

ENGINEERING INSTITUTE

in collaboration with the

Caribbean Association of Technologist, Technicians and Craftsmen

TWO-DAY SEMINAR COLLOQUIA

INTRODUCTION TO FORENSIC ENGINEERING INSURANCE

In today's litigious society, engineers, technologist and technicians need to be aware that they could find themselves engaged in forensic engineering & technology cases.

This course provides insight in investigating operational problems or failures and analysis of reports on the causes and possible remedies.

May 2nd and 3rd, 2018

Professor Winston Suite, EUR ING Aldwyn Lequay and Engineer Clyde H. Phillip
