

# 2018 CORE INTERNSHIP

The C.O.R.E. Internship is an 8-week programme for highly motivated university level students interested in pursuing geoscience careers. Successful candidates will gain valuable hands-on experience and a full understanding of how the UWI-SRC attains its objectives through collaborations within the department.

Final year undergraduate and postgraduate students interested in the following disciplines are encouraged to apply:

Volcanology  
Geology  
Geophysics  
Geomatics

## **Important Dates:**

May 30th - Application deadline  
June 8th - Applicants contacted  
June - Aug - Internship Period
