI was ranked among the THE's top 100 "Golden Age" universities established between 1945 and 1967. [Read more ...](#)

About UWI

The first of UWI's five campuses began in 1948 at Mona, Jamaica, as a College of the University of London. The St. Augustine Campus in Trinidad & Tobago was added in 1961 and UWI achieved full university status in 1962. St. Augustine was followed by campuses at Cave Hill, Barbados (1963), the Open Campus (2008), and the Five Islands Campus in Antigua & Barbuda (2019). [Read more ...](#)

Our 8 Faculties

Teaching at the St. Augustine Campus takes place within eight faculties - Engineering, Food & Agriculture, Humanities & Education, Law, Medical Sciences, Science & Technology, Social Sciences, and Sport. Each Faculty offers a wide range of undergraduate and postgraduate programmes. [Find out more ...](#)

About the FACULTY OF MEDICAL SCIENCES

The Faculty of Medical Sciences was founded in 1948 at Mona, Jamaica as a College of the University of London.

In 1989, teaching began at the Faculty of Medical Sciences, St. Augustine for medical, dental, veterinary and pharmacy students. In 2005, the first cohort of nursing students was accepted and in 2012, the BSc Optometry was added to the Faculty of Medical Sciences' programmes.

The Faculty is located mainly on the Eric Williams Medical Sciences Complex, which is situated approximately eight (8) miles from Port of Spain and two miles from the main campus at St. Augustine. Other clinical teaching sites include San Fernando and Port of Spain General Hospitals, Sangre Grande Hospital, Mt. Hope Maternity Hospital and Community Clinics across the country.

UWI – Global School of Medicine

At the Global School of Medicine, is committed to nurturing the next generation of physicians, researchers, and healthcare leaders who will address the evolving challenges of modern medicine. Its curriculum is designed to provide a strong foundation in medical sciences while integrating cutting-edge technology, hands-on clinical training, and interdisciplinary collaboration. The UWI-GSM believes that a global perspective is essential in today's interconnected world, and its programmes are tailored to prepare students to excel in diverse

healthcare settings. The UWI-GSM remains committed to providing a support network, diverse programmes and a track record of success

ACCREDITATION

The St Augustine campus is accredited by the Accreditation Council of Trinidad and Tobago. The UWI Global School of Medicine adheres to international accreditation standards, ensuring a world-class medical education. The UWI-GSM programmes meet the requirements for medical licensure and global practice.

The MD Degree The curriculum for the MD degree was approved by the UWI's Board for Graduate Studies and Research in *January 2025*. The degree is accepted by the Medical Board of Trinidad and Tobago.

The UWI-GSM also offers foundational courses in the areas of Biology, Chemistry, Mathematics, Physics and Social Sciences. They also offer Basic Sciences Training and Clinical Training

Lecturer in Anatomy

Qualifications and Experience

The successful candidate must possess at minimum, from a recognised university:

- A PhD or equivalent Doctoral Degree which should be in Anatomy, or a closely related Anatomical Science (e.g. Clinical Anatomy, Gross Anatomy, Histology, Embryology, Neuroscience)

OR

- An MBBS/MD or equivalent medical qualification, with postgraduate qualifications in Anatomy

Candidates should also possess:

- Evidence of successful teaching in Anatomy at university level
- Evidence of scholarly activity appropriate to career stage
- Demonstrated expertise in Anatomy

Candidates with the following would have an advantage:

- Additional postgraduate training in Anatomy
- Formal training in medical education, curriculum design, or higher education pedagogy
- At least three (3) years' teaching and/or research experience in Anatomy
- Experience teaching medical students
- Experience in student assessment including written examinations, practical examinations and OSCEs
- Experience supervising laboratory sessions
- Experience integrating Anatomy teaching with clinical application
- Experience delivering Anatomy teaching

within clinical settings

- Research expertise in Musculoskeletal Anatomy
- Research expertise in Neuroanatomy
- Curriculum development and course design
- Demonstrated ability to contribute to integrated systems-based curricula

The following would be considered assets:

- Certification in University Teaching and Learning
- Certificate in Medical Ethics
- Certificate in Communication Skills for Healthcare Professionals
- Experience teaching in accredited medical programmes
- Experience with online, blended or hybrid learning
- Experience supervising student research projects
- Evidence of curriculum development
- Peer-reviewed publications and conference presentations
- Success in obtaining research grants or educational funding
- Experience with cadaveric dissection
- Experience with digital anatomy platforms, virtual dissection systems, or synthetic anatomical models
- Expertise in Histology, Embryology, Imaging Anatomy, or Anatomy Education
- Familiarity with competency-based medical education
- Familiarity with educational technologies
- Evidence of leadership in educational innovation

Candidates should be registered or be eligible to be registered with the Medical Board of Trinidad and Tobago.

Key Responsibilities

- Delivering lectures, case-based discussions, and supervised laboratory sessions in Anatomy and related areas to foster student-centered education
- Developing and updating course materials aligned with North American MD standards and CAAM-HP accreditation requirements
- Assessing student performance through OSCEs, written exams, and practical evaluations
- Maintaining rigorous academic standards for student assessment, aligning with North American USMLE-style questioning
- Supervising laboratory activities including cadaveric dissection (if applicable) or high-fidelity digital/synthetic anatomical models
- Collaborating with colleagues to ensure seamless integration between the various systems covered in the MD Curriculum
- Facilitating group discussions
- Mentoring students in clinical application of Anatomy
- Contributing to curriculum development, faculty meetings, and accreditation readiness activities

Personal Attributes

The Campus places high priority on individuals of integrity who can work well in a team and student friendly environment. Candidates should also possess good communication and interpersonal skills. A good command of both oral and written English is essential. Candidates should also:

- Demonstrate commitment to student-centred learning
- Display professional integrity and ethical conduct

- Be able to work effectively in a culturally diverse environment
- Demonstrate commitment to evidence-based teaching
- Demonstrate commitment to faculty development and continuous professional improvement
- Demonstrate adaptability and innovation in educational delivery
- Be able to mentor and advise students
- Be able to work collaboratively within multidisciplinary faculty teams
- Demonstrate familiarity with CAAM-HP, LCME, or comparable accreditation standards
- Display interest in contributing to accreditation readiness activities
- Demonstrate commitment to advancing medical education in the Caribbean
- Be able to deliver effective face-to-face teaching.
- Be able to facilitate small-group teaching and case-based learning.
- Be able to assess student performance effectively

Candidates are further encouraged to enhance their application by providing the following:

- Cover Letter
- Teaching statement (1 page)
- Research statement (1 page)

Remuneration Package

Annual Salary Range:

Lecturer (Medical):
TT\$ 282,600.00 per annum

Benefits:

- Transportation Allowance of TT\$39,000.00 per annum;
- Housing Allowance – 20% of basic salary

The appointment is for a fixed term, beginning 2026 November 01 and ending no later than 2027 October 31.
