| About the Organizer | <p>The Academy for International Business Officials (AIBO) is an educational and training institution directly under the Ministry of Commerce of the People's Republic of China. Established in 1980, AIBO is located in Changping District, Beijing, about 30 kilometers from Beijing Capital International Airport. It boasts comprehensive infrastructure to provide services such as accommodation, catering, training and meetings for trainees.</p> <p>One of the main responsibilities of AIBO is to implement human resources development and cooperation projects, especially training courses for officials. The Academy serves as the main base for China's foreign aid training, offering both off-line and on-line training in China and overseas.</p> <p>Backed by the Ministry of Commerce and in close cooperation with China's top think tanks, research institutes and universities, AIBO brings together a large number of China's top experts and scholars to provide intellectual support for foreign aid training. It has developed a number of high-quality foreign aid training projects in the fields of trade and investment, international economic cooperation, governance and public management, which have proved to be fruitful.</p> <p>Since 1998, AIBO has successfully held over 2,000 training sessions for officials from developing countries (including 131 ministerial seminars), benefiting nearly 70,000 trainees from other developing countries around the world.</p> <p>AIBO will adhere to the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and take the important concepts, including a community with a shared future for mankind, pursuing the greater good and shared interests, and sincerity, real results, amity, good faith, mutual benefit and inclusiveness, as strategic guidance and fundamental principles to be followed. It will facilitate the joint efforts in implementing major initiatives such as the Belt and Road Initiative (BRI) and the Global Development Initiative (GDI), and continue to help developing countries accelerate their development by sharing China's experience and programs.</p> | |
| About the Project | <p>Background: At present, a new round of scientific and technological revolution and industrial transformation is booming across the globe. New energy vehicles (NEVs) integrate various transformative technologies such as new energy, new materials, the Internet, big data, and artificial intelligence, optimize the energy consumption structure and enhance the intelligence of transportation systems and urban operations, which is of great significance to building a clean and beautiful world and building a community with a shared future for mankind. In recent years, the world's major automobile-producing countries have stepped up strategic planning and enhanced policy support. NEVs have become the main direction of the transformation and development of the global automobile industry and an important engine for promoting sustained growth of the world economy.</p> <p>Purpose: The seminar is held by the Chinese government to share with the training officials China's policies and concepts on developing the NEV industry, share experience and build consensus with other developing countries, cultivate talents in the NEV field for the Belt and Road countries, enhance the management capabilities of the NEV industry in various countries, promote the creation of an open, transparent and inclusive international NEV market environment, create a new platform for international cooperation, add new impetus to common development, and drive the sustainable economic and social development of the Belt and Road countries.</p> | |
