We invite abstract submissions under these themes:

*Innovative Agriculture for Sustainable Food and Nutrition Security*

Contemporary approaches to food and agriculture, that can enhance food and nutrition security at all levels and sustainability of food production systems.

*Disaster Risk Management and Climate Resilient Agriculture.*

Disaster risk management strategies, techniques and frameworks geared towards climate resilient agricultural and environmental systems.

*Data, Information and Communication*

Data analytics, information and communication technology and innovative technologies in agri-food systems, extension services and related disciplines.

*Governance and the Enabling Environment in Food and Agriculture.*

Policy development and implementation, stakeholder incentives schemes and innovative partnerships.

*Enhancing Life and Livelihoods in Food and Agriculture.*

Vulnerable groups/sectors, gender related issues and other socio-economic aspects of food systems, agriculture, and agriculture related disciplines.
