

Free Public Seminar on "Technology Education Curriculum"

Teaching professionals, academics, students, delegates from industry and people who are interested in Technology Education Curriculum are cordially invited to attend the Seminar.

DATE Saturday, 26th November 2011	TIME 9:00 am to 12:00 noon
VENUE Lecture Room 101, Block 1, Engineering Faculty Building, The University of the West Indies, St Augustine, Trinidad	

The Faculty of Engineering of The University of the West Indies is organising this Seminar in collaboration with the Technology Management Council (TMC) Chapter and the Education Society (EdS) Chapter of the IEEE Trinidad and Tobago Section.

The Seminar seeks to facilitate the region-wide awareness of the changes that are necessary to the design of curriculum for the adaptation of technologies in teaching, share of insights on existing technologies and

recommend models for content design which would meet with the needs of today's learners and students of technology education.

Our invited speakers will share with you their experiences and practical insights into the design and developments in Technology Education Curriculum with reference to its applications and adoption in Trinidad and Tobago. Light refreshments are provided. **Pre-registration by 20th November 2011 is recommended due to limited seats.**

Highlights of Topics and Presenters

- "Issues in Moving Towards a Blended Learning Curriculum in The UWI Context"
- **Dr. Anna-May Edwards-Henry**, Instructional Development Unit, UWI
- "Technology and Engineering Education: Discovery Learning and Group Dynamics"
- **Professor Adel M. Sharaf**, The University of Trinidad and Tobago (UTT)
- "Enhancing Active Participation by Integrating Technology into the Power Engineering Curriculum"
- **Dr. Sanjay Bahadoorsingh**, Faculty of Engineering, UWI
- "Towards Improved Cognitive Load - Increasing Knowledge Retention Outside the Classroom"
- **Mr. Ronald A.D. Dyer**, Business Development Company Limited
- "Issues Affecting the Implementation of IT in the Secondary School Classroom"
- **Ms. Alice Thomas-Martin**, St. Benedict's College
