Notes	<ol style="list-style-type: none"> 1. Please prepare a valid passport and visa in advance. 2. If you cannot leave on time due to special circumstances, or if the flight is delayed during the transfer, please contact the project contact person to inform the organizer of the latest flight status, so that we can arrange to meet you at the airport. 3. In principle, individuals are not allowed to change the international ticket. If necessary, please contact the Business Office to change the ticket according to the procedures. If the ticket is changed without permission, the cost and liability arising therefrom shall be borne by the individual. 4. Please confirm whether you need to check your luggage again during the transfer. After the flight lands, please wait patiently at the international arrival exit (or domestic arrival exit). The staff will pick up the flight with a pickup card with the name of the organizer on it. If waiting for more than 15 minutes, you can call the project contact person. 5. If you need to register with the airline if your checked baggage is lost, please call the program contact person to confirm the delivery address before filling in the registration form. 6. Please pay attention to the weather conditions of the venue and bring appropriate clothing. Prepare light footwear to facilitate outside visits. Formal dress or national dress is required for important activities of the workshop. 7. Please bring a small amount of commonly used medicine.

About the Organizer	<p>Under the administration of the People’s Government of Liaoning Province, Shenyang Normal University (SYNU) was established in 1951, known as one of the two earliest teacher colleges founded in the Northeast of China at that time. In 2011 and 2021, the University Party Committee was awarded the honorary title of “Advanced Primary Party Organization” of Liaoning Provincial Committee for two times. Recently, the university has been ranked among the top 200 best universities in China by “Shanghai Soft Science”.</p> <p>The campus of SYNU covers an area of 1230,000m², including 950,000m² of building space. Currently, there are 21,017 undergraduate students, 3,934 postgraduate students and 1,100 short-term and long-term international students in SYNU. Now SYNU has 27 schools and colleges, 19 organizations and affiliated agencies ranging from libraries, museums, departments to centers. SYNU also boasts the Training Center for the Basic Research and Education in Liaoning Province, Liaoning Educational Administration Institute, Liaoning Audio-Visual Educational Technology Center, Liaoning Museum of Paleontology, Liaoning Preschool Teacher Training Center, and Liaoning Institute of Vocational Education.</p> <p>As the only provincial university organizer of foreign aid training of the Ministry of Commerce in Liaoning Province, since 2012, SYNU has successfully held 24 programs, including the 2012 Seminar for Education Officials of Turkmenistan, the 2013 Seminar for Chinese Language Teachers from Developing Countries, the 2016 Seminar for University Presidents from English-speaking Countries in Africa, the Seminars for University Presidents from Russian-speaking Countries in five consecutive years from 2017 to 2021, Seminars on Kindergarten & Preschool Education Environment in five consecutive years from 2019 to 2023, the 2022 Seminar for Primary and Secondary School Art Education Teachers from Developing Countries, and the 2023 Seminar for the Local Chinese Teachers from Countries along the “Belt and Road”. 628 participants from 48 countries including Uzbekistan, Tajikistan, Kazakhstan, Azerbaijan, South Africa, and Lesotho have been trained. 60 of them are bureau level officials, and 243 are department level officials.</p> <p>The university has complete teaching hardware facilities, including sports facilities and venues such as sports hall, tennis hall, table tennis hall, badminton hall, basketball hall, fitness hall and swimming pool. As the main unit undertaking training tasks, the School of International Education has 25 multimedia classrooms, 3 conference rooms, 2 multi-function halls and 2 cafeterias. A number of four-star hotels are located near the university, which provide additional options for accommodation. There is a school hospital on the campus, which is convenient for students to see a doctor in time. The university is specially equipped with official vehicles for the training. The transportation is convenient. The subway station and bus stations are three minutes away from the university, which can fully meet the needs of the trainees. In order to undertake the foreign aid training programs more efficiently and meet the needs of the participants, the university specially provides bilingual foreign aid training project</p>	

	<p>manuals every year based on the conditions of the participants. The manuals give a detailed introduction of China’s national conditions, curriculum arrangements, expert introductions, teachers’ handouts, weather conditions and so on.</p>
<p>Seminar Content</p>	<p>In this seminar, the following special lectures in ophthalmology will be delivered: Overview and Future Trend of Global Blindness, Management Mode of Vision Center in China, Application and Prospects of Digital Health in Eye Care, Training System for Blindness Prevention in China, Introduction of Cataract Surgery, Application and Prospect of Cataract Surgery Consumables in Countries along the Belt and Road Initiative, Application and Prospect of AI-based Equipment in Countries along the Belt and Road Initiative, Glaucoma Cataract Combined Surgery Case Sharing, Examination and Diagnosis of Common Pediatric Eye Diseases, Overview and Prospects of Myopia Prevention in China, New Progress in Eye Stem Cell, Increasing Trend of Blindness Due to Retinopathy, New Development in Treating Inherited Retinal Diseases, etc.</p> <p>Participants will attend Conference of Chinese Ophthalmological Society 2024(CCOS 2024) in Wuhan City, Hubei Province, and visit a number of eye specialist hospitals in Beijing City to have a deeper understanding of the current development status of ophthalmic technology and products in China. By visiting and discussing, participants are expected to learn from the experience of eye health development in China and other developing countries, and to generate development suggestions in eye care considering their own domestic situation.</p> <p>Through attending this training course, participants will understand the global situation of blindness and the future development trends and prospects of eye care, understand the new progress and technologies in ophthalmology in China, understand the current development status of intelligent manufacturing and ophthalmic diagnostic and treatment equipment in China, understand how to improve the accessibility of eye health service through AI-based equipment, understand the training mode for blindness prevention and treatment talents with Chinese characteristic. After graduation, they will be able to propose development suggestions for the prevention and treatment of blindness for their own countries.</p>
