Come experience Research Innovation for a Better Life, Environment and Sustainability

MAIN ATTRACTIONS:

- Faculty Research Expo
- Oral Presentations
- Poster Presentations
- Film Screenings
- Competitions and Giveaways

SUB THEMES:

- Agri-Food technologies for Food and Nutrition Security
- Climate Change mitigation and adaptation and Disaster Management
- Regional Health Issues and Advances
- Science, Technology and Engineering solutions for sustainability
- Social and cultural issues, policies and practices for improved life and sustainable environment
- Communication and digital technologies including AI and its applications and impacts

Bring your friends and family to a fun day of learning, cool gadgets and interactive displays

RESEARCH FESTIVAL

November 23, 2023
