

# International Symposium and Workshop on Nanoscience and Nanotechnology 15-17th July 2014

**CARISCIENCE**

## Program

**Distinguished Open Lecture** delivered by

- ◆ Prof. A. Cheetham FRS (UK)

**Expert Lectures** by leading minds from Japan, Germany, Canada, USA, India, United Kingdom and the Caribbean

**Open floor discussions**

**Research poster session** for regional attendees (16th July 2014)

**Workshop with real nanoscience experiments** for local Sixth Form students (16-17th July 2014)

**Symposium and workshop hosted at  
UWI St. Augustine**

**Explore diverse topics including:**

- ◆ Fundamentals of Nanoscience and Nanotechnology
- ◆ Nanotechnology for Sustainable Energy, Biological, Medical Applications
- ◆ Nano-electronic Devices and Sensor Applications
- ◆ Materials Characterization at the Nanoscale
- ◆ Synthesis and Nanofabrication Processes
- ◆ Research Funding & Industry Partnership in Nanotech

**S&T students, academics, research officers, chemical industry professionals, energy industry professionals and S&T based policy makers should not miss this opportunity to be at the frontiers of global research and science policy.**

**Registration and Poster Submission Now  
Open. Deadline Tuesday 8th July 2014.**

Students: Free

Academics & Professionals: \$100USD
