2. On your myLearning homepage, view the **MyeLearning Support Block** to the right of the screen

The screenshot displays the myLearning homepage. At the top, it says "Welcome back, Noveck!" with a smiley face and a thumbs-up icon. Below this is a "Teaching Staff Course Search" box with the placeholder text "Search for Courses Here".

The "Course overview" section features a filter menu with "All" selected, a search input field, and sorting options "Sort by course name" and "List". Below the filter are four course entries, each with a thumbnail icon, a title, and a vertical ellipsis menu icon:

- Turnitin Self Check Tool (2023/2024) myeLearning Support Courses
- CCM Demo CTS
- GOV8000 - PhD Thesis - Governance (Semester I - 2019/2020) Semester I
- GOV8000 - PhD Thesis - Governance (Semester I - 2020/2021) Semester I

On the right side of the page, there is a "MyeLearning Support" block highlighted with an orange border. It contains the following sections:

- Staff**
 - Teaching Access Key Self Service Manual
 - MyeLearning Staff Guides
 - Essential Features - v4.1
 - Advanced Features - v4.1
 - MyeLearning Course Template
- Student**
 - MyeLearning Student Guides
 - Introduction to Learning Online
 - Learner Orientation - v4.1
- Support**
 - MyeLearning Service Catalogue
 - Service Desk
 - MyeLearning FAQs
- Turnitin**
 - Access Turnitin Here
- Zoom Support**
 - Zoom Faculty Support
 - Zoom Student Support
- CETL**
 - Course Experience Review
- Campus IT Services**
 - CTS Cybersecurity Awareness
- Academic Advising**
 - Faculty of Social Sciences

A small question mark icon is located at the bottom left of the support block.

3. Navigate to the Section “**Campus IT Services**”, and click the **CITS Cybersecurity Awareness** link.

This course is an introduction to cybersecurity awareness for Staff and Students of The University of the West Indies, St. Augustine Campus

▼ **Cybersecurity Awareness**

Introduction:

*It was a typical morning at the office looking at emails which came in overnight. One of the messages that found its way into my inbox stated that my **email will be blocked to your access by midday** if I didn't update my password. Ignoring the spelling errors and construct of the sentence, I hurriedly in a state of panic clicked on the link in the email to update my password. Within minutes however, I was locked out of my account and then the horrors ensued...*

As employees, we often think that cybersecurity is solely the responsibility of Campus IT Services. However, the reality is that we all have a crucial role to play in keeping the University's data secure. Cybercriminals are becoming increasingly sophisticated in their attacks, and we must be equipped with the knowledge and skills to protect ourselves and the Campus
