HOW TO USE THIS BOOKLET

The Faculty handbooks (also known as Faculty Booklets) are available on the Campus website in PDF format at <http://sta.uwi.edu/faculty-booklet-archive>. The handbooks include:

- Relevant **Faculty Regulations** – eg. Admission Criteria, Exemptions, Progression, GPA, Leave of Absence, etc.
- Relevant **University Regulations** including the Plagiarism Regulations and Declaration Forms
- Other Information on **Co-Curricular** courses, **Language** courses and **Support for Students** with physical and other disabilities or impairments.
- **Programme Descriptions and Course Listings** which include the list of courses to be pursued in each programme (degrees, diplomas and certificates), sorted by level and semester; course credits and credits to be completed for each programme – majors, minors and specials.
- **Course Descriptions** which may include details such as prerequisites and methods of assessment.

Students should note the following:

The Regulations and Syllabuses issued in the Faculty Handbooks should be read in conjunction with the following University Regulations:

- The Undergraduate Regulations and Syllabuses should be read in conjunction with the University regulations contained in the [Undergraduate Handbook](#)
- The Postgraduate Regulations and Syllabuses should be read in conjunction with the University regulations contained in the [Postgraduate Handbook](#) and the [Board for Graduate Studies and Research Regulations for Graduate Diplomas and Degrees \(with effect from August 2014\)](#)

Progress through a programme of study at the University is governed by Faculty Regulations *and* University Regulations. Should there be a conflict between Faculty Regulations and University Regulations, **University Regulations shall prevail**.

Notwithstanding the contents of the Faculty Handbooks, the University reserves the right to modify, add or altogether remove from a Programme, certain aspects of any course offered by the University, as described in either the Handbooks, Course outlines or any other Course materials provided.

MESSAGE FROM THE DEAN

On behalf of the Faculty of Food and Agriculture I warmly welcome you. A very special welcome to those new students who have chosen to pursue their studies in our Faculty. I want to assure you that it is our goal to ensure your success. As such, we will strive to provide the best learning environment for you in which you can achieve your academic goals with peace of mind and as little stress as possible.

The Faculty you have chosen has a long and distinguished history. It evolved from the ICTA (Imperial College of Tropical Agriculture), and is founded on a long and illustrious academic heritage dating back to the 1920s. Today, the FFA encompasses a number of disciplines and themes with direct and indirect focus on food and nutritional security, human sustenance, environment, sustainable natural resource management, geography and the latest addition, entrepreneurship.

The Faculty offers its programmes from three departments: Agricultural Economics and Extension, Geography and Food Production, with very strong inter-departmental cooperation. Programmes are packaged in a flexible manner to allow you the freedom to pursue programme combinations of your choice in order for you to realize their dream careers. The curricula are regularly updated

and revised to keep pace with the changing requirements for skill sets and competencies and ever expanding knowledge and technological bases. Global Food Security, Renewable Energy, Environment and Climate Change issues are some of the most pressing global challenges of this era and the Faculty is actively addressing these issues.

I advise you very early that the university is strong on rules, regulations procedures and processes. We will educate you on some of them, but I encourage you to read your Faculty Booklet carefully and follow the established procedures. Ask any of our helpful Faculty staff for advice when you have a concern. As a caution, do not rely on other student's advice as sometimes this will make your journey in the Faculty bumpy! You want to avoid this at all costs. The most important point of contact for addressing undergraduate student's matter in FFA is the Deputy Dean, Teaching, Learning and Student Development who can be reached in the Faculty Dean's Office.

This Faculty Booklet is an essential reading material. The booklet includes regulations, a list and description of programmes and includes programme structures, available options, courses and course syllabuses, and information on staff and support available to you. You are strongly advised to take full responsibility for your academic, scholastic and social life at the UWI. If further information is needed, please contact the relevant departments with respect to programmes and courses. Assistance may also be obtained from the Office for Undergraduate Students Matters of the FFA Dean's Office located in the Sir Frank Stockdale Building on the second floor, North Wing and the Admissions office in the Lloyd Brathwaite Students Administrations Building.

The UWI and FFA are not about study alone. You are here to develop your whole person so that when you leave, you are a well-rounded, highly trained, highly motivated and happy person with a zeal to engage your profession and contribute meaningfully to the development of the region's food production sector. I urge you to join a club. If one is not available get some friends together and form one. Be involved in Faculty life!

I take this opportunity to wish you a very productive and happy year of studies. I urge all of you to seek excellence. Make yourself, your parents and your teachers proud of you. Try not to be too distracted by fleeting activities: focus and hit the ground running. Your country is anxiously awaiting your valuable contribution and we at the FFA want to support you in any way possible in your academic journey.

Let us work together for a wonderful experience at the FFA!

DEAN

OUR VISION

By 2017, the University will be globally recognised as a regionally integrated, innovative, internationally competitive university, deeply rooted in all aspects of Caribbean development and committed to serving the diverse people of the region and beyond.

MISSION STATEMENT of the Faculty of Food & Agriculture (FFA)

The Mission Statement reflects the primary purpose of the University, that is, the reason for its existence. The enduring mission of the UWI is: To advance agricultural, geographical, food and nutritional and family sciences education and create knowledge through excellence in teaching, research, innovation, public service, intellectual leadership and outreach in order to support the inclusive (social, economic, political, cultural, environmental) development of the Caribbean region and beyond.

SECTION II - GENERAL INFORMATION

A. UNDER GRADUATE PROGRAMMES

The Faculty of Food and Agriculture (FFA) offers very flexible undergraduate programmes creating opportunities for students to pursue curricula that prepare them well for their career choices. The Faculty offers undergraduate programmes leading to the award of Certificates, Diplomas and BSc Degrees:

CERTIFICATES

- Certificate Programme in Agriculture is offered by distance, but currently this programme is under review. This programme is meant to prepare graduates for admission to certain degree level programmes in addition to entry level jobs in Agriculture.

DIPLOMAS

- Undergraduate Diploma in Agriculture
- Institutional and Community Dietetics and Nutrition

BSc SPECIAL OPTIONS

The aim of special options is to provide candidates the choice of focusing on a single discipline or theme.

BSc (GENERAL) IN SINGLE OR A COMBINATION OF TWO THE FOLLOWING MAJORS

The BSc (General) is designed to provide the opportunity for candidates to pursue a broad based curricula for their undergraduate degree training if they wish to do so.

B. *EVENING UNIVERSITY

1. Currently, the Faculty of Food and Agriculture (FFA) offers a limited number of programmes through the Evening University. These are Human Nutrition and Dietetics, Human Ecology and Agribusiness Management. See Department listings in this booklet for specific details for the programmes offered.
2. Students in the Evening University Programmes will normally be required to register for a maximum of 10 credits of courses per semester. There will be three semesters per year in the Evening University. Classes will normally be held during the hours of 5:00-8:00 p.m. on weekdays and on Saturdays during the day. For further general information about the Evening University Programmes, please consult with the office of the Evening University at:
<http://sta.uwi.edu/evening/introduction.asp>

* NEW INTAKE SUSPENDED UNTIL FURTHER NOTICE

C. TRANSFER STUDENTS

4. (a) Students on transfer between different BSc degree programmes or from other programmes of study within the University may, on the basis of passes already obtained, and on the recommendation of the Departments concerned, may be exempted with credits from the relevant course(s) passed.
- (b) A student accepted for entry to a BSc Degree programme with qualifications from another recognized tertiary level institution must complete a minimum of four semesters of full-time study in order to be awarded a degree from UWI.

D. STUDY ABROAD/EXCHANGE PROGRAMMES

5. The exchange programme allows students to spend normally one semester abroad at approved universities in order to broaden their experience, understanding and perception of agriculture, human ecology or geography in a different environment where a wider range of courses is available, including independent study projects.

SECTION III - FFA REGULATIONS

SUB-SECTION I – INTRODUCTION

A. BSC PROGRAMME OFFERINGS DETAILS

- The Faculty of Food and Agriculture (FFA) offers the BSc degree upon satisfactory completion of prescribed courses in the following areas:

BSc DEGREE IS OFFERED IN THE FOLLOWING SPECIAL OPTIONS:

- Agribusiness Management
- Geography
- Agriculture

(c) **OUT-OF-FACULTY COURSES:**

These are courses offered by other Faculties which may contribute towards the requirements for the award of a degree. Approval must be granted by the Dean before a student can pursue an out-of-Faculty course if such course is not part of the candidate's degree programme.

6. The weight of a course is expressed in terms of credit hours, and the credit-weighting of a course is determined by the Faculty which administers the courses. In general, a course with one period of lecture per week for one semester has a weighting of one credit.

(d) **FOUNDATION COURSES:**

i. In order to qualify for the award of a BSc degree in the FFA, all students are required to complete a minimum of nine (9) credits of Foundation Courses. These courses are designated as Level I courses and are designed to augment the general education of students and are offered University-wide.

ii. All student admitted to FFA to read for undergraduate degree are **normally** required to take the following three Foundation Courses (3 credits each)

- FOUN 1101 - Caribbean Civilisation
- FOUN 1105 - Scientific and Technical writing
- FOUN 1301 - Law, Governance, Economy and Society

iii. Students pursuing the BSc Agriculture must take AGRI 1102 instead of FOUN 1105.

iv. Effective 2014/15, the Foundation courses will be treated like regular courses where grades will be used instead of the traditional pass/fail system. As a result the Foundation courses will contribute to the cumulative GPA and academic standing of each student.

v. On entry into the Faculty, a student may be required to pass the English Language Proficiency Test (ELPT) before he/she can register for FOUN 1105. However, students with the following qualifications can register directly for FOUN 1105:

- Grade I in CSEC English Language or
- Grade 1 or 2 in CAPE Communication Studies (or Grade A or B in General Paper in the GCE A-Level Examination).

vi. Student admitted to the new BSc Agriculture are not required to do FOUN 1105 since they are required to do AGRI

C. CO-CURRICULAR CREDITS

7. Courses involving independent supervised activities which would earn the student co-curricular credits may be pursued upon approval by the Campus Academic Board.

i. Students are eligible to register for co-curricular credits after their first semester of studies.

ii. Each student is entitled to no more than three (3) co-curricular credits counted towards his/her degree.

iii. The programme of co-curricular activities must have the approval of the Faculty and Academic Boards before it is taken by the student.

iv. A Deputy Dean with responsibility for Teaching, Learning and Student Development is the Faculty's Coordinator for the co-curricular programme. Please consult with the Coordinator if you are interested in pursuing co-curricular activities.

v. Co-curricular credits will be awarded on the following basis:

- Students must be involved in the activity for at least one (1) semester.
- Explicit learning outcomes must be identified for each activity.
- There must be clearly defined mode(s) of assessment for each activity.

vi. The grading of co-curricular activities will be on a pass/fail basis and will not contribute to a student's GPA.

vii. The three Level I credits earned for involvement in co-curricular activities may be included as part of the overall general credit requirement for the award of the BSc Degree. However, such credits earned shall **not** be used in the computation of a student's Weighted Grade Point Average for determining the Class of Honours.

- viii. For further details on co-curricular offerings, please consult Deputy Dean (Teaching, Learning and Student Development).

D. Criteria for Eligibility / Guidelines for the Dean's Honours List across Faculties

PREAMBLE STATEMENT

Dean's Honour Rolls or Dean's Lists have been established in a number of faculties across the St. Augustine campus; each with faculty-specific guidelines and criteria for student's eligibility. Academic Board mandated the Deputy Principals to work with Deputy Deans Student matters or related areas to meet to develop common procedures recognizing that it may be necessary to have some minor differences. It was agreed that where this occurred a clear explanation / justification should be included.

Another principle that guided the discussions was that undergraduate students in all Faculties should have an equal opportunity to be recognized for academic performance / excellence.

OBJECTIVES OF A DEAN'S HONOUR LIST

- To recognize academic excellence
- To motivate students to continuously strive for academic performance

CRITERIA

Each faculty shall have a uniformly named **Dean's Honours List** which would recognize the academic excellence / performance of an undergraduate student.

Undergraduate students across faculties shall be assessed **each semester** for their academic excellence / performance and eligibility on the Dean's Honours List.

The qualifying Grade Point Average (GPA) shall be 3.6, for eligibility for the Dean's Honours List across faculties.

The minimum credit (Full Time students) for eligibility on the Dean's Honours List shall be 15 credits per semester.

The minimum credit (Part Time students) for eligibility on the Dean's Honours List shall be 12 credits per semester.

Students with *Failed Medicals (FM)* **would not be eligible/qualify** for recognition on the Dean's Honours List.

Students with repeat courses should be considered for recognition on the Dean's Honours List.

Students with pending Disciplinary Action/Hearing may be considered for recognition on the Dean's Honours List, but would be removed from the list if they are found culpable.

Registered students with disabilities must meet the qualifying GPA of 3.6. They would however be eligible on completion of 12 credits in the semester.

SUB-SECTION II - GLOSSARY

TERM	DEFINITION		
Co-requisite	A pair of courses which must be taken together in order to ensure the attainment of the complementary and/or independent competencies.	Minor	An area of undergraduate ancillary focus based on a specified number of credits (normally 15 or 16) of prescribed courses from Levels II & III either in a single discipline or theme.
Course	A body of knowledge circumscribed by a syllabus to be imparted to students by sundry teaching methods and usually followed by an examination. A course may be either compulsory or elective.	Option	A prescribed combination of Levels I, II and III courses, within a single discipline or theme limited to the Faculty or across Faculties offerings, leading to a degree.
Credit	A measure of the workload required of students. 1 Credit Hour is equivalent to 1 period of lecture per week OR 2 hours of laboratory session per week for a semester.	Out -of-faculty Courses	All courses originating in faculties other than the Faculty of Food and Agriculture.
Discipline	A body of knowledge distinguishable from other such bodies on the basis of criteria such as method of enquiry, axioms, area of application.	Part	Portion of a programme defined by the regulations governing the programme.
Elective	A course within a programme taken by choice of the student in accordance with rules governing the programme structure.	Plagiarism	The unauthorized and/or unacknowledged use of other person's intellectual efforts and creations howsoever recorded, without proper and unequivocal attribution of such source(s), using the conventions for attributions or citing used in this University.
Faculty courses	All courses except Foundation and Co-curricular courses	Pre-requisite	A course which must be passed before the course for which it is required may be pursued.
In-faculty courses	All courses originating in the Faculty of Food and Agriculture	Programme	A selection of courses (designed to achieve pedagogical goals) the taking of which is governed by certain regulations and the satisfactory completion of which (determined by such regulation) makes a candidate eligible for the award of a degree/ diploma/ certificate.
Level	A state in a programme for which courses are designed (at UWI it is denoted by the first digit in a course code). For example AGRI 2001 is a Level II course whereas AGRI 3001 is a Level III course.	Preliminary Course	A Level 0 course used to satisfy entry requirements but does not contribute towards the requirements for the award of the degree.
Major	A subject area of undergraduate specialisation or focus normally comprising a total of specified number of credits (normally 30-33) including prescribed courses from Level II & III from a single discipline or theme. (see Departmental course listings)	Remedial Course	A course that is offered in Summer School only for students who have failed this course during the semester.
Marginal failure	45% to 49% in the overall	Quality Points	Quality points represent numerical values associated with

Semester GPA	<p>the letter grades obtained in a course. In the UWI system the quality points range from 4.3 assigned to A+ to 0 assigned to F3.</p> <p>GPA is credit hour weighted average of quality points earned on courses taken in a semester. In the UWI system, courses graded on pass/fail basis are excluded from its calculation. (The terms Grade Point, GPA, Quality Hours, Honours GPA, Cumulative GPA and Quality Points are defined in the UWI Grade Point Average Regulations Booklet).</p>	Evening Student	<p>A student registered in an Evening University Programme will be required to attend classes on weekdays between the hours of 5:00pm - 10:00pm and on Saturdays between the hours of 8:00a- 8:00pm.</p>
Cumulative GPA	<p>Grade point average obtained by a student over the semesters for which grades are available.</p>	Specially Admitted Student	<p>A student admitted to pursue a limited number of courses which would not lead to any form of certification.</p>
STUDENTS: Part-Time Student	<p>A part-time student will normally be expected to register for a maximum of 12 credits of courses per semester. Such students normally attend classes scheduled for full-time students.</p>	Study Abroad/ Student Exchange	<p>An exchange programme which allows students to spend one or two semesters at universities abroad in order to broaden their experience, understanding and perception of agriculture, human ecology or geography in a different environment where a wider range of courses is available, including independent study projects.</p>
Full-Time Student	<p>A full-time student will normally be expected to register for a minimum of 13 credits of courses per semester.</p>	Subject	<p>An area of study traditionally assigned to the purview of a department.</p>
		Supplementary Oral	<p>An oral examination, offered on recommendation of Departments and Faculty according to regulations, to students who have registered a MARGINAL FAILURE in an advanced course.</p>

GRADE CODE SHEET

The following designations when assigned **SHALL NOT be used in the calculations of Grade Point Average:**

AB	Absent from an examination for acceptable reasons other than medical problem. No penalty.
AM/XM	Medical submitted for absence from an examination. No penalty.
AMS	Absent Medical Supplemental
CR	Credit
DB	Debarred
DEF	Deferred
EC	Exemptions with Credit
EQ	Examination Query
EX	Exemption Only
FM	Fail/Medical Submitted
FMS	Failed Medical Supplemental
I	Incomplete
IM	Incomplete Medical
IP	In Progress
LW	Late Withdrawal
NFC	Not for Credit
NP	Not Passed- when a student has failed a course taken on a pass/fail basis
NR	Not Reported
P	Pass
PC	Preliminary Credits
V	Audited
NV	Where a student has been permitted to audit a course but has done so unsatisfactorily
W	Withdrawal

The following designations when assigned **SHALL be used in the calculations of Grade Point Average:**

DIS	Disqualified
DO	Pass Oral
EI	Examination Irregularity
F	Fail
FA	When a student is absent from an examination without a valid reason
FAS	Failed Absent Supplemental
FC	Fail Coursework/Pass Examination
FE	Fail Examination/Pass Coursework
FO	Fail Oral
FP	Failed Practical
FT	Failed Theory
FWS	Fail/Supplemental Examination granted

SUB-SECTION III – FACULTY REGULATIONS

All students of the University are subject to the University Regulations approved by the Senate of the UWI. Where there is conflict between the regulations of any Faculty and the University Regulations, the University Regulations shall apply.

E. QUALIFICATIONS FOR ADMISSION INTO THE FACULTY

11. In order to be admitted to the undergraduate degree programmes, candidates must satisfy the University requirements for Matriculation (see the University Regulations for Undergraduate Students) AND have passed the CSEC General Proficiency Level examination at Grades I, II or, since 1998, Grade III (or equivalent qualifications) in Mathematics, English Language and three additional subjects.
12. Candidates must also:
 - (a) have obtained passes in a minimum of two two-Unit subjects at CAPE (or GCE A-Level or equivalent), **or**
 - (b) have obtained an Associate Degree or equivalent certification (or equivalent qualification) in a relevant programme from a tertiary level institution recognised by UWI, **or**
 - (c) have any other appropriate qualifications acceptable to the FFA.
13. In order to be admitted to the Diploma in Agricultural Extension candidates must:
 - (a) be graduates of an approved university, **or**
 - (b) have an approved technical or professional qualification from an approved institution and have relevant work experience, **or**
 - (c) have other relevant qualifications which are deemed by the FFA to be adequate.
14. In order to be admitted to the Diploma in Institutional and Community Nutrition and Dietetics, candidates must have successfully completed:
 - (a) A Bachelor's Degree (no more than 5 years prior to application) with majors in Clinical (Human) Nutrition, Foodservice Systems Management, and Community Nutrition from an accredited Tertiary Level Institution.
 - (b) Applicants who do not qualify for entry as specified at 14 (a) above may be required to pursue qualifying courses at the University, to a minimum of 18 credits.
 - (c) Selection from suitably qualified applicants will be based on interviews.

15. **IN ADDITION TO THE ABOVE GENERAL QUALIFICATIONS FOR ADMISSION, CANDIDATES MUST SATISFY THE SPECIFIC SUBJECT REQUIREMENTS FOR ENTRY INTO THE VARIOUS FFA PROGRAMMES THEY DESIRE TO PURSUE.**

These are listed in [Table 2](#) below:

F. EXEMPTIONS / CREDITS

16. Provided that requirements to Statute 47 are fulfilled, students admitted to the FFA, may be exempted **with or without credits** from Level I and/or Level II courses if they:

- are holders of degrees from approved universities; **or**
- have partially fulfilled the requirements of such degrees; **or**
- are holders of Associate Degrees or Diplomas from approved tertiary level institutions; **or**
- have transferred from different BSc degree programmes or from other programmes of study within the University

Application for **exemptions** must be made upon entry through the Registry (Admissions).

17. Where **exemptions without credit** are granted, students will be required to pursue alternative courses of equivalent credits as approved by the Head of Department. The following is a list of exemptions and/or credits currently offered by the Faculty:

- (a) BSC AGRICULTURE, OR AGRICULTURAL TECHNOLOGY MAJOR
- Holders of the ECIAF Diploma in Agriculture, or the CASE Associate Degree in Agriculture or the Sir Arthur Lewis Community College (SALCC) - Associate Degree Graduates in Agriculture admitted into the Faculty will be **exempted with credit** from AGRI 1100 and AGEX 1000 irrespective of their GPA where relevant.
 - In addition, all ECIAF/CASE graduates admitted into the Faculty with a GPA equal to or greater than 2.75 will be granted **exemption with credit** from the following courses:
 - AGBU 1005
 - AGBU 1006
 - AGSL 1001
 - AGRI 1003
 - AGLS 1001
 - AGRI 1016 and
 - AGEX 2001.

In such cases students will be allowed to register for level II/III courses in their first year of admission.
 - In addition, all SALCC graduates admitted into the Faculty with a GPA equal to or greater than 2.75 will be granted **exemption with credit** from the following courses:
 - AGLS 1001
 - AGBU 1006

- AGSL 1001
- AGRI 1016 and
- AGRI 1010

PLEASE CONSULT WITH THE DEPARTMENT OF FOOD PRODUCTION FOR ADVICE BEFORE REGISTERING.

- iv. Students with CAPE (GCE A-Level) Mathematics or equivalent will be **exempted with credit** from AGRI 1003.
- (b) HUMAN ECOLOGY AND HUMAN NUTRITION AND DIETETICS PROGRAMMES
- i. Holders of the Diploma in Food and Nutrition from the John Donaldson Technical Institute or Sir Arthur Lewis Community College (SALCC) shall be **exempted with credit** from the following courses:
- HUEC 1004 and
 - HUEC 1003
- ii. Associate degree holders from THTI with GPA of 2.75 or better will be exempted with credit from the following courses:
- HUEC 1004,
 - COMP 1011 and
 - ACCT 1002
- iii. Students with CAPE (GCE A-Level) Chemistry or equivalent will be **exempted with credit** from
- CHEM 1062 or equivalent
- iv. Students with CAPE (GCE A-Level) Mathematics or equivalent will be **exempted with credit** from
- AGRI 1003.
- v. Holders of the COSTAATT Associate Degree in Nutrition and Food Science or Sir Arthur Lewis Community College (SALCC) - Associate degree in Food and Nutrition with a GPA of 2.75 or better shall be **exempted with credit** from the following courses:
- HUEC 1003,
 - HUEC 1004 and
 - HUEC 1001
- (b) A student who is in full-time employment may only pursue a degree as a part-time student or as an Evening University student.
- (c) A full-time student is normally expected to register for **a minimum of 15 credits** of Faculty courses per semester.
- (d) A part-time student is normally expected to register for **a maximum of 12 credits** of courses per semester offered under the day programme. Part-time students will **not** be allowed to attend Evening University classes.
- (e) An Evening University student is normally expected to register for **a maximum of 10 credits** of courses per semester.
19. Students must register for courses that they wish to pursue by the dates prescribed by the Campus Registrar.
20. Changes to the registration (add and drop courses) will only be permitted within the prescribed periods in Semesters I and II. (Please refer to the Campus website and notice boards for actual dates).
- 21.(a) Registration for any course constitutes registration for the associated examination. A student will therefore be deemed to have failed the course if he/she does not attend the examination without having previously been allowed to withdraw from the course or without having tendered evidence of illness at the time of the examination certified by a medical practitioner recognised by the University. In the latter case, the **MEDICAL REPORT MUST REACH THE HEALTH SERVICE UNIT (HSU) no later than SEVEN (7) DAYS after the date of the examination concerned.** Medical Certificate / Report forms are available online at www.sta.uwi.edu/health
- (b) In cases where the medical submitted is for a missed coursework examination, and is approved by the Campus HSU, the candidate shall be granted a make-up examination at a date prescribed by the Head of the relevant department.
- (c) **In cases where the medical submitted for a missed final examination is approved by the Campus HSU, the designation of AM (Absent Medical) will apply only if the student has passed the coursework in that particular course.** The designation AM carries no penalty.

G. REGISTRATION

18. (a) A student pursuing a degree in the Faculty may register as a full-time student **or** as a part-time student **or** as an Evening University student. A student may apply to change his/her status during the tenure of the degree.
22. (a) A student who has passed a course will not be permitted to re-register for that course.

H. GENERAL REQUIREMENTS FOR THE AWARD OF THE DEGREE

23. In order to be eligible for the award of the BSc degree in FFA, candidates must have:
- i. been in satisfactory attendance for a period equivalent to at least six (6) semesters of full-time study from entry at Level I
 - ii. obtained passes in Levels I, II and III and Foundation Courses amounting to the number of credits shown in [TABLE 3](#):
 - iii. attained a minimum cumulative Grade Point Average (CGPA) of 2.00 effective 2014/15

PLEASE NOTE CAREFULLY THAT THE CREDIT REQUIREMENT FOR THE AWARD OF THE BSC DEGREE VARIES DEPENDING UPON THE PROGRAMME BEING PURSUED ([TABLE 3](#)).

TABLE 3: MINIMUM CREDIT REQUIREMENTS				
DEGREE	LEVEL I CREDITS	LEVEL II - III CREDITS	FOUNDATION	TOTAL
BSc (General) with majors /minors	24	60	9	93*
BSc Agriculture (Special)	38	71	6	115
BSc Geography (Special)	24	60	9	93
BSc Agribusiness Management	33	69	9	111
BSc Human Ecology	30	63	9	102
BSc Human Nutrition and Dietetics	36	64	9	109
* The number of credits required varies depending on the selected combination				

24. Students will not be granted credits for the same course offered under different majors/minors. In such cases students will be required to pursue alternate courses which must be approved by the Dean.
25. Exemptions from specific parts of the degree programme may be obtained under the provision of [sub-Section III, G \(List of exemptions\)](#).

I. PROGRESS THROUGH THE PROGRAMME

26. (a) Full-time students admitted to Year 1, are normally expected to register for 15 Level I Faculty credits in addition to two (2) foundation courses equivalent to a maximum of twenty-one (21) credits, per semester.
- (b) Part-time students are expected to register for courses equivalent to a minimum of 6 credits per semester.

- (c) Evening University students are expected to register for courses equivalent to a minimum of 6 credits per semester.
- (d) In order to satisfy the minimum requirement for entry to the advanced part of the programme (Level II and III), a student must normally record passes in Level I courses equivalent to a minimum of twenty-four (24) credits of Faculty courses.
- (e) A student who has obtained passes in Level I Faculty courses equivalent to eighteen (18) credits in the first two (2) semesters of full-time study may, on the approval of the Dean, be allowed to register for a **limited number of Level II courses in addition to those courses required to complete Level I requirements.**
- (f) Students who are registered for the BSc (General), Major in Geography, are eligible for transfer to the BSc Geography programme at the end of level I, provided that they have achieved an average cumulative GPA of at least 2.8 in their first year geography courses.

27. The maximum number of credits (including those from foundation courses) for which a student may normally register in any semester is as follows:
- (a) In the case of students who have **NOT** satisfied the requirements for completion of the Level I requirements
- i. twenty-one (21) credits subject to a maximum of eighteen (18) credits from Faculty courses, if the student is registered full-time;
 - ii. twelve (12) credits if the student is registered as a part-time student;
 - iii. ten (10) credits if the student is registered as an Evening University student.
- (b) In the case of candidates who have fully satisfied the requirements for completion of the Introductory Part of the programme (i.e. students fully in the Advanced Part of the programme):
- i. twenty-one (21) credits from Faculty courses;
 - ii. twelve (12) credits if the student is registered part-time;
 - iii. ten (10) credits if the student is registered as an Evening University student.
- (c) **Students are required to complete all LEVEL 1 course requirements within four semesters of entry into the programme of study.**
- (d) Full-time students who require **not more than twenty-four (24) credits** in order to graduate,

have satisfied all Foundation course requirements, and are exempted from laboratory coursework in at least one course, may be allowed to register for twenty-four (24) credits of Faculty courses with written permission from the Dean.

J. DECLARATION OF MAJORS AND MINORS

28. (a) Students are required to register for a major/option upon entry into the Faculty. However, students may request a change in major/option as they progress along their studies. Students desirous of pursuing majors in a Faculty other than FFA must apply for and obtain official approval from that Faculty before they can be admitted into such majors.
- (b) **Students are required to make a final declaration of their proposed major(s)/minor(s)/options by the end of the registration period of the semester in which they are likely to graduate.**
- (c) **Students who have met the requirements for the degree for which they have registered may not register for further courses in pursuit of that degree.**

K. STUDY ABROAD/EXCHANGE PROGRAMMES

29. UWI students, while at exchange Universities, will continue to be full-time students of The University of the West Indies. Such students will pay UWI tuition and pursue matching and/or approved courses for credit. Credits earned abroad will be transferred to UWI and applied to regular Faculty degree requirements in accordance with Faculty Regulations 51-53.
30. (a) FFA students who wish to participate in an exchange programme at an approved institution and desire to have the credits obtained used toward a UWI degree, are required to obtain written approval in advance from the Dean prior to registering for such courses. **Failure to do so may preclude the acceptance of the credits earned at the exchange institution.**
- (b) Students must normally have a minimum Cumulative GPA of 2.5 and have spent at least two semesters of full-time study at UWI to qualify for the Exchange Programme.
- (c) To ensure the transfer of credits, the content of the courses to enrol in the host institution must be vetted and approved in advance by the relevant Department(s) in FFA as being equivalent to the UWI courses and signed off by

the Dean. Course outlines and syllabuses must be provided by the student in order to facilitate the evaluation process.

- (d) **ONLY GRADES EARNED AT HOST INSTITUTION AND NOT THE MARKS EARNED SHALL BE TRANSFERRED TO STUDENT'S UWI ACADEMIC RECORDS.**

Interested students are advised to visit the website of the Office of Institutional Advancement and Internationalization (International Office) for a current list of Universities with which UWI has entered into cooperative arrangements for study exchanges at <http://sta.uwi.edu/international/> or contact

L. EXAMINATIONS

31. In order to pass a course, a candidate must have satisfied the examiners in the associated examinations. Students who fail to attend at least 75% of classes associated with a course may be debarred from writing the final examinations associated with that course.
32. The examination associated with each course shall be conducted mainly by means of a written paper and/or practical exercise, normally taken at the end of the semester in which the candidate has registered for the course concerned. However, oral examination as well as performance in coursework in the form of essays, in-course tests, research papers, projects, or continuous assessment of theoretical and/or practical work may contribute towards the final grade awarded in a course. (Consult individual course outlines and the departments for the specific modes of assessment.)
33. When practical papers and/or practical coursework contribute towards an examination, candidates must satisfy the examiners in both the theoretical and practical aspects of the course. On the basis of performance in the practical part of the course, candidates may, on the recommendation of the Department concerned, be exempted from the practical part of the final examination.
34. (a) A student may be granted permission by the Board of Examiners to sit supplementary oral

examinations in failed Level II/III courses accounting for **not more than nine (9) credits** provided that the candidate has completed all LEVEL I requirements and passed a minimum of 30 LEVEL II / III credits.

- (b) Candidates passing such oral examinations will be awarded the minimum passing mark of 50% (Grade C, Quality Point 2.0) and will not have any right of appeal or review of the outcome.
 - (c) Candidates offered an oral examination may choose to decline the offer.
35. A candidate who fails the examination associated with a course may be given permission to repeat the course and the examination on a subsequent occasion.
36. In the event that such a candidate has satisfied the examiners in the practical coursework component of the failed course, the candidate may, on the recommendation of the relevant Department, be exempted from the laboratory coursework with the transfer of course work mark
37. Remedial courses in FFA offered as part of the Summer School Programme are considered repeat courses.
38. The Academic Board on the recommendation of the Faculty Board concerned may debar a candidate from writing the examination associated with a course, based on attendance of less than 75% at lectures/laboratory classes/tutorials. The designation recorded for such a candidate in that course will be DB (debarred).

M. PLAGIARISM DECLARATION

39. A declaration must be made in accordance with the University Regulations on Plagiarism (First Degrees, Diplomas and Certificates) and shall be attached to all work submitted by a student to be assessed as part of, or the entire requirement of the course, other than work submitted in an invigilated examination. By signing this declaration, a student declares that the work submitted is original and that it does not contain any plagiarised material. ([SECTION X - Regulations on Plagiarism](#))

N. TIME LIMITS FOR COMPLETION AND ENFORCED WITHDRAWALS

40. (a) A semester grade point average (GPA), based on grades earned on all approved courses for which the student is registered in a semester, will be used as the basis for the determination of his/her academic standing.
- (a) A student whose GPA in any semester is less than 2.00 will be placed on warning for the following semester.
 - (c) A student who is on two consecutive warnings will normally be required to withdraw from the Faculty.
 - (d) A Dean's hold will be placed on academic record of a student on warning. Such a student will have to seek academic advising through the Office of the Dean before the Dean's hold can be removed. This must be done within the prescribed registration period at the start of the relevant Semester. **Where desirable, a reduced academic load may be recommended and academic action suspended.**
41. For the purposes of Regulation 42 below, any semester in which a student is registered part-time, will be counted as half of a semester of full-time study.
42. (a) Full-time students will normally be required to complete the requirements for the degree in a minimum of six (6) or a maximum of ten (10) semesters of full-time study.
- (b) Students who do not complete the programme within the maximum period stated in Regulation 42 (a) above will normally be required to withdraw from the Faculty at the end of the academic year in which the maximum time limit is reached.
43. In the event that a student has exhausted the maximum period stated in 42(a) above, but still requires more time for the completion of the degree programme:
- (a) passes in courses totalling no more than eight (8) credits, **and/or:**
 - (b) passes in Foundation courses only;
- approval would be sought from the Board for Undergraduate Studies for an extension of the period of study by one (1) or two (2) consecutive semesters.**
44. For the purposes of Regulation 42(a) above, any semester for which a student has obtained leave of absence from the Faculty shall not be counted.

45. **A STUDENT REQUIRED TO WITHDRAW FROM ANOTHER FACULTY MAY REGISTER IMMEDIATELY IN THE FFA**, if, having carefully assessed the circumstances surrounding the withdrawal, it is felt that this is in the best interest of the student's educational goals and that the student satisfies the Faculty's entry requirements.
46. A student who was required to withdraw for reasons of failure to progress may be re-admitted to the Faculty on the following conditions:
- A minimum of **TWO** consecutive semesters has elapsed since the date of withdrawal.
 - The Faculty is satisfied that the contributing circumstances for the withdrawal have altered substantially.
 - All grades previously obtained, (except those for courses that have been deemed out-dated), shall be used in determination of the student's cumulative GPA.
 - Courses pursued in the UWI Summer School during the period of withdrawal shall be included in all relevant grade point average calculations if the student re-enters the Faculty.
47. (a) A student who was required to withdraw from the Faculty **must reapply for re-entry** by the date prescribed by the Campus Registrar. **THIS MUST BE DONE PRIOR TO THE DEADLINE FOR APPLICATION AS FOLLOWS:**
- A student who is required to withdraw at the end of Semester I of an academic year must reapply by **15th December of the following academic year** for readmission in Semester II of that academic year.
 - A student who is required to withdraw at the end of Semester II or summer session of an academic year may reapply by **30th January of the following academic year** for readmission in Semester I of the next academic year.
 - A student will not be admitted before a year has elapsed.
 - A student who was re-admitted and then required to withdraw for a second time, will not normally be considered for re-admission again until a minimum period of five years has elapsed.

O. LEAVE OF ABSENCE AND VOLUNTARY WITHDRAWAL

48. (a) A student who wishes to be absent from the Faculty for a semester or more must apply **ONLINE** for Leave of Absence.
- Leave of Absence will not be granted for more than two (2) consecutive semesters in the first instance. However, students may apply for an extension of leave.
 - Leave of Absence will not be granted for more than two (2) consecutive years.
 - Applications for Leave of Absence should

normally be submitted no later than the end of the prescribed change in registration period in the relevant semester.

49. A student who does not register for any course during a semester without having obtained Leave of Absence will be deemed to have voluntarily withdrawn from the Faculty and will have to re-apply for entry into the Faculty if she/he so desires.
50. A student who voluntarily withdraws from the University and then applies for re-admission within five (5) years shall be granted exemption and credit for all courses previously passed unless the Department concerned declares that the material covered in a course has become out-dated. All grades previously obtained except those for courses declared out-dated shall be used in the determination of the GPA of such a student.

P. GPA AND CLASS OF DEGREE AWARDED

51. (a) All students in the Faculty, irrespective of their date of entry into the Faculty, are subjected to the **NEW** GPA regulations.
- A cumulative grade point average based on all courses completed and for which quality points have been assigned (excluding preliminary courses, those taken on a pass/fail basis, audited courses and courses designated I or IP), will be calculated and recorded on the student's transcript.
 - Honour's Grade Point Average based on grades obtained on relevant **Levels II and III courses** including all courses in the declared major(s)/minor(s)/option whether passed or failed, will be used for determination of the class of the degree. (See Regulations 52 and 53 for the relationship between marks, Grade Point Average and Class of Honours.)
 - First Class Honours, Second Class Honours (Upper and Lower Division), or a Pass degree will be awarded on the basis of the Weighted Grade Point Average (GPA) of all Level II/III courses taken (passed and failed).

Q. NEW GRADING SCHEME FOR ALL STUDENTS

Effective 2014/15 academic year, all undergraduate students in the UWI system will be graded under a new scheme. The details of this scheme are given below in item 52 and grade description is provided for your attention in [SECTION IV](#). Please note that in order to record a pass on any subject students must attain a minimum mark of 50% which translates to a quality point of 2.0 or a grade of C.

52. The Grading Scheme used in the Faculty of Food & Agriculture is as follows:

MARK	GRADE	QUALITY POINTS
90-100	A+	4.3
80-89	A	4.0
75-79	A-	3.7
70-74	B+	3.3
65-69	B	3.0
60-64	B-	2.7
55-59	C+	2.3
50-54	C	2.0
40-49	F1	1.7
30-39	F2	1.3
0-29	F3	0.0

R. CLASS OF HONOURS

53. A student's class of degree will be based on Honour's GPA, which is the Weighted Grade Point Average of all advanced courses (GPA) as follows:

HONOURS	GPA
First	3.60 – 4.3
Upper Second	3.0 – 3.59
Lower Second	2.5 – 2.99
Pass	2.0 – 2.49

S. AEGROTAT DEGREE

54. (a) A candidate who, by virtue of illness, was prevented from attending examinations or part of the examinations associated with one or more Level II/III courses in the year of anticipated graduation may apply to the Board for Undergraduate Studies through the University Registrar for an Aegrotat pass in the course. Such an application will only be granted if all the following conditions are satisfied:
- i. The appropriate Head of Department reports that, on the basis of the candidate's performance during the period preceding the examinations, the candidate was expected to pass the examinations concerned and has satisfactorily completed any associated coursework.
 - ii. The application reaches the University Registrar not later than thirty (30) days after the date of the last paper in the examination concerned.
 - iii. The application is accompanied by a medical certificate attesting to the illness and issued by a medical practitioner recognised for this purpose by the University.

- (b) No grade will be awarded in respect of an Aegrotat pass, and a candidate, having been awarded an Aegrotat pass, will not be allowed to re-enter the examination for the course concerned on a subsequent occasion. An Aegrotat pass may not be used to satisfy a prerequisite for other Level II/III courses.
- (c) A candidate, having satisfactorily completed the degree programme, who includes Aegrotat passes in courses counted for the degree programme, will be eligible for the award of an Aegrotat degree, provided that both of the following conditions are satisfied:
 - i. the courses in which the Aegrotat passes have been granted (and which need to be counted towards the award of the degree) are equivalent to no more than twenty-four (24) credits.
 - ii. no more than sixteen (16) credits mentioned in c (i) above arise from courses making up the candidate's major.
- (d) The Aegrotat degree will be awarded without Honours.

FREQUENTLY ASKED QUESTIONS (FAQs)

FOR FACULTY OF FOOD AND AGRICULTURE STUDENTS

General FAQs for All Undergraduate Students (Full Time and Evening University):

- **What should you do to obtain special permission to pursue additional courses beyond your maximum as a full time or evening student?**

During the online registration period students can submit a request online to exceed the maximum credit limit. If approval is granted, the courses are added to the student's registration.

- **If a student fails a course and repeats it how does this affect their GPA?**

Failing a course serves to depress one's GPA. You should therefore do all in your powers to avoid failing a course. If the course is repeated and passed, the grade obtained is also used in the calculation of one's GPA.

- **Are students required to attend all their lectures and tutorials within a semester?**

Students who attend less than 75% of lectures or tutorials may be debarred from writing the final examination. Please check the course outline for the courses you are taking to ascertain if this debarment rule will apply.

- **What happens if you get sick before an exam (e.g. midterm & final exams)?**

Have a medical report completed by a doctor and submit it to the Campus' Health Service Unit. If the medical is accepted by the Health Services Unit, then you will not be penalized. The grade AM will be assigned to the courses affected.

- **What can you do if you got sick during an exam and are unable to finish it?**

The Invigilator will take any student complaining of feeling unwell during an examination to the Campus Health Service Unit for assessment. If the case is genuine, you will not be penalized in terms of your GPA. The grade FM will be assigned to the courses affected

- **How does a student request a course override (from Faculty/Department)?**

Overrides must be submitted online. It is the responsibility of the student to check the Banner system to see if their override request has been

approved / denied. Once approved, the student must then register for the said course(s). Please note that the Faculty personnel cannot register a student for a course, this must be done by the student him/herself.

- **How can students who get a late admission offer access academic advising?**

By visiting the Departmental Office under which their programme resides.

- **What do you do if you have a question/issue of a financial nature?**

Please visit the Student Accounts section at the Bursary where the matter will be sorted out.

- **Can a first year student register for level 2 and level 3 courses as electives?**

Students must seek permission from their Head of Department to do this, and such request will only be granted if the relevant pre-requisites are satisfied.

- **Can students pursue cross faculty majors?**

Yes, but a formal request in writing must be made to the Senior Assistant Registrar, Student Affairs Admissions.

- **If students pursue enough credits in any discipline will they automatically be awarded a Minor in that discipline?**

No, this will not be automatic. The requisite forms must be completed and submitted to the Dean's Office.

- **When is a Minor declared?**

Minors must be declared by the end of the registration period of the student's final semester. To declare a minor the student must complete the required form and submit it to the Dean's Office or send a request via e mail to the Senior Assistant Registrar - Recruitment & Enrollment, Student Affairs (Admissions), Ms. Patricia Brown at patricia.brown@sta.uwi.edu. If this is not done, and if the student does not satisfy the course/credit requirements for the requested Minor, the Minor will not be awarded. For the purposes of this regulation, the end of registration means the "Add/Drop" period.

- **Can a student pursue more than one Minor concurrently?**

Yes. A Minor in the Faculty of Food and Agriculture comprises 15-16 credits. A student pursuing a Major can use the 10 elective courses at level II/III to pursue up to two Minors if so desired.

Will a student who is registered for a Major but who completes the credit requirements for a Special be awarded the Special degree?

Not automatically. For this to happen, a request must be submitted to change from a Major to a

Special. This request must be submitted in writing to the Senior Assistant Registrar, Student Affairs Admissions, usually at the end of the second semester of the second year.

- **What is the process to be followed to pursue and declare a Double Major?**
Student must write to the Senior Assistant Registrar - Recruitment & Enrolment, Student Affairs (Admissions) seeking approval to pursue a Double Major. This request must be submitted prior to the start of the final year of study.
- **How can a student change from one Department/Major after beginning a degree programme?**
To change an option (major), a student must write to the Senior Assistant Registrar, Student Affairs Admissions seeking approval and this must be done during the second semester of his/her first year of study.
- **If a student has a GPA below 2.0 after completing all their degree courses will he/she be awarded a degree?**
No. In order to qualify for the award of a degree a student must:
 - a. have completed a minimum of ninety (93) credits or the required total as stated in Table 3
 - b. have attained a minimum GPA of 2.0 from Level II and III courses.
- **What is a Dean's hold?**
A Dean's hold is placed on a student's record when his/her GPA is below 2.0 in a semester. At this stage the student is placed on a Warning for the next semester.
- **What does a student do if he/she is placed on a warning?**
A student is placed on Warning when their GPA is below 2.0. To remove the Dean's hold the student must visit the Dean's Office to be advised and then the hold is removed to permit registration.
- **What is RTW status?**
A student is placed on RTW status after two consecutive semesters of GPA below 2.0. A student on RTW status must stay out of the University system for one academic year and then apply for re-entry to the University (the application period is normally November to January for Full-time students and January to March for Evening University students).
- **When a student returns to Campus after he/she was required to withdraw will their current GPA**

be counted?

If the re-entry student registers for a new programme then the GPA record will start anew. If, on the other hand, the re-entry student continues in the programme he/she was pursuing prior to the RTW then the academic record continues.

- **What are students' options if they are required to withdraw?**
They can seek to meet with the Dean and to outline a plan to improve their academic standing. A decision will then be made as to whether the RTW can be deferred for a semester.
- **How does the GPA affect GATE coverage for tuition?**
A student with an OVERALL GPA of less than 2.0 will not be eligible for GATE. If the student brings the GPA up to 2.0 after Semester I, they can seek to get GATE approval for Semester II.
- **Are there circumstances in which a pre-requisite can be waived?**
Only in compelling circumstances and only the Dean can approve such a request.
- **How does a student apply for an exemption based on courses completed at another institution of higher learning?**
A student must complete the requisite Credit and Exemptions application form and attach the relevant course outlines from the institution where credits were attained. This request must be submitted to the Senior Assistant Registrar, Student Affairs Admissions.
- **What is the difference between a consultation and a remarking of an examination script?**
A consultation is a review of the script by the Examiner/Lecturer with the candidate. Consultations are only permitted to students who have failed the course. In the case of a remarking, the script is remarked by a new examiner. Marks can be changed (either up or down) and the new mark awarded becomes the final mark.
- **What steps must be taken to request a consultation or a remarking of an examination script?**
 1. A student who is dissatisfied with the results of his/her examination should report his/her dissatisfaction in writing to the Campus Registrar. Such a report must be made within two weeks of publication of results, and in the case of the Supplemental/Summer School or resit

- examinations within five days of the publication of results.
2. The Campus Registrar shall forward the student's request to the Dean of the Faculty concerned.
 3. Only students who have failed a course may request consultation to go through his/her script with the Examiner; (utilizing an approved electronic teleconferencing system if necessary)
 4. Students may request to have their scripts remarked. A student who wishes to have his/her script remarked must pay a fee of Bds\$125.00 or J\$2000.00 or TT\$375.00, or US\$62.50 (according to campus) to have his/her script re-marked by a new Examiner.
 5. Where re-marking of a script results in a higher mark than that previously recorded, the fee shall be refunded provided that the increased mark results in a change of grade.
- **If students pursue a foreign language that is not required for their degree at the Centre for Language and Learning (CLL) can they get credit for it to count toward their degree credits?**
Yes, but only to satisfy elective course requirements.
 - **Will Foundation courses affect a student's GPA?**
From the 2014/2015 academic year students will be awarded grades for their Foundation courses and these will be included in the calculation of the cumulative GPA in addition to the semester GPA, which determines academic standing (Warning, RTW and Good Standing), and subsequently GATE status.
 - **How many co-curricular courses/credits are students permitted to register for during their degree programmes?**
A student can pursue a maximum of 3 co-curricular credits.
 - **Do co-curricular courses/credits count towards degree requirements?**
Co-curricular courses credits can be used to meet Level I credit requirements.
 - **What co-curricular courses are offered?**
To learn more about the Co-Curricular Programme at the St. Augustine Campus and to see the list of courses currently offered, visit <https://sta.uwi.edu/cocurricular/>
 - **How can you determine if you are on the right track in satisfying your degree requirements?**
Complete the Degree Audit form at the Dean's Office and see an advisor.
 - **Where can students access their time table for each semester and for final examinations?**
Semester timetables are available on the UWI website. Final examinations timetables are available in students' "mysta" accounts.
 - **Do Evening students have to pay for summer courses?**
Trinidad and Tobago nationals registered in the Evening University are covered by GATE for the summer semester.
 - **What is the maximum or minimum number of courses Evening students can register for in a semester?**
Minimum number of courses – 2
Maximum number of courses – 4
 - **Can an Evening student pursue a Double Major?**
Yes. Students must write to the Senior Assistant Registrar - Recruitment & Enrolment, Student Affairs (Admissions) seeking approval to pursue a Double Major. This request must be submitted prior to the start of the final year of study.
 - **Can an Evening student change his/her status of enrolment (e.g. change from evening to day/full time)?**
Yes. Students must write to the Senior Assistant Registrar - Recruitment & Enrolment, Student Affairs (Admissions) seeking approval to change their status from Evening to Fulltime.
 - **Where can students obtain their Faculty handbook?**
Handbooks are available online at <http://sta.uwi.edu/faculty-booklet-archive>
 - **Where can students access their time-table for each semester and for final examinations?**
Semester timetables are available online at <http://www2.sta.uwi.edu/timetable/index1.html> . To access your examination schedule follow the instructions online at <https://sta.uwi.edu/examinations/schedule.asp> .
 - **How long can Evening students take to complete their degrees?**
A maximum of seven and a half years (fifteen semesters and seven summer School sessions)
 - **Can Evening students register for courses outside their Faculty for electives in an Evening programme?**
Yes, but approval by the Dean of the Faculty offering the course must be obtained.

SECTION IV - REGULATIONS GOVERNING THE FFA SUMMER PROGRAMMES

The FFA generally offers remedial courses for students who are repeating laboratory-based and/or non-laboratory-based courses during the summer. The FFA may also offer a limited number of full courses that are non-laboratory-based in the summer for the first time. The maximum number of credits for which a student may register in summer is normally nine (9). In case of students repeating 6 credits courses at level I, the maximum number of credits is 12 (two courses).

1. ELIGIBILITY FOR ADMISSION TO THE SUMMER SCHOOL PROGRAMMES

The following categories of students are eligible for admission to the Summer School Programmes:

- a. Registered students of the University who have to repeat any of the course(s) offered.
- b. Registered students of the University who have not taken the course(s) previously but fall into one of the following categories:-
 - Students of the University who have not yet completed the requirements for the degree, diploma or certificate programme for which they are registered.
 - Registered UWI students from other UWI campuses.
- c. Students of the University who have been granted (a) leave of absence for Semester 1 and/ or 2 preceding the Summer School Programmes, or (b) permission to write "Examinations Only".
- d. Other persons, not students of the University, who are eligible to matriculate at **EITHER** the Normal **OR** Lower Level or as a mature student.

2. APPLICATIONS

Please check the campus website for this information.

3. ATTENDANCE

Minimum attendance of 75% of lectures/tutorials is required.

4. COURSE SELECTION AND REGISTRATION

Persons desirous of pursuing courses in the Faculty's summer programme are required to check the website at

https://sta.uwi.edu/admissions/undergrad/summer_programme.asp or consult the Faculty notice boards and timetables for a list of courses being offered in the Summer School programmes before registering.

5. LATE REGISTRATION

- a. Students may be permitted to register up to the end of the 2nd week of the start of the Summer School session on payment of an additional late registration fee of TT\$150.
- b. In cases where examination results for Semester II are declared after May 31, students may be permitted to register up to the end of the 2nd week from May 31.
- c. Summer School students may apply for a change of registration by no later than the end of the 2nd week of the start of the Summer School session.

6. EXAMINATIONS & COURSE LOADS

- a. Examinations for courses taught in the Summer School shall be conducted in accordance with the University Examination Regulations.
- b. Summer School students shall write the University Examinations appropriate to the course(s) for which they are registered.
- c. Students shall not normally be permitted to register for more than **THREE** one-semester courses (usually 9 credits) in any given Summer School session. Students are advised to check the timetable before registering.
- d. Finalising students may apply, through the Faculty Dean to the Assistant Registrar Student Affairs (Admissions), to do a fourth course.
- e. A student is deemed as finalising if that student has only 3 or 4 courses left to complete the degree/certificate/diploma requirement.
- f. Students who are not in their final year of study may apply for permission to do a fourth course which he/she had failed at a previous sitting i.e. Semester I or Semester II no later than the 1st week of Summer School.
- g. Students may request permission to carry forward coursework marks for courses pursued

in Semester I and/or II to the summer programme.

- h. All requests must be submitted, through the Faculty Dean, to the Assistant Registrar, Student Affairs (Admissions) before the student is allowed to register.

NOTE: REGISTRATION FOR A COURSE OFFERED IN THE SUMMER SCHOOL IMPLIES REGISTRATION FOR THE EXAMINATION OF THAT COURSE.

7. AWARD OF CREDIT/EXEMPTION

- a. Credits for courses successfully completed in the Summer School shall be granted to registered students of the University including those on approved leave of absence.
- b. Persons wishing to pursue a course(s) to be considered as 'Not for Credit' (NFC) must seek approval prior to registering for the course. All such requests must be made, in writing, or on the required form, to the Dean of the Faculty. Students will not subsequently have such credit altered.
- c. Summer School students who have not been offered a place at the University have no automatic right of acceptance into any Faculty of the University.
- d. Persons who are accepted into the University may be granted credit/exemption for courses successfully completed in the Summer School provided that five (5) years have not elapsed since the completion of the relevant course(s).
- e. Students who do not satisfy normal matriculation may not use the credits gained in the Summer School for both matriculation and degree purposes.

8. APPLICATION FOR WITHDRAWAL

- a. Students may withdraw from a course by notifying the Assistant Registrar (Admissions) in writing and copying the respective Faculty's Deans or Summer School coordinator. The student should clearly state the reasons for the withdrawal and complete the required application form for refund where applicable.
- b. Applications for withdrawal from a course must reach the Assistant Registrar (Admissions) no later than two (2) weeks after teaching has begun. Students, who wish to withdraw from a course after the deadline date, must apply to Academic Board, through their respective Faculty Office.

9. REFUND POLICY

- a. A refund penalty is charged as follows:
 - i. No penalty before May 30th, 2017
 - ii. 25% of tuition fees up to June 2, 2017(up to the end the 1st week of teaching).
 - iii. 30% of tuition fees up to June 9, 2017(up to the end of the 2nd week of teaching).

10. PAYMENT OF FEES

- a. Part payment of fees is **NOT** allowed.
- b. Fees must be paid at any branch of Republic Bank Ltd. using the bank deposit slip provided.
- c. Registration in the summer session will carry a non-refundable registration fee.
- d. Courses not dropped by the deadline date will be counted and the student will be billed accordingly.
- e. Late registration fee/late payment penalty includes the registration fee **plus** the late registration fee/late payment penalty.

SECTION VIII – INFORMATION RESOURCES AT THE ALMA JORDAN LIBRARY

A crucial part of your undergraduate training is learning when you need information, what kind of information you need, what information is available as well as how to search for, select and obtain relevant information. Such information literacy skills will equip you well for your assignments, examinations and career.

Our wide-ranging collection spans several subject areas relevant to the Faculty of Food and Agriculture, including Agribusiness management, Agricultural Economics, Agricultural Extension, Aquaculture, Consumer Sciences, Crop Science, Entrepreneurship, Food Service Management, Forestry, Human Ecology, Geography, Livestock Science, Nutrition/Dietetics, Soil Science, and Wildlife.

Aside from holding over 430,000 books, 800 print journal titles, and 55,300 bound journal issues. We offer access to more than 67,000 electronic journals, 35,200 e-books and 252 databases—much of this material is not available freely on the Internet. Online resources can be accessed on and off-campus. Moreover, a sizeable body of regional research may be accessed from maps, newspapers, theses and other materials in the West Indiana and Special Collections Division. The library's Institutional Repository (UWISpace) provides access to abstracts and full texts of UWI theses, as well as publications of our own faculty members.

In addition to providing information resources for teaching and learning, the library provides access to audio-visual, computing, photocopying and printing facilities, as well as access to spaces for individual and group study. Our Reference Service/ Ask-A-Librarian Service can assist you with your research questions and other library related queries. You may attend specialist information literacy training and arrange for consultation sessions that will help you to improve your research and citation skills. Do attend our library orientation sessions and tours at the start of the academic year and throughout, to ensure you are aware of the essential support the library provides for your studies.

We are always willing to assist, and so look forward to you visiting the Science and Agriculture Division, Floor 2 of the

Alma Jordan Library or contacting us by phone, email or using our [Ask-A-Librarian Service](#).

SECTION X - UNIVERSITY REGULATIONS ON PLAGIARISM

Application of these Regulations

- 1 These Regulations apply to the presentation of work by a student for evaluation, whether or not for credit, but do not apply to invigilated written examinations.

Definition of plagiarism

- 2 In these Regulations, “plagiarism” means the unacknowledged and unjustified use of the words, ideas or creations of another, including unjustified unacknowledged quotation and unjustified unattributed borrowing;

“Level 1 plagiarism” means plagiarism which does not meet the definition of Level 2 plagiarism;

“Level 2 plagiarism” means plagiarism undertaken with the intention of passing off as original work by the plagiariser work done by another person or persons.

- 3 What may otherwise meet the definition of plagiarism may be justified for the purposes of Regulation 2 where the particular unacknowledged use of the words, ideas and creations of another is by the standards of the relevant academic discipline a function of part or all of the object of the work for evaluation whether or not for credit, for example:
 - a. The unacknowledged use is required for conformity with presentation standards;
 - b. The task set or undertaken is one of translation of the work of another into a different language or format;
 - c. The task set or undertaken requires producing a result by teamwork for joint credit regardless of the level of individual contribution;
 - d. The task set or undertaken requires extensive adaptation of models within a time period of such brevity as to exclude extensive attribution;
 - e. The task set or undertaken requires the use of an artificial language, such as is the case with computer programming, where the use of unoriginal verbal formulae is essential.
- 4 It is not a justification under Regulations 2 and 3 for the unacknowledged use of the words, ideas and creations of another that the user enjoys the right of use of those words, ideas and creations as a matter of intellectual property.

Other definitions

- 5 In these Regulations,
“Chairman” means the Chairman of the relevant Campus Committee on Examinations;
“Examination Regulations” means the Examination and other forms of Assessment Regulations for First Degrees Associate Degrees Diplomas and Certificates of the University;
“set of facts” means a fact or combination of facts.

Evidence of plagiarism

- 6 In order to constitute evidence of plagiarism under these Regulations, there shall be identified as a minimum the passage or passages in the student’s work which are considered to have been plagiarised and the passage or passages from which the passages in the student’s work are considered to have been taken.

Student Statement on Plagiarism

- 7 When a student submits for examination work under Regulation 1, the student shall sign a statement, in such form as the Campus Registrar may prescribe, that as far as possible the work submitted is free of plagiarism including unattributed quotation or paraphrase of the work of another except where justified under Regulation 3.
- 8 Quotation or paraphrase is attributed for the purpose of Regulation 7 if the writer has indicated using conventions appropriate to the discipline that the work is not the writer’s own.
- 9 The University is not prohibited from proceeding with a charge of plagiarism where there is no statement as prescribed under Regulation 7.

Electronic vetting for plagiarism

- 10 The results of any electronic vetting although capable, where the requirements of Regulation 7 are satisfied, of constituting evidence under these Regulations, are not thereby conclusive of any question as to whether or not plagiarism exists.

Level 1 plagiarism

- 11 In work submitted for examination where the Examiner is satisfied that Level 1 plagiarism has been committed, he/she shall penalise the student by reducing the mark which would have otherwise been awarded taking into account any relevant Faculty regulations.

Level 2 plagiarism

- 12 Where an examiner has evidence of Level 2 plagiarism in the material being examined, that examiner shall report it to the Head of Department or the Dean and may at any time provide the Registrar with a copy of that report. In cases where the

- examiner and the Dean are one and the same, the report shall be referred to the Head of the Department and also to the Campus Registrar.
- 13 Where any other person who in the course of duty sees material being examined which he or she believes is evidence of Level 2 plagiarism that other person may report it to the Head of Department or the Dean and may at any time report it to the Campus Registrar who shall take such action as may be appropriate.
- 14 Where a Dean or Head of Department receives a report either under Regulation 12 or 13, the Dean or Head of Department, as the case may be, shall
- where in concurrence with the report's identification of evidence of Level 2 plagiarism, report the matter to the Campus Registrar; or
 - where not concurring in the identification of evidence of plagiarism, reply to the examiner declining to proceed further on the report; or
 - where concluding that there is evidence of Level 1 plagiarism, reply to the examiner indicating that conclusion and the Examiner shall proceed as under Regulation 11.
- 15 Where a report is made to the Campus Registrar under Regulation 14a or 16, the Campus Registrar shall lay a charge and refer the matter to the Campus Committee on Examinations.
- 16 Where the Campus Registrar receives a report alleging Level 2 plagiarism from the Examiner or any other person except the Dean or Head of Department, the Campus Registrar shall refer the matter to a senior academic to determine whether there is sufficient evidence to ground a charge of plagiarism and where such evidence is found, the Campus Registrar shall proceed as under Regulation 15.
- 17 Where the matter has been referred to the Campus Committee on Examinations pursuant to Regulation 15, the proceedings under these Regulations prevail, over any other disciplinary proceedings within the University initiated against the student based on the same facts and, without prejudice to Regulation 21, any other such disciplinary proceedings shall be stayed, subject to being reopened.
- 18 If the Campus Committee on Examinations is satisfied, after holding a hearing, that the student has committed Level 2 plagiarism, it shall in making a determination on the severity of the penalty take into consideration:
- the circumstances of the particular case;
 - the seniority of the student; and
 - whether this is the first or a repeated incidence of Level 2 plagiarism.
- 19 Where the Campus Committee is of the view that the appropriate penalty for an offence of Level 2 plagiarism is for the student to be:
- awarded a fail mark;
 - excluded from some or all further examinations of the University for such period as it may determine;
 - be dismissed from the University, it shall make such recommendation to the Academic Board.
- Clearance on a charge of Level 2 plagiarism**
- 20 A determination of the Campus Committee on Examinations that Level 2 plagiarism has not been found will be reported to the Campus Registrar who shall refer it to the Examiner and notify the student. Where the Committee has not identified Level 2 but has identified Level 1, it shall be reported to the Campus Registrar who shall refer it to the examiner.
- Level 2 plagiarism: Appeal to the Senate**
- 21 A student may appeal to the Senate from any decision against him or her on a charge of plagiarism made by Academic Board.
- Delegation by Dean or Head of Department**
- 22 The Dean or Head of Department, as the case may be, may generally or in a particular instance delegate that officer's functions under these Regulations.
- Conflict of interest disqualification**
- 23 Any person who has at any time been an examiner of work or been involved in procedures for laying charges in relation to which an issue of plagiarism is being considered under these Regulations shall withdraw from performing any functions under these Regulations other than those of supervisor and examiner.

DEPARTMENT OF FOOD PRODUCTION

BSc Agriculture (Special)

Major in Agricultural Technology

Major in Tropical Landscaping

The Department of Food Production (DFP) offers a three-year BSc Agriculture degree and majors in Agricultural Technology and Tropical Landscaping. The aim of these undergraduate programmes is to offer training of the highest standard in various disciplines of agriculture, agricultural technology and tropical landscaping, with a focus on the acquisition of sound knowledge, relevant competencies and appropriate skills to participating students.

OPTIONS

By introducing areas of focus students are afforded the opportunity to pursue specialisation in an area of interest. This will also enable them to seek employment in the focus area if they choose to do so or prepares them to pursue graduate research programmes. In the short-term, students are provided with only three options in the Department of Food Production (Soil Science and Environment, Crop Science and Production and Livestock Science and Production). To fulfil the requirement for an option, students must accumulate at least 15 credits of courses as prescribed in the relevant sections.

1. SOIL SCIENCE AND ENVIRONMENT OPTION

The selection of courses for this option must include AGSL 3001 and AGSL 3005.

SEMESTER 1

Course Code	Course Title	Credits
AGSL 3010	Geophysical and Environmental Soil Sensing	3
AGSL 3005	West Indian Soils (<i>Compulsory</i>)	3
ENRM 2000	Soil and Land Evaluation	3

SEMESTER 2

Course Code	Course Title	Credits
AGSL 3001	Irrigation and Drainage Technology (<i>Compulsory</i>)	3
AGSL 3101	Agricultural and Environmental Soil Physics	3
AGSL 3102	Science of Composting and Compost Use	3
ENRM 3001	Sustainable Watershed Management	3

2. CROP SCIENCE AND PRODUCTION OPTION

The selection of courses for this option must include AGCP 3011 and AGCP 3200. In addition the selection must include at least one course from AGCP 3102, AGCP 3103 and AGCP 3104 and one from AGCP 3107 and AGCP 3108.

SEMESTER 1

Course Code	Course Title	Credits
AGCP 3011	Major Caribbean Export Crops	3
AGCP 3103	Commercial Floriculture	3
AGCP 3104	Plant Propagation and Nursery Management	3

SEMESTER 2

AGCP 3107	Pest Diagnostics	3
AGCP 3108	Advanced Tropical Crop Protection	3
AGCP 3200	Crop Breeding (<i>Compulsory</i>)	3

3. LIVESTOCK SCIENCE AND PRODUCTION

The selection of courses for this option must include AGLS 3008 and AGLS 3200. Only one of AGLS 3000 and AGLS 3004 should be included in this option.

SEMESTER 1

Course Code	Course Title	Credits
AGLS 2004	Livestock Products Technology	3
AGLS 3000	Poultry Production (Existing)	3
AGLS 3003	Ruminant Production Systems	3

FOUNDATION COURSES

For the **BSc Agriculture**, students are required to enrol for **two foundation courses** (FOUN 1101 and FOUN 1301).

Major in Agricultural Technology

To major in Agricultural Technology students are required to do 32 credits of level II and III courses in addition to compulsory level 1 courses. To obtain a BSc General, students must also do another major, one or two minors or the required number of elective courses in addition to their pre-requisites.

LEVEL: I

SEMESTER: 2

COURSE CODE: AGBU 1002 NOT OFFERED 2016/2017

COURSE TITLE: INTRODUCTION TO AGRO-ENVIRONMENTAL MANAGEMENT

NUMBER OF CREDITS: 4

PREREQUISITES: NONE

COURSE DESCRIPTION: The role and importance of the environment for social development and as a life support system. The nexus between agriculture and the environment. Agro-ecosystems structure and dynamics. Economics of environmental resources: market failure and environmental degradation, externalities and public goods; optimal resource use/extraction and approaches for management of renewable resources.

Concept of the watershed as a management unit: hydrology, soils, natural forest, biodiversity and land use. The impact of agricultural practices on the environment viewed from an ecosystem perspective: deforestation, soil erosion/degradation, flooding, irrigation, loss of biodiversity and climate change. Case studies of impacts related to various agricultural systems: crop and livestock, subsistence and plantation farming, hillside and erodible soils, pesticide and chemical application, irrigated agriculture.

Integration of the concepts and issues discussed in designing sustainable agro-environmental systems for the tropics; focus on small island states. Case studies.

COURSE TITLE: SUSTAINABILITY AND AGO-ECOLOGICAL ESYSTEMS

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: This course provides a basis for the continued interdisciplinary studies that students are expected to be a part of in today's world. The course will combine the disciplines of economics, agriculture, policy analysis and environmental management into one coherent and holistic package based on a sustainability framework to show how these disciplines can be used together to solve pressing problems in achieving sustainable development pathways. AGBU 1003 – Sustainability and Agro-Ecological Systems is a revision of AGBU 1002 – Introduction to Agro-Environmental Management. This course content is designed to provide students with the fundamental philosophies in sustainability and sustainable development as a framework to understand the interaction between agriculture and environment. It looks at the impacts of agriculture on the environment for both crop and livestock production, and also potential tools that can be used in managing environmental problems

COURSE TITLE: MACROECONOMIC FUNDAMENTALS FOR CARIBBEAN AGRICULTURE

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: This course will build on the microeconomic foundation of the behaviour of the consumer and the firm to the establishment of demand and supply for the entire country which includes that of government and the rest of the world. Students would then learn how to measure the progress of the economy, and determine the national income and gross domestic product. Next, the role of monetary and fiscal policy on inflation, unemployment, deficits and economic growth will be studied. And finally the Caribbean economy and agricultural sector will be integrated into the international setting, examining the concepts of free trade and the role of exchange rate. The role of international trade and agriculture as it relates to the economy are clearly articulated.

COURSE TITLE: DEVELOPMENT OF CARIBBEAN AGRICULTURE

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: Development of Caribbean Agriculture is a revision of AGEX 1000 Caribbean Agriculture in Perspective: Evolution, Sociology and Contemporary Issues. This course provides a chronological sequence of major events in Caribbean history that helped to shape modern day agriculture. It deals with the plantation and peasantry systems and the associated period of indentureship. It leads the student to understand how these events led to the structure of the modern day agriculture sector in terms of crops, livestock, fisheries, forestry and value-added agribusiness. The multifunctional role and contribution of the sector to food and nutrition security, livelihoods, the environment and sustainable rural development is discussed in some detail. As of necessity, some sociological concepts including social structure and social stratification, rural/urban characteristics and the issue of gender in Caribbean farming is elaborated. At the close of this course, some modern technological advances in agriculture in various parts of the region are presented mainly for students awareness as these are detailed in future courses.

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

DEPARTMENT RESPONSIBLE: ECONOMICS

COURSE DESCRIPTION: This course provides students to the history of economic thought highlighting some of the key economic issues, which have preoccupied the discipline from its origins. The course also provides an introduction to the basic principles of micro-economic analysis together with the main perspectives on the functioning of the macro-economy. The micro-economic analysis is illustrated by reference to a key export sector in the Caribbean (e.g. oil or bananas). The implications of trends in the latter for the Balance of Payments and macro economy conclude this first semester course.

SEMESTER 2

COURSE CODE: ENRM 1001

**COURSE TITLE: INTRODUCTION TO ENVIRONMENTAL
AND NATURAL RESOURCE MANAGEMENT**

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: This course is designed to provide Environmental and Natural Resource Management students with the philosophies and tools needed to understand the economic and management principles of environmental and natural resource management. It looks at the issues and methods in making decisions about environmental assets especially in the context of sustainable development, poverty alleviation and policy agendas. The necessity and challenges in communicating with stakeholders in the area of participatory management will also be discussed. The course will introduce students to the basics of environmental law and policies implemented across the world, and discuss managing the negative impacts of climate change and pollution. It also develops the application of microeconomic principles and shows how these can be applied to managing the environment and natural resources. Further, relevant environmental issues will be examined to show how the theoretical principles covered in the material will apply to the real world. The course will be delivered in a blended format and examined by an in-course examination, quizzes, and a final examination.

COURSE CODE: ENRM 1004

COURSE TITLE: ECOLOGY AND MICROBIOLOGY

NUMBER OF CREDITS: 3

PRE-REQUISITES: NONE

COURSE DESCRIPTION: The course on Ecology and Microbiology is comprised of two components. The ecology component will deal with the scientific approaches to studying ecology, the physical conditions and the availability of resources, physiological adaptation and the distribution of species, qualitative sampling of vegetation in a field, ecology of populations, species interaction, communities and ecosystems, habitat degradation and conservation. From an ecological perspective, microorganisms are the major biological agents that drive biogeochemical cycles of nature. Microbiology is the study of organisms of microscopic size, including bacteria, protozoa, viruses, and fungi which affect every aspect of life on Earth. The microbiology component is concerned with the physiology, metabolic diversity of microorganisms, biochemistry, and genetic engineering, their primary habitat types, ecology and uses of bacteria, fungi and viruses. This course will be examined by two in-course examinations, field and laboratory practicals and an end of semester exam.

COURSE DESCRIPTION: The course reviews the process of soil formation and highlights the roles of soil forming factors on the properties of the soil profile. The relationship between soil properties and ecology of soils is discussed. A review of the many methods of surveying is conducted and remote sensing systems such as satellite imagery and aerial photography are described. The application of GIS is discussed as a management tool in data processing. Techniques for conducting land surveys are described and the various land evaluation systems are reviewed. This course will be delivered via lectures and examined by an in-course test, a project report and a final examination.

COURSE DESCRIPTION: Animal species of importance in the Neo-tropics with the exception of the turkey (*Melagris gallapavo*) and the Muscovy duck (*Cairina moschata*) are introduced. The focus on neo-tropical animal biodiversity and management in this course is necessary to sustainably evaluate, conserve and utilize indigenous species. Neo-tropical animal wildlife resources and management is a unique course which combines geography, physio-geography and culture to identify and manage neo-tropical animal biodiversity. Through this course, students will be exposed to a diverse range of neo-tropical animals and innovative sustainable management strategies. Some Neotropical animal species like the leather back turtle will be used to demonstrate the importance of conservation management. This course will be delivered by means of lectures, slides and videos, and also seek to enhance student participation via discussions on key issues. Students will be examined based on field trip reports, the slide session and questionnaire, project presentations, project write-up and a final examination.

SEMESTER: 1

COURSE CODE: ENRM 3000

COURSE TITLE: NATURAL RESOURCE ECONOMICS AND ASSESSMENT

NUMBER OF CREDITS: 3

PRE-REQUISITES: ENRM 1001 AND ENRM 1002

COURSE DESCRIPTION: Human beings now face the challenge of sustainable development, as the world's population is increasing rapidly, and per-capita demands for goods and services are increasing, while in most cases, per-capita supply of natural resources is declining. Environmental and natural resource economics seeks to understand the relationship between man, the economy and the natural environment, especially in terms of the flow of waste into the environment, and how that affects the availability of natural resources for now and in the future. Social justice issues will also be considered. This course explores the role of prices in decision making by individuals, and shows how economic theory can be applied to solve existing and emerging environmental and natural resource problems. Students will also be introduced to the fundamentals of environmental impact assessment. This course will also show the potential role of the individual, firm, region or country in exacerbating environmental problems, and the possible solutions that may be applied to overcome these problems. This information will be useful for environmental managers in different positions, as a government policy maker, or as a manager in a private firm or non-governmental institution. This course will be delivered in a blended format and examined by project, in-course examination and final examination.

COURSE DESCRIPTION: The Sustainable Watershed Management (SWM) course is designed to equip students with the principles of managing human impacts on watersheds and water resources. It is also aimed at providing students with an understanding of the interrelationships among key elements within a watershed; land-use, soil, water and people including social justice issues. The course adopts an interdisciplinary approach intended to prepare students for problem solving at the watershed scale with the relevant knowledge of engineering, biology, hydrology, physics and chemistry. This course will be delivered through lectures and discussion of case studies. The concepts will be explained and relevant problems related to the concepts solved in class. Students are encouraged to participate in class work by contributing to in-class discussions and by asking and answering questions. The course will be examined by a field trip report, a group project report and a final exam.

NUMBER OF CREDITS: 3

PRE-REQUISITES: ENRM 1002

COURSE DESCRIPTION: The course highlights the most significant aspects of climate change dynamics with emphasis on local and regional implications for sustainable management of primarily biological resources at a national and international level. Basic principles of climatology and atmospheric dynamics will be presented and the greenhouse effect will be discussed. Sources of greenhouse gases (GHG) and contributions to total emissions will be discussed along with recommendations on mitigation strategies to reduce their emissions. The vulnerability of the agricultural sector, the forests and water resources sectors to climate change will be addressed and their potential adaptation strategies discussed. The socio-economic factors impacting on the implementation of mitigation and adaptation strategies to climate change will be discussed and the evolution of climate change related international laws and treaties will be reviewed. This course will be delivered via lectures and examined by an in-course test, a project report and a final examination

**COURSE TITLE: ENVIRONMENTAL AND NATURAL
RESOURCE LAW**

NUMBER OF CREDITS: 3

PRE-REQUISITES: ENRM 1001

COURSE DESCRIPTION: The course is designed to examine the methods by which the law has sought to place limits on human activity having adverse impacts on the environment. In particular, the course explores the evolution from common law control to regulatory means established primarily by statute, with particular reference to environmental laws in force and decided cases in Commonwealth Caribbean countries. Unlike other areas of common law, like the law of contracts and torts that have developed over hundreds of years, environmental and natural resource law is a relatively new area that only developed in the 1960s and has since expanded and developed into a comprehensive body of laws focused on sustainable development and a wide variety of actions that lead towards the protection of the environment. The environment does not recognise man-made borders and without strong, coordinated and multifaceted action by various stakeholders the environment may become unable to sustain human life. At the least, future generations will suffer deprivation and may suffer irreparable harm unless current patterns of production, consumption and waste management are dramatically altered and proper legal and regulatory framework are in place to regulate the environment. This course is designed to facilitate learning the legal information and relevant material on environment and natural resource law in the Commonwealth Caribbean. It provides an overview to the general body of environmental law in the Caribbean and winsome instances, the international legal framework will be highlighted. This course will provide students at UWI with an outline of the approach taken by law makers internationally and in the Caribbean region towards developing and implementing environmental and natural resource law.

COURSE TITLE: INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE MANAGEMENT

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: This course is designed to provide Environmental and Natural Resource Management students with the philosophies and tools needed to understand the economic and management principles of environmental and natural resource management. It looks at the issues and methods in making decisions about environmental assets especially in the context of sustainable development, poverty alleviation and policy agendas. The necessity and challenges in communicating with stakeholders in the area of participatory management will also be discussed. The course will introduce students to the basics of environmental law and policies implemented across the world, and discuss managing the negative impacts of climate change and pollution. It also develops the application of microeconomic principles and shows how these can be applied to managing the environment and natural resources. Further, relevant environmental issues will be examined to show how the theoretical principles covered in the material will apply to the real world. The course will be delivered in a blended format and examined by an in-course examination, quizzes, and a final examination.

COURSE DESCRIPTION: The course on Ecology and Microbiology is comprised of two components. The ecology component will deal with the scientific approaches to studying ecology, the physical conditions and the availability of resources, physiological adaptation and the distribution of species, qualitative sampling of vegetation in a field, ecology of populations, species interaction, communities and ecosystems, habitat degradation and conservation. From an ecological perspective, microorganisms are the major biological agents that drive biogeochemical cycles of nature. Microbiology is the study of organisms of microscopic size, including bacteria, protozoa, viruses, and fungi which affect every aspect of life on Earth. The microbiology component is concerned with the physiology, metabolic diversity of microorganisms, biochemistry, and genetic engineering, their primary habitat types, ecology and uses of bacteria, fungi and viruses. This course will be examined by two in-course examinations, field and laboratory practicals and an end of semester exam.

The focus on neo-tropical animal biodiversity and management in this course is necessary to sustainably evaluate, conserve and utilize indigenous species. Neo-tropical animal wildlife resources and management is a unique course which combines geography, physio-geography and culture to identify and manage neo-tropical animal biodiversity. Through this course, students will be exposed to a diverse range of neo-tropical animals and innovative sustainable management strategies. Some Neotropical animal species like the leather back turtle will be used to demonstrate the importance of conservation management. This course will be delivered by means of lectures, slides and videos, and also seek to enhance student participation via discussions on key issues. Students will be examined based on field trip reports, the slide session and questionnaire, project presentations, project write-up and a final examination.

COURSE TITLE: NATURAL RESOURCE ECONOMICS AND ASSESSMENT

NUMBER OF CREDITS: 3

PRE-REQUISITES: ENRM 1001 AND ENRM 1002

COURSE DESCRIPTION: Human beings now face the challenge of sustainable development, as the world's population is increasing rapidly, and per-capita demands for goods and services are increasing, while in most cases, per-capita supply of natural resources is declining. Environmental and natural resource economics seeks to understand the relationship between man, the economy and the natural environment, especially in terms of the flow of waste into the environment, and how that affects the availability of natural resources for now and in the future. Social justice issues will also be considered. This course explores the role of prices in decision making by individuals, and shows how economic theory can be applied to solve existing and emerging environmental and natural resource problems. Students will also be introduced to the fundamentals of environmental impact assessment. This course will also show the potential role of the individual, firm, region or country in exacerbating environmental problems, and the possible solutions that may be applied to overcome these problems. This information will be useful for environmental managers in different positions, as a government policy maker, or as a manager in a private firm or non-governmental institution. This course will be delivered in a blended format and examined by project, in-course examination and final examination.

SEMESTER: 1

COURSE CODE: GEOG 1131

COURSE TITLE: HUMAN GEOGRAPHY 1: POPULATION, MIGRATION AND HUMAN SETTLEMENT

NUMBER OF CREDITS: 3

PREREQUISITES: CAPE GEOGRAPHY OR ENVIRONMENTAL SCIENCE OR EQUIVALENT

COURSE DESCRIPTION: This course introduces modern approaches to the study of Population Geography. It examines the human and physical factors determining population distribution and dynamics, theories of population change including Malthusian and neo-Malthusian ideas and the demographic transition theory. It explains the sources of, and problems associated with population statistics, how to measure fertility, mortality and migration and population projection techniques. It also discusses family planning and population control efforts around the world, the status of women and its crucial role in population dynamics, major causes of death around the world including AIDS, the role of migration in population dynamics, culture, population and the environment. The course also introduces historical and contemporary perspectives on urbanization both in the industrialized world and the developing world and reviews theories on the geographical distribution of human settlement.

COURSE DESCRIPTION: The course introduces modern approaches to Economic Geography. It examines economic development and globalization as key elements in understanding the economic interdependence of countries in the modern world. It introduces basic theories, concepts, methods and techniques for describing, measuring and analyzing patterns of economic and social development. It explains the factors that have contributed to uneven patterns of economic development, including natural resource endowments and the processes of industrialization, technological change and globalization. The study of the economic geography of agriculture and the food industry illustrates many issues arising from the process and outcomes of economic development and globalization. These include the role of agribusiness in food production and food consumption and the impacts of traditional and modern agricultural production systems on the environment. The course explores the geographical dimensions of world hunger and malnutrition in relation to the structure of the world economy and world agriculture, and considers prospects for future agricultural development.

COURSE DESCRIPTION: The course introduces modern approaches to an introduction to geomorphology and soil science. It examines the main geomorphic processes in the context of endogenic and exogenic systems from a global perspective. The first part of the course is an examination and description of endogenic systems and processes. It examines the internal structure of the Earth and explains the geographic patterns of global relief of the solid surface in the context of plate tectonics. The relationship between global tectonics and the patterns and styles of volcanic activity is discussed. The passive control of rock type and geological structure is described in relation to landscape form and process. The second part of the course examines and describes the main exogenic systems and processes. The geographical patterns and types of weathering are discussed and the products of the physical disintegration and chemical decomposition of rocks are examined. The course introduces aspects of soil science from a geographical perspective through an examination of the main soil forming factors, and analysis of soil physical; and chemical processes. Key soil types are described and the several approaches to the classification of soils are examined. Exogenic systems in relation to the main geomorphic agents of water, wind and ice are introduced in the context of fluvial, slope, aeolian, karst, coastal, glacial and periglacial systems. The course provides a solid framework for students to advance to Level II and III courses in geomorphology and landform change.

COURSE DESCRIPTION: This course adopts a modern holistic approach to the study of the Earth system. It introduces climate science and examines the processes operating within the atmosphere and biosphere including general circulation of the atmosphere, ocean-atmosphere interactions and global climate systems. It places particular emphasis on the impacts and consequences of human-environment interactions. Students will gain an understanding of the spatial and temporal variability of these processes on local, regional and global scales. The course will examine the primary causes, both natural and human, and consequences of climate change and the impact of a changing climate for communities both within and outside the Caribbean Region. Particular emphasis is placed on the impacts of climate change on the biosphere as well as their implications for agricultural systems. The course also introduces the study of biogeography, focusing on the geographical features of biodiversity at different geographical scales and reviews ideas about ecosystem processes and vegetation disturbance and succession.

COURSE DESCRIPTION: The course introduces students to the theory and general principles of GIS, and to practical skills and hands-on experience in its use. It teaches the fundamental concepts and basic functions of a GIS, the properties of GIS maps, and the structure of a GIS database. It introduces coordinate systems and map projections, and methods of performing simple vector and raster spatial analysis. In the lab exercises, students will work with ESRI ArcGIS software to visualize geographic data, create maps, query a GIS database, perform spatial analysis using common analysis tools, and solve geographic problems using a systematic approach. The course comprises of lectures and practicals. Lectures introduce some of the theory behind GIS, and give an overview of some of the methods. In the practicals, students use GIS software for a range of tasks, using a range of data sources.

COURSE DESCRIPTION: GEOMORPHOLOGY

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1231 & GEOG 1232) OR GEOG 1900

NOT AVAILABLE TO STUDENTS CREDITED WITH GEOG 2002

COURSE DESCRIPTION: The course builds on the first year physical geography courses and examines modern approaches to the analysis and interpretation of geomorphic processes and landforms. It examines the main geomorphic processes and provides an in-depth examination of geomorphology in tropical settings. The first part of the course is an examination of sedimentary dynamics and their variation in time and space. In depth analysis of weathering, mass movement, fluvial, aeolian and coastal processes follows, with an emphasis on these processes in the tropical realm. Detailed consideration is given to the relationship between surface materials and landforms, and the measurement of features in the field and from remote sensed sources. There is a strong practical component. You are expected to be proficient at techniques studied in year 1, such as the use of Google Earth.

COURSE DESCRIPTION: The course aims to provide some basic knowledge of key aspects of the history and philosophy of geographical enquiry, and to provide the theoretical and practical skills required to develop and conduct a research project in geography. These aims are achieved through providing training in the application of geographical research methods and techniques, data collection, data and statistical analysis, and the technical presentation of results. The course includes how to define a research topic, how to identify relevant literature, how to prepare a research proposal, and how to present data. Practical classes and assignments will equip students with the skills to conduct qualitative and quantitative research. By the end of the course, students should be familiar with the main conceptual and organizational issues that they will face in conducting research projects.

COURSE DESCRIPTION: GEOGRAPHIES OF FOOD

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901

NOT available to students credited with GEOG 2006

COURSE DESCRIPTION: An understanding of the political economic, socio-cultural and environmental factors that influence the pathways of food is essential for economic geographers, perhaps especially for those interested in the Caribbean and other plantation-based societies. The course aims to provide a framework for the analysis of geographic factors which influence the location and distribution of agricultural activity and food marketing and consumption, with specific reference to the tropics. A key issue will be the role of historical, political economic and socio-cultural factors as geographic variables in agricultural production, marketing and consumption in the Caribbean region. The course will provide a holistic view of agricultural and rural history and development, which will complement other geography courses which offer a Caribbean focus. The course is divided into three parts. Part I covers the political economy of food in the Caribbean, as shaped by earlier patterns of plantation economies. Part II offers several case studies of food, politics, economy, history and culture in the Caribbean, including a discussion of dependencies on the International Monetary Fund (Jamaica) and agroecological shifts in Cuba. The final part of the course shifts to ideological and environmental implications of the global food regime.

COURSE DESCRIPTION: INTRODUCTION TO URBAN GEOGRAPHY

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901

NOT available to students credited with GEOG 2007

COURSE DESCRIPTION: Introduction to Urban Geography provides students with: the foundation of concepts, terms, and themes essential to the study of advanced Urban Geography; opportunities to recognize and investigate the complexity of city forms and city life; and the space to reflect critically on the seeming neutrality of the built urban form and processes. You will develop both a theoretical understanding of how urban processes shape your everyday social worlds as well as practical knowledge of what you can do to shape your urban environment. Although this course mainly uses North American and British-derived frameworks and case-studies, students are encouraged to apply a Caribbean lens to frameworks and theories, to consider the limitations of contemporary urban theory from a predominantly "global north" perspective, and to re-imagine and re-theorize from local and regional perspectives and contexts. There will be opportunities throughout the course for you to interrogate "the urban", explore issues and examine solutions, and to consider critically the applicability of theories and concepts to the "global south" generally, and the Republic of Trinidad and Tobago particularly.

COURSE DESCRIPTION: This course focuses on strategic and political implications of ongoing trends in global political and economic arenas including conflicts over commodities and natural resources such as natural gas, crude oil, gold, bauxite, illegal drugs to quote only a few. GEOG 2017 takes a geographical approach to geopolitics, looking at regional trends. North Atlantic countries' foreign policies and BRIC's recent arrival in the global geopolitics game are discussed (focus on world regions, etc.). While the course is globally comprehensive, special attention will be given to current sites of geo-political tension. Maps will be used extensively for both descriptive and analytical purposes.

COURSE DESCRIPTION: PHYSICAL HYDROLOGY

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1231 & GEOG 1232) OR (ENRM 1001 and AGSL 1001)

COURSE DESCRIPTION: This course introduces students to the concepts and principles of physical hydrology. In this course we will examine the movement of water in the hydrologic cycle looking at how precipitation becomes streamflow, evapotranspiration and groundwater at the watershed to regional scale. Topics include: the hydrologic cycle and water balances, precipitation, interception, evapotranspiration energy balances, vadose zone hydrology, groundwater hydrology, streamflow generation, ecohydrology, hydrological modelling, and field measurement and analysis techniques. Where possible, examples from tropical landscapes will be used. Given that hydrology is a quantitative science, assignments involving mathematical calculations and analyses form an important part of this course. The course will be delivered to the students through a combination of interactive lectures, seminars, field trips and laboratory exercises. This course will be assessed by examination, laboratory assignments and presentations. The course can be taken as an elective course by students on either the Geography or Environmental and Natural Resources Management Majors. It links with both GEOG 3111 Natural Hazards and ENRM 3001 Sustainable Watershed Management.

COURSE DESCRIPTION: A geographical understanding of the global political economy requires a thorough comprehension of the way policies and discourses of economic development have affected and are affecting societies and environments at various scales (local, national, regional, global) within and between rich and poor countries. Critical awareness of development processes must also incorporate localized understandings of people-environment interactions, posing 'development' as a contested, social and ecological process rather than an objective economic strategy. The course is organized in three sections, with the first section dealing with general theoretical issues, the second with more detailed theories (of rural development, for example) and the final section with case studies. It fits with the mission of the University

of the West Indies in providing a forum for the development of oral and written knowledge skills and in its focus on alternative approaches to economic and sustainable development. The course also fits well with the goals of the Department of Geography as it develops perspectives on human-environment relations, particularly challenges and opportunities for Small Island Developing (SIDs) countries.

COURSE DESCRIPTION: The course introduces students to the concepts of risk and hazard, and reviews recent theoretical work on human response to hazard and disaster, such as Blaikie's Access and Pressure:Release models and Hewitt's Temporal Sequence model. Using this theoretical background it reviews a range of natural hazards operating of different spatial and temporal scales, including geological (volcanoes, earthquakes), hydrological (floods), climatological (drought, hurricanes) and biological (diseases, epidemics), and examines the possible changes to risk under climate and sociological change. Emphasis throughout is on the use of appropriate technology and social structures to mitigate hazard impact. Delivery of the course is primarily through a series of lectures and seminars, assessed by examination and presentation/essays. COURSE DESCRIPTION: The course introduces students to the theory and principles of environmental remote sensing, the analysis of remote sensing imagery, and its integration with Geographical Information Systems (GIS). The course builds strongly on the second-year course GEOG 2010 Geographical Information Systems, and introduces students to more advanced data handling techniques and spatial analysis methods. Students gain practical skills and hands-on experience in the analysis of remote sensing imagery using open-source GIS software tools. A variety of applications of remote sensing are introduced, including the assessment of vegetation, land degradation, deforestation, desertification and urbanisation. Remote sensing is a key source of data for the environmental sciences and proficiency in its use is regarded as a key skill for a modern geography graduate.

The course requires students to read and respond to academic articles, gray literature and policy documents, and news media. The course also gives students an opportunity to view testimonials and films on forms of migration, and offer critical reviews based on the literature and perspectives of different stakeholders. The first part of the course is an overview of trends, patterns, and theories of migration, while the second part of the course is dedicated to analyses and interpretations of migration processes and experiences..

COURSE TITLE: GEOGRAPHIES OF EQUALITY AND SOCIAL JUSTICE

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901

COURSE DESCRIPTION: The course is designed to provide an advanced understanding of issues introduced in other geography courses offered by UWI, such as relations between discourse, political economy, social justice, borders, space and environment. It draws together elements of theory and practice to present debates about the justice of market-led society, egalitarian and welfare philosophies and their limitations in a world of diversity. The course begins with a discussion of the concept of justice and theories of social justice. Following these discussions, we will examine social justice issues involving such areas as the environment, poverty and hunger, race and ethnicity, gender, sexuality, and disability. The first half of the course introduces mainstream theories of social justice and equality, and considers alternative approaches to economy and society, questioning the viability of such alternatives in a globalized world. The second part questions one's responsibility according to positionality in time and space and in relation to insiders and outsiders. The third part of the course considers the prospects for social and environmental justice from both Western and non-Western perspectives with examples from global and local social movements. The final part uncovers ethical complications of qualitative data collection, particularly the difference between representational and non-representational approaches. The course content and case studies reveal the central contribution that geographers can make to the understanding of equality and social justice in a complex and rapidly changing world.

COURSE DESCRIPTION: This course introduces theories, concepts and methodologies applied in physical and smart growth planning. It develops an appreciation and understanding of the planning environment, i.e. the socioeconomic, environmental, political and cultural context in which processes of planning and development operate. Planning and development issues are often rooted in contested political, social and ecological processes rather than in objective strategies designed to equitably meet the three pillars of sustainability. These contestations often contribute to disparities in development, marginalization of communities, lack of public participation in the planning decision-making process, unsustainable land uses, enhanced vulnerabilities to man-made and natural disasters and environmental degradation. It also explores present and future developments in smart growth planning and the types of issues that may impact on the sustainable growth and development of global environments. The course is organized in three sections, with the first section dealing with the history, philosophy, and general theories of planning. The second section deals with the planning of human settlements, particularly the development of sustainable liveable communities. The third section looks at planning for the 21st century; potential development issues and the prospects for sustainable planning and development.
