Break the Silence, end the abuse

## OVERVIEW OF GROUPS ORGANISING THE MARCH

### Trinidad & Tobago Coalition Against Domestic Violence (CADV)

CADV is a non-profit Organisation which aims to ensure that children, women and men in Trinidad and Tobago live in an environment free from physical, emotional, sexual, psychological and spiritual violence. Operating objectives include but are not restricted to lobbying and advocacy for human rights issues regarding legislation and public policy, various forms of direct victim support, research, public education, counseling, witness support and legal aid, prevention programmes, etc. The CADV is an amalgam of over 30 organisations and individuals that are involved in support services for victims of abuse.

### The Jericho Project

The Jericho Project is a children's advocacy group dedicated to uplifting the lives of the smallest and weakest in our society regardless of creed or race. It is the purpose of the group to improve their world through advocacy, lobbying and through direct intervention to change the future, one child at a time.

All volunteer and purpose driven, we the members commit ourselves to breaking down the walls that separate the needy and dispossessed children in our nation from the rest of our Trinbagonian family.

We have come together to lobby for legislation to protect them, to advocate on their behalf to the powers that be and to give a voice to those who presently go unheard.

### Break the Silence: end child sexual abuse

Break the Silence: end child sexual abuse is a media campaign derived from an action oriented research project of the Institute for Gender and Development Studies (IGDS), UWI, St. Augustine in collaboration with CADV and in partnership with UNICEF and the United Nations Trust Fund for the Elimination of Violence Against Women.

The consciousness-raising symbol of the campaign, a blue teddy bear with a plaster on its heart, signals a call to awareness of issues particularly Child Sexual Abuse/incest, gender and implications for HIV/AIDS.
