About the UWI PMA

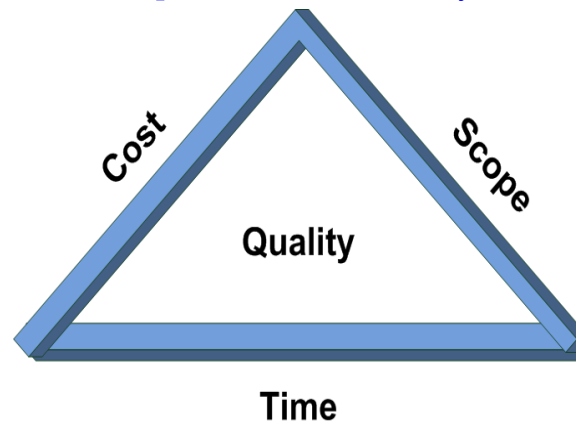

The UWI Project Management Alumni:

- Aims for the promotion and practice of excellence in Project and Programme Management by its membership.
- Seeks to encourage members of the Alumni who have successfully graduated from the UWI Master of Science (M.Sc.) Project Management programme to take an active interest in the development and enhancement of project management best practice in Trinidad and Tobago and the region
- Promotes constructive interest and aid in the advancement of the University of the West Indies as a primary instrument for the development of a local and regional professional body for Project Management.
- Aims to provide mentorship and motivational modeling for students and to encourage high performance and excellence in the programme and in the effective and practical application of learning in the world of work.
- Contributes to the Faculty of Engi-

neering's Annual Prizes and Awards Ceremony for excellent achievements.

- Formally develops links with Project Management Institutions and other internationally recognized Project Management bodies for the creation of smart partnerships
- Invites distinguished local, regional and international Project Management professionals to conduct lectures and seminars for its membership.

The Triple Constraints of Projects

The triple constraint involves tradeoffs between scope, time and cost for a project. If one element changes the other components will have to change in order for the project to be on target and to maintain quality.

Meet the UWI Project Management Alumni Executive:

Back row, left to right:
