HOW TO USE THIS HANDBOOK

The Faculty Handbooks (also known as Faculty Booklets) are available on the Campus website in PDF format at <http://sta.uwi.edu/faculty-booklet-archive>. The Handbooks include:

- Relevant **Faculty Regulations** – e.g., Admission Criteria, Exemptions, Progression, GPA, Leave of Absence, etc.
- Relevant **University Regulations** including the Plagiarism Regulations and Declaration Forms
- Other Information on **Co-Curricular** courses, **Language** courses and **Support for Students** with physical and other disabilities or impairments.
- **Programme Descriptions and Course Listings** which include the list of courses to be pursued in each programme (degrees, diplomas, and certificates), sorted by level and semester; course credits and credits to be completed for each programme – majors, minors, and specials.
- **Course Descriptions** which may include details such as prerequisites and methods of assessment.

Students should note the following:

The Regulations and Syllabuses issued in the Faculty Handbooks should be read in conjunction with the following University Regulations:

- The Undergraduate Regulations and Syllabuses should be read in conjunction with the University Regulations contained in the [Undergraduate Handbook and the University's Assessment Regulations \(with effect from August 2018\)](#) and any subsequent amendments thereof.
- The Postgraduate Regulations and Syllabuses should be read in conjunction with the University Regulations contained on the [Postgraduate Admissions website](#) and the [Board for Graduate Studies and Research Regulations for Graduate Certificates, Diplomas and Degrees \(with effect from August 2018\)](#) and any subsequent amendments thereof.

Progress through a programme of study at the University is governed by Faculty Regulations and University Regulations. Should there be a conflict between Faculty Regulations and University Regulations, University Regulations shall prevail, where appropriate.

ACADEMIC CALENDAR 2021/2022

Get important dates such as the beginning and end of each semester, matriculation, examinations, graduation and ELPT. Also take note of deadlines for the payment of fees, registration, and applications for overrides, leave of absence, admissions, and scholarships & bursaries.

To download the latest calendar, visit <https://sta.uwi.edu/registration/academiccalendar.asp>

LEGAL NOTICE – PROGRAMME & COURSES

1. Notwithstanding the contents of Faculty Handbooks, Course Outlines or any other course materials provided by the University, the University reserves the right at any time to altogether withdraw, alter or modify its programmes or courses and/or vary its modes or methods of teaching, delivery and assessment of its programmes or courses, as deemed necessary in the following circumstances:
 - (a) As a result of any changes imposed by national laws, legislation or governmental regulations or orders made from time to time.
 - (b) In response to the occurrence of a force majeure event, including but not limited to, war (whether declared or not), riots, civil disorder, epidemics, pandemics, quarantines, earthquakes, fire, explosions, storms, floods or other adverse weather conditions, strikes, lockouts or other industrial action, confiscation or any other action or authority by governmental or regulatory agencies or acts of God.
 - (c) In the event of an emergency where there is risk to life and property.
 - (d) Where the exigencies of the circumstances require such action to be taken by the University.
2. Owing to the onset of the COVID-19 pandemic, teaching, delivery and assessment of the University's programmes and courses during Semester I of Academic Year 2021/2022 will be conducted primarily through virtual/online/electronic means. The University reserves the right to extend its virtual/online/electronic modes and methods of teaching, delivery, and assessment into Semester II and "Summer School" of the 2021/2022 Academic year, if deemed necessary.

Where permitted by national laws and regulations, the University may make appropriate arrangements to facilitate on-site teaching and/or conduct of practical components of specific programmes and courses, with such arrangements to follow strict adherence to all relevant COVID-19 Public Health Regulations and Guidelines and the University's Health and Safety protocols and guidelines.

DISCLAIMER – PRIZES & AWARDS

In the case where Faculty/Student Prizes or Awards may be listed, the Faculty does not bind itself to award any or all of the listed prizes/awards contained herein or its stated value and reserves the right to modify or altogether remove certain prizes/awards as described in either or both the electronic and printed versions of the Faculty Handbook.

MESSAGE FROM THE DEAN

On behalf of the staff of the Faculty of Food and Agriculture (FFA), I am honoured and excited to welcome all new and returning students to this 2021/2022 academic year. I know that the preceding year has been quite unprecedented for us all, considering the myriad of unforeseen challenges imposed by the COVID-19 debacle. I am, however, confident that we can continue not only to transcend these challenges but also transform them into innovative opportunities that will enhance our resilience as we progress into a future of possibility.

The FFA has a rich history rooted in regional capacity building and development, that stems as far back as 1921 to the Imperial College of Tropical Agriculture (ICTA). In fact, ICTA served as the foundation for not only the FFA but also The University of the West Indies, St Augustine Campus. Enrolment in the FFA therefore, places you in unparalleled standing, as you are now part of this rich legacy of excellence in teaching, learning, and research. I am confident that each of you will play a pivotal role in the continued success of the faculty.

As you embark on this phase of your academic and professional development, the FFA will be your guide. We will provide you with quality education and training enabling you to be architects of national and regional development, specifically in building modern, resilient food systems for food and nutrition security, while ensuring environmental sustainability and enhancing agro-environmental disaster risk resilience.

You will benefit from a plethora of academic and research expertise that resides in our three distinct but complementary departments namely, the Department of Agricultural Economics and Extension, the Department of Food Production, and the Department of Geography. These departments provide a range of programmes all tailored to suit your needs cognizant of technological advancements as well as national and regional agendas.

From the foregoing, the University and the faculty provide an array of resources that have been designed to support your development and university experience. We aim to mould each of you into model citizens with exceptional academic dexterity. Our focus goes beyond fundamental knowledge-sharing, we aspire to produce critical and creative thinkers, capable of analytical, innovative, entrepreneurial exploits with exemplary communication skills and sound ethical ideologies. To accrue the benefit therein, however, you must scrupulously apply yourself to the rigour of learning and personal development.

The FFA's rules, regulations, procedures, and processes, are contained in this booklet and other UWI resources for your guidance. Our competent staff and departmental offices are there to further elaborate on specific requirements. One of the offices that you should be in close contact with through the duration of your programme, is the office of the Deputy Dean, Teaching, Learning and Student Development, which can be accessed via the Faculty Dean's Office.

The boundary lines for your success have been clearly marked. The restrictions are surmountable. Now fly and create the excellence you want to be! Be bold. Be imaginative. You are destined to be our next leaders, trailblazers, and problem solvers. Together, we will ensure enhanced food and nutrition security, resilient agro-environmental systems, while effectively contributing towards regional sustainable development and climate resilience action.

The FFA stands ready to provide you with the necessary academic and administrative support that will help you navigate with great success and make your experience worthwhile. Have a wonderful, safe, and rewarding 2021/2022 academic year!

Dr Mark Wuddivira
DEAN

OUR VISION

By 2025, the University will be globally recognised as a regionally integrated, innovative, internationally competitive university, deeply rooted in all aspects of Caribbean development, and committed to serving the diverse people of the region and beyond.

MISSION STATEMENT of the Faculty of Food & Agriculture (FFA)

The enduring mission of the faculty is:
To advance agricultural, geographical, food and nutritional and family sciences education and create knowledge through excellence in teaching, research, innovation, public service, intellectual leadership and outreach in order to support the inclusive (social, economic, political, cultural, environmental) development of the Caribbean region and beyond.

GLOSSARY

TERM	DEFINITION
Co-requisite	A pair of courses which must be taken together in order to ensure the attainment of the complementary and/or independent competencies.
Course	A body of knowledge circumscribed by a syllabus to be imparted to students by sundry teaching methods and usually followed by an examination. A course may be either compulsory or elective.
Credit	A measure of the workload required of students. 1 Credit Hour is equivalent to 1 period of lecture per week OR 2 hours of laboratory session per week for a semester.
Discipline	A body of knowledge distinguishable from other such bodies on the basis of criteria, such as method of enquiry, axioms, area of application.
Elective	A course within a programme taken by choice of the student in accordance with rules governing the programme structure.
Exemptions	Exemptions are granted if a student can show successful completion of work at the same or similar level and scope as defined by the course learning outcomes.
Faculty courses	All courses except Foundation and Co-curricular courses
In-faculty courses	All courses originating in the Faculty of Food and Agriculture
Level	A state in a programme for which courses are designed (at UWI it is denoted by the first digit in a course code). For example, AGRI 2001 is a Level II course whereas AGRI 3001 is a Level III course.
Major	A subject area of undergraduate specialisation or focus normally comprising a total of specified number of credits (normally 30-33) including prescribed courses from Level II & III from a single discipline or theme. (see Departmental course listings)
Marginal failure	45% to 49% in the overall examination.
Minor	An area of undergraduate ancillary focus based on a specified number of credits (normally 15 or 16) of prescribed courses from Levels II & III either in a single discipline or theme.
Option	A prescribed combination of Levels I, II and III courses, within a single discipline or theme limited to the Faculty or across Faculties offerings, leading to a degree.
Out-of-faculty Courses	All courses originating in faculties other than the Faculty of Food and Agriculture.
Part	Portion of a programme defined by the regulations governing the programme.
Plagiarism	The unauthorized and/or unacknowledged use of other person's intellectual efforts and creations howsoever recorded, without proper and unequivocal attribution of such source(s), using the conventions for attributions or citing used in this University.
Pre-requisite	A course which must be passed before the course for which it is required may be pursued.
Programme	A selection of courses (designed to achieve pedagogical goals) the taking of which is governed by certain regulations and the satisfactory completion of which (determined by such regulation) makes a candidate eligible for the award of a degree/ diploma/ certificate.
Preliminary Course	A Level 0 course used to satisfy entry requirements but does not contribute towards the requirements for the award of the degree.

Remedial Course	A course that is offered in Summer School only for students who have failed this course during the semester.
Required to withdraw	A student who is required to stay out of the University for a minimum period of 1 year.
Quality Points	Quality points represent numerical values associated with the letter grades obtained in a course. In the UWI system the quality points range from 4.3 assigned to A+ to 0 assigned to F3.
Semester GPA	GPA is credit hour weighted average of quality points earned on courses taken in a semester. In the UWI system, courses graded on pass/fail basis are excluded from its calculation. (The terms Grade Point, GPA, Quality Hours, Honours GPA, Cumulative GPA and Quality Points are defined in the UWI Grade Point Average Regulations Booklet).
Special Option	Each BSc. Special Option comprises of a prescribed set of departmental, inter-departmental FFA or out-of-Faculty courses.
Warning	A student whose GPA for a given semester is less than 1 shall be deemed to be performing unsatisfactorily and shall be placed on warning and a Dean's Hold will be on their record.
Cumulative GPA	Grade point average obtained by a student over the semesters for which grades are available.
STUDENTS:	
Part-Time Student	A part-time student will normally be expected to register for a maximum of 12 credits of courses per semester. Such students normally attend classes scheduled for full-time students.
Full-Time Student	A full-time student will normally be expected to register for a minimum of 13 credits of courses per semester.
Specially Admitted Student	A student admitted to pursue a limited number of courses which would not lead to any form of certification.
Study Abroad/Student Exchange	An exchange programme which allows students to spend one or two semesters at universities abroad to broaden their experience, understanding and perception of agriculture, human ecology or geography in a different environment where a wider range of courses are available, including independent study projects.
Subject	An area of study traditionally assigned to the purview of a department.
Supplementary Oral	An oral examination, offered on recommendation of Departments and Faculty according to regulations, to students who have registered a MARGINAL FAILURE in an advanced course.

GRADE CODE SHEET

The following designations when assigned **SHALL NOT** be used in the calculations of Grade Point Average:

AB	Absent from an examination for acceptable reasons other than medical problem. No penalty.	I	Incomplete
AM/XM	Medical submitted for absence from an examination. No penalty.	IM	Incomplete Medical
AMS	Absent Medical Supplemental	IP	In Progress
CR	Credit	LW	Late Withdrawal
DB	Debarred	NFC	Not for Credit
DEF	Deferred	NP	Not Passed- when a student has failed a course taken on a pass/fail basis
EC	Exemptions with Credit	NR	Not Reported
EQ	Examination Query	P	Pass
EX	Exemption Only	PC	Preliminary Credits
FM	Fail/Medical Submitted	V	Audited
FMP	Failed Minus Penalty	NV	Where a student has been permitted to audit a course but has done so unsatisfactorily
FMS	Failed Medical Supplemental	W	Withdrawal

The following designations when assigned **SHALL** be used in the calculations of Grade Point Average:

DIS	Disqualified	FC	Fail Coursework/Pass Examination
DO	Pass Oral	FE	Fail Examination/Pass Coursework
EI	Examination Irregularity	FO	Fail Oral
F	Fail	FP	Failed Practical
FA	When a student is absent from an examination without a valid reason	FT	Failed Theory
FAS	Failed Absent Supplemental	FWS	Fail/Supplemental Examination granted
		SP	Specialized Degree

SECTION II - GENERAL INFORMATION

A. UNDERGRADUATE PROGRAMMES

The Faculty of Food and Agriculture (FFA) offers very flexible undergraduate programmes creating opportunities for students to pursue curricula that prepare them well for their career choices. The Faculty offers undergraduate programmes leading to the award of Certificates, Diplomas and BSc Degrees:

CERTIFICATES

- Certificate Programmes in Agriculture, Environmental Geography, and Human Ecology are currently being offered. These programmes are meant to prepare graduates for admission to certain degree level programmes in addition to entry level jobs in the related fields.

DIPLOMAS

- Undergraduate Diploma in Agriculture
- Institutional and Community Dietetics and Nutrition (post-baccalaureate/Internship)

BSc SPECIAL OPTIONS

The aim of special options is to provide candidates the choice of focusing on a single discipline or theme.

BSc IN SINGLE OR A COMBINATION OF TWO THE FOLLOWING MAJORS

The BSc is designed to provide the opportunity for candidates to pursue a broad-based curriculum for their undergraduate degree training if they wish to do so.

B. TRANSFER STUDENTS

- (a) Students on transfer between different BSc degree programmes or from other programmes of study within the University may, based on passes already obtained, and on the recommendation of the Departments concerned, be exempted with credits from the relevant course(s) passed.
- (b) A student accepted for entry to a BSc Degree programme with qualifications from another recognized tertiary level institution must complete a minimum of four semesters of full-time study to be awarded a degree from UWI.

C. STUDY ABROAD/EXCHANGE PROGRAMMES

The exchange programme allows students to spend normally, one semester abroad at approved universities in order to broaden their experience, understanding and perception of agriculture, human ecology or geography in a different environment where a wider range of courses is available, including independent study projects.

* see Section XII for additional information.

D. MODE OF DELIVERY

Courses will be delivered in a hybrid mode for this Academic Year (AY). Some courses will combine classroom-based instruction and learning activities with self-directed and/or teacher-directed computer-based instruction and learning activities via Blackboard Collaborative using myeLearning.

SECTION III - FFA REGULATIONS

SUB-SECTION I – INTRODUCTION

A. BSc PROGRAMME OFFERINGS DETAILS

1. The Faculty of Food and Agriculture (FFA) offers the BSc degree upon satisfactory completion of prescribed courses in the following areas:
2. FFA offers the following Bachelor's degrees (the terms Special, Major, Minor, Option, etc., are defined in the Glossary):

BSc DEGREE IS OFFERED IN THE FOLLOWING SPECIAL OPTIONS:

- Agribusiness Management
- Geography
- Human Nutrition and Dietetics

(a) **A BSc Degree with a:**

- single major in a FFA discipline/them
- double major in two disciplines/themes only, one of which may be from a Faculty other than FFA
- single major in the FFA discipline/theme plus one or two minors (from FFA or other Faculties)
- an aggregate degree (with any of the following options) as listed in Table 1.

TABLE 1: FACULTY OF FOOD AND AGRICULTURE: MAJORS AND MINORS

PROGRAMMES	MAJORS	MINORS
Agribusiness	<ul style="list-style-type: none">• Agribusiness	
Agriculture	<ul style="list-style-type: none">• Agricultural Technology• Tropical Landscaping	-
Entrepreneurship	<ul style="list-style-type: none">• Entrepreneurship	Entrepreneur-ship ¹
Agricultural Extension	<ul style="list-style-type: none">• Agricultural Extension*	Communications and Extension
Environment and Natural Resources	<ul style="list-style-type: none">• Environmental & Natural Resource Management	Environmental & Natural Resource Management ²
Geography	<ul style="list-style-type: none">• Geography	-
Human Ecology	<ul style="list-style-type: none">• Family and Consumer Sciences• Foods and Food Service Systems Management• Nutritional Sciences	Sports Nutrition
Note: For more detailed information on options / majors / minors, please refer to the relevant Departmental sections of this booklet.		
¹ Offered for non-Entrepreneurship majors only		
² Offered for non-ENRM majors only		
* Can only be offered if it meets minimum student registration quantity.		

All students admitted to the Faculty of Food and Agriculture to read the programmes listed below are required to register for some relevant courses in the Faculty of Social Sciences. Students should familiarize themselves with the list of cross-faculty prerequisites and equivalences listed in [SECTION VII](#).

- BSc Agribusiness
- BSc Agribusiness Management (SP)
- BSc Entrepreneurship
- Human Ecology programme
- BSc Human Nutrition and Dietetics (SP)

B. TYPE OF COURSES OFFERED AND THEIR WEIGHTING

3. The following type of courses which may consist of both theoretical and/or practical components are offered by the University:
- (a) **FFA FACULTY COURSES:**
These are courses offered by FFA (In-Faculty Courses). Preliminary courses (Level 0) may be used to satisfy matriculation requirements or prerequisites for Level I, II or III courses.
 - (b) **SERVICE COURSES:**
These provide students with basic technical and analytical skills.
 - (c) **OUT-OF-FACULTY COURSES:**
These are courses offered by other Faculties which may contribute towards the requirements for the award of a degree. Approval must be granted by the Dean before a student can pursue an out-of-Faculty course if such course is not part of the candidate's degree programme.
 - (d) **FOUNDATION COURSES:**
 - i. In order to qualify for the award of a BSc degree in the FFA, all students are required to complete a minimum of nine (9) credits of Foundation Courses. These courses are designated as Level I courses and are designed to augment the general education of students and are offered University-wide.
 - ii. All student admitted to FFA to read for undergraduate degree are **normally** required to take the following three Foundation Courses (3 credits each)
 - FOUN 1101* - Caribbean Civilisation
 - FOUN 1105* - Scientific and Technical writing
 - FOUN 1301* - Law, Governance, Economy and Society

*Students are advised to attempt FOUN 1101 and FOUN 1301 by Year 2
*Students are advised to attempt FOUN 1105 by Year 1
 - iii. Students pursuing the BSc Agriculture must take AGRI 1102 instead of FOUN 1105.
 - iv. The Foundation courses will contribute to the cumulative GPA and academic standing of each student.
 - v. On entry into the Faculty, a student may be required to pass the English Language Proficiency Test (ELPT) before he/she can register for FOUN 1105. However, students with the following qualifications can register directly for FOUN 1105:
 - Grade I in CSEC English Language or
 - Grade 1 or 2 in CAPE Communication Studies (or Grade A or B in General Paper in the GCE A-Level Examination).
 - vi. Students admitted to the new BSc Agriculture are not required to do FOUN 1105 since they are required to do AGRI 1102: Critical Thinking, Information Literacy and Communication as a subject matter oriented equivalent and item (v) applies.
4. Courses normally extend over one (1) semester, but in a few cases may extend over two (2) semesters.
5. The weight of a course is expressed in terms of credit hours, and the credit-weighting of a course is determined by the Faculty which administers the courses. In general, a course with one period of lecture per week for one semester has a weighting of one credit.

C. CO-CURRICULAR CREDITS

6. Courses involving independent supervised activities which would earn the student co-curricular credits may be pursued upon approval by the Campus Academic Board.
- i. Students are eligible to register for co-curricular credits after their first semester of studies.
 - ii. Each student is entitled to no more than three (3) co-curricular credits counted towards his/her degree.
 - iii. The programme of co-curricular activities must have the approval of the Faculty and Academic Boards before it is taken by the student.
 - iv. The Deputy Dean with responsibility for Teaching, Learning and Student Development is the Faculty's

Coordinator for the co-curricular programme. Please consult with the Coordinator if you are interested in pursuing co-curricular activities.

- v. Co-curricular credits will be awarded on the following basis:
 - Students must be involved in the activity for at least one (1) semester.
 - Explicit learning outcomes must be identified for each activity.
 - There must be clearly defined mode(s) of assessment for each activity.
- vi. The grading of co-curricular activities will be on a pass/fail basis and will not contribute to a student's GPA.
- vii. The three Level I credits earned for involvement in co-curricular activities may be included as part of the overall general credit requirement for the award of the BSc Degree. However, such credits earned shall **not** be used in the computation of a student's Weighted Grade Point Average for determining the Class of Honours.
- viii. For further details on co-curricular offerings, please consult Deputy Dean (Teaching, Learning and Student Development).

For further information and the list of Co-Curricular courses, see [SECTION V - FREQUENTLY ASKED QUESTIONS \(FAQs\)](#).

D. CRITERIA FOR ELIGIBILITY / GUIDELINES FOR THE OPERATIONS OF DEAN'S HONOURS LIST ACROSS FACULTIES

PREAMBLE STATEMENT

Dean's Honour Rolls or Dean's Lists have been established in several faculties across the St. Augustine campus; each with faculty-specific guidelines and criteria for student's eligibility. Academic Board mandated the Deputy Principals to work with Deputy Deans Student matters or related areas to meet to develop common procedures recognizing that it may be necessary to have some minor differences. It was agreed that where this occurred a clear explanation / justification should be included.

Another principle that guided the discussions was that undergraduate students in all Faculties should have an equal opportunity to be recognized for academic performance / excellence.

OBJECTIVES OF A DEAN'S HONOUR LIST

- To recognize academic excellence
- To motivate students to continuously strive for academic performance

CRITERIA

- Each faculty shall have a uniformly named Dean's Honours List which would recognize the academic excellence / performance of an undergraduate student.
- Undergraduate students across faculties shall be assessed each semester for their academic excellence / performance and eligibility on the Dean's Honours List.
- The qualifying Grade Point Average (GPA) shall be 3.6, for eligibility for the Dean's Honours List across faculties.
- The minimum credit (Full Time students) for eligibility on the Dean's Honours List shall be 15 credits per semester.
- The minimum credit (Part Time students) for eligibility on the Dean's Honours List shall be 12 credits per semester.
- Students with Failed Medicals (FM) would not be eligible/qualify for recognition on the Dean's Honours List.
- Students with repeat courses should be considered for recognition on the Dean's Honours List.
- Students with pending Disciplinary Action/Hearing may be considered for recognition on the Dean's Honours List but would be removed from the list if they are found culpable.
- Registered students with disabilities must meet the qualifying GPA of 3.6. They would however be eligible on completion of 12 credits in the semester.

SUB-SECTION II – UWI/FACULTY REGULATIONS

All students of the University are subject to the University Regulations approved by the Senate of the UWI. Where there is conflict between the regulations of any Faculty and the University Regulations, the University Regulations shall apply.

E. QUALIFICATIONS FOR ADMISSION INTO THE FACULTY

- To be admitted to the undergraduate degree programmes, candidates must satisfy the University requirements for Matriculation (see the University Regulations for Undergraduate Students) AND have passed the CSEC General Proficiency Level examination at Grades I, II or, since 1998, Grade III (or equivalent qualifications) in Mathematics, English Language and three additional subjects.
- Candidates must also:
 - have obtained passes in a minimum of two -Unit subjects at CAPE (or GCE A-Level or equivalent), **or**
 - have obtained an Associate Degree or equivalent certification (or equivalent qualification) in a relevant programme from a tertiary level institution recognised by UWI, **or**
 - have any other appropriate qualifications acceptable to the FFA.
- To be admitted to the Diploma in Institutional and Community Nutrition and Dietetics, candidates must have successfully completed:
 - A Bachelor's Degree (no more than 5 years prior to application) with majors in Clinical (Human) Nutrition, Foodservice Systems Management, and Community Nutrition from an accredited Tertiary Level Institution.
 - Applicants who do not qualify for entry as specified at 14 (a) above may be required to pursue qualifying courses at the University, to a minimum of 18 credits.
 - Selection from suitably qualified applicants will be based on interviews.
- IN ADDITION TO THE ABOVE GENERAL QUALIFICATIONS FOR ADMISSION, CANDIDATES MUST SATISFY THE SPECIFIC SUBJECT REQUIREMENTS FOR ENTRY INTO THE VARIOUS FFA PROGRAMMES THEY DESIRE TO PURSUE.**
These are listed in [TABLE 2](#) below:

TABLE 2: CAPE (GCE A-LEVEL OR EQUIVALENT) QUALIFICATION FOR ENTRY INTO VARIOUS FFA PROGRAMMES

PROGRAMME	CAPE SUBJECT(S) (GCE A-LEVEL OR EQUIVALENT) REQUIREMENT
BSc with majors in:	
Agribusiness	<ul style="list-style-type: none">2 CAPE subjects (Units I & II) or 'A' Level equivalent, ORThe Undergraduate Diploma in Agriculture, ORThe Certificate in Agriculture, ORCertificate in Human Ecology ORCertificate in Environmental Geography ORAn approved Associate Degree with a minimum GPA of 2.5
Agricultural Technology	<ul style="list-style-type: none">2 CAPE subjects (Units I & II) or 'A' Level equivalent, and a pass in any science subject at CSEC level, ORCertificate in Environmental Geography, ORAn approved Diploma, Associate Degree or Certificate in Agriculture with a minimum GPA of 2.5.
Agricultural Extension	<ul style="list-style-type: none">2 CAPE subjects (Units I & II) or 'A' equivalent). Preference will be given to those who have attained a pass in one of the following subjects: Agricultural Science, Communication Studies, Environmental Science, Food and Nutrition, Geography, ORHolders of a Diploma or Associate degree in agriculture or related areas with a minimum GPA of 2.5 from a tertiary level institution recognized by the UWI, ORAny other appropriate qualifications acceptable to the FFA

Disaster Risk and Resilience for Agriculture and the Environment	<ul style="list-style-type: none"> • 2 CAPE science subjects • Certificate in Agriculture OR Certificate in Environmental Geography • An approved Associate Degree with a minimum GPA of 2.5 • Special consideration for professionals with > 5 years working experience in any Disaster Risk Management Portfolios.
Entrepreneurship	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, OR • Undergraduate Diploma in Agriculture, OR • Certificate in Agriculture, OR • Certificate in Human Ecology, OR • Certificate in Environmental Geography, OR • An approved Associate Degree with a minimum GPA of 2.5, OR • Any other equivalent qualification.
Environmental & Natural Resource Management	<ul style="list-style-type: none"> • 2 CAPE Science subjects (Units I & II) or 'A' Level equivalent and a pass in Biology/Human & Social Biology/Integrated Science/Agricultural Science at CSEC level, OR • 2 CAPE subjects, one (1) of which must be Environmental Science or Geography or Biology, OR • Certificate in Environmental Geography, OR • Certificate in Agriculture, OR • An approved Associate Degree with a minimum GPA of 2.5
Family and Consumer Sciences	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, OR • Certificate in Human Ecology, OR • An approved Associate Degree with a minimum GPA of 2.5.
Foods and Foodservice Systems Management	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, OR • Certificate in Human Ecology, OR • An approved Associate Degree with a minimum GPA of 2.5
Geography	<ul style="list-style-type: none"> • 2 CAPE Science subjects (Units I & II) or 'A' Level equivalent and a pass in Geography at CSEC (CXC) or GCE O-Level or an approved equivalent, OR • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, one (1) of which must be Geography or Environmental Science normally with a minimum Grade of IV or D, OR • Certificate in Environmental Geography, OR • Certificate in Agriculture, OR • An approved Associate Degree with a minimum GPA of 2.5
Nutritional Sciences	<ul style="list-style-type: none"> • 2 CAPE subjects, and must have passes in CSEC Chemistry and at least one of the following: Biology, Human & Social Biology and Integrated Science • Certificate in Human Ecology, OR • An approved Associate Degree with a minimum GPA of 2.5.
Tropical Landscaping	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, and a pass in any science subject at the CSEC Level. Preference will be given to students with a CSEC Level pass in Visual Communication, OR • An Associate Degree/Diploma in Landscape or Ornamental Horticulture from institutions recognized by The UWI, OR • Undergraduate Diploma in Agriculture (UWI), OR • Undergraduate Certificate in Agriculture, OR • Any other suitable combination of training and experience approved by the Faculty

BSc Degrees	
BSc Agriculture	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, and a pass in any science subject at CSEC level, OR • The Undergraduate Diploma in Agriculture, OR • The Certificate in Agriculture, OR • An approved Diploma or Associate Degree with a minimum GPA of 2.5
BSc Agribusiness Management	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, OR • The Undergraduate Diploma in Agriculture, OR • The Certificate in Agriculture, OR • Certificate in Human Ecology OR • Certificate in Environmental Geography OR • An approved Associate Degree with a minimum GPA of 2.5
BSc Human Ecology	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, OR • Certificate in Human Ecology, OR • An approved Associate Degree with a minimum GPA of 2.5
BSc Human Nutrition and Dietetics	<ul style="list-style-type: none"> • 2 CAPE subjects (Units I & II) or 'A' Level equivalent, and have passes in CSEC Chemistry and at least one of the following: Biology, Human & Social Biology and Integrated Science, OR • Certificate in Human Ecology, OR • An approved Associate Degree with a minimum GPA of 2.5
For a list of approved science CAPE/GCE A-Level subjects, see SECTION VI .	

F. EXEMPTIONS / CREDITS

5. Provided that requirements to Statute 47 are fulfilled, students admitted to the FFA, may be exempted **with or without credits** from Level I and/or Level II courses if they:
 - are holders of degrees from approved universities; **or**
 - have partially fulfilled the requirements of such degrees; **or**
 - are holders of Associate Degrees or Diplomas from approved tertiary level institutions; **or**
 - have transferred from different BSc degree programmes or from other programmes of study within the University

Application for **exemptions** must be made upon entry through the Registry (Admissions).
6. Where **exemptions without credit** are granted, students will be required to pursue alternative courses of equivalent credits as approved by the Head of Department. The following is a list of exemptions and/or credits currently offered by the Faculty:
 - (a) BSC AGRICULTURE, OR AGRICULTURAL TECHNOLOGY MAJOR
 - i. Holders of the ECIAF Diploma in Agriculture, or the CASE Associate Degree in Agriculture or the Sir Arthur Lewis Community College (SALCC) - Associate Degree Graduates in Agriculture admitted into the Faculty will be **exempted with credit** from AGRI 1100 and AGEX 1003 irrespective of their GPA where relevant.
 - ii. In addition, all ECIAF/CASE graduates admitted into the Faculty with a GPA equal to or greater than 2.75 will be granted **exemption with credit** from the following courses:
 - AGBU 1005
 - AGBU 1006
 - AGSL 1001
 - AGRI 1003
 - AGLS 1001
 - AGRI 1016 and
 - AGEX 2001.

In such cases students will be allowed to register for level II/III courses in their first year of admission.

- iii. In addition, all SALCC graduates admitted into the Faculty with a GPA equal to or greater than 2.75 will be granted **exemption with credit** from the following courses:
- AGLS 1001
 - AGBU 1006
 - AGSL 1001
 - AGRI 1016 and
 - AGRI 1010

- iv. *Exemption with Credits* from all Year 1 courses listed hereunder for the graduates of the Undergraduate Diploma in Agriculture (UDA) admitted into the BSc Agriculture.

BSc Agriculture: Core Courses

Semester 1

- AGBU 1005 Introduction to Microeconomics 3
- AGEX 1003 Development of Caribbean Agriculture 3
- AGLS 1001 Anatomy and Physiology of Animals 3
- AGRI 1012 Microbiology 3
- AGSL 1001 Soils and the Environment 3

Semester 2

- AGBU 1006 Macroeconomic Fundamentals for Caribbean Agriculture 3
- AGRI 1003 Mathematics for Scientists 3
- AGRI 1011 Introduction to General Genetics 3
- AGRI 1013 Introduction to Biochemistry 3
- AGRI 1016 Plant Anatomy and Physiology 3
- AGRI 1102 Critical Thinking, Information, Literacy and Communication 3

Summer

- AGRI 1100 Practical Techniques and Tools in Agriculture 4

PLEASE CONSULT WITH THE DEPARTMENT OF FOOD PRODUCTION FOR ADVICE BEFORE REGISTERING.

- v. Students with CAPE (GCE A-Level) Mathematics or equivalent will be **exempted with credit** from AGRI 1003.

(b) HUMAN ECOLOGY AND HUMAN NUTRITION AND DIETETICS PROGRAMMES

- i. Students with **Grades 1 and 2** for **CAPE Chemistry (Units 1 and 2)** or **Grades A and B** for **GCE A-Level Chemistry**; or **N1 Chemistry (CHEM 0100 and CHEM 0200)** or equivalent at UWI will be granted exemption only for:
- AGRI 0103-Agricultural Chemistry
- ii. Students with **Grades 1 and 2** for **CAPE (Units 1 and 2)** or **Grades A and B** for **GCE A-Level** will be granted exemptions with credit in the following subject areas:
- CAPE Pure/Applied Mathematics: AGRI 1003-Mathematics for Scientists
 - CAPE Food and Nutrition: HUEC 1003-Introduction to Nutrition
 - CAPE Accounting: ACCT 1002-Introduction to Financial Accounting
- iii. Associate degree holders from **Trinidad and Tobago Hospitality and Tourism Institute (TTHTI)** with a **GPA of 3.00** and a minimum **Grade of B** in the subjects used to apply for exemptions with credit from the following courses:
- HUEC 2003: FSSM-Organization, Management and Operation
 - HUEC 2004: FSSM-Equipment, Layout and Design
 - HUEC 3002: FSSM-Quantity Foods
 - HUEC 3020: Development of Caribbean Cuisine
- iv. Associate degree holders from the **TTHTI** with a **GPA of 3.00** and a minimum **Grade of B** in the subjects used to apply for exemptions with credit from the following courses:
- HUEC 3023: Practicum (Foods and Foodservice)

G. REGISTRATION

7. (a) A student pursuing a degree in the Faculty may register as a full-time student **or** as a part-time student). A student may apply to change his/her status during the tenure of the degree.
- (b) A student who is in full-time employment may only pursue a degree as a part-time student
- (c) A full-time student is normally expected to register for **a minimum of 15 credits** of Faculty courses per semester.
- (d) A part-time student is normally expected to register for **a maximum of 12 credits** of courses per semester offered under the day programme. Part-time students will **not** be allowed to attend Evening University classes.
8. Students must register for courses that they wish to pursue by the dates prescribed by the Campus Registrar.
9. Changes to the registration (add and drop courses) will only be permitted within the prescribed periods in Semesters I and II. (Please refer to the Campus website and notice boards for actual dates).
- 10.(a) Registration for any course constitutes registration for the associated examination. A student will therefore be deemed to have failed the course if he/she does not attend the examination without having previously been allowed to withdraw from the course or without having tendered evidence of illness at the time of the examination certified by a medical practitioner recognised by The University. In the latter case, the **MEDICAL REPORT MUST REACH THE HEALTH SERVICE UNIT (HSU) no later than SEVEN (7) DAYS after the date of the examination concerned.** Medical Certificate / Report forms are available online at <http://sta.uwi.edu/onlineForMsasp>
- (b) In cases where the medical submitted is for a missed coursework examination, and is approved by the Campus HSU, the candidate shall be granted a make-up examination at a date prescribed by the Head of the relevant department.
- (c) **In cases where the medical submitted for a missed final examination is approved by the Campus HSU, the designation of AM (Absent Medical) will apply.** The designation AM carries no penalty.
11. (a) A student who has passed a course will not be permitted to re-register for that course.

H. GENERAL REQUIREMENTS FOR THE AWARD OF THE DEGREE

12. In order to be eligible for the award of the BSc degree in FFA, candidates must have:
 - i. been in satisfactory attendance for a period equivalent to at least six (6) semesters of full-time study from entry at Level I
 - ii. obtained passes in Levels I, II and III and Foundation Courses amounting to the number of credits shown in [TABLE 3](#)
 - iii. attained a minimum cumulative Grade Point Average (CGPA) of 2.00 effective 2014/15

PLEASE NOTE CAREFULLY THAT THE CREDIT REQUIREMENT FOR THE AWARD OF THE BSC DEGREE VARIES DEPENDING UPON THE PROGRAMME BEING PURSUED ([TABLE 3](#)).

TABLE 3: MINIMUM CREDIT REQUIREMENTS

DEGREE	LEVEL I CREDITS	LEVEL II - III CREDITS	FOUNDATION	TOTAL
BSc with majors /minors	24	60	9	93*
BSc Agriculture	37	71	6	114
BSc Geography (Special)	24	60	9	93
BSc Agribusiness Management (Special)	33	69	9	111
BSc Human Nutrition and Dietetics (Special)	36	64	9	109

* The number of credits required varies depending on the selected combination

13. Students will not be granted credits for the same course offered under different majors/minors. In such cases students will be required to pursue alternate courses which must be approved by the Dean.
14. Exemptions from specific parts of the degree programme may be obtained under the provision of [sub-Section III, F \(List of exemptions\)](#).

I. PROGRESS THROUGH THE PROGRAMME

15. (a) Full-time students admitted to Year 1, are normally expected to register for 15 Level I Faculty credits in addition to two (2) foundation courses equivalent to a maximum of twenty-one (21) credits, per semester.
- (b) Part-time students are expected to register for courses equivalent to a minimum of 6 credits per semester.
- (c) In order to satisfy the minimum requirement for entry to the advanced part of the programme (Level II and III), a student must normally record passes in Level I courses equivalent to a minimum of twenty-four (24) credits of Faculty courses.
- (d) A student who has obtained passes in Level I Faculty courses equivalent to eighteen (18) credits in the first two (2) semesters of full-time study may, on the approval of the Dean, be allowed to register for a **limited number of Level II courses in addition to those courses required to complete Level I requirements**.
- (e) Students who are registered for the BSc Major in Geography, are eligible for transfer to the BSc Geography programme at the end of Level I, if they have achieved an average cumulative GPA of at least 2.8 in their first year geography courses.
16. The maximum number of credits (including those from foundation courses) for which a student may normally register in any semester is as follows:
- (a) In the case of students who have **NOT** satisfied the requirements for completion of the Level I requirements
- twenty-one (21) credits subject to a maximum of eighteen (18) credits from Faculty courses if the student is registered full-time.
 - twelve (12) credits if the student is registered as a part-time student.
- (b) In the case of candidates who have fully satisfied the requirements for completion of the Introductory Part of the programme (i.e., students fully in the Advanced Part of the programme):
- twenty-one (21) credits from Faculty courses.
 - twelve (12) credits if the student is registered part-time.
- (d) **Students are required to complete all LEVEL 1 course requirements within four semesters of entry into the programme of study.**
- (d) Full-time students who require **not more than twenty-four (24) credits** to graduate, have satisfied all Foundation course requirements, and are exempted from laboratory coursework in at least one course, may be allowed to register for twenty-four (24) credits of Faculty courses with written permission from the Dean.

J. DECLARATION OF MAJORS AND MINORS

17. (a) Students are required to register for a major/option upon entry into the Faculty. However, students may request a change in major/option as they progress along their studies. Students desirous of pursuing majors in a Faculty other than FFA must apply for and obtain official approval from that Faculty before they can be admitted into such majors.
- (b) **Students are required to make a final declaration of their proposed major(s)/minor(s)/options by the end of the registration period of the semester in which they are likely to graduate.**
- (c) **Students who have met the requirements for the degree for which they have registered may not register for further courses in pursuit of that degree.**

K. STUDY ABROAD/EXCHANGE PROGRAMMES

18. UWI students, while at exchange universities, will continue to be full-time students of The University of the West Indies. Such students will pay UWI tuition and pursue matching and/or approved courses for credit. Credits earned abroad will be transferred to UWI and applied to regular Faculty degree requirements in accordance with Faculty Regulations **51-53**.
19. (a) FFA students who wish to participate in an exchange programme at an approved institution and desire to have the credits obtained used toward a UWI degree, are required to obtain written approval in advance from the Dean prior to registering for such courses. **Failure to do so may preclude the acceptance of the credits earned at the exchange institution.**

- (b) Students must normally have a minimum Cumulative GPA of 2.5 and have spent at least two semesters of full-time study at UWI to qualify for the Exchange Programme.
- (c) To ensure the transfer of credits, the content of the courses to enrol in the host institution must be vetted and approved in advance by the relevant Department(s) in FFA as being equivalent to the UWI courses and signed off by the Dean. Course outlines and syllabuses must be provided by the student in order to facilitate the evaluation process.
- (d) **ONLY GRADES EARNED AT HOST INSTITUTION AND NOT THE MARKS EARNED SHALL BE TRANSFERRED TO STUDENT'S UWI ACADEMIC RECORDS.**

For further information, see [SECTION XII - STUDENT EXCHANGE & STUDY ABROAD](#).

L. EXAMINATIONS

- 20. To pass a course, a candidate must have satisfied the examiners in the associated examinations. Students who fail to attend at least 75% of classes associated with a course may be debarred from writing the final examinations associated with that course.
- 21. The examination associated with each course shall be conducted mainly by means of a written paper and/or practical exercise, normally taken at the end of the semester in which the candidate has registered for the course concerned. However, oral examination as well as performance in coursework in the form of essays, in-course tests, research papers, projects, or continuous assessment of theoretical and/or practical work may contribute towards the final grade awarded in a course. (Consult individual course outlines and the departments for the specific modes of assessment.)
- 22. When practical papers and/or practical coursework contribute towards an examination, candidates must satisfy the examiners in both the theoretical and practical aspects of the course. Based on performance in the practical part of the course, candidates may, on the recommendation of the Department concerned, be exempted from the practical part of the final examination.
- 23.
 - (a) A student may be granted oral examinations in failed Level II/III courses provided that the student has completed all level I requirements, passed a minimum of 30 levels II/III credits, and has a marginal failing mark of 45 to 49 percent in the course.
 - (b) Students passing such oral examinations will be awarded the minimum pass mark of 50% (Grade C, Quality Point 2.0) and will not have any right of appeal or review of the outcome.
 - (c) Students offered oral examinations may choose to decline the offer.
 - (d) Students must be given at least 2 weeks' notice before the date of the oral examination.
- 24. A candidate who fails the examination associated with a course may be given permission to repeat the course and the examination on a subsequent occasion.
- 25. If that such a candidate has satisfied the examiners in the practical coursework component of the failed course, the candidate may, on the recommendation of the relevant Department, be exempted from the laboratory coursework with the transfer of course work mark.
- 26. Remedial courses in FFA offered as part of the Summer School Programme are considered repeat courses.
- 27. The Academic Board on the recommendation of the Faculty Board concerned may debar a candidate from writing the examination associated with a course, based on attendance of less than 75% at lectures/laboratory classes/tutorials. The designation recorded for such a candidate in that course will be DB (debarred).

M. PLAGIARISM DECLARATION

- 28. A declaration must be made in accordance with the University Regulations on Plagiarism (First Degrees, Diplomas and Certificates) and shall be attached to all work submitted by a student to be assessed as part of, or the entire requirement of the course, other than work submitted in an invigilated examination. By signing this declaration, a student declares that the work submitted is original and that it does not contain any plagiarised material. ([SECTION XIII - Regulations on Plagiarism](#))

N. TIME LIMITS FOR COMPLETION AND ENFORCED WITHDRAWALS

29. (a) A semester grade point average (GPA), based on grades earned on all approved courses for which the student is registered in a semester, will be used as the basis for the determination of his/her academic standing.
 (b) A student whose GPA in any semester is less than 2.00 will be placed on warning for the following semester.
 (c) A student who is on two consecutive warnings will normally be required to withdraw from the Faculty.
 (d) A Dean's hold will be placed on academic record of a student on warning. Such a student will have to seek academic advising through the Office of the Dean before the Dean's hold can be removed. This must be done within the prescribed registration period at the start of the relevant Semester. **Where desirable, a reduced academic load may be recommended and academic action suspended.**
30. For the purposes of Regulation 42 below, any semester in which a student is registered part-time, will be counted as half of a semester of full-time study.
31. (a) Full-time students will normally be required to complete the requirements for the degree in a minimum of six (6) or a maximum of ten (10) semesters of full-time study.
 (b) Students who do not complete the programme within the maximum period stated in Regulation 42 (a) above will normally be required to withdraw from the Faculty at the end of the academic year in which the maximum time limit is reached.
32. If a student has exhausted the maximum period stated in 42(a) above, but still requires more time for the completion of the degree programme:
 (a) passes in courses totalling no more than eight (8) credits, **and/or**:
 (b) passes in Foundation courses only.
Approval would be sought from the Board for Undergraduate Studies for an extension of the period of study by one (1) or two (2) consecutive semesters.
33. For the purposes of Regulation 42(a) above, any semester for which a student has obtained leave of absence from the Faculty shall not be counted.
34. A student from another faculty who is required to withdraw may be allowed to register in the FFA, if, having carefully assessed the circumstances surrounding the withdrawal, it is felt that this is in the best interest of the student's educational goals and that the student satisfies the Faculty's entry requirements.
35. A student who was required to withdraw for reasons of failure to progress may be re-admitted to the Faculty on the following conditions:
 (a) A minimum of **TWO** consecutive semesters has elapsed since the date of withdrawal.
 (b) The Faculty is satisfied that the contributing circumstances for the withdrawal have altered substantially.
 (c) Through the Academic Forgiveness Policy, and at the Dean's discretion, courses may be used as transfer credits
 (d) The maximum number of transfer credits is 30, which would be Level I in accordance with statute 47
 (e) Courses pursued in the UWI Summer School during the period of withdrawal shall be included in all relevant grade point average calculations if the student re-enters the Faculty.
 (f) A student may write to the Dean asking to have the RTW status rescinded
36. (a) A student who was required to withdraw from the Faculty **must reapply for re-entry** by the date prescribed by the Campus Registrar. **THIS MUST BE DONE PRIOR TO THE DEADLINE FOR APPLICATION AS FOLLOWS:**
 (b) A student who is required to withdraw at the end of Semester I of an academic year must reapply by **15th December of the following academic year** for readmission in Semester II of that academic year.
 (c) A student who is required to withdraw at the end of Semester II or summer session of an academic year may reapply **by 30th January of the following academic year** for readmission in Semester I of the next academic year.
 (d) A student will not be admitted before a year has elapsed.
 (e) A student who was re-admitted and then required to withdraw for a second time, will not normally be considered for re-admission again until a minimum period of five years has elapsed.

O. LEAVE OF ABSENCE AND VOLUNTARY WITHDRAWAL

37. (a) A student who wishes to be absent from the Faculty for a semester or more must apply **ONLINE** for Leave of Absence.
 (b) Leave of Absence will not be granted for more than two (2) consecutive semesters in the first instance. However, students may apply for an extension of leave.
 (c) Leave of Absence will not be granted for more than two (2) consecutive years.
 (d) Applications for Leave of Absence should normally be submitted no later than the end of the prescribed change in registration period in the relevant semester.

38. A student who does not register for any course during a semester without having obtained Leave of Absence will be deemed to have voluntarily withdrawn from the Faculty and will have to re-apply for entry into the Faculty if she/he so desires.
39. A student who voluntarily withdraws from the University and then applies for re-admission within five (5) years shall be granted exemption and credit for all courses previously passed unless the Department concerned declares that the material covered in a course has become outdated. All grades previously obtained except those for courses declared outdated shall be used in the determination of the GPA of such a student.

P. GPA AND CLASS OF DEGREE AWARDED

40. (a) All students in the Faculty, irrespective of their date of entry into the Faculty, are subjected to the NEW GPA regulations.
- (b) A cumulative grade point average based on all courses completed and for which quality points have been assigned (excluding preliminary courses, those taken on a pass/fail basis, audited courses and courses designated I or IP), will be calculated and recorded on the student's transcript.
- (c) Honour's Grade Point Average based on grades obtained on relevant **Levels II and III courses**, including all courses in the declared major(s)/minor(s)/option whether passed or failed, will be used for determination of the class of the degree. (See Regulations 52 and 53 for the relationship between marks, Grade Point Average and Class of Honours.)
- (d) First Class Honours, Second Class Honours (Upper and Lower Division), or a Pass degree will be awarded on the basis of the Weighted Grade Point Average (GPA) of all Level II/III courses taken (passed and failed).

Q. GRADING SCHEME FOR ALL STUDENTS

Effective 2014/15 academic year, all undergraduate students in the UWI system will be graded under a new scheme. The details of this scheme are given below in item 52 and grade description is provided for your attention in [SECTION IV](#). Please note that to record a pass on any subject students must attain a minimum mark of 50% which translates to a quality point of 2.0 or a grade of C.

41. The Grading Scheme used in the Faculty of Food & Agriculture is as follows:

MARK	GRADE	QUALITY POINTS
90-100	A+	4.3
80-89	A	4.0
75-79	A-	3.7
70-74	B+	3.3
65-69	B	3.0
60-64	B-	2.7
55-59	C+	2.3
50-54	C	2.0
40-49	F1	1.7
30-39	F2	1.3
0-29	F3	0.0

R. CLASS OF HONOURS

42. A student's class of degree will be based on GPA, which is the Weighted Grade Point Average of all advanced courses (GPA) as follows:

HONOURS	GPA
First	3.60 – 4.3
Upper Second	3.0 – 3.59
Lower Second	2.5 – 2.99
Pass	2.0 – 2.49

S. AEGROTAT DEGREE

43. (a) A candidate who, by virtue of illness, was prevented from attending examinations or part of the examinations associated with one or more Level II/III courses in the year of anticipated graduation may apply to the Board for Undergraduate Studies through the University Registrar for an Aegrotat pass in the course. Such an application will only be granted if all the following conditions are satisfied:
- i. The appropriate Head of Department reports that, based on the candidate's performance during the period preceding the examinations, the candidate was expected to pass the examinations concerned and has satisfactorily completed any associated coursework.
 - ii. The application reaches the University Registrar not later than thirty (30) days after the date of the last paper in the examination concerned.
 - iii. The application is accompanied by a medical certificate attesting to the illness and issued by a medical practitioner recognised for this purpose by the University.
- (b) No grade will be awarded in respect of an Aegrotat pass, and a candidate, having been awarded an Aegrotat pass, will not be allowed to re-enter the examination for the course concerned on a subsequent occasion. An Aegrotat pass may not be used to satisfy a prerequisite for other Level II/III courses.
- (c) A candidate, having satisfactorily completed the degree programme, who includes Aegrotat passes in courses counted for the degree programme, will be eligible for the award of an Aegrotat degree, if both of the following conditions are satisfied:
- i. the courses in which the Aegrotat passes have been granted (and which need to be counted towards the award of the degree) are equivalent to no more than twenty-four (24) credits.
 - ii. no more than sixteen (16) credits mentioned in c (i) above arise from courses making up the candidate's major.
- (d) The Aegrotat degree will be awarded without Honours.

SUB-SECTION III – ACADEMIC FORGIVENESS POLICY

- (a) Academic Forgiveness is normally applied to students who withdraw either voluntarily or because the University required them to withdraw.
- (b) The Guiding Principle is that the integrity of the programme the student is expected to complete must be preserved.
- (c) In the case of (a) above, that is Required to Withdraw (RTW) or Voluntary withdrawal, such students must remain out of the UWI system for a minimum of ONE year, unless they are changing Faculties.
- (d) When students who have been granted academic forgiveness are re-admitted to UWI, the Dean of the Faculty will determine which courses, if any, may be used as transfer credits. The maximum number of transfer credits is 30 credits which would normally be Level 1 in accordance with Statute 47.

SECTION IV – GRADE DEFINITION AND DESCRIPTIONS

GRADE	% RANGE	GRADE POINT	GRADE DEFINITION
A+	90 -100	4.3	Exceptional
GRADE DESCRIPTOR: Demonstrates exceptional performance and achievement in all aspects of the course. Exceptional application of theoretical and technical knowledge that demonstrates achievement of the learning outcomes. Goes beyond the material in the course and displays exceptional aptitude in solving complex issues identified. Achieves the highest level of critical, compelling, coherent and concise argument or solutions within the course			
A	80 – 89	4.0	Outstanding
GRADE DESCRIPTOR: Demonstrates outstanding integration of a full range of appropriate principles, theories, evidence and techniques. Displays innovative and/or insightful responses. Goes beyond the material with outstanding conceptualization which is original, innovative and/or insightful. Applies outstanding critical thinking skills			
A-	75 - 79	3.7	Excellent
GRADE DESCRIPTOR: Demonstrates excellent breadth of knowledge, skills and competencies and presents these in appropriate forms using a wide range of resources. Demonstrates excellent evidence of original thought, strong analytical and critical abilities; excellent organizational, rhetorical and presentational skills.			
B+	70 - 74	3.3	Very Good
GRADE DESCRIPTOR: Demonstrates evidence of very good critical and analytical thinking in most aspects of the course. Very good knowledge that is comprehensive, accurate and relevant. Very good insight into the material and very good use of a range of appropriate resources. Consistently applies very good theoretical and technical knowledge to achieve the desired learning outcomes.			
B	65 - 69	3.0	Good
GRADE DESCRIPTOR: Demonstrates good knowledge, Rhetorical and organizational skills. Good insight into the material and a good use of a range of appropriate resources. Good integration of a range of principles, techniques, theories and evidence.			
B-	60 - 64	2.7	Satisfactory
GRADE DESCRIPTOR: Displays satisfactory evidence of the application of theoretical and technical knowledge to achieve the desired learning outcomes. Demonstrates sound organisational and rhetorical skills.			
C+	55 - 59	2.3	Fair
GRADE DESCRIPTOR: Demonstrates fair breadth and depth of knowledge of main components of the subject. Fair evidence of being able to assemble some of the appropriate principles, theories, evidence and techniques and to apply some critical thinking.			
C	50 - 54	2.0	Acceptable
GRADE DESCRIPTOR: Demonstrates acceptable application of theoretical and technical knowledge to achieve the minimum learning outcomes required in the course. Displays acceptable evidence of critical thinking and the ability to link theory to application.			
F1	–40 -49	1.7	Unsatisfactory
GRADE DESCRIPTOR: Demonstrates unsatisfactory application of theoretical and technical knowledge and understanding of the subject. Displays unsatisfactory ability to put theory into practice, weak theoretical and reflective insight. Unsatisfactory critical thinking, organizational and rhetorical skills.			
F2	–30 - 39	1.3	Weak
GRADE DESCRIPTOR: Weak overall performance with very limited knowledge and understanding of the subject. Little evidence of theoretical and reflective insights. Weak organizational and rhetorical skills.			
F3	0 - 29	0	Poor
GRADE DESCRIPTOR: Overall poor or minimal evidence of knowledge and understanding of the subject. Displays little ability to put theory into practice; lacks theoretical and reflective insights. Incomplete breadth and depth of knowledge on substantive elements of the subject. Little or no evidence of critical engagement with the material. Responses are affected by irrelevant sources of information, poor organizational and rhetorical skills.			

SECTION V - FREQUENTLY ASKED QUESTIONS (FAQs)

FOR FACULTY OF FOOD AND AGRICULTURE STUDENTS

General FAQs for All Undergraduate Students

- **What should you do to obtain special permission to pursue additional courses beyond your maximum as a full time or part time student?**
During the online registration period students can submit a request online to exceed the maximum credit limit. If approval is granted, the courses are added to the student's registration.
- **If a student fails a course and repeats it how does this affect their GPA?**
Failing a course serves to depress one's GPA. You should therefore do all in your powers to avoid failing a course. If the course is repeated and passed, the grade obtained is also used in the calculation of one's GPA.
- **Are students required to attend all their lectures and tutorials within a semester?**
Students who attend less than 75% of lectures or tutorials may be debarred from writing the final examination. Please check the course outline for the courses you are taking to ascertain if this debarment rule will apply.
- **What happens if you get sick before an exam (e.g., midterm & final exams)?**
Have a medical report completed by a doctor and submit it to the Campus' Health Service Unit. If the medical is accepted by the Health Services Unit, then you will not be penalized. The grade AM will be assigned to the courses affected.
- **What can you do if you got sick during an exam and are unable to finish it?**
The Invigilator will take any student complaining of feeling unwell during an examination to the Campus Health Service Unit for assessment. If the case is genuine, you will not be penalized in terms of your GPA. The grade FM will be assigned to the courses affected.
- **How does a student request a course override (from Faculty/Department)?**
Overrides must be submitted online. It is the responsibility of the student to check the Banner system to see if their override request has been approved / denied. Once approved, the student must then register for the said course(s). Please note that the Faculty personnel cannot register a student for a course, this must be done by the student him/herself.
- **How can students who get a late admission offer access academic advising?**
By visiting the Departmental Office under which their programme resides.
- **What do you do if you have a question/issue of a financial nature?**
Please visit the Student Accounts section at the Bursary where the matter will be sorted out.
- **Can a first-year student register for level 2 and level 3 courses as electives?**
Students must seek permission from their Head of Department to do this, and such request will only be granted if the relevant pre-requisites are satisfied.
- **Can students pursue cross faculty majors?**
Yes, but a formal request in writing must be made to the Assistant Registrar, Student Affairs Admissions.
- **If students pursue enough credits in any discipline, will they automatically be awarded a Minor in that discipline?**
No, this will not be automatic. The requisite forms must be completed and submitted to the Dean's Office.
- **When is a Minor declared?**
Minors must be declared by the end of the registration period of the student's final semester. To declare a minor the student must complete the required form and submit it to the Dean's Office or send a request via e mail to the Assistant Registrar - Recruitment & Enrolment, Student Affairs (Admissions), Ms Simone Roberts at simone.roberts@sta.uwi.edu. If this is not done, and if the student does not satisfy the course/credit requirements for the requested Minor, the Minor will not be awarded. For the purposes of this regulation, the end of registration

means the “Add/Drop” period.

- **Can a student pursue more than one Minor concurrently?**
Yes. A Minor in the Faculty of Food and Agriculture comprises 15-16 credits. A student pursuing a Major can use the 10 elective courses at level II/III to pursue up to two Minors if so desired.
- **Will a student who is registered for a Major but who completes the credit requirements for a Special be awarded the Special degree?**
Not automatically. For this to happen, a request must be submitted to change from a Major to a Special. This request must be submitted in writing to the Assistant Registrar, Student Affairs Admissions, usually at the end of the second semester of the second year.
- **What is the process to be followed to pursue and declare a Double Major?**
Student must write to the Assistant Registrar - Recruitment & Enrolment, Student Affairs (Admissions) seeking approval to pursue a Double Major. This request must be submitted prior to the start of the final year of study.
- **How can a student change from one Department/Major after beginning a degree programme?**
To change an option (major), a student must write to the Assistant Registrar, Student Affairs Admissions seeking approval and this must be done during the second semester of his/her first year of study.
- **If a student has a GPA below 2.0 after completing all their degree courses, will he/she be awarded a degree?**
No. To qualify for the award of a degree a student must:
 - a. have completed a minimum of ninety (93) credits or the required total as stated in Table 3
 - b. have attained a minimum GPA of 2.0 from Level II and III courses.
- **What is a Dean's hold?**
A Dean's hold is placed on a student's record when his/her GPA is below 2.0 in a semester. At this stage the student is placed on a Warning for the next semester.
- **What does a student do if he/she is placed on a warning?**
A student is placed on Warning when their GPA is below 2.0. To remove the Dean's hold the student must visit the Dean's Office to be advised and then the hold is removed to permit registration.
- **What is RTW status?**
A student is placed on RTW status after two consecutive semesters of GPA below 2.0. A student on RTW status must stay out of the University system for one academic year and then apply for re-entry to the University (the application period is normally November to January for Full-time students and January to March for Evening University students).
- **When a student returns to Campus after he/she was required to withdraw will their current GPA be counted?**
If the re-entry student registers for a new programme, then the GPA record will start anew. If, on the other hand, the re-entry student continues in the programme he/she was pursuing prior to the RTW then the academic record continues.
- **What are students' options if they are required to withdraw?**
They can seek to meet with the Dean and to outline a plan to improve their academic standing. A decision will then be made as to whether the RTW can be deferred for a semester.
- **How does the GPA affect GATE coverage for tuition?**
A student with an OVERALL GPA of less than 2.0 will not be eligible for GATE. If the student brings the GPA up to 2.0 after Semester I, they can seek to get GATE approval for Semester II.
- **Are there circumstances in which a pre-requisite can be waived?**
Only in compelling circumstances and only the Dean can approve such a request.
- **How does a student apply for an exemption based on courses completed at another institution of higher learning?**
A student must complete the requisite Credit and Exemptions application form and attach the relevant course outlines from the institution where credits were attained. This request must be submitted to the Assistant Registrar, Student Affairs Admissions.

- **What is the difference between a consultation and a remarking of an examination script?**
A consultation is a review of the script by the Examiner/Lecturer with the candidate. Consultations are only permitted to students who have failed the course. In the case of a remarking, the script is remarked by a new examiner. Marks can be changed (either up or down) and the new mark awarded becomes the final mark.
- **What steps must be taken to request a consultation or a remarking of an examination script?**
 1. A student who is dissatisfied with the results of his/her examination should report his/her dissatisfaction in writing to the Campus Registrar. Such a report must be made within two weeks of publication of results, and in the case of the Supplemental/Summer School or resit examinations within five days of the publication of results.
 2. The Campus Registrar shall forward the student's request to the Dean of the Faculty concerned.
 3. Only students who have failed a course may request consultation to go through his/her script with the Examiner; (utilizing an approved electronic teleconferencing system if necessary)
 4. Students may request to have their scripts remarked. A student who wishes to have his/her script remarked must pay a fee of Bds\$125.00 or J\$2000.00 or TT\$375.00, or US\$62.50 (according to campus) to have his/her script re-marked by a new Examiner.
 5. Where re-marking of a script results in a higher mark than that previously recorded, the fee shall be refunded provided that the increased mark results in a change of grade.
- **If students pursue a foreign language that is not required for their degree at the Centre for Language and Learning (CLL) can they get credit for it to count toward their degree credits?**
Yes, but only to satisfy elective course requirements.
- **Will Foundation courses affect a student's GPA?**
From the 2014/2015 academic year students will be awarded grades for their Foundation courses and these will be included in the calculation of the cumulative GPA in addition to the semester GPA, which determines academic standing (Warning, RTW and Good Standing), and subsequently GATE status.
- **How many co-curricular courses/credits are students permitted to register for during their degree programmes?**
A student can pursue a maximum of 3 co-curricular credits.
- **Do co-curricular courses/credits count towards degree requirements?**
Co-curricular courses credits can be used to meet Level I credit requirements.
- **What co-curricular courses are offered?**
The following co-curricular courses are available*:

LEVEL 1

Course Code	Course Title	Credits
COCR 1000	Study Skills	
COCR 1001	Minding SPEC: Exploring Sports, Physical Education and Health & Wellness	3
COCR 1012	Workplace Protocol for Students	3
COCR 1013	Financial Literacy and Training	3
COCR 1030	Technology Literacy	3
COCR 1033	Mind the Gap: Towards Psychological Health & Wellness	1
COCR 1034	Public Speaking and Voice Training: Towards a More Confident You	3
COCR 1036	Ethics and Integrity: Building Moral Competencies	3
COCR 1045	Foreign Language Theatre in Performance	2
COCR 1039	First Aid, CPR, AED	2
COCR 1046	Meditation and Holistic Health	
COCR 1047	Defensive Driving (Simulation)	1
COCR 1050	The Basics of Steelpan	2

Microsoft Office

COCR 1040	Microsoft Access 2016	2
COCR 1041	Microsoft Excel 2016	2
COCR 1042	Microsoft PowerPoint 2016	2
COCR 1043	Microsoft Word 2016	2
COCR 1048	Microsoft Excel Expert 2019	
COCR 1049	Introduction to the Microsoft 365 Productivity Cloud	

***NOTE:** All co-curricular course codes begin with COCR. Visit <http://sta.uwi.edu/cocurricular/> for course descriptions, availability and registration instructions. New courses are to be introduced so keep checking the website for updates during the academic year.

- **How can you determine if you are on the right track in satisfying your degree requirements?**
Complete the Degree Audit form at the Dean's Office and see an advisor.
- **Where can students access their timetable for each semester and for final examinations?**
Semester timetables are available on the UWI website. Final examinations timetables are available in students' "mysta" accounts.
- **Where can students obtain their Faculty handbook?**
Handbooks are available online at <http://sta.uwi.edu/faculty-booklet-archive>
- **Where can students access their timetable for each semester and for final examinations?**
Semester timetables are available online at <http://www2.sta.uwi.edu/timetable/index1.html> . To access your examination schedule, follow the instructions online at <https://sta.uwi.edu/examinations/schedule.asp> .

SECTION VI - REGULATIONS GOVERNING THE FFA SUMMER PROGRAMMES

The FFA generally offers remedial courses for students who are repeating laboratory-based and/or non-laboratory-based courses during the summer. The FFA may also offer a limited number of full courses that are non-laboratory-based in the summer for the first time. The maximum number of credits for which a student may register in summer is normally nine (9). In case of students repeating 6 credit courses at level I, the maximum number of credits is 12 (two courses).

1. **ELIGIBILITY FOR ADMISSION TO THE SUMMER SCHOOL PROGRAMMES**

The following categories of students are eligible for admission to the Summer School Programmes:

- a. Registered students of the University who must repeat any of the course(s) offered.
- b. Registered students of the University who have not taken the course(s) previously but fall into one of the following categories:-
 - Students of the University who have not yet completed the requirements for the degree, diploma or certificate programme for which they are registered.
 - Registered UWI students from other UWI campuses.
- c. Students of the University who have been granted (a) leave of absence for Semester 1 and/ or 2 preceding the Summer School Programmes, or (b) permission to write "Examinations Only".
- d. Other persons, not students of the University, who are eligible to matriculate at **EITHER** the Normal **OR** Lower Level or as a mature student.

2. **APPLICATIONS**

Please check the campus website for this information.

3. **ATTENDANCE**

Minimum attendance of 75% of lectures/tutorials is required.

4. **COURSE SELECTION AND REGISTRATION**

Persons desirous of pursuing courses in the Faculty's summer programme are required to check the website at https://sta.uwi.edu/admissions/undergrad/summer_programme.asp or consult the Faculty notice boards and timetables for a list of courses being offered in the Summer School programmes before registering.

5. **LATE REGISTRATION**

- a. Students may be permitted to register up to the end of the 2nd week of the start of the Summer School session on payment of an additional late registration fee of TT\$150.
- b. In cases where examination results for Semester II are declared after May 31, students may be permitted to register up to the end of the 2nd week from May 31.
- c. Summer School students may apply for a change of registration by no later than the end of the 2nd week of the start of the Summer School session.

6. **EXAMINATIONS & COURSE LOADS**

- a. Examinations for courses taught in the Summer School shall be conducted in accordance with the University Examination Regulations.
- b. Summer School students shall write the University Examinations appropriate to the course(s) for which they are registered.
- c. Students shall not normally be permitted to register for more than **THREE** one-semester courses (usually 9 credits) in any given Summer School session. Students are advised to check the timetable before registering.
- d. Finalising students may apply, through the Faculty Dean to the Assistant Registrar Student Affairs (Admissions), to do a fourth course.

- e. A student is deemed as finalising if that student has only 3 or 4 courses left to complete the degree/certificate/diploma requirement.
- f. Students who are not in their final year of study may apply for permission to do a fourth course which he/she had failed at a previous sitting, i.e., Semester I or Semester II no later than the 1st week of Summer School.
- g. Students may request permission to carry forward coursework marks for courses pursued in Semester I and/or II to the summer programme.
- h. All requests must be submitted, through the Faculty Dean, to the Assistant Registrar, Student Affairs (Admissions) before the student is allowed to register.

NOTE: REGISTRATION FOR A COURSE OFFERED IN THE SUMMER SCHOOL IMPLIES REGISTRATION FOR THE EXAMINATION OF THAT COURSE.

7. AWARD OF CREDIT/EXEMPTION

- a. Credits for courses successfully completed in the Summer School shall be granted to registered students of the University including those on approved leave of absence.
- b. Persons wishing to pursue a course(s) to be considered as 'Not for Credit' (NFC) must seek approval prior to registering for the course. All such requests must be made, in writing, or on the required form, to the Dean of the Faculty. Students will not subsequently have such credit altered.
- c. Summer School students who have not been offered a place at the University have no automatic right of acceptance into any Faculty of the University.
- d. Persons who are accepted into the University may be granted credit/exemption for courses successfully completed in the Summer School provided that five (5) years have not elapsed since the completion of the relevant course(s).
- e. Students who do not satisfy normal matriculation may not use the credits gained in the Summer School for both matriculation and degree purposes.

8. APPLICATION FOR WITHDRAWAL

- a. Students may withdraw from a course by notifying the Assistant Registrar (Admissions) in writing and copying the respective Faculty's Deans or Summer School coordinator. The student should clearly state the reasons for the withdrawal and complete the required application form for refund where applicable.
- b. Applications for withdrawal from a course must reach the Assistant Registrar (Admissions) no later than two (2) weeks after teaching has begun. Students, who wish to withdraw from a course after the deadline date, must apply to Academic Board, through their respective Faculty Office.

9. REFUND POLICY

Students will be granted a refund of tuition fees for the relevant semester based on the time frame in which applications for LOA (Leave of Absence) or Withdrawal are made in writing to the Faculty. The Campus Refund Policy, including the Refund Schedule is available at <https://sta.uwi.edu/fees/refund-policy>

10. PAYMENT OF FEES

- a. Part payment of fees is **NOT** allowed.
- b. Fees must be paid at any branch of Republic Bank Ltd. using the bank deposit slip provided.
- c. Registration in the summer session will carry a non-refundable registration fee.
- d. Courses not dropped by the deadline date will be counted and the student will be billed accordingly.
- e. Late registration fee/late payment penalty includes the registration fee **plus** the late registration fee/late payment penalty.

SECTION VII - PRIZES

A number of prizes are offered on an annual basis to students in the Faculty based on outstanding academic performance. The following is a list of such prizes. Note that this list is subject to alteration.

FACULTY PRIZES

These prizes are awarded to all First-Class Honour students within the Faculty by the Office of the Dean.

DEPARTMENTAL PRIZES

DEPARTMENT OF AGRICULTURAL ECONOMICS & EXTENSION

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Agribusiness Management: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Human Ecology: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Human Nutrition and Dietetics: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Agribusiness Management: Year II

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Human Ecology:
Year II

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Human Nutrition and Dietetics: Year II

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Entrepreneurship

THE JOE PIRES MEMORIAL PRIZE

(formerly THE CARIBBEAN CHEMICALS & AGENCIES LTD)

Awarded for the best performance in Agricultural Extension: Years II & III

THE DR SUNNEY D. ALEXIS & COLLETTE LEWIS-JAMES MEMORIAL PRIZE

Awarded for the best performance in BSc Human Nutrition and Dietetics: Year III

THE HUMAN NUTRITION & DIETETICS PRIZE

Awarded for the best final year project demonstrating excellence in Human Nutrition & Dietetics: Year III

THE INTER-AMERICAN INSTITUTE FOR COOPERATION ON AGRICULTURE (IICA) AWARD PRIZE

Awarded for the best final year project demonstrating excellence in Agribusiness Management: Year III

THE MARKETING & DISTRIBUTION PRIZE

Awarded for the best performance in Marketing: Year III

THE NUTRITIONAL SCIENCES PRIZE

Awarded for the best performance in the Major in Nutritional Sciences

THE AGRIBUSINESS MAJOR PRIZE

Awarded for best performance for the Major in Agribusiness over Years II and III

THE ALUMNI ASSOCIATION PRIZE

Awarded for the best performance in BSc Human Ecology: Year III

THE ENTREPRENEURSHIP MAJOR PRIZE

Awarded for the best performance for the Major in Entrepreneurship over Years II and III

THE WAYNE GANPAT PRIZE

Awarded for the best final year project demonstrating excellence in Agricultural

DEPARTMENT OF FOOD PRODUCTION

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in the Undergraduate Diploma in Agriculture: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in the BSc Agriculture: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in the BSc Agriculture: Year II

THE PROFESSOR RICHARD A.I. BRATHWAITE PRIZE:

Awarded for the best performance in the BSc Agriculture: Year III

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Agricultural Technology Major: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Agricultural Technology Major: Year II

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Agricultural Technology Major: Year III

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Tropical Landscaping Major: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Tropical Landscaping Major: Year II

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Tropical Landscaping Major: Year III

THE FREDERICK HARDY PRIZE

Awarded to the Part III student who obtains the highest marks in courses taken in Soil Science at the Parts II and III examinations including the Project.

THE PRINCIPAL'S PRIZE

Awarded for the best performance in BSc Agriculture over Years I - III

THE S. NORMAN GIRWAR AWARD FOR EXCELLENCE

An award in honour of the late Mr S. Norman Girwar. Awarded to the academically excellent student for the best final year undergraduate project in the Department of Food Production.

THE W.E. FREEMAN PRIZE

Awarded to the best undergraduate final year project in Cocoa and is a joint Faculty of Food and Agriculture/Faculty of Science and Technology prize.

THE THOMPSON, BADRIE-MAHARAJ & ASSOCIATES ATTORNEYS AT LAW PRIZE

Awarded to the best final year undergraduate project either in microbiology or food safety in the Faculty of Food and Agriculture.

THE GARDEN CLUB OF TRINIDAD AND TOBAGO PRIZE

Awarded to the best practical paper on a Horticulture related topic

TECU CREDIT UNION PRIZE

Awarded for the best performance in Tropical Landscaping Major: Year I

THE PROFESSOR LAWRENCE A. WILSON PRIZE

Awarded for the best undergraduate final year project in post-production technology

THE PROFESSOR GARY WAYNE GARCIA LIVESTOCK PRIZE

Awarded for the best graduating student in Livestock Science

THE AGRICULTURAL DEVELOPMENT BANK PRIZE

Awarded for the best Livestock Project

SPECIAL PRIZES

THE CURRIE MEMORIAL PRIZE

Awarded to the student who excelled in extracurricular activities subject to satisfactory academic performance.

T.P. LECKY AWARD - *Challenge Trophy donated by the Caribbean Agricultural Research and Development Institute (CARDI).*

Awarded for the best performance in all degrees in the Faculty of Food and Agriculture over years I to III

DEPARTMENT OF GEOGRAPHY

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Geography: Year I

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Geography: Year II

CIC INSURANCE BROKERS LTD. PRIZE

Awarded for the best final year Geography Project

THE EXIM BANK PRIZE

Awarded to the best graduating student In Geography

THE HEAD OF DEPARTMENT PRIZE

Awarded for the best performance in Geography: Year III

SECTION IX - APPLY FOR SCHOLARSHIPS AND BURSARIES AT UWI ST. AUGUSTINE

There are more than 350 scholarships and bursaries available to both new and continuing students of the St. Augustine Campus each year. Some scholarships are renewable based on performance and range in value from TT\$5,000 to TT\$30,000 per year. A bursary is held for one academic year and may range in value from TT\$5,000 to TT \$15,000.

Who Can Apply?

Applications to UWI St. Augustine Campus Scholarships & Bursaries are open to all Full-time Undergraduate Degree students ONLY. Each award is based on different criteria which is determined by the donor in collaboration with the UWI. Eligibility criteria may include Academic Merit/Performance, Co/Extra-Curricular activities, and/or Financial Need. Some awards are available to regional students, while others are available to Trinidad & Tobago nationals. Some awards are also based on membership in associations, institutions and residential location.

We encourage all eligible students, particularly those in tight or already difficult financial circumstances, to visit <https://sta.uwi.edu/scholarships/> and download the latest Scholarships and Bursaries booklet, to see if you qualify for any of the opportunities listed.

When to Apply

Continuing students must apply between January – May each year. New students must apply after completing the Registration process in the month of September. Look out for ads in the press or via online platforms for exact deadline dates. Awards are typically disbursed to returning students in October and in November for new students.

For further information, contact:

SECTION X – THE CAMPUS LIBRARIES

THE UNIVERSITY OF THE WEST INDIES ST. AUGUSTINE CAMPUS

The Campus Libraries support the teaching, learning and research activities of The University of the West Indies (UWI), St. Augustine Campus (STA) community. These libraries include:

- The Alma Jordan Library
- The Medical Sciences Library
- The Norman Girvan Library of The Institute of International Relations
- The Republic Bank Library and Information Resource Centre of the Arthur Lok Jack Global School of Business
- The School of Education Library
- The Patience-Theunissen Memorial Library of the Seminary of St. John Vianney & the Uganda Martyrs Theological Institute at Mt St Benedict, and
- The Seismic Research Centre Library.

Resources for Students

Each Library's website (<https://libraries.sta.uwi.edu/>) is the gateway to its comprehensive electronic, print and multimedia information resources. From there, students can access state-of-the-art, scholarly, full-text databases on and off campus. The specialised and constantly updated collections contain information relevant to all faculties, research centres, and institutes on Campus. They currently provide access to:-

- electronic resources: - 259 databases, 84,198 e-journal titles and 62,500 e-books;
- print resources: - over 500,000 books/monographs and 975 journal titles.

Moreover, a sizeable body of Caribbean research may be accessed from maps, microforms, newspapers, theses, photographs, oral history interviews, and over 150 special collections in the West Indiana and Special Collections Division.

Library Services

- traditional loan services
- personal and small group research consultations;
- reference assistance
- inter-library loan/document delivery
- dissertation/thesis checking
- web-based guides
- orientation tours
- year-round Information literacy sessions

Library Facilities

- audio-visual rooms
- computer laboratories
- photocopying and printing
- group study rooms
- areas for quiet study

Research Support

"Ask Us", an online chat service, provides users with immediate responses to questions in real-time with library staff. It is available from the AJL and the Medical Sciences Library websites only during the semester, Monday to Friday, from 10:00 a.m. to 4:00 p.m. Users can also submit queries and find answers in the **Frequently Asked Questions** here: <http://uwi-sta.libanswers.com>

The Institutional Repository, **UWISpace**, (<http://uwispace.sta.uwi.edu/dspace/>) facilitates the collection, preservation and distribution of the scholarly/research output of the University.

UWIScholar (<https://uwischolar.sta.uwi.edu>) is our research information management system designed to aggregate and manage researcher (faculty and students) profiles, and facilitate global networking and expertise discovery.

The Campus Libraries' **Dataverse** platform (<https://dataverse.sta.uwi.edu/>) allows researchers to archive and preserve datasets generated by their research activities.

The Libraries also provide services and software that enable UWI faculty, staff, and students to publish their own subscription and open-access online journals (<https://journals.sta.uwi.edu/>). These journals are published using Open Journals System (OJS), an open-source editorial management and publishing system, which can manage some or all of the stages of the journal publishing process including submissions, peer review, editing, online publishing, and indexing.

The AJL, in collaboration with the St. Augustine Centre for Innovation and Entrepreneurship (STACIE), and the Intellectual Property Office of the Ministry of the Attorney General and Legal Affairs provides an **Intellectual Property Help Desk Service** to help support researchers.

For further information on these resources and services, please refer to your Library's website or contact your Faculty Liaison Librarian:

Ms Joy Smith

Faculty Liaison Librarian (Food and Agriculture & Science and Technology)

Science and Agriculture Division, Floor 2

SECTION XI - STUDENT LIFE AND DEVELOPMENT DEPARTMENT (SLDD)

The SLDD is the first and most important **source** for high quality academic and personal development support.

WHO CAN ACCESS THE SERVICES?

ANY student can access the services through self-referral or referrals by Faculty, Department, friend, family, etc. SLDD caters to the needs of Full-Time, Part-Time, Evening University, Postgraduate, Mature, External, international, regional and Undergraduate students, including student athletes and students with special needs (disabilities). We provide support for **ALL** students in areas such as:

GENERAL ACADEMIC SUPPORT - ALL STUDENTS

- Time management
- Examination strategies
- Workload management
- Study skills - LASSI (Study Skills)
- Peer tutoring
- Educational assessment – LADS (dyslexia)
- Referrals to Counselling

INTERNATIONAL AND REGIONAL STUDENT SUPPORT

- Assistance with Immigration matters.
- Peer pairing
- Liaising with faculties and departments regarding immigration matters

POSTGRADUATE AND MATURE STUDENT SUPPORT

- Financial assistance, peer tutoring, and examination invigilation.
- Referrals for graduate employment.
- Liaising with faculties and departments on postgraduate and mature student matters.

DISABILITY SUPPORT/SPECIAL NEEDS STUDENTS SUPPORT (TEMPORARY AND PERMANENT)

- Provision of aids and devices such as laptops, digital voice recorders, wheelchairs, walking canes and crutches.
- Special accommodations for examinations and Classroom accommodations.
- Liaison with faculties, departments, deans, heads of departments, and lecturers.
- Special parking accommodations- Accessible Parking Permits.
- Student Support Group.
- Assistive Technology Lab at the Alma Jordan Library- special software (JAWS).

No student of The UWI will be discriminated against on the basis of having special needs. Every effort will be made to facilitate your on-campus requirements in terms of mobility, coursework and examinations. Sharing your needs before registration will enable us to serve you better as a member of the Campus Community.

HOW DO I REGISTER AT SLDD?

- Collect a registration form from the SLDD office or download from <https://sta.uwi.edu/dssd/student-life-and-development-department>.
- Complete the registration form and submit to the office or via email to sldd@sta.uwi.edu
- Students with disabilities and medical conditions must submit a medical report from a qualified medical professional.
- Schedule an appointment to meet with the Manager or a Student Support staff member.
- An assessment of the student's needs will be conducted to determine the required service.

For more information or assistance, contact:

Dr Jacqueline Huggins, Manager, SLDD.

Address: Heart Ease Building, Wooding Drive, St. Augustine Campus

Tel: 662-2002 Exts. 83866, 83921, 83923, 84254 OR Direct line 645-7526

Hours: Monday to Friday | 8:30 am- 4:30 pm

SLDD Website: <https://sta.uwi.edu/dssd/student-life-and-development-department>

Facebook: <https://www.facebook.com/UWI-Student-Life-Development-Department-SLDD-948337438614375>

Never hesitate to get in contact with the SLDD at any time!

SECTION XII - STUDENT EXCHANGE & STUDY ABROAD

OFFICE OF INSTITUTIONAL ADVANCEMENT AND INTERNATIONALISATION (OIAI)

The St. Augustine Campus has a range of partnership agreements managed through the International Office, OIAI that facilitates exchanges by UWI students as well as students from our international partners to spend time at each other's campuses. The Office also enables student mobility with institutions where we do not have such formal partnerships.

The UWI Student Exchange programme will allow you to study at one of our many international partners around the world, including in North America, Europe, South America, Africa, Asia and the Caribbean in addition to other UWI Campuses.

This type of international immersion has many educational and personal benefits. Students who have participated in the past have all spoken about the tremendous experiences and learnings not only in the classroom, but also from the people and places that they were able to interact with. They have become more independent in their thinking, self-sufficient and confident. They have also been able to make new friends, learn new languages and experience the world first-hand as true global citizens. A number of options for student exchanges are available to undergraduate and postgraduate students, including:

1. Exchange Students – from one semester to one year duration.
2. Study tours through the “UWI Discover’s” programme – for one to two weeks.
3. Visiting Students – for postgraduate students doing research on invitation by overseas institution.
4. Virtual Exchanges (UWI-VEP) - Our target demographic for virtual exchanges include:
 - For students who could otherwise not afford a semester abroad
 - For students who just wish to enrich their transcript with a few specific external courses from partner universities
 - For students who cannot study abroad because personal commitments

Funding is available to assist students with some of these exchange opportunities.

For further information on funding as well as Student Exchange and Student Mobility, please visit our website: <http://sta.uwi.edu/internationaloffice/> or visit our Facebook Page for the latest news on mobility opportunities at: <https://www.facebook.com/UWIInternationalOffice/>, or contact:

SECTION XIII - UNIVERSITY REGULATIONS ON PLAGIARISM

Application of these Regulations

- 1 These Regulations apply to the presentation of work by a student for evaluation, whether or not for credit, but do not apply to invigilated written examinations.

Definition of plagiarism

- 2 In these Regulations, “plagiarism” means the unacknowledged and unjustified use of the words, ideas or creations of another, including unjustified unacknowledged quotation and unjustified unattributed borrowing;

“Level 1 plagiarism” means plagiarism which does not meet the definition of Level 2 plagiarism;

“Level 2 plagiarism” means plagiarism undertaken with the intention of passing off as original work by the plagiariser work done by another person or persons.

- 3 What may otherwise meet the definition of plagiarism may be justified for the purposes of Regulation 2 where the particular unacknowledged use of the words, ideas and creations of another is by the standards of the relevant academic discipline a function of part or all of the object of the work for evaluation whether or not for credit, for example:
 - a. The unacknowledged use is required for conformity with presentation standards;
 - b. The task set or undertaken is one of translation of the work of another into a different language or format;
 - c. The task set or undertaken requires producing a result by teamwork for joint credit regardless of the level of individual contribution;
 - d. The task set or undertaken requires extensive adaptation of models within a time period of such brevity as to exclude extensive attribution;
 - e. The task set or undertaken requires the use of an artificial language, such as is the case with computer programming, where the use of unoriginal verbal formulae is essential.
- 4 It is not a justification under Regulations 2 and 3 for the unacknowledged use of the words, ideas and creations of another that the user enjoys the right of use of those words, ideas and creations as a matter of intellectual property.

Other definitions

- 5 In these Regulations,
“Chairman” means the Chairman of the relevant Campus Committee on Examinations;
Examination Regulations” means the Examination and other forms of Assessment Regulations for First Degrees Associate Degrees Diplomas and Certificates of the University;
“set of facts” means a fact or combination of facts.

Evidence of plagiarism

- 6 In order to constitute evidence of plagiarism under these Regulations, there shall be identified as a minimum the passage or passages in the student’s work which are considered to have been plagiarised and the passage or passages from which the passages in the student’s work are considered to have been taken.

Student Statement on Plagiarism

- 7 When a student submits for examination work under Regulation 1, the student shall sign a statement, in such form as the Campus Registrar may prescribe, that as far as possible the work submitted is free of plagiarism including unattributed quotation or paraphrase of the work of another except where justified under Regulation 3.
- 8 Quotation or paraphrase is attributed for the purpose of Regulation 7 if the writer has indicated using conventions appropriate to the discipline that the work is not the writer’s own.
- 9 The University is not prohibited from proceeding with a charge of plagiarism where there is no statement as prescribed under Regulation 7.

Electronic vetting for plagiarism

- 10 The results of any electronic vetting although capable, where the requirements of Regulation 7 are satisfied, of constituting evidence under these Regulations, are not thereby conclusive of any question as to whether or not plagiarism exists.

Level 1 plagiarism

- 11 In work submitted for examination where the Examiner is satisfied that Level 1 plagiarism has been committed, he/she shall penalise the student by reducing the mark which would have otherwise been awarded taking into account any relevant Faculty regulations.

Level 2 plagiarism

- 12 Where an examiner has evidence of Level 2 plagiarism in the material being examined, that examiner shall report it to the Head of Department or the Dean and may at any time provide the Registrar with a copy of that report. In cases where the examiner and the Dean are one and the same, the report shall be referred to the Head of the Department and also to the Campus Registrar.
- 13 Where any other person who in the course of duty sees material being examined which he or she believes is evidence of Level 2 plagiarism that other person may report it to the Head of Department or the Dean and may at any time report it to the Campus Registrar who shall take such action as may be appropriate.
- 14 Where a Dean or Head of Department receives a report either under Regulation 12 or 13, the Dean or Head of Department, as the case may be, shall
- where in concurrence with the report's identification of evidence of Level 2 plagiarism, report the matter to the Campus Registrar; or
 - where not concurring in the identification of evidence of plagiarism, reply to the examiner declining to proceed further on the report; or
 - where concluding that there is evidence of Level 1 plagiarism, reply to the examiner indicating that conclusion and the Examiner shall proceed as under Regulation 11.
- 15 Where a report is made to the Campus Registrar under Regulation 14a or 16, the Campus Registrar shall lay a charge and refer the matter to the Campus Committee on Examinations.
- 16 Where the Campus Registrar receives a report alleging Level 2 plagiarism from the Examiner or any other person except the Dean or Head of Department, the Campus Registrar shall refer the matter to a senior academic to determine whether there is sufficient evidence to ground a charge of plagiarism and where such evidence is found, the Campus Registrar shall proceed as under Regulation 15.
- 17 Where the matter has been referred to the Campus Committee on Examinations pursuant to Regulation 15, the proceedings under these Regulations prevail, over any other disciplinary proceedings within the University initiated against the student based on the same facts and, without prejudice to Regulation 21, any other such disciplinary proceedings shall be stayed, subject to being reopened.
- 18 If the Campus Committee on Examinations is satisfied, after holding a hearing, that the student has committed Level 2 plagiarism, it shall in making a determination on the severity of the penalty take into consideration:
- the circumstances of the particular case;
 - the seniority of the student; and
 - whether this is the first or a repeated incidence of Level 2 plagiarism.
- 19 Where the Campus Committee is of the view that the appropriate penalty for an offence of Level 2 plagiarism is for the student to be:
- awarded a fail mark;
 - excluded from some or all further examinations of the University for such period as it may determine;
 - be dismissed from the University,
- it shall make such recommendation to the Academic Board.

Clearance on a charge of Level 2 plagiarism

- 20 A determination of the Campus Committee on Examinations that Level 2 plagiarism has not been found will be reported to the Campus Registrar who shall refer it to the Examiner and notify the student. Where the Committee has not identified Level 2 but has identified Level 1, it shall be reported to the Campus Registrar who shall refer it to the examiner.

Level 2 plagiarism: Appeal to the Senate

- 21 A student may appeal to the Senate from any decision against him or her on a charge of plagiarism made by Academic Board.

Delegation by Dean or Head of Department

- 22 The Dean or Head of Department, as the case may be, may generally or in a particular instance delegate that officer's functions under these Regulations.

Conflict of interest disqualification

- 23 Any person who has at any time been an examiner of work or been involved in procedures for laying charges in relation to which an issue of plagiarism is being considered under these Regulations shall withdraw from performing any functions under these Regulations other than those of supervisor and examiner.

PLAGIARISM DECLARATION

THE UNIVERSITY OF THE WEST INDIES

The Office of the Board for Undergraduate Studies

INDIVIDUAL PLAGIARISM DECLARATION

STUDENT ID:

COURSE TITLE:

COURSE CODE:

TITLE OF ASSIGNMENT:

This declaration is being made in accordance with the **University Regulations on Plagiarism (First Degrees, Diplomas and Certificates)** and must be attached to all work, submitted by a student to be assessed in partial or complete fulfilment of the course requirement(s), other than work submitted in an invigilated examination.

STATEMENT

1. I have read the Plagiarism Regulations as set out in the Faculty or Open Campus Student Handbook and on University websites related to the submission of coursework for assessment.
2. I declare that I understand that plagiarism is a serious academic offence for which the University may impose severe penalties.
3. I declare that the submitted work indicated above is my own work, except where duly acknowledged and referenced and does not contain any plagiarized material.
4. I also declare that this work has not been previously submitted for credit either in its entirety or in part within the UWI or elsewhere. Where work was previously submitted, permission has been granted by my Supervisor/Lecturer/Instructor as reflected by the attached Accountability Statement.
5. I understand that I may be required to submit the work in electronic form and accept that the University may subject the work to a computer-based similarity detection service.

SECTION XIV – DEGREE PROGRAMME OUTLINES

DEPARTMENT OF AGRICULTURAL ECONOMICS AND EXTENSION

BSC SPECIAL, MAJORS & MINORS OFFERED BY THE DEPARTMENT:

A The Agribusiness Programme

1. The BSc Agribusiness Management (sp)
2. BSc
 - a) Major in Agribusiness
 - b) Major in Entrepreneurship
 - c) Minor in Entrepreneurship

B. The Human Ecology Programme

1. BSc Human Nutrition and Dietetics (sp)
2. BSc
 - a) Major in Family and Consumer Sciences
 - b) Major in Nutritional Sciences
 - c) Major in Foods and Foodservice System Management
 - d) Minor in Sports Nutrition
3. Diploma in Institutional and Community Dietetics and Nutrition
4. Certificate in Human Ecology*(See SECTION XVI – CERTIFICATES & DIPLOMAS)

C. The Extension and Communication Programme

1. BSc
 - a) Major in Agricultural Extension*
 - b) Minor in Communication and Extension

*Can only be offered if it meets minimum student registration quantity

A. THE AGRIBUSINESS PROGRAMME

BSc Agribusiness Management (sp)

The BSc Agribusiness Management degree comprises 88 credits of core courses plus 6 credits of electives from the approved list, 4 credits of practical skills, 4 credits of internship and 9 credits of Foundation courses (FOUN 1101, FOUN 1105, FOUN 1301. (Total 111 credits).

NOTE (A):

*Students who intend to pursue an **MSc in Agricultural Economics/Marketing and Agribusiness** are advised that the Elective Course, ECON 2000, Intermediate Microeconomics I, would be an asset.*

BSc Major in Agribusiness

The major comprises 32-34 credits of advanced courses (Levels II & III), distributed according to the following areas of specialisation:

Agribusiness Courses –	20 Credits
Quantitative Courses –	3 Credits
Communication Courses –	3 Credits
Electives –	6 - 8 Credits

Additionally, a total of 23 credits of Level I prerequisites are required as indicated below.

The Major in Agribusiness comprises:

- All Courses in Section A (Core Courses) and
- At least six (6) credits from courses listed in Section B (Electives).

Students must also ensure that they satisfy prerequisite requirements as listed below.

Course Code	Course Title	Credits
HUEC 5050	Community Nutrition Practicum	8

NOTE (a):

1. One credit hour is equivalent to one (1) lecture hour or five (5) practicum hours per week for the duration of a semester.
2. For the practicum courses HUEC 5010, HUEC 5030, HUEC 5050, in-course assignments will contribute 100% to the total marks for the course.

NOTE (b): Enforced Withdrawal and Resits

1. Candidates who fail four (4) or more courses will be required to withdraw from the programme.
2. Candidates who fail no more than two (2) courses may be allowed to register for those courses as a final attempt.

NOTE I: Requirements for Graduation

1. The Diploma in Institutional and Community Dietetics and Nutrition will be awarded on successful completion of all courses.
2. The Diploma will be awarded with distinction to candidates with a GPA of 3.60 and above.

C. EXTENSION PROGRAMME

BSc Major in Agricultural Extension*

This major is designed to provide competencies to students who wish to pursue a career in extension. The requirements for the Major in Agricultural Extension are 47 credit hours (16 credits from Level 1 and 31 credits from Levels 2 & 3)

*Can only be offered if it meets minimum student registration quantity.

DEPARTMENT OF FOOD PRODUCTION

Programmes offered by the Department:

1. **BSc Agriculture**
2. **BSc**
 - a) **Major in Agricultural Technology** (*not offered 2021/2022*)
 - b) **Major in Disaster Risk Resilience for Agriculture and the Environment** (*not offered 2021/2022*)
3. **Undergraduate Diploma in Agriculture**
4. **Certificate in Agriculture**

The Department of Food Production (DFP) offers a three-year BSc Agriculture degree and majors in Agricultural Technology, **Disaster Risk Resilience for Agriculture and the Environment** and Tropical Landscaping. The aim of these undergraduate programmes is to offer training of the highest standard in various disciplines of agriculture, agricultural technology and tropical landscaping, with a focus on the acquisition of sound knowledge, relevant competencies and appropriate skills to participating students.

* See list of options below. Availability based on registration figures.

OPTIONS

By introducing areas of focus students are afforded the opportunity to pursue courses in an area of interest. This will also enable them to seek employment in the focus area if they choose to do so or prepares them to pursue graduate research programmes. In the short-term, students are provided with three options in the Department of Food Production (Soil Science and Environment, Crop Science and Production and Livestock Science and Production). To fulfil the requirement for an option, students must accumulate at least 15 credits of courses as prescribed in the relevant sections. **It is not compulsory for students to choose any specific option as they can choose to pursue courses from the 3 options to accumulate the 15 credits.**

2. SOIL SCIENCE AND ENVIRONMENT OPTION

The selection of courses for this option must include AGSL 3001 and AGSL 3005.

SEMESTER 1

Course Code	Course Title	Credits
AGSL 3005	West Indian Soils	3
AGSL 3010	Geophysical and Environmental Soil Sensing	4
ENRM 2000	Soil and Land Evaluation	3

SEMESTER 2

Course Code	Course Title	Credits
AGSL 3001	Irrigation and Drainage Technology	3
AGSL 3101	Agricultural and Environmental Soil Physics	3
AGSL 3102	Science of Composting and Compost Use	3
ENRM 3001	Sustainable Watershed Management	3

3. CROP SCIENCE AND PRODUCTION OPTION

The selection of courses for this option must include AGCP 3011 and AGCP 3200. In addition, the selection must include at least one course from AGCP 3102, AGCP 3103 and AGCP 3104 and one from AGCP 3107 and AGCP 3108.

SEMESTER 1

Course Code	Course Title	Credits
AGCP 3011	Major Caribbean Export Crops	3
AGCP 3103	Commercial Floriculture	3
AGCP 3104	Plant Propagation and Nursery Management	3
HORT 2002	Tropical Landscaping Plant Identification	3

SEMESTER 2

Course Code	Course Title	Credits
AGCP 3101	Sustainable Vegetable Production	3
AGCP 3102	Sustainable Fruit Crop Production	3
AGCP 3105	Ecophysiology of Tropical Field and Horticultural Crops	3
AGCP 3106	Organic Agriculture	3
AGCP 3107	Pest Diagnostics	3
AGCP 3108	Advanced Tropical Crop Protection	3
AGCP 3200	Crop Breeding	3

4. LIVESTOCK SCIENCE AND PRODUCTION OPTION

The selection of courses for this option must include AGLS 3008 and AGLS 3200. Only one of AGLS 3000 and AGLS 3004 should be included in this option.

SEMESTER 1

Course Code	Course Title	Credits
AGLS 2004	Livestock Products Technology	3
AGLS 3000	Poultry Production	3
AGLS 3003	Ruminant Production Systems	3
AGLS 3008	Applied Animal Physiology	3
AGLS 3103	Tropical Forage Production and Utilization	3

SEMESTER 2

Course Code	Course Title	Credits
AGLS 3004	Non-Ruminant Production Systems	3
AGLS 3102	Applied Animal Nutrition	3
AGLS 3200	Animal Breeding	3
ENRM 2003	Wildlife Resources and Management	3

FOUNDATION COURSES

For the **BSc Agriculture**, students are required to enrol in **two foundation courses** (FOUN 1101 and FOUN 1301).

BSc Major in Agricultural Technology*

**Not offered for 2021/2022*

To major in Agricultural Technology, students are required to do 32 credits of level II and III courses in addition to compulsory level 1 courses. To obtain a BSc Major Degree, students must also do another major, one or two minors or the required number of elective courses in addition to their pre-requisites.

COURSE LISTING

LEVEL I

SEMESTER 1

Course Code	Course Title	Credits
AGLS 1001	Anatomy and Physiology of Animals	3
AGRI 1012	Microbiology	3

	Elective Course	3
Total Credits		6

LEVEL II/III**SEMESTER 2**

Course Code	Course Title	Credits
AGCP 3012	Tropical Food Crops	3
AGSL 3001	Irrigation and Drainage Technology	3
	Elective course	3
Total Credits		9

**NOTE: Students who are pursuing the double major in Agricultural Technology and Environment and Natural Resources are to choose only ENRM 1004 Ecology and Microbiology and not AGRI 1012 Microbiology.*

ELECTIVES

The following are general electives offered by the Department of Food Production. These courses are offered subject to a minimum enrolment and the necessary pre-requisites.

SEMESTER 1

Course Code	Course Title	Credits
AGCP 3103	Commercial Floriculture	3
AGCP 3104	Plant Propagation and Nursery Management	3
AGLS 2004	Livestock Products Technology	3
AGLS 3000*	Poultry Production	3
AGSL 3010	Geophysical and Environmental Soil Sensing	4
ENRM 2000	Soil and Land Evaluation	3
HORT 2002	Tropical Landscape Plant Identification	3

SEMESTER 2

Course Code	Course Title	Credits
AGCP 3101	Sustainable Vegetable Production	3
AGLS 3004*	Non-Ruminant Production Systems	3
AGSL 3102	Science of Composting and Compost Use	3
ENRM 3001	Sustainable Watershed Management	3

* Only one of AGLS 3000 and AGLS 3004 must be selected

BSc Major in Disaster Risk and Resilience in Agriculture and the Environment*

**Not offered for 2021/2022*

To major in Disaster Risk Resilience for Agriculture and the Environment (DRRAE) students are required to complete 30 credits at the advanced level II/III in addition to compulsory level 1 courses. Students must successfully complete 12 credits of Level 1 courses and a total of 30 credits at the advanced level consisting of 24 credits of core courses and any 6 credits of elective courses.

COURSE LISTING**LEVEL I****SEMESTER 1**

Course Code	Course Title	Credits

PROGRAMME TOTAL**42**

*Students to pursue this course instead of FOUN 1101 – Caribbean Civilization

As in the BSc Agriculture, students in this Major are required to take AGRI 1102 instead of FOUN 1105.

BSc General – Major in Tropical Landscaping*

**Not offered for 2021/2022*

A major in Tropical Landscaping would require successful completion of 15 credits of Level 1 Pre-requisites and a total of 32 credits at the advanced level.

DEPARTMENT OF GEOGRAPHY

Programmes offered by the department:

- **BSc Geography (special)**

Majors:

- **Geography**
- **Environmental and Natural Resource Management**

Minors:

- **Environmental and Natural Resource Management**

Certificate:

- **Entry-Level Certificate in Environmental Geography**

BSc Geography (Special)

Students registered for the BSc (General), Major in Geography, will be eligible for transfer to the BSc Geography programme after successful completion of Level 1 geography courses if they have achieved an average GPA of at least 2.8. A BSc Geography would require successful completion of 12 credits of LEVEL I PREREQUISITES, plus an additional 12 LEVEL I credits and 9 credits of foundation courses. At LEVEL II/III, students must obtain 42 credits of Geography courses (of which, 27 are core), plus an additional 18 credits of approved non-Geography courses.

COURSE LISTING

The structure of the programme is follows:

PREREQUISITE COURSES

LEVEL I

SEMESTER 1

Course Code	Course Title	Credits
GEOG 1131	Human Geography 1: Population, Migration and Settlement	3
GEOG 1231	Earth Environments 1: Geomorphology and Soils	3

ELECTIVE FOR STUDENTS REGISTERED PRIOR TO 2018/2019 ACADEMIC YEAR ONLY

^ CORE COURSE ONLY FOR STUDENTS REGISTERED PRIOR TO 2018/2019 ACADEMIC YEAR

Major in Environmental & Natural Resource Management

This interdisciplinary programme is offered across the FFA and students enrolled in the Major are encouraged to consider complementary Majors within the FFA (e.g. with Geography or Agribusiness). A revised curriculum of the major was introduced in the 2014/15 academic year. A Major in ENRM would require successful completion of 12 credits of LEVEL 1 PREREQUISITES and a total of 30 credits at the advanced level consisting of 24 credits of core courses and any 6 credits of elective courses. Elective courses are subject to necessary prerequisite and can be taken from Level II/III.

COURSE LISTING

SEMESTER 3

Course Code	Course Title	Credits
GEOG 2018*	Geography Residential Field School (Tobago)	3
GEOG 3120*	Geography Residential Field School (International)	3

***NOT OFFERED IN 2021/2022**

NOTE: Students who do not already take one of these courses as part of another Major or Minor programme must select at least one of these courses, **or another approved quantitative course**. Students cannot select both AGBU 2003 and AGRI 2003 as electives.

NOTE 1: where a course is **core** in another Major programme, students doing that Major cannot count that course as an elective for the ENRM programme.

NOTE 2: where a course is an **elective** in another Major programme and is also an elective for the ENRM Major, it may be counted under either programme, but not both.

NOTE 3: students may be permitted to complete an alternative course as an elective, with the approval of the Head, Department of Geography.

Minor in Environmental & Natural Resource Management

A Minor in ENRM requires successful completion of 12 credits of LEVEL 1 PREREQUISITES and a total of 15 credits at the advanced level consisting of 9 credits of core courses and any 6 credits of elective courses. Elective courses are subject to prerequisites and can be taken from Level II/III.

SECTION XV - COURSE DESCRIPTIONS

ALPHABETICAL LISTING BY COURSE CODES

ACCT - ACCOUNTING

LEVEL: I

SEMESTERS: 1 OR 2

COURSE CODE: ACCT 1002

**COURSE TITLE: INTRODUCTION TO
FINANCIAL ACCOUNTING**

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

DEPARTMENT RESPONSIBLE: MANAGEMENT STUDIES

COURSE DESCRIPTION: An introductory course designed for students of accounting and those in other areas of study. It aims at producing a practical and a theoretical understanding of the principles and concepts involved in the preparation of financial statements. Students are exposed to conceptual analytical approach with the aim of improving their critical thinking and communicative skills.

ASSESSMENT:

Coursework	25%
Final Examination	75%

LEVEL: I

SEMESTERS: 1 OR 2

COURSE CODE: ACCT 1003

COURSE TITLE: INTRODUCTION TO COST & MANAGERIAL ACCOUNTING

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

DEPARTMENT RESPONSIBLE: MANAGEMENT STUDIES

COURSE DESCRIPTION: This is an introductory course for students of accounting as well as other areas of study. It aims to acquaint them with the uses of accounting information and techniques useful to the manager in planning, decision-making and controlling organisational activities.

ASSESSMENT:

Coursework	25%
Examination	75%

LEVEL: II

SEMESTER: 1

COURSE CODE: ACCT 2017

COURSE TITLE: MANAGEMENT ACCOUNTING

NUMBER OF CREDITS: 3

PREREQUISITES: ACCT 1002 AND

ACCT 1003 DEPARTMENT RESPONSIBLE: MANAGEMENT STUDIES

COURSE DESCRIPTION: The course explains how managerial accounting information is used by managers in manufacturing, retail, service and not-for-profit organisations to anticipate the future and monitor the activities of the business.

ASSESSMENT:

Coursework	25%
Final Examination	75%

AGBU – AGRI BUSINESS

LEVEL: I

SEMESTER: 2

COURSE CODE: AGBU 1002

COURSE TITLE: INTRODUCTION TO AGRO-ENVIRONMENTAL MANAGEMENT

NUMBER OF CREDITS: 4

PREREQUISITES: NONE

COURSE DESCRIPTION: The role and importance of the environment for social development and as a life support system. The nexus between agriculture and the environment. Agro-ecosystems structure and dynamics. Economics of environmental resources: market failure and environmental degradation, externalities and public goods; optimal resource use/extraction and approaches for management of renewable resources.

Concept of the watershed as a management unit: hydrology, soils, natural forest, biodiversity and land use. The impact of agricultural practices on the environment viewed from an ecosystem perspective: deforestation, soil erosion/degradation, flooding, irrigation, loss of biodiversity and climate change. Case studies of impacts related to various agricultural systems: crop and livestock, subsistence and plantation farming, hillside and erodible soils, pesticide and chemical application, irrigated agriculture.

Integration of the concepts and issues discussed in designing sustainable agro-environmental systems for the tropics; focus on small island states. Case studies.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I

SEMESTER: 2

COURSE CODE: AGBU 1009

COURSE TITLE: SUSTAINABILITY AND AGRO-ECOLOGICAL SYSTEMS

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: This course provides a basis for the continued interdisciplinary studies that students are expected to be a part of in today's world. The course will combine the disciplines of economics, agriculture, policy analysis and environmental management into one coherent and holistic package based on a sustainability framework to show how these disciplines can be used together to solve pressing problems in achieving sustainable development pathways. AGBU 1003 – Sustainability and Agro-Ecological Systems is a revision of AGBU 1002 – Introduction to Agro-Environmental Management. This course content is designed to provide students with the fundamental philosophies in sustainability and sustainable development as a framework to understand the interaction between agriculture and environment. It looks at the impacts of agriculture on the environment for both crop and livestock production, and potential tools that can be used in managing environmental problems

ASSESSMENT:

Coursework	60%
Final Examination	40%

LEVEL: I

SEMESTER: 1

COURSE CODE: AGBU 1005

COURSE TITLE: INTRODUCTION TO MICROECONOMICS

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: Nature and Scope of Economics: General overview: Functions performed by economic systems; Resources/Factors of Production and Characteristics.

Demand and Supply: Concepts; definitions and introduction to factors affecting demand and supply; elasticities. Market Price and Quantity determination; interpretation and applications.

Theories of Consumer Behaviour: Marginal utility and indifference theories, Theory of Production, Supply and Cost:

Production functions forms; profit maximisation behaviour and rationality in production. Market Structures and Forms:

Market types and characteristics; profit maximisation behaviour in perfect competition and monopoly.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I**SEMESTER: 2****COURSE CODE: AGBU 1006****COURSE TITLE: MACROECONOMIC FUNDAMENTALS FOR CARIBBEAN AGRICULTURE****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course will build on the microeconomic foundation of the behaviour of the consumer and the firm to the establishment of demand and supply for the entire country which includes that of government and the rest of the world. Students would then learn how to measure the progress of the economy and determine the national income and gross domestic product. Next, the role of monetary and fiscal policy on inflation, unemployment, deficits and economic growth will be studied. Finally the Caribbean economy and agricultural sector will be integrated into the international setting, examining the concepts of free trade and the role of exchange rate. The role of international trade and agriculture as it relates to the economy are clearly articulated.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: AGBU 2000****COURSE TITLE: AGRICULTURE IN THE ECONOMY****NUMBER OF CREDITS: 4****PREREQUISITES: AGBU 1005 and AGBU 1006 OR
ECON 1001 and ECON 1002**

COURSE DESCRIPTION: The structure of Caribbean economies. Simple income determination. Balance of payments. Economic growth models. Theories of economic development. The role of the agricultural sector in the development process. Agricultural policy formulation. Selected policy issues.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: AGBU 2002****COURSE TITLE: MANAGEMENT AND ECONOMICS OF AGRICULTURAL PRODUCTION AND MARKETING****NUMBER OF CREDITS: 4****PREREQUISITES: AGBU 1005 and AGBU 1006 OR****ECON 1001 and ECON 1002**

COURSE DESCRIPTION: Basic theory of agricultural production with respect to technology and economic and technical efficiency in resource use. The basic theory of the consumer. The nature and scope of marketing. The functions of marketing intermediaries. The minimisation of agricultural markets in the Caribbean. Basic concepts in the management of farms and agri-business farms managerial functions. Forms of business minimisation. Accounting and record keeping systems personnel management.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGBU 2003****COURSE TITLE: APPLIED STATISTICS****NUMBER OF CREDITS: 3****PREREQUISITES: AGRI 1003**

COURSE DESCRIPTION: This is an introductory course in Statistics with the aim of having students appreciate the role of Statistics in Agribusiness, Agricultural Economics and related fields as a fundamental tool of scientific investigation. The course introduces students to basic concepts and definitions in statistics, including descriptive statistics, probability distribution theory and the Normal Statistical Distribution. The method for the conduct of Statistical Inference is presented, including inference relating to a single population, differences between population means and the analysis of variance. The course concludes with a study of regression analysis.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGBU 3000****COURSE TITLE: FARM BUSINESS MANAGEMENT****NUMBER OF CREDITS: 4****PREREQUISITES: AGBU 1005, AGBU 1006, AGBU 2000 OR AGBU 2002**

COURSE DESCRIPTION: Management Styles and Strategies. Decision Making in Agri-business. The Agri-business System. Competitive Analysis and Strategic Planning with reference to Agro-industry. Cooperatives and other organisational forms business control and analysis. Management of factors of production.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGBU 3001****COURSE TITLE: MARKETING AND PRICE ANALYSIS****NUMBER OF CREDITS: 4****PREREQUISITES: AGBU 1005 and AGBU 1006 OR****ECON 1001 and ECON 1002**

COURSE DESCRIPTION: The management of agricultural marketing. International trade in agricultural commodities. Regional trading arrangements. Methods of price analysis including forecasting.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGBU 3002****COURSE TITLE: INTERNATIONAL MARKETING
OF AGRICULTURAL PRODUCTS****NUMBER OF CREDITS: 4****PREREQUISITES: AGBU 1005 and AGBU 1006 OR
ECON 1001 and ECON 1002****COURSE DESCRIPTION:** International Marketing:

Institutions and Regulatory Framework; International Marketing Environment: International Market Entry Strategies, Exporting and Importing.

This course provides an understanding of the important concepts and issues involved in international marketing of agricultural products. Emphasis is given to the challenges Caribbean agri-businesses will face in the contemporary international business arena and the development/ examination of options for successfully penetrating targeted international markets.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGBU 3003****COURSE TITLE: INTRODUCTION TO ECOTOURISM:
PRODUCT DESIGN & MANAGEMENT****NUMBER OF CREDITS: 4****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course examines the way in which ecotourism could be designed and developed as a viable business opportunity, and as a contributor to sustainable development in the Caribbean. By the end of the course, you should be able to define the concept within a framework of social and economic development. This goal will be achieved by taking you through the various components of eco-tourism, highlighting the business potential of the concept. In this course, you will be supplied with tools to make practical decisions related to an ecotourism venture. No matter what your background maybe, you will find the concepts and perspectives contained in this course empower you to use ecotourism for more positive development. The material is developed with the specific needs of tropical small island states in mind.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGBU 3005****COURSE TITLE: INTRODUCTION TO QUANTITATIVE METHODS IN ECONOMICS****NUMBER OF CREDITS: 3****PREREQUISITES: AGBU 1005, AGBU 1006 AND
AGRI 1003**

COURSE DESCRIPTION: Review of functional relationships, basic calculus and matrix algebra. Methods in economic research. Regression models, basic linear programming concepts. Decision-making in profit minimisation and cost minimisation problems computer applications.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGBU 3009****COURSE TITLE: INTERNATIONAL TRADE POLICY
AND REGULATIONS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE****COURSE DESCRIPTION:** This course covers agricultural and food policies from domestic and international trade perspectives. Course examines the role of international trade in agricultural development; current debates about the effects of globalisation on developing countries; evolution of trade policies in the context of the Uruguay Round GATT Agreement and the WTO, the Lome Convention, Regional and Bilateral trade agreements and arrangements. Course also examines the Agreement on Agriculture and Sanitary and Phytosanitary Measures and international regulations as well as emerging trade agreements with implications for agriculture (Economic Partnership Agreements, Commodity Protocols and Special Trading Arrangements) and gives an introduction to trade negotiations.**ASSESSMENT:**

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGBU 3010***NOT OFFERED 2021/2022***COURSE TITLE: ENVIRONMENTAL ECONOMICS****NUMBER OF CREDITS: 4****PREREQUISITES: AGBU 1005 AND AGBU 1002**

COURSE DESCRIPTION: Human beings now face the challenge of sustainable development, where the needs are for cooperative alliances, and recycled waste flows. Environmental economics seeks to meet this challenge, and explores questions such as: Can we effectively develop policies to deal with the tricky issues of wealth distribution, population growth, international trade, and energy in the world where more growth is no longer a simple solution? This course reviews underlying ecological economic theory, and shows how it can be applied to try to solve existing and emerging environmental problems

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1 & 2****COURSE CODE: AGBU 3012****COURSE TITLE: PROJECT****NUMBER OF CREDITS: 4****PREREQUISITES: NONE**

COURSE DESCRIPTION: A project within a subject area relevant to the student's degree option.

ASSESSMENT:

Project Report	80%
Oral Presentation	20%

*See Project Booklet for detailed guidelines

NOTE: Students will be examined at the end of the semester in which they are registered

AGCP - AGRICULTURE CROP SCIENCE

LEVEL: II**SEMESTER: 1****COURSE CODE: AGCP 2000****COURSE TITLE: BIOSYSTEMS ENGINEERING PRINCIPLES****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 1003**

COURSE DESCRIPTION: Introduction to biosystems engineering; elementary surveying; farm planning and layout; animal waste management; selection of simple structural members; mechanical power and power units; electrical power and motors; sound and noise; insulation and heat flow; properties of moist air; thermal environment; ventilation and cooling systems for buildings; handling, moisture management and storage of biological products; irrigation; rainfall and surface run off; soil erosion and control.

ASSESSMENT:

Coursework	20%
Final Examination	80%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGCP 2007****COURSE TITLE: POSTHARVEST TECHNOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: The postharvest physiology and biochemistry of selected fruits, vegetables, root crops, grains, and ornamentals; the postharvest environment, including pathological agents, with particular reference to these crops; physiological disorders; postharvest handling systems; introduction to basic equipment used in quality evaluation, refrigeration and storage systems and general postharvest produce management; introduction to postharvest biotechnology.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: AGCP 2101****COURSE TITLE: PRINCIPLES OF SUSTAINABLE CROP PRODUCTION – SCIENCE AND PRACTICE****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 1016**

COURSE DESCRIPTION: Introduction to sustainable crop production- Key dimensions of sustainable crop production - increasing agricultural productivity, enhancing sustainable crop production, improving efficiency of inputs, managing biodiversity and ecosystem services, strengthening livelihoods. Agroecosystems the crop concept – biomass production. Environmental effects on crop growth. Integrated crop management - conservation and sustainable use of plant genetic resources for food and agriculture, crop improvement and cultivar selection; seed quality and seed germination; vegetative propagation; transplant technology for seedling and propagules; crop establishment and crop growth, and resource use efficiency; crop scheduling; cropping systems, conservation agriculture manipulation of environmental factors - site selection and tillage systems; planting density and arrangement, water and nutrition management. Integrated pest management. Pollination management. Yield concepts; harvesting, post-harvest handling. Examples of good farming practices for sustainable crop production in the Caribbean.

ASSESSMENT:

Coursework	100%
------------	------

LEVEL: III**SEMESTER: 1****COURSE CODE: AGCP 3011****COURSE TITLE: MAJOR CARIBBEAN EXPORT CROPS****PRE-REQUISITES: AGCP 2101**

COURSE DESCRIPTION: Historical, current and potential status of the industries of the export crops of major economic significance in the Caribbean including sugarcane, banana, coffee, cocoa, citrus, nutmeg and arrowroot; origin, distribution, markets and producers; plant morphology, physiology of growth and yield and environmental requirements; production technologies, cropping systems and their socio-economic and environmental consequences; post-harvest handling and utilization; impact of globalization, agricultural diversification and environmental concerns on new production systems including organic production, post-harvest handling and utilization in the Caribbean and other SIDS; crop production for value chains vs. commodity markets; production, post-harvest and utilisation constraints and research needs.

ASSESSMENT:

Coursework	40%
Final examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGCP 3012****COURSE TITLE: TROPICAL FOOD CROPS****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGCP 2101**

COURSE DESCRIPTION: Traditional and improved production practices and systems for the major Caribbean food crops: starchy staples (tropical root crops, breadfruit, plantain, green bananas), vegetables and grain legumes. Production constraints and socio-economic issues relevant to production sustainability and Caribbean food security. Post-harvest handling systems for these crop groups. Alternative methods of utilization suitable for the Caribbean region.

ASSESSMENT:

Coursework	60%
Final Examination	40%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGCP 3014****COURSE TITLE: PRINCIPLES OF COMMODITY UTILISATION****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Definition of value-added concept; principles involved in the transition from primary to secondary and tertiary level products; factors affecting alternative utilization of agricultural crops; production-led marketing versus market-driven production; quality management and utilization of value-added crop products from: banana, sugar cane, cocoa, coffee, coconuts, pineapple, cassava, sweet potato, aroids, yam, citrus, plantain, breadfruit, avocado, mango, sapodilla, soursop, tamarind, limes, breadnut, immature vegetables, leafy vegetables, fruit-type vegetables, flower-type vegetables, corn, rice, pigeon peas, black eye, ginger, turmeric, nutmeg and mace; sanitation, hygiene and waste, recovery; biotechnology of crop products: benefits and concerns.

ASSESSMENT:

Coursework	40%
Final examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGCP 3101****COURSE TITLE: SUSTAINABLE VEGETABLE PRODUCTION****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGCP 2101 and AGRI 2001**

COURSE DESCRIPTION: Importance of vegetables in human nutrition; the vegetable industry globally with special reference to tropical vegetables; Caribbean industry; classification of vegetables; growth and development and environmental requirements; production practices; ecological soil management - use of living barriers, ground cover, contour ploughing and conservation; composting; deficiencies and diagnosis; nutrition and fertilization; water management and irrigation methods; diagnosis and IPM/ecological management of pests, diseases and weeds of vegetables; sustainable vegetable production systems, including permaculture, protected production and hydroponics; key vegetable crop groups: leafy vegetables, solanaceous fruits, cucurbits, legumes and stems; mushroom production; harvest and postharvest handling; marketing of vegetables; economics of vegetable production; hydroponics and protected production.

ASSESSMENT:

Coursework	100%
------------	------

LEVEL: III**SEMESTER: 2****COURSE CODE: AGCP 3102****COURSE TITLE: SUSTAINABLE FRUIT CROP PRODUCTION****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGCP 2101**

COURSE DESCRIPTION: The importance of fruit crops – human health, socio-economic, environmental benefits; the status and major characteristics of the fruit crop industry, with special reference to tropical fruits; the fruit crop sub-sector in the Caribbean; markets for tropical fruits and fruit products; market specifications; fruit crop cultivars – selection, breeding, biotechnology; growth and development of selected fruit crop species – annual herbaceous, herbaceous perennials, woody perennials; fruit growth and maturation; yield development; environmental factors affecting fruit crop growth and yield; sustainable production management: site selection; production systems – monocultural, polycultural, organic; site preparation; field layout; planting material selection and quality; plant population and planting arrangement; field establishment; training; crop phenology and nutrition, water and size management; pest and disease management; harvesting and post-harvest handling.; economics of fruit crop production.

ASSESSMENT:

Coursework 100%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGCP 3103****COURSE TITLE: COMMERCIAL FLORICULTURE****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGCP 2101**

COURSE DESCRIPTION: The status of the international floriculture industry with special attention to the Caribbean and the importance of tropical species. People plant relations. Greenhouse production of potted foliage and flowering plants, greenhouse selection, management of the green house environment, crop scheduling and management. Field production of cut flowers and cut foliage. After-sales potted plant care, post-harvest management and utilization of cut flowers.

ASSESSMENT:

Coursework 100%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGCP 3104****COURSE TITLE: PLANT PROPAGATION AND NURSERY MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGCP 2101 and AGRI 2001**

COURSE DESCRIPTION: The plant nursery industry – products, markets, producers, organisation, linkages, the industry in the Caribbean; plant propagation – seedling and rootstock production, vegetative propagation (macro- and micropropagation techniques), acclimatisation; planting material quality – standards; plant nurseries - site selection and utilities, covered and field nurseries, layout; propagation facilities design – indoor: seedling houses, facilities for micro- and macropropagation and outdoor ; environmental management – light, temperature, water, RH, gaseous exchange; propagation and growing media selection and management; containers; cultural practices; mechanisation of nursery operations; human resource requirements; marketing and consumer relations.

ASSESSMENT:

Coursework 100%

LEVEL III**SEMESTER: 2****COURSE CODE: AGCP 3105****COURSE TITLE: ECOPHYSIOLOGY OF TROPICAL FIELD AND HORTICULTURAL CROPS****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGCP 2101 OR BIOL 2761 (Plant Physiology)****COURSE DESCRIPTION:**

Fundamental concepts and techniques of crop biochemistry, ecology and physiology; ecophysiological responses to light quality, quantity and duration; temperature and water; crop adaptations to biotic and abiotic stress; seed physiology, dormancy and germination; seedling growth and development; crop growth and development, biomass productivity, resource allocation, competition; yield development; density; ecophysiology of specific tropical field and horticultural crops: cereals (corn, rice), root crops (sweet potato, cassava, yam), legumes (pigeon pea, cowpea), vegetables (cucurbits, solanaceous crops, leafy vegetables), fruit (watermelon, banana, papaya, pineapple, mango, citrus), tree crops (cocoa, coffee) ornamental species (trees, potted plants, turfgrass); climate change – effect on crop production.

ADRR– DISASTER RISK AND RESILIENCE

LEVEL: I**SEMESTER: 1****COURSE CODE: ADRR 1001****COURSE TITLE: INTRODUCTION TO NATURAL HAZARDS, DISASTER AND CLIMATE CHANGE****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Overview of the physical, technological and social components of natural disasters in the context of climate change. Characteristics of natural hazards (floods, droughts, tropical cyclones, earthquakes, landslides and tsunamis); geospatial and geomorphological features of the Caribbean region as it related to natural hazards; impacts of natural hazards on agricultural and environmental systems; impacts of climate change on the frequency, intensity and impacts of natural hazards in Caribbean SIDS; disaster epidemiology associated with medical disasters.

ASSESSMENT:

Coursework	40%
Final examination	60%

LEVEL: I**SEMESTER: 1****COURSE CODE: ADRR 1002****COURSE TITLE: ENVIRONMENTAL SUSTAINABILITY****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Introduction to dimensions of sustainability and various frameworks for assessing and monitoring progress towards sustainability. Human impacts on the environment and sustainable mitigation approaches including “life cycle assessment”; state of the environment across Caribbean SIDS; frameworks for monitoring progress towards environmental sustainability; environmental impacts and implications; assess environmental quality according to national, regional and international standards.

ASSESSMENT:

Coursework	60%
Final examination	40%

LEVEL: II**SEMESTER: 1****COURSE CODE: ADRR 2001****COURSE TITLE: DISASTER RISK ASSESSMENT AND ANALYSIS****NUMBER OF CREDITS: 3****PRE-REQUISITES: ADRR 1001**

COURSE DESCRIPTION: This course will focus on risk assessments and analysis as it relates to the agriculture and the environment. Application of risk assessment conceptual framework involving modern concepts in the field of disaster risk science; drought and flood assessment frameworks, susceptibility analysis, vulnerability and exposure. Theories, methods and applications of disaster risk science; measurement and assessment of disasters, mapping and zoning of disaster risk, disaster management, emergency response and integrated disaster risk paradigm. exam.

ASSESSMENT:

Coursework	40%
Final examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: ADRR 2002****COURSE TITLE: COMMUNITY ENGAGEMENT PRINCIPLES AND PRACTICE****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Concepts of community and community engagement; theory behind community engagement, popular education, and critical pedagogy. Key principles of community engagement; models and theoretical and practical approaches to community engagement; key principles of applying participatory approaches, methods and tools as well as some of the associated skills to community engagement.

ASSESSMENT:

Coursework	100%
------------	------

LEVEL: II**SEMESTER: 2****COURSE CODE: AGCP XXXX****COURSE TITLE: CLIMATE SMART AND SUSTAINABLE AGRICULTURE****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: This course provides an understanding of the application and implementation of Climate Smart Agriculture (CSA) to assist in the attainment of the Sustainable Development Goals (SDGs). The course focuses on how climate smart sustainable agriculture can be achieved by building on three main pillars, namely: (i) increasing productivity and incomes, (ii) enhancing resilience of livelihoods and ecosystems, and (iii) reducing and removing greenhouse gas emissions from the atmosphere. It will also examine the importance of having consistent policies relating to agriculture, food security and climate change, and explore those effective climate-smart practices that already exist. Climate Smart Farming, agricultural water use efficiency and irrigation scheduling, integrated pest management, precision agriculture, urban and organic farming, agritourism and agroforestry, livestock housing and the environment will also be covered.

ASSESSMENT:

Coursework	100%
------------	------

LEVEL: II**SEMESTER: 2****COURSE CODE: ADRR 2004****COURSE TITLE: DISASTER RISK RESILIENCE AND CLIMATE CHANGE ADAPTATIONS****NUMBER OF CREDITS: 3****PRE-REQUISITES: ADRR 2001 & ADRR1001**

COURSE DESCRIPTION: Historical approaches and taxonomy into modern approaches towards building resilience and implementing climate change adaptations. Linkages between sustainable development and disaster risk resilience; enhance sustainability and resilience with specific focus on agricultural and environmental systems; risk reduction strategies and climate change adaptations; gender perspectives, ecosystem based approaches, perception based resilience and disaster risk financing; application of climate resilient approaches in agricultural and environmental systems.

ASSESSMENT:

Coursework	40%
Final examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: ADRR 3001****COURSE TITLE: FOOD SECURITY, POLICY AND LEGISLATION****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Historical perspective of Food and Nutrition Security, its four pillars, the food security issues in the Caribbean, measurement of food security and some policy and legislation options that are available at the household, national and regional levels to address food security. Emphasis on Food and Nutrition Security, Disaster Risk Reduction (DRR) and building resilience in agri-food systems, with a focus on mainstreaming DRR in policy and planning frameworks.

ASSESSMENT:

Coursework	50%
Final examination	50%

LEVEL: III**SEMESTER: 1****COURSE CODE: ADRR 3002****COURSE TITLE: COMMUNITY ENGAGEMENT PRINCIPLES AND PRACTICE****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: The course has two primary components. First, students will be exposed to the theory behind community engagement, popular education, and critical pedagogy. Then, a practical component where students will be required to put their participatory facilitation and dialogue skills to work in collaboration with local organizations and communities. Ultimately, through theory, dialogue, and facilitation practice, students learn the promises—and inherent challenges—of using participatory methodologies in community engagement as a vehicle for driving social and behavioural transformation. Students will become critically aware practitioners who are prepared to design change processes and engage in current debates surrounding participatory community engagement approaches to addressing societal problems associated with sustainable development and disaster risk assessments

ASSESSMENT:

Coursework	70%
Final examination	30%

LEVEL: III**SEMESTER: 2****COURSE CODE: ADRR 3003****COURSE TITLE: SUSTAINABLE LAND MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: ADRR 1002**

COURSE DESCRIPTION: Knowledge of soils, their nature and function and horizontally compliments other key natural resource management courses; disaggregated physical component of land including soils, water, forest and biodiversity and the interaction with climate. Contrasting concepts of land degradation and sustainable management contextualized within local, regional and international domains. Techniques and tools used to assess and monitor land degradation across different scales and landscape-based approaches and methodologies for management and restoration explored, including 'land degradation neutrality'. Legal and institutional frameworks and arrangements that support sustainable land management.

ASSESSMENT:

Coursework	60%
Final examination	40%

LEVEL: III**SEMESTER: 2****COURSE CODE: ADRR 3004****COURSE TITLE: WATER RESOURCES MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: ADRR 2001 OR ADRR 2002 OR GEOG 2019 OR GEOG 2011**

COURSE DESCRIPTION: Integrated water resources management, principles of hydrometeorological hazards common in the Caribbean. Importance of climate in water resources management, particularly regarding drought and floods. Concepts of water use and demand and economic analysis within local, regional and international domains. Link between water resources management and sustainable development. Nexus between water, energy and food; concepts such as virtual water, policy and management issues on water resources in the Caribbean. Techniques and tools used to assess and monitor water quantity and quality across different scales and watershed-based approaches and methodologies for management and restoration explored, including "integrated water resources management."

AGEX - AGRICULTURE EXTENSION

LEVEL: I**SEMESTER: 1****COURSE CODE: AGEX 1001****COURSE TITLE: INTRODUCTION TO TEACHING AND LEARNING IN EXTENSION****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course content is designed to develop andragogy with specific subject matters in extension in order to equip students with the fundamental building blocks to facilitate an agriculture extension programme in a formal and non-formal setting. The course will introduce students to the development, nature and scope of teaching agriculture as part of a school agriculture programme and teaching agriculture to adults. Students will be exposed to various strategies adopted and special considerations in teaching agriculture. Students will also explore the fundamentals of extension and outreach education, programme development and evaluation and adult education.

LEVEL: I**SEMESTER: 1****COURSE CODE: AGEX 1003****COURSE TITLE: DEVELOPMENT OF CARIBBEAN AGRICULTURE****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Development of Caribbean Agriculture is a revision of AGEX 1000 Caribbean Agriculture in Perspective: Evolution, Sociology and Contemporary Issues. This course provides a chronological sequence of major events in Caribbean history that helped to shape modern day agriculture. It deals with the plantation and peasantry systems and the associated period of indentureship. It leads the student to understand how these events led to the structure of the modern day agriculture sector in terms of crops, livestock, fisheries, forestry and value-added agribusiness. The multifunctional role and contribution of the sector to food and nutrition security, livelihoods, the environment and sustainable rural development is discussed in some detail. As of necessity, some sociological concepts including social structure and social stratification, rural/urban characteristics and the issue of gender in Caribbean farming is elaborated. At the close of this course, some modern technological advances in agriculture in various parts of the region are presented mainly for students awareness as these are detailed in future courses.

LEVEL: II**SEMESTER: 2****COURSE CODE: AGEX 2002****COURSE TITLE: METHODOLOGIES IN TEACHING AGRICULTURE PROGRAMMES****NUMBER OF CREDITS: 3****PREREQUISITES: AGEX 1001**

COURSE DESCRIPTION: This course builds upon the fundamentals developed from an Introduction to Teaching and Learning Extension by exposing students to a more advancement treatment of andragogy and a more practical experience in teaching agriculture. The content is designed for students to develop skills in adult education with specific subject matters in agriculture in order to equip students with the advanced skill sets as educators facilitating formal and non-formal agriculture programmes. The course will expose students to programme development, and evaluation including planning and managing educational programme, developing and improving facilities and resources, maintain positive community and professional relationship and evaluating agricultural education programmes. Students will be covering special considerations in teaching agriculture such as teaching agri-science, using computers and instructional media and teaching professional growth and improvement. Students will also explore the development, implementation and evaluation of supervised agricultural experience programmes and post-secondary adult education programmes.

LEVEL: II**SEMESTER: 1****COURSE CODE: AGEX 2003****COURSE TITLE: INVESTIGATIVE TOOLS AND TECHNIQUES FOR EXTENSION****NUMBER OF CREDITS: 3****PREREQUISITES: AGEX 1002 OR AGRI 1003**

COURSE DESCRIPTION: This course content will introduce students to the tools and techniques used in modern day extension research. Students will learn fundamental statistical principles such as how data is classified, measures of central tendencies and dispersion, sampling frameworks and common statistical analysis used in extension research such as probability distributions, chi square analysis and ANOVA. This course will also expose students to specific extension tools and techniques such as scales and scaling, focus groups, needs assessments including the Borich model, Delphi studies, constant comparative analysis and social network analysis and mapping. The students will also explore the techniques used in participatory rural appraisal and other learning techniques. This course is geared towards equipping students with the technical tools and skills sets to conduct extension research.

ASSESSMENT:

Coursework: 60%

Final Examination 40%

LEVEL: II**SEMESTER: II****COURSE CODE: AGEX 2004****COURSE TITLE: COMMUNICATION FOR FOOD SYSTEM INNOVATION AND SOCIAL CHANGE****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This interdisciplinary course introduces conceptual and practical aspects of communication for innovation and social change processes, in agriculture and rural development. It focuses on role of communication in processes of individual and collective change to improve sustainable livelihoods, in global (e.g., FAO, World Bank, CGIAR, GFRAS, GFAR, OECD) and regional context (Caribbean, Asia, Africa and Latin America). The course concentrates on crosscutting issues, from technological innovations to social and organizational change, in the thematic areas of agriculture, food, health and natural resources management. The course prepares students to undertake professional work in two ways: i) by fostering understanding about human communication (especially in the context of agricultural extension and rural development change), and ii) by informing future communication practitioners on how to stimulate and manage change processes and contribute to societal problem solving. This course prepares students to become familiar with conceptual and practical aspects of the innovation systems and communicative interventions, with especial attention to interactive (participatory) modes of developing policy, client-oriented services and well-adapted socio-technical innovations. Also, students will be introduced to key attitudes, values and skills necessary for facilitating innovation and change processes in agriculture and rural development sector.

ASSESSMENT:

Coursework: 70%

Final Examination: 30%

LEVEL: II**SEMESTER: I****COURSE CODE: AGEX 2005****COURSE TITLE: THE FUNDAMENTALS OF EXTENSION PROGRAMMING****NUMBER OF CREDITS: 3****PREREQUISITES: AGEX 1002 AND AGEX 1003**

COURSE DESCRIPTION: AGEX 2005 – Fundamentals of Extension Programming is a revision of AGEX 2001 – Operations and Management of Extension Programmes. This course provides the learner with opportunities and experiences to understand how programmes are conducted within the guidelines of Extension philosophy and practice. It presents an understanding of how learners may place a strategy and method to extend knowledge to potential clients regarding selected knowledge points. Such programmes are designed to initiate important community activity with regard to an existing state of affairs which needs improvement.

ASSESSMENT:

Coursework:	70%
Final Examination:	30%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGEX 3000****COURSE TITLE: TECHNOLOGY TRANSFER IN AGRICULTURE****NUMBER OF CREDITS: 3****PREREQUISITES: AGEX 1003**

COURSE DESCRIPTION: Technology transfer has backward and forward linkages to technology development and other processes. The course gives a broad perspective of the overall agricultural systems and a closer understanding of agricultural knowledge and information systems in the Caribbean. The course will enable students to have a holistic perspective in approaching their work in relevant organizations. In this course, students are exposed to practice in a variety of settings. The course gives an adequate look at technology transfer in farming and its multifunctional purpose in Caribbean societies, so that students would gain a holistic understanding of the importance of extension activities.

ASSESSMENT:

Coursework:	40%
Final Examination:	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGEX 3001****COURSE TITLE: ISLAND FOOD SYSTEMS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Island Food Systems is designed to provide students with learning experiences which articulate an understanding of a collection of appropriate issues in the context of Sustainability, Livelihood, Equity and Governance (SLEG). This course provides the students with opportunities and experiences to understand how food systems on islands function and its susceptibility to external forces driven by globalization.

ASSESSMENT:

Coursework:	40%
Final Examination:	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGEX 3003****COURSE TITLE: GENDER ISSUES IN AGRICULTURE****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course provides the learner with opportunities and experiences to discourse topics of Gender in Agriculture. The course will discuss these issues from the viewpoint of feminist scholarship and masculinity theories. Students are expected to conclude with ways of incorporating Gender considerations which can improve the productivity within the Agricultural sector.

Agriculture continues to be an important industry for the economies of the Caribbean. While there are many efforts by all stakeholders to improve Agriculture's contribution to GDP, the sector is challenged almost on every developmental front. This course articulates an understanding of the Gender Issues which confront the sector. Students will be introduced to the concepts in Gender and methods of Gender Analyses. They will specially learn about Gender relations and gender roles as they pertain to expectations within the Agriculture sector. They will be introduced to important aspects of the region's agriculture sector.

ASSESSMENT:

Coursework: 40%

Final Examination: 60%

(Also offered to students reading relevant Minors and Majors in the Faculty of Social Sciences and the Faculty of Humanities & Education)

LEVEL: III**SEMESTER: 1****COURSE CODE: AGEX 3004****COURSE TITLE: COMMUNICATION SKILLS****FOR PROFESSIONALS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: The course provides key concepts and skills for various types of communications ranging from those that are mainly instructional in nature to persuasive communications. It will be useful in situations ranging from delivering a short talk at a meeting to organizing informational programmes involving the use of several media. While it cannot give you the skills to cover all communicative situations, the course provides a solid base on which you can build in your professional life ahead.

ASSESSMENT:

Coursework: 40%

Final Examination: 60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGEX 3005****COURSE TITLE: MODERN COMMUNICATIONS TECHNOLOGIES IN EXTENSION FOR PROFESSIONALS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course is designed to introduce students to, and engage them with key issues, approaches and concepts related to ICT and media in agricultural development and social change. Farming around the world supports a vast array of economic development, cultures and social well-being. How can we support agriculture and rural development more effectively using ICT and new communication media? The central focus of this course is to engage students in approaches and arguments that revolve around two broader perspectives- 'behavioural change communication' and 'communication as means to social change'. Students will gain insights into ICT and media from a political economy perspective and explore use of different communication technologies such as the internet, social media, mobile applications and distance learning programs for agricultural development and change. This course will also explore global case studies with varying 'best practises' of ICT applications, national policies for information technology and agriculture extension, virtual institutional partnerships and open distance learning projects for agricultural development.

ASSESSMENT:

Coursework: 60%

Final Examination: 40%

LEVEL: III**SEMESTER: 1 and 2****COURSE CODE: AGEX 3012****COURSE TITLE: RESEARCH PROJECT****NUMBER OF CREDITS: 4****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course content is designed to engage students in the academic research process using a scientific research methodology prescribed within the discipline of agriculture extension. Students pursuing this course will engage in identifying research problems, defining research objectives, testing research hypotheses, implementing data collection methods and presenting and defending a research report.

ASSESSMENT:

Project Report: 80%

Oral Presentation: 20%

*See Project Booklet for detailed guidelines

Students will be examined at the end of the semester in which they are registered.

AGLS - AGRICULTURE LIVESTOCK SCIENCE

LEVEL: I**SEMESTER: 1****COURSE CODE: AGLS 1001****COURSE TITLE: ANATOMY AND PHYSIOLOGY OF ANIMALS****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Brief introduction to comparative anatomy and physiology of livestock including muscle and growth, circulation, respiration, digestion, reproduction, lactation, immunology, endocrinology and tropical environmental stress.

ASSESSMENT:

Coursework 40%

Examination 60%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGLS 2001****COURSE TITLE: ANIMAL HEALTH AND MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGLS 1001**

COURSE DESCRIPTION: Health and disease; public health, veterinary medicine and food security; losses caused by diseases; the environment and management and animal diseases; epidemiology, public health and zoonosis, elements of milk and meat hygiene; predisposition to disease; causes of disease; body defences and immunity; immunity and inflammation, bio security and disease surveillance; prophylaxis and vaccinations, bio diagnosis of disease; clinical examination; disease prevention and control; control of helminth diseases; diseases of newborn/neonate; chagas' disease; trichomoniasis; coccidiosis, cryptosporidiosis, toxoplasmosis, babesiosis, anaplasmosis, fascioliasis,, paramphistomosis, Moniezia, taeniasis, haemonchosis, dictyocaulosis, oesophagostomosis, stephanurosis, bunostomosis, metastrongylosis, ascariasis, trichinellosis, screwworm, ticks, vampire bats, foot-and-mouth disease/aftosa, swine fever/hog cholera; rabies; heartwater; cowdrosis; Newcastle disease; fowl pox; chronic respiratory disease, aspergillosis, pullorum; mastitis; Johne's disease/paratuberculosis; pasteurellosis; brucellosis; tuberculosis; anthrax; type D enterotoxaemia; blackleg; tetanus; footrot; dermatophilosis; neonatal diseases; parturient paresis; hypomagnesaemic tetany; pregnancy toxaemia; neonatal diseases and breeding for disease resistance; milk and meat hygiene.

ASSESSMENT:

Coursework 40%

Final Examination 60%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGLS 2004****COURSE TITLE: LIVESTOCK PRODUCTS TECHNOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Technology of milk, meat products and eggs; including quality, consumer demand, methods of storage, distribution and processing, preparation and market presentation. Skin preservation, processing and grading. Field visits.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: AGLS 2101****COURSE TITLE: PRINCIPLES OF LIVESTOCK SCIENCE AND PRODUCTION****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGLS 1001**

COURSE DESCRIPTION: Overview of the animal industry in the Caribbean; animal contribution to human needs, animal species and breeds characteristics; animal breeding: genetics, heritability and genetic improvement, mating systems; animal nutrition principles: the digestive and metabolic systems, nutrients and their sources, nutrition of non-ruminants and ruminants; physiology of reproduction; physiology of growth and development: animal growth and carcass composition; animal behaviour and welfare; principles of animal health; ruminant and non-ruminant production systems; neo-tropical animals and non-domestic species, animal production and the environment; contemporary issues in animal agriculture; quality of animal products and human health.

ASSESSMENT:

Coursework	50%
Final Examination	50%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGLS 2102****COURSE TITLE: FUNDAMENTALS OF ANIMAL NUTRITION****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGLS 1001**

COURSE DESCRIPTION: The role of animal nutrition in modern agriculture; review of the alimentary canals of livestock; digestion and absorption of carbohydrates, fats and proteins in farm animals; nutrients; evaluation of feedstuffs; feeds and feeding; feeding standards and productivity; maintenance, growth, pregnancy and lactation; computation of rations.

ASSESSMENT:

Coursework	50%
Final Examination	50%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGLS 3000****COURSE TITLE: POULTRY PRODUCTION****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGLS 1001**

COURSE DESCRIPTION: Structure of the poultry industry in CARICOM countries with emphasis on chickens. Species of poultry of commercial importance. Management practices including physiology, breeds and breeding, health maintenance, nutrition and feeding, housing and waste management, equipment, incubation (including hatchery management) and brooding. The rearing of breeder flocks, layers and broilers. Records, maintenance, handling, processing and marketing of poultry products.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGLS 3003****COURSE TITLE: RUMINANT PRODUCTION SYSTEMS****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGLS 1001, AGLS 2002/AGLS 2102 AND AGLS 2005/AGLS 2001**

COURSE DESCRIPTION: Structure of the ruminant industry in CARICOM, brief physiology of ruminants, management practices including breeds and breeding, feeding, health and disease prevention and control, housing and waste management, record keeping, planning new enterprises and use of new technologies. Systems of production for beef and dairy cattle, water buffalo, sheep and goats.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGLS 3004****COURSE TITLE: NON-RUMINANT PRODUCTION SYSTEMS****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGLS 2002/2102 AND AGLS 2005/2001**

COURSE DESCRIPTION: Structure of the pig, poultry and rabbit industries in the CARICOM region; management practices including physiology, breeds and breeding, feeding, health, housing and waste management, record keeping, technology and planning of an enterprise. Systems of production for pigs, poultry and rabbits.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGLS 3008****COURSE TITLE: APPLIED ANIMAL PHYSIOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGLS 1001**

COURSE DESCRIPTION: The course will focus on applied reproductive physiology including assisted reproductive technologies including estrous synchronization, embryo transfer, superovulation, semen evaluation and cloning, manipulation of lactogenesis and galactopoiesis; modification of the digestive process including use of enzymes, feed additives, and feed processing to enhance rumen by-pass capacity, nutritional management to reduce environmental pollution, modify product composition and reduce metabolic disorders; modification of the growth process including the use of growth promotants and repartitioning agents; Stress physiology and manipulation of the Hypothalamo-Pituitary-Adrenal axis; transgenesis to enhance productivity and or change products and; nutrition reproduction interactions.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGLS 3200****COURSE TITLE: ANIMAL BREEDING****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 1011**

COURSE DESCRIPTION: State of art of modern animal breeding ; Mendelian, population and quantitative genetics; traits; genetics of simply inherited, quantitative, threshold and economic traits in animals; introductory animal breeding; selection and improvement of animal populations; selection principles and methods; pedigree, collateral relatives and progeny testing ; sire summaries and ONBS; breeding and improvement of animals; statistics and genetic models for traits, heritability, repeatability; correlated responses; mating systems and multi-trait selection; tropical livestock breeding; conservation genetics; modern technologies in animal breeding.

ASSESSMENT:

Coursework	40%

AGRI - AGRICULTURE

LEVEL: I

SEMESTER: 2

COURSE CODE: AGRI 1003

COURSE TITLE: MATHEMATICS FOR SCIENTISTS

NUMBER OF CREDITS: 3

PRE-REQUISITES: NONE

COURSE DESCRIPTION: Review of Numbers, Indices and Logarithms Basic linear algebra, Functions, Graphs, Differential and Integral Calculus. Elements of Matrix Algebra.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I

SEMESTER: 2

COURSE CODE: AGRI 1010

COURSE TITLE: INTRODUCTION TO CROP AND LIVESTOCK PRODUCTION

NUMBER OF CREDITS: 4

PRE-REQUISITES: NONE

COURSE DESCRIPTION: Introduction to fundamental concepts of crop and livestock production. Provides an overview of crop production and deals with the major species of livestock in the CARICOM region, along with the factors that affect their productivity and profitability.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I

SEMESTER: 2

COURSE CODE: AGRI 1011

COURSE TITLE: INTRODUCTION TO GENERAL GENETICS

NUMBER OF CREDITS: 3

PRE-REQUISITES: NONE

COURSE DESCRIPTION: Review of historical development of genetics and its contribution to society. Study of basic principles of heredity including Mendel's Laws, incomplete dominance, sex determination and sex linkage. Extension of Mendelian genetics to Population and Quantitative genetics; Chemical basis of heredity, genetic variation and recombinant DNA technology.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I

SEMESTER: 1

COURSE CODE: AGRI 1012

COURSE TITLE: MICROBIOLOGY

NUMBER OF CREDITS: 3

PRE-REQUISITES: NONE

COURSE DESCRIPTION: Microbiology as a fundamental study of bacteria, fungi and viruses, their structure and growth, genetic recombination in bacteria and microbial control. Food-borne diseases and Hazard Analysis and Critical Food Point System (HACCP). A study of the ecology of microorganism, and the roles of microorganisms in agriculture, technology and human.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I**SEMESTER: 2****COURSE CODE: AGRI 1013****COURSE TITLE: INTRODUCTION TO BIOCHEMISTRY****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: The course will cover biomolecules including nucleotides and nucleic acids, proteins and amino acids, carbohydrates and lipids; Enzymes, including enzymatic catalysis, enzyme kinetics, regulation and inhibition; metabolism including, glycolysis, citric acid cycle, electron transport and oxidative phosphorylation, gluconeogenesis, glycogenolysis, lipogenesis, lipolysis, photosynthesis, amino acid metabolism, nucleotide metabolism; gene expression and replication including DNA repair, replication and recombination, transcription and RNA processing, translation and regulation of gene processing.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I**SEMESTER: 2****COURSE CODE: AGRI 1016****COURSE TITLE: PLANT ANATOMY AND PHYSIOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Introduction to the evolution, taxonomy and diversity of crop plants; support, transport and protective tissues; root and stem structure and modifications. Organs of perennation. Major C4 and C3 crop plants; Floral structure and seed dispersal. Fruit classification. Water relations of cells and whole plants; photosynthesis, translocation assimilate partitioning and plant productivity; ion uptake and mineral nutrition; germination, dormancy and seedling establishment; regulation of growth and development by hormonal and environmental factors: introduction to plant growth and analysis.

ASSESSMENT:

Coursework	70%
Final Examination	30%

LEVEL: 1**SEMESTER: SUMMER****COURSE CODE: AGRI 1100****COURSE TITLE: PRACTICAL TECHNIQUES AND TOOLS IN AGRICULTURE****NUMBER OF CREDITS: 4****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Nursery operation; field crops; livestock; agricultural equipment and machinery; conservation and sustainability; waste management; agro-processing; farm management.

ASSESSMENT:

Coursework	70%
Final examination	30%

LEVEL: 1**SEMESTER: 2****COURSE CODE: AGRI 1102****COURSE TITLE: CRITICAL THINKING, INFORMATION LITERACY AND COMMUNICATION****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Basic concepts in communication; steps in effective communication; print media/writing; oral presentation; information and communication technologies; information literacy and research skill development; exercises in critical thinking.

ASSESSMENT:

Coursework	60%
Final examination	40%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGRI 2001****COURSE TITLE: TROPICAL CROP PROTECTION****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001 and AGRI 1016**

COURSE DESCRIPTION: The nature and extent of pest damage in the tropics and the roles of various pest agents-insects, mites, nematodes, weeds, pathogens, vertebrate pests. Biology and ecology of tropical pests and the concept of pest threshold levels. Principles of pest control-cultural, biological, chemical, legislative. Pesticide for crop pest management, formulations and application. Pesticide safety concepts. Integrated pest management.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: AGRI 2003****COURSE TITLE: FUNDAMENTALS OF APPLIED STATISTICS****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 1003 OR EQUIVALENT**

COURSE DESCRIPTION: Overview; descriptive statistics; introduction to normal and binomial distributions; Central limit theorem; statistical inference about mean: single and two samples problems; attribute data analysis; experimental design and analysis of variance; simple linear regression; correlation.

ASSESSMENT:

Coursework	50%
Final Examination	50%

LEVEL: II**SEMESTER: 1****COURSE CODE: AGRI 2100****COURSE TITLE: CURRENT ISSUES IN AGRICULTURE****NUMBER OF CREDITS: 2****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: Trends in food and food issues; population world trade and agriculture; climate change and agriculture; biodiversity and agriculture; technology and agriculture; small states and agriculture; land management and agricultural production; multi-functionality of agriculture.

ASSESSMENT:

Coursework	100%
------------	------

LEVEL: II**SEMESTER: SUMMER****COURSE CODE: AGRI 2300****COURSE TITLE: INTERNSHIP - SUMMER****NUMBER OF CREDITS: 6****PRE-REQUISITES: AGRI 1100**

COURSE DESCRIPTION: Hands-on experience in agricultural activities on accredited commercial, semi-commercial, research or marketing institutions in any Caribbean country.

ASSESSMENT:

Coursework	100%
Host Evaluation	35%
Student Report	50%
Coordinator Evaluation	15%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGRI 3012****COURSE TITLE: AGRICULTURAL BIOTECHNOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 1013 AND AGRI 1011****COURSE DESCRIPTION:** This course will cover the application of biotechnology in amelioration of productivity of soils, livestock and poultry, crops and horticulture, and food production/quality.**ASSESSMENT:**

Coursework	100%
------------	------

LEVEL: III**SEMESTER: 2****COURSE CODE: AGRI 3020****COURSE TITLE: FOOD MICROBIOLOGY****NUMBER OF CREDITS: 3****PREREQUISITES: AGRI 1012, ENRM 1004, ENRM 2004 or any equivalent Fundamental Microbiology course****COURSE DESCRIPTION:** In this course, the history and development of food microbiology, characteristics of predominant microorganisms in food and their significance, extrinsic and intrinsic factors influencing microbial growth in foods, harmful aspects of microorganisms, beneficial applications of microorganisms in fermentation, methods of food preservation and predictive food microbiology are covered. By using conventional and molecular laboratory techniques, various food-borne pathogens and food spoilage microbes in food samples are determined. The course also addresses various food safety management systems such as by ISO 22000 and Hazard Analysis and Critical Control Point (HACCP) and Food Safety Modernization Act (FSMA). Teaching is by using a blended format on MyeLearning, face to face lectures and laboratory practical.**ASSESSMENT:**

Coursework	40%
Final Examination	60%

AGSL – AGRICULTURE SOIL SCIENCE

LEVEL: 1**SEMESTER: 1****COURSE CODE: AGSL 1001****COURSE TITLE: SOILS AND THE ENVIRONMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE****COURSE DESCRIPTION** Soil mineralogy (primary and secondary), soil organic matter, chemical behaviour of soil particles, ionic relations and soil reaction; roles soils play in the environment - agriculture, engineering, water balance and water quality, waste recycling and pollution control, aesthetic aspects, bio-diversity and ecological balance; soil physical properties and influence on behaviour - soil texture, structure and porosity, soil water and soil aeration and temperature.**ASSESSMENT:**

Coursework	40%
Final examination	60%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGSL 2000****COURSE TITLE: SOIL FERTILITY AND FERTILIZER TECHNOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001****COURSE DESCRIPTION:** Principles of soil fertility and plant nutrition; Essential elements for plant growth; Nutrient cycles and nutrient dynamics in soils - macro and trace elements; Soil pH management; Essentials of fertilizers - manufactured and natural; Soil fertility evaluation; Fundamentals of nutrient and fertilizer management; Isotopic techniques in fertilizer optimization; Environmental concerns with fertilizer use.**ASSESSMENT:**

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 2****COURSE CODE: AGSL 2001****COURSE TITLE: SOIL AND WATER MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001**

COURSE DESCRIPTION: Methods of land clearing and their effects on soil structure; soil tillage and the management of soil structure for plant growth; management of soil structure to improve water intake, transmission and storage; water management for salinity control; soil erosion and the management of hillsides; management of dry and wet lands; management of forest soils; management of specific problem soils: soil management and its effects on microbes, microbial activity and soil fertility; soil fertility management; case studies.

ASSESSMENT:

Coursework	60%
Final Examination	40%

LEVEL: II**SEMESTER: 1****COURSE CODE: AGSL 2101****COURSE TITLE: PRINCIPLES OF SOIL SCIENCE****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001**

COURSE DESCRIPTION: Soil as a natural resource, regional geology, rocks, formations, mineralogy, soil formation and pedogenesis; roles soils play in the environment:- agriculture, engineering, water balance and water quality, waste recycling and pollution control, aesthetic aspects, bio-diversity and ecological balance; soil distribution in the Caribbean, classification and mapping; soil physical properties:- soil texture, structure and porosity, soil water and soil aeration and temperature, water use and chemistry; soil chemical properties:- clay mineralogy, soil reaction, CEC, plant nutrition and SOM; soil organisms and biogeochemical cycles; agricultural meteorology.

ASSESSMENT:

Coursework	50%
Final Examination	50%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGSL 3001****COURSE TITLE: IRRIGATION AND DRAINAGE TECHNOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001**

COURSE DESCRIPTION: Soil water potential and measurements; saturated/unsaturated water movement; water movement to roots; evaporation, evapotranspiration and consumptive use. Sources of water; methods of water application; design, installation, operation and evaluation of irrigation systems; pumps and pumping for irrigation and drainage; drainage principles; types of drains; planning, design and installation of drainage systems; legal and administrative aspects of irrigation and drainage.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGSL 3005****COURSE TITLE: WEST INDIAN SOILS****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001**

COURSE DESCRIPTION: Influence of soil forming factors on soil formation and development specific to the wider Caribbean region; soil formation and distribution in the various Caribbean ecological zones; soil classification at regional and international levels; land use and management appropriate to the region; soil degradation and rehabilitation; land capability appropriate to the region; soil data base and land use planning appropriate to small islands states; field studies of selected West Indian Soils.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: AGSL 3010****COURSE TITLE: GEOPHYSICAL AND ENVIRONMENTAL SENSING****NUMBER OF CREDITS: 4****PRE-REQUISITES: AGSL 1001 or GEOG 1231 and GEOG 1232**

COURSE DESCRIPTION: General Introduction; introduction to moisture measurement and sensing; soil texture and structure; theory of the electrical properties of soils (part I); electrical properties of soils (part II), applications; introduction to descriptive statistics, distributions; introduction to the Stanford geostatistical and environmental modelling software; correlation analysis; semivariogram analysis; interpolation and Kriging; Kriging methods, uncertainty and simulation; auto correlation analysis.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGSL 3101****COURSE TITLE: AGRICULTURAL AND ENVIRONMENTAL SOIL PHYSICS****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001 and AGSL 2101**

COURSE DESCRIPTION: Introduction; soil texture and structure; specific surface of soil particles; soil water content; soil water retention and potential; soil water characteristic (retention) and their measurements; flow of water in soils; soil bulk density and compaction; solute transport in soils and salinity; soil thermal properties; soil-plant-atmospheric relations; soil gaseous phase and transport.

ASSESSMENT:

Coursework	50%
Final Examination	50%

LEVEL: III**SEMESTER: 2****COURSE CODE: AGSL 3102****COURSE TITLE: SCIENCE OF COMPOSTING AND COMPOST USE****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001**

COURSE DESCRIPTION: Principles and potentials of composting; composting process; feedstock and technologies; process quality and classification; facility development; environmental concerns and controls; standards and regulations; marketing and economics of composts; composts use and applications.

ASSESSMENT:

Coursework	60%
Final Examination	40%

BIOL - BIOLOGY

LEVEL: II

SEMESTER: 1

COURSE CODE: BIOL 2462

COURSE TITLE: CARIBBEAN ISLAND ECOLOGY

NUMBER OF CREDITS: 4

PREREQUISITES: BIOL 1462 (AT LEAST A GRADE B)

COURSE DESCRIPTION: This advanced course treats the islands of the Caribbean within a global perspective. Its subject matter is the special nature of island environments and their biotas, and its aim is an understanding of the distributions and ecological relationships of island plants and animals through an analysis of their origins, evolutionary past population biology and community structure. The course is expected to integrate much of the knowledge that advanced undergraduates have amassed.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III

SEMESTER: 3 (SUMMER)

COURSE CODE: BIOL 3068

COURSE TITLE: FIELD COURSE IN NEOTROPICAL ECOLOGY

NUMBER OF CREDITS: 4

PREREQUISITES: BIOL 1462 AND 8 CREDITS OF ADVANCED LEVEL LIFE SCIENCES COURSES, OR PERMISSION OF THE HEAD OF DEPARTMENT

COURSE DESCRIPTION: Introduction to focal group, ecological principles illustrated by focal group, specialised features of focal group, field research projects (aquatic or terrestrial). Students must consult with the course coordinator before registering for this course.

ASSESSMENT:

Coursework	100%
Oral Report	10%
Written Work	90%

LEVEL: III

SEMESTER: 2

COURSE CODE: BIOL 3864

COURSE TITLE: FISHERIES BIOLOGY & MANAGEMENT

NUMBER OF CREDITS: 4

PREREQUISITE: BIOL 2063

COURSE DESCRIPTION: History, status and future of global fisheries. Fishing methods. Caribbean fisheries, especially in Trinidad & Tobago. Fish population dynamics, recruitment, fish stock assessment and fish migration. Fish handling, processing and the process of spoilage; Fisheries yield-prediction model. Management of tropical fisheries. Critical fish habitat. Law of the sea and its implications.

Practicals include time at sea.

ASSESSMENT:

Coursework	40%
Final Examination	60%

CHEM - CHEMISTRY**LEVEL: I****SEMESTER: 1****COURSE CODE: CHEM 1062****COURSE TITLE: BASIC CHEMISTRY FOR LIFE SCIENCES****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: The course is intended to provide students, who have had very little exposure to chemistry and who intend to proceed to degree level in the Life and Health Sciences, with a working knowledge of the basic concepts and principles of Chemistry. Topics of study: atoms, bonding, (ionic and covalent) intermolecular forces, quantifying matter, classes of reactions; properties of ionic and covalent compounds; solution chemistry; acid-base equilibrium; reaction kinetics; thermochemistry; gases; properties and reactions of carbon compounds including alcohols, aldehydes and ketones, carboxylic acids, esters and ethers, amines and amides; amino acids and peptides, natural polymers and stereochemistry.

ASSESSMENT:

Coursework	40%
Final Examination - 2-hour written paper	60%

COMP – COMPUTER SCIENCE**LEVEL: I****SEMESTERS: 1 AND 2****COURSE CODE: COMP 1011****COURSE TITLE: INTRODUCTION TO INFORMATION TECHNOLOGY****NUMBER OF CREDITS: 3****PREREQUISITE: NONE**

COURSE DESCRIPTION: This course will provide the knowledge needed to formulate a sound but basic understanding of Information Technology, its major components and its broad applications. Students will acquire hands-on experience with computers. They will become familiar with the components of a computer and learn about the various elements that make up an information system. The course deals with hardware, software, telecommunications and computer networks. General Topics: The Technology Revolution; Inside the Computer; Information Input and Output; Storing and Retrieving Information; Software; Networks and Networking; Internet and The Web. Practical Topics: Microsoft Package - Word, Excel, Access, PowerPoint and Front Page.

ASSESSMENT:

Practical Coursework 50%
 Project Report 25%
 Mid-term examination 25%
(No final written examination)

ECON – ECONOMICS**LEVEL: I****SEMESTER: 1****COURSE CODE: ECON 1001****COURSE TITLE: INTRODUCTION TO ECONOMICS I****NUMBER OF CREDITS: 3****PREREQUISITES: NONE****DEPARTMENT RESPONSIBLE: ECONOMICS**

COURSE DESCRIPTION: This course provides students to the history of economic thought highlighting some of the key economic issues, which have preoccupied the discipline from its origins. The course also provides an introduction to the basic principles of micro-economic analysis together with the main perspectives on the functioning of the macro-economy. The micro-economic analysis is illustrated by reference to a key export sector in the Caribbean (e.g. oil or bananas). The implications of trends in the latter for the Balance of Payments and macro economy conclude this first semester course.

ENRM – ENVIRONMENTAL MANAGEMENT

LEVEL: I**SEMESTER 2****COURSE CODE: ENRM 1001****COURSE TITLE: INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE MANAGEMENT****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course is designed to provide Environmental and Natural Resource Management students with the philosophies and tools needed to understand the economic and management principles of environmental and natural resource management. It looks at the issues and methods in making decisions about environmental assets especially in the context of sustainable development, poverty alleviation and policy agendas. The necessity and challenges in communicating with stakeholders in the area of participatory management will also be discussed. The course will introduce students to the basics of environmental law and policies implemented across the world, and discuss managing the negative impacts of climate change and pollution. It also develops the application of microeconomic principles and shows how these can be applied to managing the environment and natural resources. Further, relevant environmental issues will be examined to show how the theoretical principles covered in the material will apply to the real world. The course will be delivered in a blended format and examined by an in-course examination, quizzes, and a final examination.

ASSESSMENT:

Coursework – 40%

Final examination – 60%

LEVEL: I**SEMESTER: 1****COURSE CODE: ENRM 1002****COURSE TITLE: INTRODUCTION TO NATURAL RESOURCE ECONOMICS****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: This course introduces students to economic issues specific to the use and management of natural resources. It explores the economic principles for the efficient allocation of resources over time, examines sources of inefficiency in the exploration of natural resources and discusses policy options to reduce inefficiency. This course will be delivered in a blended format and examined by an in-course examination and a final examination.

ASSESSMENT:

Final examination –	60%

LEVEL: I**SEMESTER: 2****COURSE CODE: ENRM 1004****COURSE TITLE: ECOLOGY AND MICROBIOLOGY****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: The course on Ecology and Microbiology is comprised of two components. The ecology component will deal with the scientific approaches to studying ecology, the physical conditions and the availability of resources, physiological adaptation and the distribution of species, qualitative sampling of vegetation in a field, ecology of populations, species interaction, communities and ecosystems, habitat degradation and conservation. From an ecological perspective, microorganisms are the major biological agents that drive biogeochemical cycles of nature. Microbiology is the study of organisms of microscopic size, including bacteria, protozoa, viruses, and fungi which affect every aspect of life on Earth. The microbiology component is concerned with the physiology, metabolic diversity of microorganisms, biochemistry, and genetic engineering, their primary habitat types, ecology and uses of bacteria, fungi and viruses. This course will be examined by two in-course examinations, field and laboratory practicals and an end of semester exam.

ASSESSMENT:

Coursework –	40%
Final examination –	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: ENRM 2000****COURSE TITLE: SOIL AND LAND EVALUATION****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGSL 1001**

COURSE DESCRIPTION: The course reviews the process of soil formation and highlights the roles of soil forming factors on the properties of the soil profile. The relationship between soil properties and ecology of soils is discussed. A review of the many methods of surveying is conducted and remote sensing systems such as satellite imagery and aerial photography are described. The application of GIS is discussed as a management tool in data processing. Techniques for conducting land surveys are described and the various land evaluation systems are reviewed. This course will be delivered via lectures and examined by an in-course test, a project report and a final examination.

ASSESSMENT:

LEVEL: II**SEMESTER: 2****COURSE CODE: ENRM 2003****COURSE TITLE: WILDLIFE RESOURCES AND MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: ENRM 1001; AGLS 1001**

COURSE DESCRIPTION: Animal species of importance in the Neo-tropics with the exception of the turkey (*Melagris gallapavo*) and the Muscovy duck (*Cairina moschata*) are introduced. The focus on neo-tropical animal biodiversity and management in this course is necessary to sustainably evaluate, conserve and utilize indigenous species. Neo-tropical animal wildlife resources and management is a unique course which combines geography, physio-geography and culture to identify and manage neo-tropical animal biodiversity. Through this course, students will be exposed to a diverse range of neo-tropical animals and innovative sustainable management strategies. Some Neotropical animal species like the leather back turtle will used to demonstrate the importance of conservation management. This course will be delivered by means of lectures, slides and videos, and also seek to enhance student participation via discussions on key issues. Students will be examined based on field trip reports, the slide session and questionnaire, project presentations, project write-up and a final examination.

ASSESSMENT:

Coursework –	40%
Final examination –	60%

LEVEL: II**SEMESTER: 2****COURSE CODE: ENRM 2004****COURSE TITLE: ENVIRONMENTAL MICROBIOLOGY AND ECOLOGICAL HEALTH****NUMBER OF CREDITS: 3****PRE-REQUISITES: ENRM 1004**

COURSE DESCRIPTION: This course introduces students to the diversity of microbial populations and their diverse roles in the various environments, the interactions of microorganisms with the environment and impact on ecological health. It covers topics on biosynthesis, energetic, population and community dynamics, attributes of indicator organisms, water microbiology, soil microbiology, air microbiology, microorganisms in extreme environment, waste water and solid waste treatments, biodegradation, pollution, bioremediation and engineering microorganisms to produce fuel. Techniques for characterizing microorganisms and investigating microbial processes will also be discussed. The course will be delivered in a blended format and examined by a laboratory practical and examination, in course examination and final examination.

Final examination – 60%

LEVEL: III**SEMESTER: 1****COURSE CODE: ENRM 3000****COURSE TITLE: NATURAL RESOURCE ECONOMICS AND ASSESSMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: ENRM 1001 AND ENRM 1002**

COURSE DESCRIPTION: Human beings now face the challenge of sustainable development, as the world's population is increasing rapidly, and per-capita demands for goods and services are increasing, while in most cases, per-capita supply of natural resources is declining. Environmental and natural resource economics seeks to understand the relationship between man, the economy and the natural environment, especially in terms of the flow of waste into the environment, and how that affects the availability of natural resources for now and in the future. Social justice issues will also be considered. This course explores the role of prices in decision making by individuals, and shows how economic theory can be applied to solve existing and emerging environmental and natural resource problems. Students will also be introduced to the fundamentals of environmental impact assessment. This course will also show the potential role of the individual, firm, region or country in exacerbating environmental problems, and the possible solutions that may be applied to overcome these problems. This information will be useful for environmental managers in different positions, as a government policy maker, or as a manager in a private firm or non-governmental institution. This course will be delivered in a blended format and examined by project, in-course examination and final examination.

ASSESSMENT:

Coursework – 40%

Final examination – 60%

LEVEL: III**SEMESTER: 2****COURSE CODE: ENRM 3001****COURSE TITLE: SUSTAINABLE WATERSHED MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: ENRM 1001**

COURSE DESCRIPTION: The Sustainable Watershed Management (SWM) course is designed to equip students with the principles of managing human impacts on watersheds and water resources. It is also aimed at providing students with an understanding of the interrelationships among key elements within a watershed; land-use, soil, water and people including social justice issues. The course adopts an interdisciplinary approach intended to prepare students for problem solving at the watershed scale with the relevant knowledge of engineering, biology, hydrology, physics and chemistry. This course will be delivered through lectures and discussion of case studies. The concepts will be explained and relevant problems related to the concepts solved in class. Students are encouraged to participate in class work by contributing to in-class discussions and by asking and answering questions. The course will be examined by a field trip report, a group project report and a final exam.

Coursework – 40%

Final examination – 60%

LEVEL: III**SEMESTER: 2****COURSE CODE: ENRM 3002****COURSE TITLE: ANTHROPOGENIC CLIMATE CHANGE MANAGEMENT****NUMBER OF CREDITS: 3****PRE-REQUISITES: ENRM 1002**

COURSE DESCRIPTION: The course highlights the most significant aspects of climate change dynamics with emphasis on local and regional implications for sustainable management of primarily biological resources at a national and international level. Basic principles of climatology and atmospheric dynamics will be presented and the greenhouse effect will be discussed. Sources of greenhouse gases (GHG) and contributions to total emissions will be discussed along with recommendations on mitigation strategies to reduce their emissions. The vulnerability of the agricultural sector, the forests and water resources sectors to climate change will be addressed and their potential adaptation strategies discussed. The socio-economic factors impacting on the implementation of mitigation and adaptation strategies to climate change will be discussed and the evolution of climate change related international laws and treaties will be reviewed. This course will be delivered via lectures and examined by an in-course test, a project report and a final examination

Coursework –	40%
Final examination –	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: ENRM 3003 NOT OFFERED 2020/2021****COURSE TITLE: ENVIRONMENTAL AND NATURAL RESOURCE LAW****NUMBER OF CREDITS: 3****PRE-REQUISITES: ENRM 1001**

COURSE DESCRIPTION: The course is designed to examine the methods by which the law has sought to place limits on human activity having adverse impacts on the environment. In particular, the course explores the evolution from common law control to regulatory means established primarily by statute, with particular reference to environmental laws in force and decided cases in Commonwealth Caribbean countries. Unlike other areas of common law, like the law of contracts and torts that have developed over hundreds of years, environmental and natural resource law is a relatively new area that only developed in the 1960s and has since expanded and developed into a comprehensive body of laws focused on sustainable development and a wide variety of actions that lead towards the protection of the environment. The environment does not recognise man-made borders and without strong, coordinated and multifaceted action by various stakeholders the environment may become unable to sustain human life. At the least, future generations will suffer deprivation and may suffer irreparable harm unless current patterns of production, consumption and waste management are dramatically altered and proper legal and regulatory framework are in place to regulate the environment. This course is designed to facilitate learning the legal information and relevant material on environment and natural resource law in the Commonwealth Caribbean. It provides an overview to the general body of environmental law in the Caribbean and winsome instances, the international legal framework will be highlighted. This course will provide students at UWI with an outline of the approach taken by law makers internationally and in the Caribbean region towards developing and implementing environmental and natural resource law.

ENTR – ENTREPRENEURSHIP**LEVEL: I****SEMESTER: 2****COURSE CODE: ENTR 1001****COURSE TITLE: INTRODUCTION TO ENTREPRENEURSHIP, CREATIVITY AND PROBLEM SOLVING****NUMBER OF CREDITS: 3****PREREQUISITES: None**

COURSE DESCRIPTION: Good ideas alone are not adequate for the success of an entrepreneur in today's competitive environment. This course is designed to provide learners with an introduction to the process of business development. Learners will cover steps toward building a business, idea generation, launching a business venture as well as managing and expanding a business enterprise. The course presents learners with theory of different types of business organizations such as sole proprietorship, partnership and limited liability companies and cooperatives. Learners will review procedures and preparation of documents required for the registration and incorporation of a business under the Companies Act of their respective countries and rules and regulations for business operations throughout CARICOM member states. The course also provides an introduction to financial, organizational and human resource management, marketing, market research, business communication and product development. Learners will conclude the course by conducting a practical exercise such as the simulation of registration of a business name under the Companies' Act of their respective country which would be assessed during oral presentations. The course will be delivered via lectures, tutorials and discussions, and will be examined based on project reports, portfolios, simulations, demonstrations, role playing, research and presentations and a final examination.

LEVEL: III**SEMESTER: 1****COURSE CODE: ENTR 3001****COURSE TITLE: ENTREPRENEURIAL MARKETING****NUMBER OF CREDITS: 3****PREREQUISITES: ENTR 2002 ENTREPRENEURIAL BUSINESS PLANNING**

This course disassembles orthodox marketing practices in order to shed light on unique marketing strategies that new firms can adapt given limited resources to maximise their efforts and survive in today's competitive environment. The course will explore how marketing and entrepreneurship affect and are affected by one another. Concepts from each of these areas will be applied. The role of marketing in entrepreneurial ventures will be explored common mistakes entrepreneurs make when it comes to marketing will be explored. A number of hands-on cases will be used to assess real world problems at the marketing-entrepreneurship interface. Learners would also understand the marketing environment and technological implications of the internet and its importance to marketing. By the end of this course, learners will be exposed to the challenges of marketing and techniques to utilize to overcome market resistance. This course will expose students to real life examples of entrepreneurs and their marketing strategies with focus on local entrepreneurs. Students will create marketing inventions for existing businesses. The course will be delivered utilizing lectures, guest speakers and case analyses, books and videos for course materials. The course will be assessed based on a research project of local business ventures, group presentation and final examination.

- CAPE Communication Studies Grade I or II
- General Paper, Grade A or B
- CSEC General Proficiency, English Language Grade I
- GCE/BGCSE English Language, Distinction (Grade A or I or II)
- TOEFL (Paper Test Score 580+or Electronic Minimum writing score 22)
- An undergraduate degree from an English-speaking University
- UWIDEC/Open Campus Language Skills and Communication (Grade B and above)
- FDMU 0005 - Preparatory Academic Writing

COURSE DESCRIPTION:

This course examines specific tools that lead students of the Faculty of Science and Technology and the Faculty of Food and Agriculture to develop competencies in technical and expository writing using formal, academic English. Fundamental aspects of the course are summary writing and paraphrasing, writing reviews of related literature, converting tabular information into continuous prose, and writing a formal expository essay. Developing research skills and applying the accurate documentation of courses are also emphasized. The entire course is underpinned by critical thinking skills and is specially designed to facilitate the transfer of written competencies to faculty courses read by undergraduate university students while paving the way for sound postgraduate academic writing.

Examination 50%

Students must pass BOTH coursework and final examination and have an overall mark of 50 or more, in order to qualify for an overall pass in the course.

FOUN 1210 Not offered to FSA Students.**LEVEL: I****SEMESTERS: 2****COURSE CODE: FOUN 1301****COURSE TITLE: LAW, GOVERNANCE, ECONOMY AND SOCIETY (UNIVERSITY FOUNDATION COURSE)****(FACULTY OF SOCIAL SCIENCES)****NUMBER OF CREDITS: 3****PREREQUISITES:**

COURSE DESCRIPTION: This course is delivered through the medium of print. The print package comprises a student manual, a study guide and a reader. In addition to the print material there are teleconferencing and/or tutorials. The course introduces students to some of the major institutions in Caribbean society. It exposes the student to both the historical and contemporary aspects of Caribbean society, including Caribbean legal, political and economic systems. In addition, Caribbean culture and Caribbean social problems are discussed.

Assessment is based solely on a final examination at the end of the semester. It consists of twelve (12) essay-type questions, of which students are required to write on three (3). All questions carry equal marks. The examination is divided into four (4) sections corresponding to the four (4) subject areas in the course. Students are not allowed to do more than one question in any one section.

GEOG – GEOGRAPHY

SEMESTER: 1

COURSE CODE: GEOG 1131

COURSE TITLE: HUMAN GEOGRAPHY 1: POPULATION, MIGRATION AND HUMAN SETTLEMENT

NUMBER OF CREDITS: 3

PREREQUISITES: CAPE GEOGRAPHY OR ENVIRONMENTAL SCIENCE OR EQUIVALENT

COURSE DESCRIPTION: This course introduces modern approaches to the study of Population Geography. It examines the human and physical factors determining population distribution and dynamics, theories of population change including Malthusian and neo-Malthusian ideas and the demographic transition theory. It explains the sources of, and problems associated with population statistics, how to measure fertility, mortality and migration and population projection techniques. It also discusses family planning and population control efforts around the world, the status of women and its crucial role in population dynamics, major causes of death around the world including AIDS, the role of migration in population dynamics, culture, population and the environment. The course also introduces historical and contemporary perspectives on urbanization both in the industrialized world and the developing world and reviews theories on the geographical distribution of human settlement.

ASSESSMENT:

Examination	60%

SEMESTER: 2

COURSE CODE: GEOG 1132

COURSE TITLE: HUMAN GEOGRAPHY 2: WORLD ECONOMY, AGRICULTURE & FOOD

NUMBER OF CREDITS: 3

PREREQUISITES: CAPE GEOGRAPHY OR ENVIRONMENTAL SCIENCE OR EQUIVALENT

COURSE DESCRIPTION: The course introduces modern approaches to Economic Geography. It examines economic development and globalization as key elements in understanding the economic interdependence of countries in the modern world. It introduces basic theories, concepts, methods and techniques for describing, measuring and analyzing patterns of economic and social development. It explains the factors that have contributed to uneven patterns of economic development, including natural resource endowments and the processes of industrialization, technological change and globalization. The study of the economic geography of agriculture and the food industry illustrates many issues arising from the process and outcomes of economic development and globalization. These include the role of agribusiness in food production and food consumption and the impacts of traditional and modern agricultural production systems on the environment. The course explores the geographical dimensions of world hunger and malnutrition in relation to the structure of the world economy and world agriculture, and considers prospects for future agricultural development.

ASSESSMENT:

Coursework	85%
Examination	15%

SEMESTER 1**COURSE CODE: GEOG 1231****COURSE TITLE: EARTH ENVIRONMENTS 1: GEOMORPHOLOGY & SOILS****NUMBER OF CREDITS: 3****PREREQUISITES: CAPE GEOGRAPHY OR ENVIRONMENTAL SCIENCE OR EQUIVALENT**

COURSE DESCRIPTION: The course introduces modern approaches to an introduction to geomorphology and soil science. It examines the main geomorphic processes in the context of endogenic and exogenic systems from a global perspective. The first part of the course is an examination and description of endogenic systems and processes. It examines the internal structure of the Earth and explains the geographic patterns of global relief of the solid surface in the context of plate tectonics. The relationship between global tectonics and the patterns and styles of volcanic activity is discussed. The passive control of rock type and geological structure is described in relation to landscape form and process. The second part of the course examines and describes the main exogenic systems and processes. The geographical patterns and types of weathering are discussed and the products of the physical disintegration and chemical decomposition of rocks are examined. The course introduces aspects of soil science from a geographical perspective through an examination of the main soil forming factors, and analysis of soil physical; and chemical processes. Key soil types are described and the several approaches to the classification of soils are examined. Exogenic systems in relation to the main geomorphic agents of water, wind and ice are introduced in the context of fluvial, slope, aeolian, karst, coastal, glacial and periglacial systems. The course provides a solid framework for students to advance to Level II and III courses in geomorphology and landform change.

ASSESSMENT:

Coursework	40%
Examination	60%

SEMESTER: 2**COURSE CODE: GEOG 1232****COURSE TITLE: EARTH ENVIRONMENTS 2: CLIMATE & THE BIOSPHERE****NUMBER OF CREDITS: 3****PREREQUISITES: CAPE GEOGRAPHY OR ENVIRONMENTAL SCIENCE OR EQUIVALENT**

COURSE DESCRIPTION: This course adopts a modern holistic approach to the study of the Earth system. It introduces climate science and examines the processes operating within the atmosphere and biosphere including general circulation of the atmosphere, ocean-atmosphere interactions, and global climate systems. It places particular emphasis on the impacts and consequences of human-environment interactions. Students will gain an understanding of the spatial and temporal variability of these processes on local, regional, and global scales. The course will examine the primary causes, both natural and human, and consequences of climate change and the impact of a changing climate for communities both within and outside the Caribbean Region. Particular emphasis is placed on the impacts of climate change on the biosphere as well as their implications for agricultural systems. The course also introduces the study of biogeography, focusing on the geographical features of biodiversity at different geographical scales and reviews ideas about ecosystem processes and vegetation disturbance and succession.

ASSESSMENT:

Coursework	40%
Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: GEOG 2010****COURSE DESCRIPTION: GEOGRAPHIC INFORMATION SYSTEMS****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1131, GEOG 1132, GEOG 1231 & GEOG 1232) OR (GEOG 1900 & GEOG 1901)****NOT AVAILABLE TO STUDENTS CREDITED WITH GEOG 2000**

COURSE DESCRIPTION: The course introduces students to the theory and general principles of GIS, and to practical skills and hands-on experience in its use. It teaches the fundamental concepts and basic functions of a GIS, the properties of GIS maps, and the structure of a GIS database. It introduces coordinate systems and map projections, and methods of performing simple vector and raster spatial analysis. In the lab exercises, students will work with ESRI ArcGIS software to visualize geographic data, create maps, query a GIS database, perform spatial analysis using common analysis tools, and solve geographic problems using a systematic approach. The course comprises of lectures and practicals. Lectures introduce some of the theory behind GIS and give an overview of some of the methods. In the practicals, students use GIS software for a range of tasks, using a range of data sources.

ASSESSMENT:

Coursework	60%
Examination	40%

LEVEL: II**SEMESTER: 1****COURSE CODE: GEOG 2011****COURSE DESCRIPTION: GEOMORPHOLOGY****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1231 & GEOG 1232) OR GEOG 1900****NOT AVAILABLE TO STUDENTS CREDITED WITH GEOG 2002**

COURSE DESCRIPTION: The course builds on the first-year physical geography courses and examines modern approaches to the analysis and interpretation of geomorphic processes and landforms. It examines the main geomorphic processes and provides an in-depth examination of geomorphology in tropical settings. The first part of the course is an examination of sedimentary dynamics and their variation in time and space. In depth analysis of weathering, mass movement, fluvial, aeolian and coastal processes follows, with an emphasis on these processes in the tropical realm. Detailed consideration is given to the relationship between surface materials and landforms, and the measurement of features in the field and from remote sensed sources. There is a strong practical component. You are expected to be proficient at techniques studied in year 1, such as the use of Google Earth.

ASSESSMENT:

Coursework	50%
Examination	50%

LEVEL: II**SEMESTER: 2****COURSE CODE: GEOG 2013****COURSE DESCRIPTION: GEOGRAPHY RESEARCH METHODS****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1131, GEOG 1132, GEOG 1231 & GEOG 1232) OR (GEOG 1900 & GEOG 1901)**

COURSE DESCRIPTION: The course aims to provide some basic knowledge of key aspects of the history and philosophy of geographical enquiry, and to provide the theoretical and practical skills required to develop and conduct a research project in geography. These aims are achieved through providing training in the application of geographical research methods and techniques, data collection, data and statistical analysis, and the technical presentation of results. The course includes how to define a research topic, how to identify relevant literature, how to prepare a research proposal, and how to present data. Practical classes and assignments will equip students with the skills to conduct qualitative and quantitative research. By the end of the course, students should be familiar with the main conceptual and organizational issues that they will face in conducting research projects.

ASSESSMENT:

Coursework	100%
------------	------

LEVEL: II**SEMESTER: 1****COURSE CODE: GEOG 2014****COURSE DESCRIPTION: GEOGRAPHIES OF FOOD****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901****NOT available to students credited with GEOG 2006**

COURSE DESCRIPTION: An understanding of the political economic, socio-cultural, and environmental factors that influence the pathways of food is essential for economic geographers, perhaps especially for those interested in the Caribbean and other plantation-based societies. The course aims to provide a framework for the analysis of geographic factors which influence the location and distribution of agricultural activity and food marketing and consumption, with specific reference to the tropics. A key issue will be the role of historical, political economic and socio-cultural factors as geographic variables in agricultural production, marketing, and consumption in the Caribbean region. The course will provide a holistic view of agricultural and rural history and development, which will complement other geography courses which offer a Caribbean focus. The course is divided into three parts. Part I covers the political economy of food in the Caribbean, as shaped by earlier patterns of plantation economies. Part II offers several case studies of food, politics, economy, history, and culture in the Caribbean, including a discussion of dependencies on the International Monetary Fund (Jamaica) and agroecological shifts in Cuba. The final part of the course shifts to ideological and environmental implications of the global food regime.

ASSESSMENT:

Examination	40%

LEVEL: II

SEMESTER: 2

COURSE CODE: GEOG 2015

NOT OFFERED: 2020/2021

COURSE DESCRIPTION: GEOGRAPHIES OF DEVELOPMENT AND GLOBALISATION

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901

NOT AVAILABLE TO STUDENTS CREDITED WITH GEOG 2008

COURSE DESCRIPTION: A geographical understanding of the global political economy requires a thorough comprehension of the way policies and discourses of economic development have affected and are affecting societies and environments at various scales (local, national, regional, global) within and between rich and poor countries. Critical awareness of development processes must also incorporate localized understandings of people-environment interactions, posing 'development' as a contested, social, and ecological process rather than an objective economic strategy. The course is organized in three sections, with the first section dealing with general theoretical issues, the second with more detailed theories (of rural development, for example) and the final section with case studies. It fits with the mission of the University of the West Indies in providing a forum for the development of oral and written knowledge skills and in its focus on alternative approaches to economic and sustainable development. The course also fits well with the goals of the Department of Geography as it develops perspectives on human-environment relations, particularly challenges and opportunities for Small Island Developing (SIDs) countries.

ASSESSMENT:

Coursework	85%
Examination	15%

LEVEL: II

SEMESTER: 2

COURSE CODE: GEOG 2016

COURSE DESCRIPTION: INTRODUCTION TO URBAN GEOGRAPHY

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901

NOT available to students credited with GEOG 2007

COURSE DESCRIPTION: Introduction to Urban Geography provides students with the foundation of concepts, terms, and themes essential to the study of advanced Urban Geography; opportunities to recognize and investigate the complexity of city forms and city life; and the space to reflect critically on the seeming neutrality of the built urban form and processes. You will develop both a theoretical understanding of how urban processes shape your everyday social worlds as well as practical knowledge of what you can do to shape your urban environment. Although this course mainly uses North American and British-derived frameworks and case-studies, students are encouraged to apply a Caribbean lens to frameworks and theories, to consider the limitations of contemporary urban theory from a predominantly "global north" perspective, and to re-imagine and re-theorize from local and regional perspectives and contexts. There will be opportunities throughout the course for you to interrogate "the urban", explore issues and examine solutions, and to consider critically the applicability of theories and concepts to the "global south" generally, and the Republic of Trinidad and Tobago particularly.

ASSESSMENT:

Coursework	60%
Examination	40%

LEVEL: II

SEMESTER: 2

COURSE CODE: GEOG 2017

COURSE DESCRIPTION: POLITICAL GEOGRAPHY

NOT OFFERED: 2021/2022

NUMBER OF CREDITS: 3

PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901

COURSE DESCRIPTION: This course focuses on strategic and political implications of ongoing trends in global political and economic arenas including conflicts over commodities and natural resources such as natural gas, crude oil, gold, bauxite, illegal drugs to quote only a few. GEOG 2017 takes a geographical approach to geopolitics, looking at regional trends. North Atlantic countries' foreign policies and BRIC's recent arrival in the global geopolitics game are discussed (focus on world regions, etc.). While the course is globally comprehensive, special attention will be given to current sites of geo-political tension. Maps will be used extensively for both descriptive and analytical purposes.

ASSESSMENT:

Coursework	100%

LEVEL: II**SEMESTER: 3 (SUMMER)****COURSE CODE: GEOG 2018****COURSE DESCRIPTION: GEOGRAPHY RESIDENTIAL FIELD SCHOOL (TOBAGO)****NOT OFFERED: 2021/2022****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1131, GEOG 1132, GEOG 1231 & GEOG 1232) OR (GEOG 1900 & GEOG 1901)**

COURSE DESCRIPTION: This course provides students with an opportunity to gain an in-depth knowledge of the physical and human geography of Tobago, the smaller of the two islands which make up the Republic of Trinidad and Tobago, and, through practical field-based examples, introduces students to issues in environmental management. Tobago possesses a wealth of human and physical geography field examples and is relatively self-contained, making it ideal for a residential field course. Students will embark on an integrated programme of intensive fieldwork, testing different research techniques and undertaking small, self-contained research projects. It provides the opportunity to further enhance individual project work

LEVEL: II**SEMESTER: 1****COURSE CODE: GEOG 2019****COURSE DESCRIPTION: PHYSICAL HYDROLOGY****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1231 & GEOG 1232) OR (ENRM 1001 and AGSL 1001)**

COURSE DESCRIPTION: This course introduces students to the concepts and principles of physical hydrology. In this course we will examine the movement of water in the hydrologic cycle looking at how precipitation becomes streamflow, evapotranspiration, and groundwater at the watershed to regional scale. Topics include: the hydrologic cycle and water balances, precipitation, interception, evapotranspiration energy balances, vadose zone hydrology, groundwater hydrology, streamflow generation, ecohydrology, hydrological modelling, and field measurement and analysis techniques. Where possible, examples from tropical landscapes will be used. Given that hydrology is a quantitative science, assignments involving mathematical calculations and analyses form an important part of this course. The course will be delivered to the students through a combination of interactive lectures, seminars, field trips and laboratory exercises. This course will be assessed by examination, laboratory assignments and presentations. The course can be taken as an elective course by students on either the Geography or Environmental and Natural Resources Management Majors. It links with both GEOG 3111 Natural Hazards and ENRM 3001 Sustainable Watershed Management.

ASSESSMENT:

Coursework	60%
Examination	40%

LEVEL: III**SEMESTER: 1****COURSE CODE: GEOG 3107****COURSE TITLE: METEOROLOGY AND CLIMATOLOGY****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1231 & GEOG 1232) OR GEOG 1900**

COURSE DESCRIPTION: The course introduces students to the theory and physical principles of meteorology and climatology, the atmosphere and atmospheric processes, weather and weather analysis, weather maps and forecasting, extreme weather, patterns and characteristics of the Earth's climate and climatic change. The course concludes with a discussion of the politics surrounding climate change, its mitigation and adaptation.

ASSESSMENT:

Examination	60%

LEVEL: III**SEMESTER: YEAR LONG****COURSE CODE: GEOG 3110****COURSE DESCRIPTION: GEOGRAPHY RESEARCH PROJECT****NUMBER OF CREDITS: 6****PREREQUISITES: GEOG 2013 OR (GEOG 1900 & GEOG 1901 & HOD APPROVAL)**

COURSE DESCRIPTION: The Geography Research Project provides a showcase for each student's accumulated skills and knowledge. It builds on the skills developed in GEOG 2013 Geography Research Methods and gives students an opportunity to integrate the skills and knowledge they have developed throughout the course and to engage in independent research of the student's own choosing. The project module offers students the opportunity to demonstrate the qualities of independence and creativity by the pursuit of a topic of interest at depth. The research process begins with a project proposal, continues with research design and fieldwork, and culminates in a substantive academic presentation and dissertation based on the research findings.

ASSESSMENT:

Coursework	100%
------------	------

LEVEL: III**SEMESTER: 1****COURSE CODE: GEOG 3111****COURSE TITLE: NATURAL HAZARDS****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1231 & GEOG 1232) OR GEOG 1900****NOT AVAILABLE TO STUDENTS CREDITED WITH GEOG 3007**

COURSE DESCRIPTION: The course introduces students to the concepts of risk and hazard, and reviews recent theoretical work on human response to hazard and disaster, such as Blaikie's Access and Pressure: Release models and Hewitt's Temporal Sequence model. Using this theoretical background, it reviews a range of natural hazards operating of different spatial and temporal scales, including geological (volcanoes, earthquakes), hydrological (floods), climatological (drought, hurricanes) and biological (diseases, epidemics), and examines the possible changes to risk under climate and sociological change. Emphasis throughout is on the use of appropriate technology and social structures to mitigate hazard impact. Delivery of the course is primarily through a series of lectures and seminars, assessed by examination and presentation/essays. Emphasis in the coursework will be placed on the recovery, synthesis, and presentation of scientific information.

ASSESSMENT:

Coursework	40%
Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: GEOG 3113****COURSE TITLE: REMOTE SENSING & GIS****NUMBER OF CREDITS: 3****PREREQUISITES: GEOG 2010 OR GEOG 2000****NOT AVAILABLE TO STUDENTS CREDITED WITH GEOG 3005**

COURSE DESCRIPTION: The course introduces students to the theory and principles of environmental remote sensing, the analysis of remote sensing imagery, and its integration with Geographical Information Systems (GIS). The course builds strongly on the second-year course GEOG 2010 Geographical Information Systems and introduces students to more advanced data handling techniques and spatial analysis methods. Students gain practical skills and hands-on experience in the analysis of remote sensing imagery using open-source GIS software tools. A variety of applications of remote sensing are introduced, including the assessment of vegetation, land degradation, deforestation, desertification, and urbanisation. Remote sensing is a key source of data for the environmental sciences and proficiency in its use is regarded as a key skill for a modern geography graduate.

ASSESSMENT:

Coursework	60%
Examination	40%

LEVEL: III**SEMESTER: 1****COURSE CODE: GEOG 3114****COURSE TITLE: GEOGRAPHIES OF MIGRATION AND SETTLEMENT****NOT OFFERED: 2021/2022****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901**

COURSE DESCRIPTION: This course builds on Human Geography I (GEOG 1131), Population, Migration and Settlement. It takes an in-depth look at migration flows, conditions and debates in source and destination countries, migration as a human right, and migration control and management as expressions of state sovereignty and national identity. The course requires students to read and respond to academic articles, gray literature and policy documents, and news media. The course also gives students an opportunity to view testimonials and films on forms of migration, and offer critical reviews based on the literature and perspectives of different stakeholders. The first part of the course is an overview of trends, patterns, and theories of migration, while the second part of the course is dedicated to analyses and interpretations of migration processes and experiences.

ASSESSMENT:

Coursework	60%
Examination	40%

LEVEL: III**SEMESTER: 2****COURSE CODE: GEOG 3115****COURSE TITLE: GEOGRAPHIES OF EQUALITY AND SOCIAL JUSTICE****NOT OFFERED: 2021/2022****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1131 & GEOG 1132) OR GEOG 1901**

COURSE DESCRIPTION: The course is designed to provide an advanced understanding of issues introduced in other geography courses offered by UWI, such as relations between discourse, political economy, social justice, borders, space and environment. It draws together elements of theory and practice to present debates about the justice of market-led society, egalitarian and welfare philosophies and their limitations in a world of diversity. The course begins with a discussion of the concept of justice and theories of social justice. Following these discussions, we will examine social justice issues involving such areas as the environment, poverty and hunger, race and ethnicity, gender, sexuality, and disability. The first half of the course introduces mainstream theories of social justice and equality, and considers alternative approaches to economy and society, questioning the viability of such alternatives in a globalized world. The second part questions one's responsibility according to positionality in time and space and in relation to insiders and outsiders. The third part of the course considers the prospects for social and environmental justice from both Western and non-Western perspectives with examples from global and local social movements. The final part uncovers ethical complications of qualitative data collection, particularly the difference between representational and non-representational approaches. The course content and case studies reveal the central contribution that geographers can make to the understanding of equality and social justice in a complex and rapidly changing world.

COURSE DESCRIPTION: This course introduces students to the theory and principles of environmental modelling within the context of GIS. The course builds strongly on the second-year course GEOG 2010 Geographical Information Systems and the third-year course GEOG 3113 Remote Sensing and GIS; and introduces students to advanced data handling and spatial analysis methods such as geostatistics. Students gain practical skills and hands-on experience in the use of a variety of environmental models and advanced GIS analysis techniques, using open-source GIS software tools. A variety of applications of environmental modelling are introduced, including the modelling of landslide risk, population dynamics, soil erosion, energy balance, rainfall-runoff, and flood inundation. Flood inundation modelling is used as an in-depth example to explore issues in data handling, model uncertainty and accuracy assessment, and risk analysis.

LEVEL: III**SEMESTER: 1****COURSE CODE: GEOG 3118****COURSE TITLE: QUATERNARY ENVIRONMENTS****NUMBER OF CREDITS: 3****PREREQUISITES: (GEOG 1231 & GEOG 1232) OR GEOG 1900****NOT AVAILABLE TO STUDENTS CREDITED WITH GEOG 3006**

COURSE DESCRIPTION: The course aims to introduce students to the history of the earth during the past 2 million years – the Quaternary era. It examines the main changes that have taken place in the terrestrial, oceanic and atmospheric environments. It introduces types of proxy evidence that allow reconstruction of Quaternary environments, and some of the dating techniques which allow them to be placed accurately within a time frame. The subject is pertinent to the study of current climatic changes by identifying the methods and processes of identifying, quantifying, and understanding natural and man-made changes on a longer time scale. It builds on geomorphological and meteorological knowledge acquired at Levels 1 and 2.

ASSESSMENT:

LEVEL: III**SEMESTER: 1****COURSE CODE: GEOG 3305****COURSE TITLE: PLANNING, DEVELOPMENT AND SUSTAINABILITY****NUMBER OF CREDITS: 3****PREREQUISITES: GEOG 2016**

COURSE DESCRIPTION: This course introduces theories, concepts and methodologies applied in physical and smart growth planning. It develops an appreciation and understanding of the planning environment, i.e., the socioeconomic, environmental, political, and cultural context in which processes of planning and development operate. Planning and development issues are often rooted in contested political, social, and ecological processes rather than in objective strategies designed to equitably meet the three pillars of sustainability. These contestations often contribute to disparities in development, marginalization of communities, lack of public participation in the planning decision-making process, unsustainable land uses, enhanced vulnerabilities to man-made and natural disasters and environmental degradation. It also explores present and future developments in smart growth planning and the types of issues that may impact on the sustainable growth and development of global environments. The course is organized in three sections, with the first section dealing with the history, philosophy, and general theories of planning. The second section deals with the planning of human settlements, particularly the development of sustainable liveable communities. The third section looks at planning for the 21st century; potential development issues and the prospects for sustainable planning and development.

Final Examination	60%

LEVEL: I**SEMESTER: 1****COURSE CODE: HUEC 1003****COURSE TITLE: INTRODUCTION TO NUTRITION****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Concepts of nutrition in relation to health. Food as a source of nutrients. Nutrient composition of foods. Properties, functions, requirements, inter-relationships, and metabolism of nutrients in humans.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I**SEMESTER: 2****COURSE CODE: HUEC 1004****COURSE TITLE: INTRODUCTION TO FOODS AND MEAL MANAGEMENT****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Principles involved in preparation of food of standard quality. Influence of composition and techniques on properties of food products. Standard methods of food preparation with emphasis on quality, nutrient retention, and safety. At least one field trip is scheduled for this course.

ASSESSMENT:

Coursework - Practical & Theory	40%
Final Examination	60%

LEVEL: I**SEMESTER: 2****COURSE CODE: HUEC 1005****COURSE TITLE: INTRODUCTION TO BIostatISTICS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course covers the principal statistical concepts used in biostatistics. Basic concepts common to all statistical analyses are reviewed, and those concepts with specific importance in biostatistics are covered in detail. The course introduces students to concepts and application of biostatistics methods including descriptive statistics, exploratory data analysis, probability distributions, sampling distributions, estimation, and hypothesis testing. Students will develop skills that will enable them to compare means of two groups, proportions of two groups and means and proportions of more than two groups. The course concludes with risk measurement, analysis of variance and Simple Linear Regression. Readings and assignments would complement lectures to assist students in developing basic biostatistics competencies.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I**SEMESTER: 2****COURSE CODE: HUEC 1006****COURSE TITLE: BASIC APPAREL CONSTRUCTION****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course introduces students to the major aspects of apparel production including pattern making methods and use of the sewing machine. Course includes apparel production terminology and garment construction techniques. Covers data manipulation, drafting a skirt block and creating a complete pattern.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: I**SEMESTER: 1****COURSE CODE: HUEC 1007****COURSE TITLE: INTRODUCTION TO TEXTILES****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Introduction to the structure and properties of textiles. Consumer use and fabric characteristics are emphasized.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: HUEC 2000****COURSE TITLE: BIOCHEMISTRY****NUMBER OF CREDITS: 3****PREREQUISITES: CHEM 1062 OR EQUIVALENT AND AGRI 1013**

COURSE DESCRIPTION: Chemistry of biological compounds: Carbohydrates, lipids, amino and proteins, nucleic acids etc., pH and buffers, metabolism of energy yielding compounds (bioenergetics); internal and hormonal regulation of metabolic pathways; molecular genetics and implications for the future of clinical nutrition practice.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: HUEC 2001****COURSE TITLE: BASIC HUMAN ANATOMY AND PHYSIOLOGY****NUMBER OF CREDITS: 3****PREREQUISITES: AGRI 1013**

COURSE DESCRIPTION: The integration of the sciences of human anatomy, physiology, and pathology. Functional anatomy with emphasis on basic principles and physiological activities of the different systems of the human body in health and disease.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 2****COURSE CODE: HUEC 2002****COURSE TITLE: NUTRITION THROUGHOUT THE LIFE CYCLE****NUMBER OF CREDITS: 3****PREREQUISITES: HUEC 1003**

COURSE DESCRIPTION: Nutritional requirements for growth and development throughout the life cycle. Analysis of nutrition assessment indicators for each age group. Special consideration to growth standards, maternal weight gain, pregnancy, and lactation requirements, eating behaviour of various age and other groups. The physiology of aging as it relates to nutrient adequacy in the mature adult.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 2****COURSE CODE: HUEC 2003****COURSE TITLE: FOODSERVICE SYSTEMS MANAGEMENT (ORGANISATION, MANAGEMENT AND OPERATIONS)****NUMBER OF CREDITS: 3****PREREQUISITES: HUEC 1004**

COURSE DESCRIPTION: The application of Principles of Management to foodservice operations and human resources. Technical and operational aspects in the design of foodservices; including menu planning and evaluation, purchasing, receiving and storage of food and supplies, financial control, inventory control, food delivery and service, sanitation and safety, quality assurance and continuous quality improvement.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: HUEC 2004****COURSE TITLE: FOODSERVICE SYSTEMS MANAGEMENT (EQUIPMENT, LAYOUT AND DESIGN)****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Introduction to architectural drawings, symbols and design features; reading and interpreting blueprints; analysis of layout characteristics; principles of workflow and work simplification; sanitation requirements in layout and design; materials used in construction of facilities and equipment in relation to use and care; environmental elements. Determining equipment requirements and writing specifications; equipment purchasing procedures; utilities and services in relation to selection of equipment; energy control; principles of refrigeration and cooling; operation, use and care of equipment. Approximately three (3) field trips are scheduled for this course.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 1****COURSE CODE: HUEC 2008****COURSE TITLE: PSYCHOLOGICAL ASPECTS OF APPAREL****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: A study of the theory and research findings pertaining to the social and psychological aspects and appearance in relation to the self, interpersonal, group and societal behaviour.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTER: 2****COURSE CODE: HUEC 2009****COURSE TITLE: FAMILY RESOURCE MANAGEMENT****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Concepts of Management. Nature and scope of management as a function of families. Factors affecting and influencing the economic well-being of families with focus on Income Distribution, Spending Patterns, Inflation and Social Policies. Basic principles of money management - Budgeting, Record-keeping, Savings and Investments, Consumer Credit and Insurance. Personal and family financial considerations for home ownership, home rental and home improvements.

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: HUEC 3002****COURSE TITLE: FOODSERVICE SYSTEMS MANAGEMENT
(QUANTITY FOODS)****NUMBER OF CREDITS: 3****PREREQUISITES: HUEC 1004**

COURSE DESCRIPTION: Standards and methods of quantity food production and management; Experiences and case studies in planning for production, recipe standardization, use of quantity foodservice equipment, nutrient and quality preservation, portion control, merchandising and service, cost calculations, energy management; quality control.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: HUEC 3004****COURSE TITLE: FOOD PRODUCT DEVELOPMENT****NUMBER OF CREDITS: 3****PREREQUISITES: HUEC 1001**

COURSE DESCRIPTION: Application of food science principles and experimental procedures to problems in foods. Practical investigations, experimental techniques leading to experience in developing a product; organizing taste panels for sensory evaluation and acceptance of product; market testing; market research; patents; packaging, labelling; marketing; advertising.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 1****COURSE CODE: HUEC 3005****COURSE TITLE: MEDICAL NUTRITION THERAPY I****NUMBER OF CREDITS: 3****PREREQUISITES: HUEC 2011, HUEC 2013 AND HUEC 2014**

COURSE DESCRIPTION: Medical Nutrition Therapy I focus on the physiological and biochemical anomalies of disease and the adaptation of diet in the treatment or prevention of disease; application of the principles and concepts of nutrition therapy to meet nutrient, medical, social, and psychological needs of patients. It develops the knowledge base needed to assess, plan, implement, and evaluate the nutrition care process. Topics include nutritional management in disease of the oral cavity, digestive system, upper and lower gastrointestinal tract, liver, biliary system and exocrine pancreas, energy balance and weight control, endocrine system and metabolic disorders, cardio-vascular and pulmonary disease.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: HUEC 3006****COURSE TITLE: MEDICAL NUTRITION THERAPY II****NUMBER OF CREDITS: 3****PREREQUISITES: HUEC 2011, HUEC 2013 AND HUEC 2014.**

COURSE DESCRIPTION: Medical Nutrition Therapy II is a continuation of Medical Nutrition Therapy I, which involves the study of the physiological and biochemical anomalies of disease and the adaptation of the diet in the treatment or prevention of disease: application of the principles and concepts of nutrition therapy to meet nutrient, medical, social, and psychological needs of patients. It develops the knowledge base needed to assess, plan, implement, and evaluate the nutrition care process. Topics include the nutritional management of physiological stress and hypermetabolic conditions, e.g., illness, infection, surgery / trauma and burns, cancer and HIV/AIDS, renal disease, anemia, low birth weight infant, Nervous system, Food allergy and Food Intolerances.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: III**SEMESTER: 2****COURSE CODE: HUEC 3007****COURSE TITLE: LAW AND THE FAMILY****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Family law, consumer laws and the rights of the consumers with respect to the variety of goods and services offered in the society, such as health, clothing, shelter, and the use of leisure without infringing the rights of others. Laws applicable to the processing, packaging, labelling and distribution of food, food safety and nutritive value. Laws of major food regulatory agencies.

ASSESSMENT:

LEVEL: II**SEMESTER: 1****COURSE CODE: MGMT 2007****COURSE TITLE: INTRODUCTION TO E-COMMERCE****NUMBER OF CREDITS: 3****PREREQUISITES/CO-REQUISITE: MKTG 2001 AND MGMT 2006**

COURSE DESCRIPTION: This course aims to prepare students with the requisite fundamentals to enable them to provide the business perspective/inputs to the e-commerce adoption process. Emphasis will be on the underlying commercial principles of e-commerce rather than on the technological processes. Topics to be covered include internet demographics; internet business models; customer support strategies; security issues in e-commerce; legal issues in e-commerce; logistical challenges for Caribbean e-commerce.

ASSESSMENT:

Final Examination	60%

LEVEL: II**SEMESTERS: 1 OR 2****COURSE CODE: MGMT 2008****COURSE TITLE: ORGANISATIONAL BEHAVIOUR****NUMBER OF CREDITS: 3****PREREQUISITES: SOCI 1002 OR MGMT 1001 OR HUEC 1003****DEPARTMENT RESPONSIBLE: MANAGEMENT STUDIES**

COURSE DESCRIPTION: This course uses the systems approach to organizations to highlight how interrelated variables such as people, technology, task, structure, and external environments impact on organizational effectiveness. Emphasis is on the nature of behavioural issues and how and why they impact on the functioning of organizations.

ASSESSMENT:

Coursework	40%
Final Examination	60%

LEVEL: II**SEMESTERS: 1 OR 2****COURSE CODE: MGMT 2021****COURSE TITLE: BUSINESS LAW****NUMBER OF CREDITS: 3****PREREQUISITES: NONE****DEPARTMENT RESPONSIBLE: MANAGEMENT STUDIES**

COURSE DESCRIPTION: The main focus of this course is the general principles of the law of contract, the law of Agency as well as other related areas of interest like the Sale of Goods Act and the Hire Purchase Act 1938 and 1954. Background material covers the role and function of the law in society, the sources of the law, the legal system etc.

ASSESSMENT:

Coursework	25%
Final Examination	75%

LEVEL: II**SEMESTERS: 1 OR 2****COURSE CODE: MGMT 2023****COURSE TITLE: FINANCIAL MANAGEMENT I****NUMBER OF CREDITS: 3****PREREQUISITES: FOR AGRIBUSINESS MANAGEMENT STUDENTS: ACCT 1002 AND ECON 1003 OR AGRI 1003****DEPARTMENT RESPONSIBLE: MANAGEMENT STUDIES**

COURSE DESCRIPTION: This course is concerned with the core concepts of financial decision-making; the time-value of money, the cost of capital and trade-offs between risk and return. Students should develop a thorough understanding of these basic concepts and how to apply them in real-world examples

ASSESSMENT:

Coursework	25%
Final Examination	75%

LEVEL: III**SEMESTER: 1****COURSE CODE: MGMT 3017****COURSE TITLE: HUMAN RESOURCE MANAGEMENT****NUMBER OF CREDITS: 3****PREREQUISITES: MGMT 2008 OR GOVT 2071**

COURSE DESCRIPTION: This course provides participants with a broad overview of issues pertaining to human resource management with special reference to the Caribbean environment.

PSYC - PSYCHOLOGY

LEVEL: I**SEMESTER: II****COURSE CODE: PSYC 1004****COURSE TITLE: INTRODUCTION TO SOCIAL PSYCHOLOGY****CREDITS: 3****PREREQUISITES: NONE****DEPARTMENT RESPONSIBLE: BEHAVIOURAL SCIENCES**

COURSE DESCRIPTION: This course seeks to introduce students to the field of Social Psychology as the scientific study of how people think about, influence, and relate to one another while introducing its scope of study and its methodology. This course intends to give students an appreciation for the combined analysis of psychological and sociological perspectives in studying human behaviour. Social Psychology will, therefore, be constructed as an interactionist discipline. Students will be exposed to numerous social psychological concepts, particularly in the light of empirical research, including primary and secondary socialization and its consequences in relationships; self and personality development; attitude formation and measurement; persuasion; conformity, compliance, obedience, and deviance; group behaviour; interpersonal relations; impression formation, aggression, and altruistic behaviour. Each topic will be covered in sufficient depth for students to be able to appreciate classical social psychological concepts and findings. Students will also develop a keen appreciation for social psychology as a tool for national, as well as personal development.

LEVEL: II**SEMESTER: I****COURSE CODE: PSYC 2011****COURSE TITLE: SELECTED THEORIES IN SOCIAL PSYCHOLOGY****NUMBER OF CREDITS: 3****PREREQUISITES: PSYC 1003 OR PSYC 1004****COURSE DESCRIPTION:**

This course presents students with an overview of the theories and content areas in social psychology. Social psychology is the broadest of the branches of psychology, analyzing how the individual influences, and is in turn influenced by the actual or imagined presence of others. This course gives students an understanding of the processes and forces that shape and are shaped by human interaction. Core topics will include attribution theories, social exchange theories, field theory, consistency theories, reactance theory, theories on self, social comparison theory, social cognition and social perception. The course is divided into four sections. These sections will introduce students to specific theories and concepts in social psychology. All lectures and tutorials are essential

LEVEL: II**SEMESTER: I****COURSE CODE: PSYC 2012****COURSE TITLE: DEVELOPMENTAL PSYCHOLOGY****CREDITS: 3****PREREQUISITES: PSYC 1003 OR****PSYC 1004****DEPARTMENT RESPONSIBLE: BEHAVIOURAL SCIENCES****COURSE DESCRIPTION:**

This course focuses on the unfolding human life cycle from conception to old age through the interplay of biological, cognitive and socioemotional processes. This course seeks to understand how and why individuals change overtime. The interplay between cultural norms and psychological patterns is examined, and the factors related to healthy growth and development from an individual and a societal perspective are explored. Major theories and concepts will be introduced as various aspects of life span development are covered.

VART – VISUAL ARTS

LEVEL: I**SEMESTER: 1****COURSE CODE: VART 1404****COURSE TITLE: INFORMATION COMMUNICATION TECHNOLOGY AND DESIGN FOUNDATIONS****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE DESCRIPTION: This is a studio course. The emphasis of course is to provide art and design foundation for further experimentation and creative work. It concentrates on the study of the fundamental elements and principles of art and design in the studio practices of artists and designers. This course encourages the application of cultural, scientific and critical studies in exploration of methods for creating 2 and 3-dimensional forms. Course introduces Information and Communication Technology as a tool for research and presentation of group and individual projects.

ASSESSMENT:

Coursework 100%

LEVEL: I**SEMESTER: 2****COURSE CODE: VART 1406****COURSE TITLE: COLOUR AND MATERIALS****PREREQUISITE: NONE****NUMBER OF CREDITS: 3**

COURSE DESCRIPTION: This is a studio course. It introduces experimentation and theoretical study of colour, art and design media and materials.

ASSESSMENT:

Coursework 100%

Studio attendance and participationPortfolio and coursework journal***SEMESTERS: 1 AND 2****COURSE CODE: VART 2401 (SEMESTER 1) AND****VART 2402 (SEMESTER 2)****COURSE TITLE: LANDSCAPE DESIGN 1 AND****LANDSCAPE DESIGN 2****NUMBER OF CREDITS: 3 EACH****PRE-REQUISITES: VART 1404 AND VART 1406**

COURSE DESCRIPTION: This course offers a continuation of practical studies in the design process of problem solving as it applies to tropical landscaping. Students will learn concept visualization based on techniques of visual communication and design, exploration of sources of design Innovation, the study of materials for appropriate use and context in built and natural environments. This course is taught over two sequential semesters and examines the context of landscape through field trips and visual analysis of its features. Practical experience in visual description, documentation and analysis will be developed in modules of theory and practical study.

SECTION XVI – CERTIFICATES & DIPLOMAS

UWI UNDERGRADUATE DIPLOMA IN AGRICULTURE

Historically, students admitted to pursue degree programmes in agriculture have come mainly from two sources. They were (i) holders of an agricultural diploma or Associate degree in Agriculture and (ii) CSEC graduates admitted through a one year Pre-agriculture programme conducted by the Faculty. Following the merger of Agriculture with Natural Science, the Pre-agriculture programme was disconnected from Agriculture and reoriented to Science. With the re-establishment of the Agriculture and allied disciplines as a separate Faculty, the need for admission of more students who are better prepared to pursue agriculture was apparent and the Faculty was mandated to formulate an appropriate solution. The Faculty's response based on its own experience, lessons gained from consultation of stakeholders, as well as from reviews of other diploma level programmes in the region was to introduce a two-year undergraduate diploma programme in agriculture, following which successful students will be admitted to the BSc programme in Agriculture for two years. Therefore, this diploma programme was designed to serve as a suitable platform for preparing students for a career in agriculture.

GRADUATE CAREER PATHS

This diploma programme is designed to equip graduates with the necessary competencies, skill sets and knowledge to:

- become modern-day agriculturalists and agricultural entrepreneurs
- become specialists in agricultural technologies
- commence a career in the agriculture sector as entry level technical or support personnel
- become agricultural extension agents
- pursue degree level training in agricultural science and technology-oriented programmes
- serve as teachers of agriculture at the primary school level

ACADEMIC QUALITY ASSURANCE

Diverse approaches will be employed for quality assurance purposes of the UWI diploma programme. Periodic internal and external review of the programme will be employed in accordance with existing UWI practice. Members of FFA academic staff will serve as examiners in relevant courses. Internal evaluation of the programme will take into account inputs from stakeholders.

PROGRAMME CONTENT

The curriculum is designed to facilitate integration of knowledge, competencies and skills development across the curriculum to reflect the multi-disciplinary nature of agriculture. The programme incorporates information technology and communication skills in a curriculum which integrates the competencies of the agricultural and other support sciences, including the social sciences, with agricultural technology. This approach is adopted to strengthen the science and communication content of the curriculum while maintaining a sound practical agricultural base. The incorporation of the relevant science topics in this diploma is justified as a means of correcting the deficiency observed historically among new admissions to BSc Agriculture with diploma level qualifications from some regional TLIs where the curricula are based on relatively low levels of science and in a few cases technology contents.

PROGRAMME OF STUDY

The programme of study for the Undergraduate Diploma in Agriculture (UDA) offered in the FFA is outlined in Section 4 of the Regulations below.

PERIOD OF STUDY

The period of study for the Diploma in Agriculture shall normally be two (2) years of full-time study. Part-time admission and certificate level training for UWI intake will be considered in the future.

COURSE DELIVERY MODES

The training for this Diploma requires mastery of a range of skills and competencies, and knowledge pertinent to the level, therefore, various relevant delivery modes suitably adapted for each course will be used to ensure the achievement of the curricula goals. The delivery modes would include lectures supported by active learning strategies such as tutorials,

projects, field and laboratory-based practicals and field visits. Specially designed courses will be offered at the University Field Station to ensure that the graduates are well-grounded in the practical aspects of food and agriculture from the farm to the table. Course assessments are all designed to match the requirements of each course. Details will be provided in the individual course outlines by the lecturers.

AWARD OF THE DIPLOMA

The Diploma in Agriculture will be awarded on successful completion of 66 credits. In order to qualify for this award, students must have passed all the required courses and attained a minimum cumulative grade point average (CGPA) of two (2.0).

MATRICULATION AND ADMISSION LEVELS TO BSc PROGRAMMES IN FFA

The graduates of the Diploma in Agriculture will meet the matriculation requirements for admission to specific BSc programmes in the FFA at the year two level.

PROGRAMME COORDINATION

The Department of Food Production will coordinate the UDA.

REGULATIONS FOR THE UNDERGRADUATE DIPLOMA IN AGRICULTURE (UDA)

1. PREFACE

The UDA is a two-year full-time programme which targets holders of a CSEC certificate interested in Diploma level training in agriculture as a means of matriculating to degree programmes in Agriculture or a career at the technical level in the food and agriculture sector chain. In addition to regulations governing its administration, the UDA is subject to both University and FFA regulations.

2. QUALIFICATIONS FOR ADMISSION TO THE UDA

In order to be admitted into the Undergraduate Diploma programme in Agriculture candidates must have:

- Passes in a minimum of five (5) GCE O' Level or CSEC (CXC) General Proficiency Level examination at Grades I, II or, since 1998, Grade III, including English Language and Mathematics and must have at least one science subject which may include Agricultural Science, Biology, Chemistry, Geography, Integrated Science or Physics.

3. QUALIFYING

English Language and Mathematics are compulsory for admission into the UDA. Candidates who do not possess the minimum entry requirements in one or both of these subjects but meet other requirements may be admitted to a qualifying semester, subject to approval by the Faculty, to pursue relevant courses to improve their competency in Mathematics and/or English Language before entry into the UDA.

ENGLISH LANGUAGE: Candidates who do not possess a pass in CSEC English A at Grades I, II or since 1998, Grade III, a Grade A in GCE O' Level/BGCSE English Language, would be required to pass the English Language Proficiency Test offered by the Faculty of Humanities and Education.

MATHEMATICS: Candidates who do not possess a pass in CSEC Mathematics at Grades I, II or since 1998, Grade III, a Grade A in GCE O' Level/BGCSE Mathematics, would be required to pass the Course IYMS 1001/ MATH 0103: Improving Your Math Skills offered at Open Campus.

Students will be allowed to repeat their qualifying semester but must attain the minimum requirements of passes in ELPT or IYMS 1001/ MATH 0103: Improving your Math Skills before entry into the UDA.

4. OUTLINE OF THE UDA PROGRAMME

Students admitted to the UDA programme are expected to complete 66 credits over a two-year period. The structure of the programme is given below:

YEAR 1**Semester 1**

Course Code	Course Title	Credits
AGRI 0101	Agriculture, Food and the Environment	3
AGRI 0102	Agricultural Physics	2
AGRI 0103	Agricultural Chemistry	3
AGRI 0104	Agricultural Biology I	3
AGRI 0105	Language and Communication	2
AGRI 0106	Computer and Information Literacy	2
Total Credits		15

SEMESTER 2

Course Code	Course Title	Credits
AGRI 0107	Mathematics	3
AGRI 0108	Agricultural Biology II	3
AGRI 0109	Agricultural Biochemistry	3
AGRI 0110	Introductory Soils Science	3
AGRI 0111	Crop Production I	2
AGRI 0112	Livestock Production I	2
Total Credits		16

SEMESTER 3

Course Code	Course Title	Credits
AGRI 0113	Introduction to Farm Equipment and Buildings	3
AGRI 0114	Farm Practice I	4
Total Credits		7

YEAR 2**SEMESTER 1**

Course Code	Course Title	Credits
AGRI 0201	Agricultural Economics I	3
AGRI 0202	Sociology of Agriculture	3
AGRI 0203	Crop Production II	3
AGRI 0204	Introduction to Crop and Livestock Health and Food Safety	3
AGRI 0205	Farm Practice II	3
Total Credits		15

SEMESTER 2

Course Code	Course Title	Credits
AGRI 0206	Introduction to Post-Production Technology	2
AGRI 0207	Tropical Aquaculture	2
AGRI 0208	Livestock Production II	3
AGRI 0209	Agricultural Economics II	3
AGRI 0210	Farm Practice III	3
Total Credits		13

PROGRAMME TOTAL**66**

Note: AGRI 0201 is Introduction to Microeconomics and AGRI 0209 is Macroeconomics Fundamentals for Caribbean Agriculture.

5. COURSE EXEMPTIONS

Students may be granted exemption with or without credit for up to fifteen credits of UDA courses upon presentation of the relevant supporting documentations from an institution recognized by the UWI. Requests for exemption/credit should be made as part of an application for admission to the UDA. Exemption/credit will normally be determined on a case-by-case basis taking into consideration the grades attained and the length of time since they were obtained.

6. REGISTRATION

- (a) New students are admitted to the UDA only during the beginning of each academic year.
- (b) A student must register for courses at the beginning of each SEMESTER WITHIN THE PRESCRIBED PERIODS, precise information about which can be obtained from the UWI website and/or notice boards.
- (c) A student's registration is deemed complete only when he/she has been granted financial clearance by the University.
- (d) Students may normally register for the maximum number of credits as determined by the programme for each semester. If a student wishes to register for additional courses, then he/she should apply for permission to do so during registration.
- (e) A student who has recorded a pass in a course will not be permitted to re-register for that course.
- (f) Registration for a course constitutes registration for the associated examination.

7. PROGRESS THROUGH THE PROGRAMME

- (a) Academic standing of every student will be determined on the basis of cumulative grade point average (CGPA).
- (b) A student must normally maintain a CGPA of 2.0 to progress through the programme.
- (c) Any student whose CGPA falls below 2.0 at the end of any semester would normally be required to withdraw from the programme for a year.

8. EXAMINATION

- (a) In order to pass a course, a candidate must have a satisfactory attendance record (i.e. a minimum of 90% attendance) for both classes and all allied activities, and must have satisfied the examiners in the associated examinations.
- (b) Assessment in each course could involve a combination of methods, and assessment details on each course are given in the outline of each course.
- (c) End of semester written examinations for each course will be of two (2) hours duration.
- (d) In order to satisfy the examiners, candidates must obtain a minimum mark of 50% in each course.
- (e) Any student who, having registered for a course, fails to take the examination on that course shall be deemed to have failed the examination unless:
- (f) Prior approval was given for the student to drop the course by the relevant authority or;
- (g) The student could not attend because of illness or other grave cause. In the case of illness, a medical certificate must be submitted to the Examination's Section of the Registry within 7 days after the specific examination.
- (h) A student who fails one or more courses while maintaining a CGPA of 2.0 will be granted permission to sit supplementary examinations in the failed courses during the July/August period provided that the total number of failed credits is no more than six (6).
- (i) Students taking written examinations shall be subject to the University Examination Regulations for First Degrees, Diplomas and Certificates save that the functions assigned to the Campus Committee on Examinations shall be performed by the Senior Assistant Registrar, Examinations or his/her nominee.

9. GENERAL REQUIREMENTS FOR THE AWARD OF THE UNDERGRADUATE DIPLOMA

In order to be eligible for the award of the undergraduate diploma in agriculture, candidates must have:

- (a) been in satisfactory attendance normally for a period equivalent to four (4) semesters of full-time study from entry at Year I;
- (b) obtained passes in all prescribed courses amounting to 66 credits and
- (c) maintained a minimum CGPA of 2.0

10. TIME LIMITS FOR COMPLETION AND ENFORCED WITHDRAWALS

- (a) The time period allowed for completion of the UDA for full-time students shall normally be a minimum of two (2) and a maximum of three (3) academic years.
- (b) Students who fail to complete the UDA by the end of the third academic year will normally be required to withdraw from the programme subject to 10 (c) below.
- (c) Students who fail to complete the requirements within the prescribed maximum period but need no more than nine (9) credits to graduate may apply for an extension of time. Such cases will be considered on case-by-case basis.

- (d) For the purposes of Regulations 10 (a) to 10 (c) above, any semester for which a student has been granted Leave of Absence from the UDA shall not be counted.
- (e) A student who was required to withdraw from the UDA MUST REAPPLY FOR ENTRY THROUGH THE NORMAL PROCEDURE IN ACCORDANCE WITH THE UWI SCHEDULE FOR APPLICATION TO ENROL IN ITS PROGRAMMES.
- (f) A student who was required to withdraw and was re-admitted and then required to withdraw for a second time, will not normally be considered for re-admission again until a minimum period of five years has elapsed. Such students will be treated as first time applicants if they apply for re-admission.

11. LEAVE OF ABSENCE AND VOLUNTARY WITHDRAWALS

- (a) A student who wishes to be absent from the UDA for a semester or more must apply for Leave of Absence.
- (b) Leave of Absence will not be granted for more than two (2) consecutive semesters in the first instance. However, students may apply for an extension of leave.
- (c) Leave of Absence will not be granted for more than four (4) consecutive semesters.
- (d) Applications for Leave of Absence should normally be submitted no later than the end of the change in registration period in the relevant semester.
- (e) A student who does not register for any course during a semester without having obtained Leave of Absence will be deemed to have dropped out from the UDA and will have to re-apply for entry into the programme if he/she so desires.
- (f) A student who drops out or voluntarily withdraws from the University and then applies for re-admission within five (5) years shall be granted exemption and credit for all courses previously passed unless the Department concerned declares that the material covered in a course has become outdated. All grades previously obtained except those for courses declared outdated shall be part of the student's academic record.

12. GPA AND AWARD OF DIPLOMA

- (a) A CGPA based on all courses completed for which grades have been obtained (except those taken on a Pass/Fail basis) will be determined and forms part of the academic record of a student.
- (b) In the determination of the CGPA, all failed courses are included treating each repeat as a separate and independent contribution for this purpose.
- (c) Students who successfully complete the programme will be awarded the diploma and those who perform exceptionally well will be awarded the diploma with distinction.

13. GRADING SCHEME

The Grading Scheme used in the FFA is adapted for the UDA as follows:

MARK	GRADE	QUALITY POINTS
90-100	A+	4.3
80-89	A	4.0
75-79	A-	3.7
70-74	B+	3.3
65-69	B	3.0
60-64	B-	2.7
55-59	C+	2.3
50-54	C	2.0
40-49	F1	1.7
30-39	F2	1.3
0-29	F3	0.0

14. AWARD OF DIPLOMA

A student who completes the programme with a CGPA of 3.7 or above will be awarded the Diploma with Distinction.

COURSE DESCRIPTIONS - UNDERGRADUATE DIPLOMA IN AGRICULTURE

YEAR: 1

SEMESTER: 1

COURSE CODE: AGRI 0101

COURSE TITLE: AGRICULTURE, FOOD AND THE ENVIRONMENT

NUMBER OF CREDITS: 3

PRE-REQUISITES: NONE

COURSE CONTENT: Agriculture and development; Caribbean Agriculture: its history and transition; system and its economy; agriculture, food, and nutrition; food security, global and regional issues; agricultural technologies and the environment, human health and sustainable agriculture.

ASSESSMENT:

Coursework	80%
Final Examination	20%

YEAR: 1

SEMESTER: 1

COURSE CODE: AGRI 0102

COURSE TITLE: AGRICULTURAL PHYSICS

NUMBER OF CREDITS: 2

PRE-REQUISITES: NONE

COURSE CONTENT: Atmosphere: physics of gases, water vapour in the atmosphere, variation of pressure, density, vapour pressure in the atmosphere with altitude.

Heat and mass transfer: transfer of momentum, heat, and mass at boundary layers between the atmosphere and various surfaces, resistances to momentum, conservation – free and forced, conduction with application to heat flow in soils.

Introduction to soil physics: energy balance concept, energy balance in soils, moisture content, soil densities, soil water potential, soil moisture characteristics, hydraulic conductivity, thermal conductivity, soil aeration.

ASSESSMENT:

Coursework	60%
Final Examination	40%

YEAR: 1

SEMESTER: 1

COURSE CODE: AGRI 0103

COURSE TITLE: AGRICULTURAL CHEMISTRY

NUMBER OF CREDITS: 3

PRE-REQUISITES: NONE

COURSE CONTENT: Introduction; weights, measures, and measurement system; atoms and the periodic table; ionic compounds; mass and moles; chemical reactions; solutions and concentration; acids, bases, and pH and buffer systems; covalent bonds and functional groups; saturated hydrocarbons; unsaturated hydrocarbons; oxygen containing organics; nitrogen containing organics; applications of chemistry to agriculture.

ASSESSMENT:

Coursework	85%
Final Examination	15%

YEAR: 1**SEMESTER: 1****COURSE CODE: AGRI 0104****COURSE TITLE: AGRICULTURAL BIOLOGY I****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE****COURSE CONTENT:**

Taxonomy of living organisms, the plant and animal kingdoms, higher plants and animals; cell structure, growth and division; growth in plants and animals; plant habit, morphology and anatomy of leaves, stems, roots, flowers and fruits of a range of crop species; animal morphology and anatomy of the skeletal, muscular, nervous, digestive, circulatory, respiratory, excretory, endocrinal and reproductive systems of a range of livestock species; introduction to genetics – basic concepts; genotype and phenotype; inheritance; development of livestock breeds and crop cultivars.

ASSESSMENT:

Coursework	80%
Final Examination	20%

YEAR: 1**SEMESTER: 1****COURSE CODE: AGRI 0105****COURSE TITLE: LANGUAGE AND COMMUNICATION****NUMBER OF CREDITS: 2****PRE-REQUISITES: NONE****COURSE CONTENT:**

Basic concepts in communication; steps in effective written, oral and multimedia communication; reading skills; study skills; information literacy and research skill development; writing with purpose; exercises in critical thinking.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 1****COURSE CODE: AGRI 0106****COURSE TITLE: COMPUTER AND INFORMATION LITERACY****NUMBER OF CREDITS: 2****PRE-REQUISITES: NONE**

COURSE CONTENT: Hardware components and software categories and function; use of keyboard, mouse, find and start applications, manipulating Windows, edit documents, save files; page layout, formatting, table of contents, page numbering, using and creating templates, inserting tables and pictures; understanding cells, working with text, numbers and dates, basic formatting working with formulas, page layout options, charts and graphs and printing; slide preparation text, insertions (pictures, tables, graphs and graphs); slide transitions and a animations; presentation techniques; hardware and software required for Internet use; using a browser; understanding URLs; search strategies; evaluation of search results; saving information and pictures; email chat; using databases; classification of information in library systems; active reading; note taking; plagiarism; references.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0107****COURSE TITLE: MATHEMATICS****NUMBER OF CREDITS: 3****PRE-REQUISITES: CSEC MATHEMATICS OR EQUIVALENT**

COURSE CONTENT: Review of numbers and their operations, Matrices and Trigonometry; functions: Linear, quadratic, rational, exponential, logarithmic and trigonometric. Differential and Integral Calculus.

ASSESSMENT:

Coursework	60%
Final Examination	40%

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0108****COURSE TITLE: AGRICULTURAL BIOLOGY II****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 0104 - AGRICULTURAL BIOLOGY I**

COURSE CONTENT: Growth and development- definitions, types of growth in plants and animals, measurement of growth; photosynthesis, translocation, assimilate partitioning and plant growth and development; water relations in cells and whole plants, water uptake, transpiration; nutrient uptake and function in plant growth and development; seedling germination, growth and development; digestion, respiration, circulation, muscle movement and growth in livestock animals; reproduction and lactation; growth regulators in plant and livestock; environmental factors – light, temperature, water, relative humidity, nutrients, air quality- affecting crop and livestock growth and development; introduction to ecology, ecosystems, agroecosystems.

ASSESSMENT:

Coursework	80%
Final Examination	20%

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0109****COURSE TITLE: AGRICULTURAL BIOCHEMISTRY****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 0103 - AGRICULTURAL CHEMISTRY AND AGRI 0104 - AGRICULTURAL BIOLOGY I****COURSE CONTENT:**

The cell and subcellular organelles; chemistry of carbohydrates; amino acid & protein chemistry; lipids and membranes; nucleotides and nucleic acids; energy in the cell; enzymes; glycolysis; tricarboxylic acid (TCA) cycle.

ASSESSMENT:

Coursework	50%
Final Examination	50%

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0110****COURSE TITLE: INTRODUCTORY SOILS SCIENCE****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE****COURSE CONTENT:**

Soil as a natural resource; roles soils play in the environment soil variability and distribution in the Caribbean; soil components and formation; soil physical properties - soil texture, structure and porosity, soil water and soil aeration and temperature; soil chemical properties - clay mineralogy, soil reaction, CEC, SOM; soil biological properties - soil organisms; soilless media and amended soils.

ASSESSMENT:

Coursework	80%
Final Examination	20%

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0111****COURSE TITLE: CROP PRODUCTION I****NUMBER OF CREDITS: 2****PRE-REQUISITES: AGRI 0104 - AGRICULTURAL BIOLOGY I**

COURSE CONTENT: The crop concept – hunter-gathering system, domestication, yield and crop production management; core concepts/elements in crop production management – definition and importance of land clearing, land preparation, cultivars, planting material, crop establishment, and plant population, water and nutrition management, crop protection, harvesting; influence of plant genotype and environmental factors on crop production management; introduction to tropical vegetable and grain crops – food value and types based on edible organs; good agricultural practices (GAPS) for selected tropical vegetables (leafy, solanaceous, cucurbits, crucifers) and grain (cereals and legumes) crops – site selection, cultivar selection, planting material selection; establishment methods; spacing and arrangement; water management – drainage, irrigation, conservation; nutrition management (soil and issue analyses) – organic and inorganic nutrient sources, application rates, methods, timing; plant training; nutrient conservation; integrated pest management practices, harvesting, maturity, harvest method; transport; production systems – characteristics, types, advantages and disadvantages, monocultural and polycultural systems - field; protected; container systems; technologies for each practice – traditional and modern – advantages and disadvantages; application of technologies to systems.

ASSESSMENT:

Coursework	100%

------------	------

YEAR: 2**SEMESTER: 1****COURSE CODE: AGRI 0201****COURSE TITLE: AGRICULTURAL ECONOMICS I****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE CONTENT: General overview; using quantitative tools in economics; introduction to how markets function; theories of consumer behaviour; introduction to the theory of production; how markets function under perfect competition; an introduction to monopoly.

ASSESSMENT:

Coursework	40%
Final Examination	60%

YEAR: 2**SEMESTER: 1****COURSE CODE: AGRI 0202****COURSE TITLE: SOCIOLOGY OF AGRICULTURE****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE****COURSE CONTENT:**

Introduction to important concepts: sociology and rural sociology; importance of rural sociology in agricultural extension and their interrelationship; characteristics of West Indian, rural society - differences and relationships between rural and urban societies; social groups and farmers' groups and associations; social stratification; culture and different cultural concepts and their role in agricultural extension; social values, social control and attitudes types and their role in agricultural extension; educational psychology, motivation and principles of learning.

ASSESSMENT:

Coursework	40%
Final Examination	60%

YEAR: 2**SEMESTER: 1****COURSE CODE: AGRI 0203****COURSE TITLE: CROP PRODUCTION II****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 0111- CROP PRODUCTION I**

COURSE CONTENT: Introduction to root and tuber crops (sweet potato, cassava, yam, dasheen), banana and plantain and perennial crops (breadfruit and chataigne, cocoa, citrus, mango; indigenous fruits) – food value; methods of utilization; market specifications for different uses; influence of plant biology and environmental factors on crop production management; good agricultural practices for selected root and tuber crops, banana and plantain, and perennial crops; production systems and technologies; utilisation.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 2**SEMESTER: 1****COURSE CODE: AGRI 0204****COURSE TITLE: INTRODUCTION TO CROP AND LIVESTOCK HEALTH AND FOOD SAFETY****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 0111 – CROP PRODUCTION I AND AGRI 0112 – LIVESTOCK PRODUCTION I**

COURSE CONTENT: Prokaryotic and eukaryotic cells, structure and function of prokaryotic cells; types of microorganisms – bacteria, fungi, viruses; microscopy and specimen preparation; identification of microorganisms, methods for microbiological examination – isolation and cultivation; microbial growth – factors influencing growth; Food-borne diseases, control of microorganisms; crop pests – weeds –definition, losses due to weeds, weed biology- growth development and ecological concepts, competition and allelopathy, weed identification, principles and methods of weed management; crop disease – symptoms, disease agents – attack and defence mechanisms, epidemiology, principles of plant disease control; symptoms of insect and mite damage, biology of insect pests; principles of insect and mite pests management; Integrated Pest Management in crops; pesticides – formulations, selectivity, uses, and application, toxicology and safety; livestock health - losses caused by diseases, causes of disease, body defences and immunity, symptoms and diagnosis of disease; clinical examination; disease prevention and control for selected major livestock diseases; principles of drug treatment and administration.

ASSESSMENT:

Coursework	70%
Final Examination	30%

YEAR: 2**SEMESTER: 1****COURSE CODE: AGRI 0205****COURSE TITLE: FARM PRACTICE II****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 0114 - FARM PRACTICE I**

COURSE CONTENT: The Meteorology Station - interpretation of meteorological data; soil environment – soil physical and chemical conditions; plant propagation – seedlings, cuttings, divisions, separations; the nursery – facilities and sanitation; media – types, preparation and management; crop establishment in the field and under protective cover; crop maintenance – irrigation, nutrition, crop protection; harvesting, transport, grading, cleaning, packaging, storage, sales; agricultural chemical and tool inventory; agricultural equipment and tools – use, safety issues, preventative maintenance and storage; sales - crop products; prepare a meal based on farm products (Note: the content will vary depending on the nature of the enterprise selected).

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 2**SEMESTER: 2****COURSE CODE: AGRI 0206****COURSE TITLE: INTRODUCTION TO POST-PRODUCTION TECHNOLOGY****NUMBER OF CREDITS: 2****PRE-REQUISITES: AGRI 0203 – CROP PRODUCTION II****COURSE CONTENT:**

Basic principles for preserving crop and livestock products; basic principles and techniques for transformation of farm products; stages in the handling chain.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 2**SEMESTER: 2****COURSE CODE: AGRI 0207****COURSE TITLE: TROPICAL AQUACULTURE****NUMBER OF CREDITS: 2****PRE-REQUISITES: AGRI 0104 - AGRICULTURAL BIOLOGY I AND AGRI 0108 - AGRICULTURAL BIOLOGY II**

COURSE CONTENT: History, status, and future of aquaculture; hatchery design and operation; farm and pond design and operation; water quality management; intensive systems; fish feed technology; fish diseases and control; biology and culture of selected species of finfish, shellfish, seaweed and aquatic reptiles; polyculture and integrated aquaculture; the ornamental fish trade; environmental aspects of aquaculture.

ASSESSMENT:

Coursework	70%
Final Examination	30%

YEAR: 2**SEMESTER: 2****COURSE CODE: AGRI 0208****COURSE TITLE: LIVESTOCK PRODUCTION II****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 0112 – LIVESTOCK PRODUCTION I**

COURSE CONTENT: Structure of the ruminant industry in CARICOM; physiology of ruminants; management practices including breeds and breeding, nutrition and feeding, health and disease prevention and control, housing and waste management, record keeping; planning new enterprises and use of new technologies.

ASSESSMENT:

Coursework	40%
Final Examination	60%

YEAR: 2**SEMESTER: 2****COURSE CODE: AGRI 0209****COURSE TITLE: AGRICULTURAL ECONOMICS II****NUMBER OF CREDITS: 3****PRE-REQUISITES: NONE**

COURSE CONTENT: Overview of macroeconomics; national income accounting; economic growth versus economic development; economy wide stability; unemployment; inflation; fiscal policy; monetary policy; exchange rates and balance of payments.

ASSESSMENT:

Coursework	40%
Final Examination	60%

YEAR: 2**SEMESTER: 2****COURSE CODE: AGRI 0210****COURSE TITLE: FARM PRACTICE III****NUMBER OF CREDITS: 3****PRE-REQUISITES: AGRI 0114 - FARM PRACTICE I AND AGRI 0205- FARM PRACTICE II**

COURSE CONTENT: The Meteorology Station - interpretation of meteorological data; soil environment – soil physical and chemical conditions; livestock facilities maintenance – sanitation of pens, fence repair; livestock husbandry – feeding, watering, deworming, milking; milk and poultry processing; agricultural equipment and tools – use, safety issues, preventative maintenance and storage; sales - livestock products; prepare a meal based on farm products (Note: The content will vary depending on the nature of the enterprise selected).

ASSESSMENT:

Coursework	100%

UWI CERTIFICATE IN AGRICULTURE (UCA)

Throughout the Caribbean, greater emphasis is being given to sustainable agricultural development to achieve food and nutrition security at the national and the regional levels as well as for effecting transformation of rural communities. The University of the West Indies (UWI), as the institution vested by CARICOM with the responsibility for human resource development to drive the region's food and nutrition security initiatives, is committed to the training of graduates in food and tropical agriculture with expertise in various sub-disciplines, in sufficient numbers and with qualifications at different levels. To better serve the region, the UWI has taken steps to strengthen the institutional framework for agricultural education by establishing the Faculty of Food and Agriculture (FFA) in St Augustine effective August 1, 2012.

Not only is a recognition of the multi-dimensional nature of agriculture critical for transformation of this sector in the region in the 21st century, but additionally availability of adequate numbers of appropriately trained human resources at all levels within the sector is crucial.¹ Therefore, the development of a sustainable strategy to increase the number of new admissions, particularly to the agricultural science and technology programmes in the FFA, is an essential step for the UWI to fulfil its mandate of producing graduates with specialised knowledge, diverse and relevant skills sets and competencies at different levels to drive the region's food and nutritional security and rural transformation efforts. A key element of this strategy is the diversification of the sources of recruitment of prospective students, which targets those interested in pursuit of agricultural education. **As an essential first step in this direction, the re-establishment of the Pre-agriculture programme was identified and adopted in 2011 as part of a set of recommendations which included the establishment of the FFA.**

Thus, a one-year Pre-Agriculture Certificate Programme is designed to fulfil the matriculation requirements for admission to year one of the BSc Agriculture (Special) programme. This Certificate is expected to boost enrolment in the undergraduate level in the short term and graduate level in the long term.

GRADUATE CAREER PATHS

This certificate programme is designed to equip graduates with the necessary competencies, skill sets and knowledge to:

- become modern-day farmers and agricultural entrepreneurs (e.g., Horticulturists, aquaculturist, etc.)
- become specialists in agricultural technologies
- commence a career in the agriculture sector as entry level technical or support personnel
- become agricultural extension agents
- pursue degree level training in agricultural science and technology-oriented programmes
- serve as teachers of agriculture at the primary school level

ACADEMIC QUALITY ASSURANCE

Diverse approaches will be employed for quality assurance purposes of the UWI certificate programme. Periodic internal and external review of the programme will be employed in accordance with existing UWI practice. Members of FFA academic staff will serve as examiners in relevant courses. Internal evaluation of the programme will take into account inputs from stakeholders.

PROGRAMME CONTENT

The curriculum is designed to facilitate integration of knowledge, competencies and skills development across the curriculum to reflect the multi-disciplinary nature of agriculture. The programme incorporates information technology and communication skills in a curriculum, which integrates the competencies of the agricultural and other support sciences, including the social sciences, with agricultural technology. This approach is adopted on the one hand to strengthen the science and communication content of the curriculum while maintaining a sound practical agricultural base and social science orientation of the programme on the other.

PROGRAMME OF STUDY

The programme of study for the Undergraduate Certificate in Agriculture offered in the FFA is outlined in **Table 1**.

PERIOD OF STUDY

The period of study for the Certificate in Agriculture shall normally be one (1) year of full-time study.

COURSE DELIVERY MODES

The training for this Certificate requires mastery of a range of skills and competencies, and knowledge pertinent to the level, therefore, various relevant delivery modes suitably adapted for each course will be used to ensure the achievement of the

¹Chelston W. D. Brathwaite, *Food Security in the Americas: The Need for a New Development Model* (San José, Costa Rica, 2009), 21.

curricular goals. The delivery modes would include lectures supported by active learning strategies such as tutorials, projects, field and laboratory-based practicals and field visits. Specially designed courses will be offered at the University Field Station to ensure that the graduates are well-grounded in the practical aspects of food and agriculture from the farm to the table. Course assessments are designed to match the requirements of each course. These include but are not limited to in-term and final exams, which may comprise MCQ, short answer and essay type questions; written reports associated with practical activities such as laboratory exercises and field trips; and individual and group research projects combined with oral presentations and seminars. Further details of these assessments are provided in the respective course outlines (**Appendix 1**).

AWARD OF THE CERTIFICATE

The Certificate in Agriculture will be awarded on successful completion of 32 credits. In order to qualify for this award, students must have passed all the required courses and attained a cumulative grade point average (GPA) of at least two (2.0).

PROGRAMME COORDINATION

The Department of Food Production will coordinate the UCA.

REGULATIONS FOR THE CERTIFICATE IN AGRICULTURE (UCA)

1. PREFACE

The Undergraduate Certificate in Agriculture is a one-year full time programme which targets holders of a CSEC certificate interested in Certificate level training in agriculture as a means of matriculating to degree programmes in Agriculture or a career at the technical level in the food and agriculture sector chain. In addition to regulations governing its administration, the UCA is subject to both University and FFA regulations.

2. QUALIFICATIONS FOR ADMISSION TO THE CERTIFICATE

In order to be admitted into Undergraduate Certificate in Agriculture programme candidates must:

- Passes in a minimum of five (5) GCE O' Level or CSEC (CXC) General Proficiency Level examination at Grades I, II or, since 1998, Grade III, including English Language and Mathematics and must have at least one science subject which may include Agricultural Science, Biology, Chemistry, Geography, Integrated Science or Physics.
- Candidates who do not have at least 1 science subject but have relevant practical experience in agriculture will also be considered.

ENGLISH LANGUAGE: Candidates who do not possess a pass in CSEC English A at Grades I, II or since 1998, Grade III, a Grade A in GCE O' Level/BGCSE English Language, would be required to pass the English Language Proficiency Test offered by the Faculty of Humanities and Education.

MATHEMATICS: Candidates who do not possess a pass in CSEC Mathematics at Grades I, II or since 1998, Grade III, a Grade A in GCE O' Level/BGCSE Mathematics, would be required to pass the Course IYMS 1001/ MATH 0103: Improving Your Math Skills offered at Open Campus.

Students will be allowed to repeat their qualifying semester but must attain the minimum requirements of passes in ELPT or IYMS 1001/ MATH 0103: Improving your Math Skills before entry into the Certificate.

3. OUTLINE OF THE CERTIFICATE PROGRAMME

Students admitted to the Certificate programme are expected to complete 32 credits over a one-year period. The structure of the programme is given below:

YEAR 1

Semester 1

Course Code	Course Title	Credits
AGRI 0101	Agriculture, Food and the Environment	3
AGRI 0102	Agricultural Physics	2
AGRI 0103	Agricultural Chemistry	3
AGRI 0104	Agricultural Biology I	3
AGRI 0105	Language and Communication	2
AGRI 0106	Computer and Information Literacy	2
Total Credits		15

SEMESTER 2

Course Code	Course Title	Credits
AGRI 0108	Agricultural Biology II	3
AGRI 0109	Agricultural Biochemistry	3
AGRI 0110	Introductory Soils Science	3
AGRI 0111	Crop Production I	2
AGRI 0112	Livestock Production I	2
Total Credits		16

SEMESTER 3

Course Code	Course Title	Credits
AGRI 0114	Farm Practice I	4
Total Credits		4

PROGRAMME TOTAL	32
------------------------	-----------

5. REGISTRATION

- New students are admitted to the Certificate only during the beginning of each academic year.
- A student must register for courses at the beginning of each SEMESTER WITHIN THE PRESCRIBED PERIODS, precise information about which can be obtained from the UWI website and/or notice boards.
- A student's registration is deemed complete only when he/she has been granted financial clearance by the University.
- Students may normally register for the maximum number of credits as determined by the programme for each semester. If a student wishes to register for additional courses, then he/she should apply for permission to do so during registration.
- A student who has recorded a pass in a course will not be permitted to re-register for that course.
- Registration for a course constitutes registration for the associated examination.

6. PROGRESS THROUGH THE PROGRAMME

- Academic standing of every student will be determined on the basis of cumulative grade point average (CGPA).
- A student must normally maintain a CGPA of 2.0 to progress through the programme.
- Any student whose CGPA falls below 2.0 at the end of any semester would normally be required to withdraw from the programme for a year.

8. EXAMINATION

- In order to pass a course, a candidate must have a satisfactory attendance record (i.e., a minimum of 90% attendance) for both classes and all allied activities and must have satisfied the examiners in the associated examinations.
- Assessment in each course could involve a combination of methods, and assessment details on each course are given in the outline of each course.
- End of semester written examinations for each course will be of two (2) hours duration.
- In order to satisfy the examiners, candidates must obtain a minimum mark of 50% in each course.
- Any student who, having registered for a course, fails to take the examination on that course shall be deemed to have failed the examination unless:
 - Prior approval was given for the student to drop the course by the relevant authority or.
 - The student could not attend because of illness or other grave cause. In the case of illness, a medical certificate must be submitted to the Examination's Section of the Registry within 7 days after the specific examination.
- A student who fails one or more courses while maintaining a CGPA of 2.0 will be granted permission to sit supplementary examinations in the failed courses during the July/August period provided that the total number of failed credits is no more than six (6).
- Students taking written examinations shall be subject to the University Examination Regulations for First Degrees, Diplomas and Certificates save that the functions assigned to the Campus Committee on Examinations shall be performed by the Senior Assistant Registrar, Examinations or his/her nominee.

9. GENERAL REQUIREMENTS FOR THE AWARD OF THE CERTIFICATE

In order to be eligible for the award of the certificate in agriculture, candidates must have:

- been in satisfactory attendance normally for a period equivalent to three (3) semesters of full-time study
- obtained passes in all prescribed courses amounting to 32 credits; and

- (c) maintained a minimum CGPA of 2.0

10. TIME LIMITS FOR COMPLETION AND ENFORCED WITHDRAWALS

- (a) The time period allowed for completion of the Certificate for full-time students shall normally be a minimum of two (2) and a maximum of three (3) academic years.
- (b) Students who fail to complete the Certificate by the end of the second academic year will normally be required to withdraw from the programme subject to 10 (c) below.
- (c) Students who fail to complete the requirements within the prescribed maximum period but need no more than nine (9) credits to graduate may apply for an extension of time. Such cases will be considered on case-by-case basis.
- (d) For the purposes of Regulations 10 (a) to 10 (c) above, any semester for which a student has been granted Leave of Absence from the Certificate shall not be counted.
- (e) A student who was required to withdraw from the CERTIFICATE MUST REAPPLY FOR ENTRY THROUGH THE NORMAL PROCEDURE IN ACCORDANCE WITH THE UWI SCHEDULE FOR APPLICATION TO ENROL IN ITS
- (f) A student who was required to withdraw and was re-admitted and then required to withdraw for a second time, will not normally be considered for re-admission again until a minimum period of five years has elapsed. Such students will be treated as first time applicants if they apply for re-admission.

11. LEAVE OF ABSENCE AND VOLUNTARY WITHDRAWALS

- (a) A student who wishes to be absent from the Certificate a semester or more must apply for Leave of Absence.
- (b) Leave of Absence will not be granted for more than two (2) consecutive semesters in the first instance. However, students may apply for an extension of leave.
- (c) Leave of Absence will not be granted for more than four (4) consecutive semesters.
- (d) Applications for Leave of Absence should normally be submitted no later than the end of the change in registration period in the relevant semester.
- (e) A student who does not register for any course during a semester without having obtained Leave of Absence will be deemed to have dropped out from the UCA and will have to re-apply for entry into the programme if he/she so desires.
- (f) A student who drops out or voluntarily withdraws from the University and then applies for re-admission within five (5) years shall be granted exemption and credit for all courses previously passed unless the Department concerned declares that the material covered in a course has become outdated. All grades previously obtained except those for courses declared outdated shall be part of the student's academic record.

12. GPA AND AWARD OF CERTIFICATE

- (a) A CGPA based on all courses completed for which grades have been obtained (except those taken on a Pass/Fail basis) will be determined and forms part of the academic record of a student.
- (b) In the determination of the CGPA, all failed courses are included treating each repeat as a separate and independent contribution for this purpose.
- (c) Students who successfully complete the programme will be awarded the certificate and those who perform exceptionally well will be awarded with distinction.

13. GRADING SCHEME

The Grading Scheme used in the FFA is adapted for the UCA as follows:

MARK	GRADE	QUALITY POINTS
90-100	A+	4.3
80-89	A	4.0
75-79	A-	3.7
70-74	B+	3.3
65-69	B	3.0
60-64	B-	2.7
55-59	C+	2.3
50-54	C	2.0
40-49	F1	1.7
30-39	F2	1.3
0-29	F3	0.0

14. AWARD OF CERTIFICATE

A student who completes the programme with a CGPA of 3.7 or above will be awarded the Certificate with Distinction.

MATRICULATION AND ADMISSION LEVELS TO BSc PROGRAMMES IN FFA

The graduates of the Certificate in Agriculture will meet the matriculation requirements for admission to specific BSc programmes in the FFA.

ENTRY REQUIREMENTS

In order to be admitted into Undergraduate Certificate in Agriculture programme candidates must:

- Satisfy the lower level matriculation requirements of the University of the West Indies (UWI) of five (5) GCE O' Level or CSEC subjects, including English Language and Mathematics, and have at least one science subject, which may include Agricultural Science (both the single and double awards count as one subject), Biology, Chemistry, Geography, Integrated Science, Environmental Science or Physics.
- Candidates who do not have at least one science subject but have relevant practical experience in agriculture will also be considered.

UWI CERTIFICATE IN ENVIRONMENTAL GEOGRAPHY

The Certificate in Environmental Geography is a one-year programme of study encompassing aspects of physical, human, and environmental geography. These topics comprise the breadth of the Geography and Environment and Natural Resource Management (ENRM) degree majors within the Department of Geography. The Certificate also introduces current approaches to geographical thinking, spatial analysis, and interpreting the built and natural environment as well as underlying processes. This Certificate is built around the concepts of sustainable development and natural resources management in small-island developing states (SIDS) and it supports these concepts through topics and coursework that apply relevant and transferable knowledge and skills to the benefit of society and the world of work. The Certificate is a good foundation in geographical theory and techniques. It paves the path for anyone interested in portfolios, or careers, related to the impacts of humans on the natural and built environment, as well as the environmental impacts on people and places. On successful completion, the Certificate qualifies all candidates for direct entry to the Degree programs in the Department of Geography, which offer a higher level of understanding, more hands-on experience in the field, and advanced theoretical and applied knowledge.

The Certificate in Environmental Geography introduces theories and practices of Geography and Environmental and Sustainable Development. The Certificate fuses the Caribbean region to the wider global context on key issues such as climate change, natural hazards, economic development, and social justice. The Certificate offers fundamental training to prepare students for advanced topics in Geography and the Environment within the Department of Geography. Delivered in the evening, this programme caters for the working population, which is also reflected in the entry requirement to include persons with relevant work experience

GRADUATE CAREER PATHS

Spatial literacy is an essential knowledge and skill area for environmental careers. The Certificate introduces candidates to spatial analyses in a variety of contexts, and also prepares candidates for geographical positions that require an understanding of the relationships between people and their environment. Candidates who aim to work in sustainable development, environmental management, and geographical education would benefit from this programme. Moreover, the Certificate allows all successful candidates to matriculate into the Degree of Geography and/or ENRM.

PROGRAMME OF STUDY

The programme of study for the Certificate in Environmental Geography is outlined in the table below.

REGULATIONS FOR THE CERTIFICATE IN ENVIRONMENTAL GEOGRAPHY

1. **QUALIFICATIONS FOR ADMISSION TO THE CERTIFICATE**

In order to be admitted into the certificate programme candidates must satisfy the lower level matriculation requirement of the University of the West Indies (UWI): passes in a minimum of five (5) GCE O'Level or CSEC (CXC) General Proficiency Level examination at Grades I, II or since 1998, Grade III, including English Language and Mathematics as well as any one (1) of the following:

- CSEC Geography
- Two science subjects, one of which must be Biology or Agricultural Science
- Minimum 5 years relevant work experience

2. **OUTLINE OF THE CERTIFICATE PROGRAMME**

Students admitted to the Certificate programme are expected to complete 24 credits over a one year period. The structure of the programme is given below:

YEAR 1

Semester 1

Course Code	Course Title	Credits
GEOG 0101	Natural Environments I: Geomorphology and Fluvial and Coastal Environments	3
GEOG 0102	Population and Settlement Patterns	3
GEOG 0103	Ecology and Natural Resource Conservation	3
GEOG 0104	Environmental Data Analysis	3
Total Credits		12

SEMESTER 2

Course Code	Course Title	Credits
GEOG 0201	Natural Environments II: Atmospheric processes, Vegetation, Natural Hazards and Human Vulnerability	3
GEOG 0202	Economic and Development Controversies	3
GEOG 0203	Land Use and Sustainability	3
GEOG 0204	Introduction to Spatial Data: Modelling and Analysis with GIS	3
Total Credits		12

PROGRAMME TOTAL	24
------------------------	-----------

3. **REGISTRATION**

- (a) New students are admitted to the Certificate only during the beginning of each academic year.
- (b) A student must register for courses at the beginning of each SEMESTER WITHIN THE PRESCRIBED PERIODS, precise information about which can be obtained from the UWI website and/or notice boards.
- (c) A student's registration is deemed complete only when he/she has been granted financial clearance by the University.
- (d) Students may normally register for the maximum number of credits as determined by the programme for each semester. If a student wishes to register for additional courses, then he/she should apply for permission to do so during registration.
- (e) A student who has recorded a pass in a course will not be permitted to re-register for that course. Registration for a course constitutes registration for the associated examination.

4. **PROGRESS THROUGH THE PROGRAMME**

- (a) Academic standing of every student will be determined on the basis of cumulative grade point average (CGPA).
- (b) A student must normally maintain a CGPA of 2.0 to progress through the programme. Any student whose CGPA falls below 2.0 at the end of any semester would normally be required to withdraw from the programme for a year.

5. EXAMINATION

- (a) In order to pass a course, a candidate must have a satisfactory attendance record (i.e., a minimum of 90% attendance) for both classes and all allied activities and must have satisfied the examiners in the associated examinations.
- (b) Assessment in each course could involve a combination of methods, and assessment details on each course are given in the outline of each course.
- (c) End of semester written examinations for each course will be of two (2) hours duration.
- (d) In order to satisfy the examiners, candidates must obtain a minimum mark of 50% in each course.
- (e) Any student who, having registered for a course, fails to take the examination on that course shall be deemed to have failed the examination unless:
 - (i) Prior approval was given for the student to drop the course by the relevant authority or.
 - (ii) The student could not attend because of illness or other grave cause. In the case of illness, a medical certificate must be submitted to the Examination's Section of the Registry within 7 days after the specific examination.
- (f) A student who fails one or more courses while maintaining a CGPA of 2.0 will be granted permission to sit supplementary examinations in the failed courses during the July/August period provided that the total number of failed credits is no more than six (6).
- (g) Students taking written examinations shall be subject to the University Examination Regulations for First Degrees, Diplomas and Certificates save that the functions assigned to the Campus Committee on Examinations shall be performed by the Senior Assistant Registrar, Examinations or his/her nominee.

6. GENERAL REQUIREMENTS FOR THE AWARD OF THE CERTIFICATE

In order to be eligible for the award of the certificate in agriculture, candidates must have:

- (a) been in satisfactory attendance normally for a period equivalent to two (2) semesters of full-time study
- (b) obtained passes in all prescribed courses amounting to 24 credits; and maintained a minimum CGPA of 2.0

7. TIME LIMITS FOR COMPLETION AND ENFORCED WITHDRAWALS

- (a) The time period allowed for completion of the Certificate for full-time students shall normally be a minimum of two (1) and a maximum of three (2) academic years.
- (b) Students who fail to complete the Certificate by the end of the second academic year will normally be required to withdraw from the programme subject to 10 (c) below.
- (c) Students who fail to complete the requirements within the prescribed maximum period but need no more than nine (9) credits to graduate may apply for an extension of time. Such cases will be considered on case-by-case basis.
- (d) For the purposes of Regulations 10 (a) to 10 (c) above, any semester for which a student has been granted Leave of Absence from the Certificate shall not be counted.
- (e) A student who was required to withdraw from the CERTIFICATE MUST REAPPLY FOR ENTRY THROUGH THE NORMAL PROCEDURE IN ACCORDANCE WITH THE UWI SCHEDULE FOR APPLICATION TO ENROL IN ITS PROGRAMMES.
- (f) A student who was required to withdraw and was re-admitted and then required to withdraw for a second time, will not normally be considered for re-admission again until a minimum period of five years has elapsed. Such students will be treated as first time applicants if they apply for re-admission.

8. LEAVE OF ABSENCE AND VOLUNTARY WITHDRAWALS

- (a) A student who wishes to be absent from the Certificate a semester or more must apply for Leave of Absence.
- (b) Leave of Absence will not be granted for more than two (2) consecutive semesters in the first instance. However, students may apply for an extension of leave.
- (c) Leave of Absence will not be granted for more than four (4) consecutive semesters.
- (d) Applications for Leave of Absence should normally be submitted no later than the end of the change in registration period in the relevant semester.
- (e) A student who does not register for any course during a semester without having obtained Leave of Absence will be deemed to have dropped out from the programme and will have to re-apply for entry into the programme if he/she so desires.
- (f) A student who drops out or voluntarily withdraws from the University and then applies for re-admission within five (5) years shall be granted exemption and credit for all courses previously passed unless the Department concerned declares that the material covered in a course has become outdated. All grades previously obtained except those for courses declared outdated shall be part of the student's academic record.

9. GPA AND AWARD OF CERTIFICATE

- (a) A CGPA based on all courses completed for which grades have been obtained (except those taken on a Pass/Fail basis) will be determined and forms part of the academic record of a student.
- (b) In the determination of the CGPA, all failed courses are included treating each repeat as a separate and independent contribution for this purpose.
- (c) Students who successfully complete the programme will be awarded the certificate and those who perform exceptionally well will be awarded with distinction.

10. GRADING SCHEME

The Grading Scheme used in the FFA is adapted for the UCA as follows:

MARK	GRADE	QUALITY POINTS
90-100	A+	4.3
80-89	A	4.0
75-79	A-	3.7
70-74	B+	3.3
65-69	B	3.0
60-64	B-	2.7
55-59	C+	2.3
50-54	C	2.0
40-49	F1	1.7
30-39	F2	1.3
0-29	F3	0.0

11. AWARD OF CERTIFICATE

A student who completes the programme with a CGPA of 3.7 or above will be awarded the certificate with Distinction.

UWI CERTIFICATE IN HUMAN ECOLOGY

The World Health Organization recognises Nutrition as one of the five (5) pillars of public health. In doing so, it recognises the importance of nutrition and its related discipline as crucial to life itself. This is important as the lifestyle diseases (obesity, diabetes mellitus, high blood pressure, cancer, and cardiovascular diseases) are major causes of illness and death among adults. They are also responsible for over half of the visits to health care facilities regionally.

Food and Nutrition professionals are at the heart of the battle to reduce these endemic diseases. The Certificate in Human Ecology will provide core foundation training for matriculation for such degrees in nutrition and related fields.

GRADUATE CAREER PATHS

Graduates of BSc and Higher degrees in nutrition and dietetics, become teachers in related subjects at Secondary Schools, are involved in academia and research, and are also entrepreneurs.

ACADEMIC QUALITY ASSURANCE

Diverse approaches will be employed for quality assurance purposes of the UWI certificate programme. Periodic internal and external review of the programme will be employed in accordance with existing UWI practice. Members of FFA academic staff will serve as examiners in relevant courses. Internal evaluation of the programme will take into account inputs from stakeholders.

PROGRAMME CONTENT

This certificate has been designed to improve the preparedness of students wishing to take degrees in Human Nutrition and Dietetics, Food Science, Food Service and Nutritional Sciences in the Faculty of Food and Agriculture.

PROGRAMME OF STUDY

The programme of study for the Undergraduate Certificate in Human Ecology offered in the FFA is outlined in **Table 1**.

PERIOD OF STUDY

The programme is designed to be completed in one academic year of full-time study. The courses are scheduled as follows

COURSE DELIVERY MODES

The training for this Certificate requires mastery of a range of skills and competencies, and knowledge pertinent to the level, therefore, various relevant delivery modes suitably adapted for each course will be used to ensure the achievement of the curricular goals. The delivery modes would include lectures supported by active learning strategies such as tutorials, projects, field and laboratory-based practicals and field visits. Course assessments are designed to match the requirements of each course. These include but are not limited to in-term and final exams, which may comprise MCQ, short answer and essay type questions; written reports associated with practical activities such as laboratory exercises and field trips; and individual and group projects. Further details of these assessments are provided in the respective course outlines.

AWARD OF THE CERTIFICATE

The Certificate in Human Ecology will be awarded on successful completion of 30 credits. In order to qualify for this award, students must have passed all the required courses and attained a cumulative grade point average (GPA) of at least two (2.0).

PROGRAMME COORDINATION

The Department of Agricultural Economics and Extension will coordinate the Undergraduate Certificate in Human Ecology.

REGULATIONS FOR THE CERTIFICATE IN HUMAN ECOLOGY

1. PREFACE

The Undergraduate Certificate in Human Ecology is a one-year full time programme designed to improve the preparedness of students wishing to take degrees in Human Nutrition and Dietetics, Food Science, Food Service and Nutritional Sciences in the Faculty of Food and Agriculture.

2. QUALIFICATIONS FOR ADMISSION TO THE CERTIFICATE

In order to be admitted into Undergraduate Certificate in Human Ecology programme candidates must have:

- Passes in a minimum of five (5) subjects at CSEC (CXC) General Proficiency (Grades I-III) or GCE O-levels or their equivalent, which must include English Language, Mathematics, any two (2) of the following: Chemistry, Biology, Human and Social Biology, Integrated Sciences, Agricultural Sciences, Food and Nutrition and Health, Textiles, Clothing and Fashion, Physics, Geography, Environmental Sciences, Principles of Business Accounting, foreign language and Caribbean Vocational Qualification (CVQ) LEVEL 1 equivalent in technical vocation subjects.

ENGLISH LANGUAGE: Candidates who do not possess a pass in CSEC English A at Grades I, II or since 1998, Grade III, a Grade A in GCE O' Level/BGCSE English Language, would be required to pass the English Language Proficiency Test offered by the Faculty of Humanities and Education.

MATHEMATICS: Candidates who do not possess a pass in CSEC Mathematics at Grades I, II or since 1998, Grade III, a Grade A in GCE O' Level/BGCSE Mathematics, would be required to pass the Course IYMS 1001/ MATH 0103: Improving Your Math Skills offered at Open Campus.

Students will be allowed to repeat their qualifying semester but must attain the minimum requirements of passes in ELPT or IYMS 1001/ MATH 0103: Improving your Math Skills before entry into the Certificate.

3. OUTLINE OF THE CERTIFICATE PROGRAMME

The programme is designed to be completed in one (1) academic year of full-time study or two (2) years part-time study. The Certificate in Human Ecology programme comprises of 30 credits.

COURSE LISTING

CORE COURSES

YEAR 1

SEMESTER 1

Course Code	Course Title	Credits
ENTR 0101	Fundamentals of Entrepreneurship	3
HUEC 0101	Fundamentals of Food and Nutrition I	3
AGRI 0103	Agricultural Chemistry	3
AGRI 0104	Agricultural Biology I	3
HUEC 0103	Introduction to Human Anatomy and Physiology I	3
Total credits		15

SEMESTER 2

Course Code	Course Title	Credits
HUEC 0102	Fundamentals of Food and Nutrition II	3
HUEC 0104	Introduction to Human Anatomy and Physiology II	3
HUEC 0105	Food and Nutritional Chemistry	3
HUEC 0106	Introduction to Family and Consumer Sciences	3
AGRI 0107	Mathematics	3
Total credits		15

TOTAL PROGRAMME CREDITS	30
--------------------------------	-----------

5. REGISTRATION

- (a) New students are admitted to the Certificate only during the beginning of each academic year.
- (b) A student must register for courses at the beginning of each SEMESTER WITHIN THE PRESCRIBED PERIODS, precise information about which can be obtained from the UWI website and/or notice boards.
- (c) A student's registration is deemed complete only when he/she has been granted financial clearance by the University.
- (d) Students may normally register for the maximum number of credits as determined by the programme for each semester. If a student wishes to register for additional courses, then he/she should apply for permission to do so during registration.
- (e) A student who has recorded a pass in a course will not be permitted to re-register for that course.
- (f) Registration for a course constitutes registration for the associated examination.

6. PROGRESS THROUGH THE PROGRAMME

- (a) Academic standing of every student will be determined on the basis of cumulative grade point average (CGPA).
- (b) A student must normally maintain a CGPA of 2.0 to progress through the programme.
- (c) Any student whose CGPA falls below 2.0 at the end of any semester would normally be required to withdraw from the programme for a year.

8. EXAMINATION

- (a) In order to pass a course, a candidate must have a satisfactory attendance record (i.e. a minimum of 90% attendance) for both classes and all allied activities, and must have satisfied the examiners in the associated examinations.
- (b) Assessment in each course could involve a combination of methods, and assessment details on each course are given in the outline of each course.
- (c) End of semester written examinations for each course will be of two (2) hours duration.
- (d) In order to satisfy the examiners, candidates must obtain a minimum mark of 50% in each course.
- (e) Any student who, having registered for a course, fails to take the examination on that course shall be deemed to have failed the examination unless:
 - (i) Prior approval was given for the student to drop the course by the relevant authority or;
 - (ii) The student could not attend because of illness or other grave cause. In the case of illness, a medical certificate must be submitted to the Examination's Section of the Registry within 7 days after the specific examination.

- (f) A student who fails one or more courses while maintaining a CGPA of 2.0 will be granted permission to sit supplementary examinations in the failed courses during the July/August period provided that the total number of failed credits is no more than six (6).
- (g) Students taking written examinations shall be subject to the University Examination Regulations for First Degrees, Diplomas and Certificates save that the functions assigned to the Campus Committee on Examinations shall be performed by the Senior Assistant Registrar, Examinations or his/her nominee.

9. GENERAL REQUIREMENTS FOR THE AWARD OF THE CERTIFICATE

In order to be eligible for the award of the certificate in agriculture, candidates must have:

- (a) been in satisfactory attendance normally for a period equivalent to three (3) semesters of full-time study
- (b) obtained passes in all prescribed courses amounting to 30 credits; and
- (c) maintained a minimum CGPA of 2.0

10. TIME LIMITS FOR COMPLETION AND ENFORCED WITHDRAWALS

- (a) The time period allowed for completion of the Certificate for full-time students shall normally be a minimum of two (1) and a maximum of three (2) academic years.
- (b) Students who fail to complete the Certificate by the end of the second academic year will normally be required to withdraw from the programme subject to 10 (c) below.
- (c) Students who fail to complete the requirements within the prescribed maximum period but need no more than nine (9) credits to graduate may apply for an extension of time. Such cases will be considered on case-by-case basis.
- (d) For the purposes of Regulations 10 (a) to 10 (c) above, any semester for which a student has been granted Leave of Absence from the Certificate shall not be counted.
- (e) A student who was required to withdraw from the CERTIFICATE MUST REAPPLY FOR ENTRY THROUGH THE NORMAL PROCEDURE IN ACCORDANCE WITH THE UWI SCHEDULE FOR APPLICATION TO ENROL IN ITS PROGRAMMES.
- (f) A student who was required to withdraw and was re-admitted and then required to withdraw for a second time, will not normally be considered for re-admission again until a minimum period of five years has elapsed. Such students will be treated as first time applicants if they apply for re-admission.

11. LEAVE OF ABSENCE AND VOLUNTARY WITHDRAWALS

- (a) A student who wishes to be absent from the Certificate a semester or more must apply for Leave of Absence.
- (b) Leave of Absence will not be granted for more than two (2) consecutive semesters in the first instance. However, students may apply for an extension of leave.
- (c) Leave of Absence will not be granted for more than four (4) consecutive semesters.
- (d) Applications for Leave of Absence should normally be submitted no later than the end of the change in registration period in the relevant semester.
- (e) A student who does not register for any course during a semester without having obtained Leave of Absence will be deemed to have dropped out from the Undergraduate Certificate in Human Ecology and will have to re-apply for entry into the programme if he/she so desires.
- (f) A student who drops out or voluntarily withdraws from the University and then applies for re-admission within five (5) years shall be granted exemption and credit for all courses previously passed unless the Department concerned declares that the material covered in a course has become outdated. All grades previously obtained except those for courses declared outdated shall be part of the student's academic record.

12. GPA AND AWARD OF CERTIFICATE

- (a) A GPA based on all courses completed for which grades have been obtained (except those taken on a Pass/Fail basis) will be determined and forms part of the academic record of a student.
- (b) In the determination of the CGPA, all failed courses are included treating each repeat as a separate and independent contribution for this purpose.
- (c) Students who successfully complete the programme will be awarded the certificate and those who perform exceptionally well will be awarded with distinction.

13. GRADING SCHEME

The Grading Scheme used in the FFA is adapted for the Undergraduate Certificate in Human Ecology as follows:

MARK	GRADE	QUALITY POINTS
90-100	A+	4.3
80-89	A	4.0
75-79	A-	3.7
70-74	B+	3.3
65-69	B	3.0
60-64	B-	2.7
55-59	C+	2.3
50-54	C	2.0
40-49	F1	1.7
30-39	F2	1.3
0-29	F3	0.0

14. AWARD OF CERTIFICATE

A student who completes the programme with a CGPA of 3.7 or above will be awarded the Certificate with Distinction.

COURSE DESCRIPTIONS

CERTIFICATE IN AGRICULTURE

YEAR: 1

SEMESTER: 1

COURSE CODE: AGRI 0101

COURSE TITLE: AGRICULTURE, FOOD AND THE ENVIRONMENT

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE CONTENT: Agriculture and development; Caribbean Agriculture: its history and transition; system and its economy; Agriculture, food and nutrition; food security, global and regional issues; agricultural technologies and the environment, human health and sustainable agriculture.

ASSESSMENT:

Coursework	80%
Final Examination	20%

YEAR: 1

SEMESTER: 1

COURSE CODE: AGRI 0102

COURSE TITLE: AGRICULTURAL PHYSICS

NUMBER OF CREDITS: 2

PREREQUISITES: NONE

COURSE CONTENT: Atmosphere: physics of gases, water vapour in the atmosphere, variation of pressure, density, vapour pressure in the atmosphere with altitude. Heat and mass transfer: transfer of momentum, heat and mass at boundary layers between the atmosphere and various surfaces, resistances to momentum, conservation – free and forced, conduction with application to heat flow in soils. Introduction to soil physics: energy balance concept, energy balance in soils, moisture content, soil densities, soil water potential, soil moisture characteristics, hydraulic conductivity, thermal conductivity, soil aeration.

ASSESSMENT:

Coursework	60%
Final Examination	40%

YEAR: 1

SEMESTER: 1

COURSE CODE: AGRI 0103

COURSE TITLE: AGRICULTURAL CHEMISTRY

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE CONTENT: Introduction; weights, measures and measurement system; atoms and the periodic table; ionic compounds; mass and moles; chemical reactions; solutions and concentration; acids, bases, and pH and buffer systems; covalent bonds and functional groups; saturated hydrocarbons; unsaturated hydrocarbons; oxygen containing organics; nitrogen containing organics; applications of chemistry to agriculture.

ASSESSMENT:

Coursework	85%
Final Examination	15%

YEAR: 1**SEMESTER: 1****COURSE CODE: AGRI 0104****COURSE TITLE: AGRICULTURAL BIOLOGY I****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: Taxonomy of living organisms, the plant and animal kingdoms, higher plants and animals; cell structure, growth and division; growth in plants and animals; plant habit, morphology and anatomy of leaves, stems, roots, flowers and fruits of a range of crop species; animal morphology and anatomy of the skeletal, muscular, nervous, digestive, circulatory, respiratory, excretory, endocrinal and reproductive systems of a range of livestock species; introduction to genetics – basic concepts; genotype and phenotype; inheritance; development of livestock breeds and crop cultivars.

ASSESSMENT:

Coursework	80%
Final Examination	20%

YEAR: 1**SEMESTER: 1****COURSE CODE: AGRI 0105****COURSE TITLE: LANGUAGE AND COMMUNICATION****NUMBER OF CREDITS: 2****PREREQUISITES: NONE**

COURSE CONTENT: Basic concepts in communication; steps in effective writing, oral and multimedia communication; reading skills; study skills; information literacy and research skill development; writing with purpose; exercises in critical thinking.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 1****COURSE CODE: AGRI 0106****COURSE TITLE: COMPUTER AND INFORMATION LITERACY****NUMBER OF CREDITS: 2****PREREQUISITES: NONE**

COURSE CONTENT: Hardware components and software categories and function; use of keyboard, mouse, find and start applications, manipulating Windows, edit documents, save files; page layout, formatting, table of contents, page numbering, using and creating templates, inserting tables and pictures; understanding cells, working with text, numbers and dates, basic formatting working with formulas, page layout options, charts and graphs and printing; slide preparation text, insertions (pictures, tables, graphs and graphs); slide transitions and a animations; presentation techniques; hardware and software required for Internet use; using a browser; understanding URLs; search strategies; evaluation of search results; saving information and pictures; email chat; using databases; classification of information in library systems; active reading; note taking; plagiarism; references.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0108****COURSE TITLE: AGRICULTURAL BIOLOGY II****NUMBER OF CREDITS: 3****PREREQUISITES: AGRI 0104 - AGRICULTURAL BIOLOGY I**

COURSE CONTENT: Growth and development- definitions, types of growth in plants and animals, measurement of growth; photosynthesis, translocation, assimilate partitioning and plant growth and development; water relations in cells and whole plants, water uptake, transpiration; nutrient uptake and function in plant growth and development; seedling germination, growth and development; digestion, respiration, circulation, muscle movement and growth in livestock animals; reproduction and lactation; growth regulators in plant and livestock; environmental factors – light, temperature, water, relative humidity, nutrients, air quality- affecting crop and livestock growth and development; introduction to ecology, ecosystems, agroecosystems.

ASSESSMENT:

Coursework	80%
Final Examination	20%

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0109****COURSE TITLE: AGRICULTURAL BIOCHEMISTRY****NUMBER OF CREDITS: 3****PREREQUISITES: AGRI 0103 - AGRICULTURAL CHEMISTRY AND AGRI 0104 - AGRICULTURAL BIOLOGY I****COURSE CONTENT:** The cell and subcellular organelles; chemistry of carbohydrates; amino acid & protein chemistry; lipids and membranes; nucleotides and nucleic acids; energy in the cell; enzymes; glycolysis; tricarboxylic acid (TCA) cycle.**ASSESSMENT:**

Coursework	50%
Final Examination	50%

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0110****COURSE TITLE: INTRODUCTORY SOIL SCIENCE****NUMBER OF CREDITS: 3****PREREQUISITES: NONE****COURSE CONTENT:** Soil as a natural resource; roles soils play in the environment; soil variability and distribution in the Caribbean; soil components and formation; soil physical properties - soil texture, structure and porosity, soil water and soil aeration and temperature; soil chemical properties - clay mineralogy, soil reaction, CEC, SOM; soil biological properties - soil organisms; soilless media and amended soils.**ASSESSMENT:**

Coursework	80%
Final Examination	20%

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0111****COURSE TITLE: CROP PRODUCTION I****NUMBER OF CREDITS: 2****PREREQUISITES: AGRI 0104 - AGRICULTURAL BIOLOGY I****COURSE CONTENT:** The crop concept – hunter-gathering system, domestication, yield and crop production management; core concepts/elements in crop production management – definition and importance of land clearing, land preparation, cultivars, planting material, crop establishment, and plant population, water and nutrition management, crop protection, harvesting; influence of plant genotype and environmental factors on crop production management; introduction to tropical vegetable and grain crops – food value and types based on edible organs; good agricultural practices (GAPS) for selected tropical vegetables (leafy, solanaceous, cucurbits, crucifers) and grain (cereals and legumes) crops – site selection, cultivar selection, planting material selection; establishment methods; spacing and arrangement; water management – drainage, irrigation, conservation; nutrition management (soil and issue analyses) – organic and inorganic nutrient sources, application rates, methods, timing; plant training; nutrient conservation; integrated pest management practices, harvesting, maturity, harvest method; transport; production systems – characteristics, types, advantages and disadvantages, monocultural and polycultural systems - field; protected; container systems; technologies for each practice – traditional and modern – advantages and disadvantages; application of technologies to systems.**ASSESSMENT:**

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 2****COURSE CODE: AGRI 0112****COURSE TITLE: LIVESTOCK PRODUCTION I****NUMBER OF CREDITS: 2****PREREQUISITES: AGRI 0104 - AGRICULTURAL BIOLOGY I****COURSE CONTENT:** Non-ruminants management practices including breeds and breeding, feeding, health, housing, record keeping, and technology; harvesting and use of non-ruminant products.**ASSESSMENT:**

Coursework	70%
Final Examination	30%

YEAR: 1**SEMESTER: 3 (10 WEEKS)****COURSE CODE: AGRI 0114****COURSE TITLE: FARM PRACTICE I****NUMBER OF CREDITS: 4****PREREQUISITES: AGRI 0111 – CROP PRODUCTION I AND AGRI 0112 – LIVESTOCK PRODUCTION I**

COURSE CONTENT: The University Field Station – location, functions, layout, infrastructure, operations, inputs and sources, products and markets, human resources; the Meteorology Station – equipment and function; interpretation of meteorological data; soil environment – soil physical conditions. Plant propagation – seedlings, cuttings, divisions, separations; the nursery – facilities and sanitation; media – types, preparation, and management; crop establishment in the field and under protective cover; crop maintenance – irrigation, nutrition, crop protection; harvesting, transport, grading, cleaning, packaging, storage, sales; agricultural chemical and tool inventory. Livestock facilities maintenance – sanitation of pens, fence repair; livestock husbandry – feeding, watering, deworming; poultry processing; agricultural equipment and tools – use, safety issues, preventative maintenance, and storage; sales - crop and livestock products. Basic first aid.

ASSESSMENT:

Coursework 100%

CERTIFICATE IN GEOGRAPHY

YEAR: 1**SEMESTER: 1****COURSE CODE: GEOG 0101****COURSE TITLE: NATURAL ENVIRONMENTS I: GEOMORPHOLOGY AND FLUVIAL AND COASTAL****ENVIRONMENTS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: This course is an introduction to the geomorphology of different physical environments. It examines the main geomorphic processes in the context of endogenic and exogenic systems from a global perspective. The first part of the course is an examination and description of endogenic systems and processes. It examines the internal structure of the Earth and explains the geographic patterns of global relief of the solid surface in the context of plate tectonics. The relationship between global tectonics and the patterns and styles of volcanic activity and earthquakes are discussed. The rest of the course examines and describes the main exogenic systems and processes. The geographical patterns and types of weathering are discussed, and the products of the physical disintegration and chemical decomposition of rocks are examined. Exogenic systems in relation to the main geomorphic agents of water, wind and ice are introduced in the context of fluvial, slope, aeolian, karst, coastal, aeolian and glacial systems.

ASSESSMENT:

Coursework 100%

YEAR: 1**SEMESTER: 1****COURSE CODE: GEOG 0102****COURSE TITLE: POPULATION AND SETTLEMENT PATTERNS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: This course examines the concepts of population growth and settlement, including spatial and statistical patterns of growth; distribution of human settlements; basic demography; and develops analytical and interpretive skills and techniques. The course is organized into key areas of population growth 1) natural increase; and 2) migration, both of which analyze state responses, socio-cultural concerns, and economics and resource capacity.

ASSESSMENT:

Coursework 50%

Final Examination 50%

YEAR: 1**SEMESTER: 1****COURSE CODE: GEOG 0103****COURSE TITLE: ECOLOGY AND NATURAL RESOURCE CONSERVATION****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: This course is an introduction to fundamental ecological processes and concepts. It looks at the interaction of organisms with the abiotic and biotic environments with the goal of understanding the processes that control these interactions. The first part of the course looks at what is ecology. It examines biogeochemical cycles, energy and nutrient flow within ecosystems and discusses the types of interactions between organisms in communities. It explains the process of natural selection and examines population dynamics. The remainder of the course examines natural resources. The different types of natural resources will be discussed, and the use and conservation of these resources will be examined. The course will focus on natural resources in a Caribbean context.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 1****COURSE CODE: GEOG 0104****COURSE TITLE: ENVIRONMENTAL DATA ANALYSIS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: This course is an introduction to statistical representations of environmental patterns and processes encountered in the pursuit of geographical knowledge. The course is designed to develop confidence in candidates with various levels of numeracy and strengthen quantitative skills so that all candidates graduate with proficiency in data analysis. Topics that will be discussed include displaying and describing data, the normal curve, regression, probability, statistical inference, confidence intervals, and hypothesis tests with applications in the real world.

ASSESSMENT:

Coursework	60%
Final Examination	40%

YEAR: 1**SEMESTER: 2****COURSE CODE: GEOG 0201****COURSE TITLE: NATURAL ENVIRONMENTS II: ATMOSPHERIC PROCESSES, VEGETATION, NATURAL HAZARDS AND HUMAN VULNERABILITY****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: The course introduces students to the elements of atmospheric phenomena, global vegetation and soils, and hazards. Against the theoretical background of endogenic processes and atmospheric systems, it reviews a range of natural hazards operating of different spatial and temporal scales, including geological (volcanoes, earthquakes), hydrological (floods), and climatological (hurricanes). The course also examines the possible changes to risk under climate and sociological change. The latter part of the course examines individual and collective responses to earthquake, floods, and volcanic hazards before the occurrence and after the occurrence. It also looks at Government responses to hazards - earthquakes, floods, and volcanoes.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 2****COURSE CODE: GEOG 0202****COURSE TITLE: ECONOMIC AND DEVELOPMENT CONTROVERSIES****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: The objective of this course is to introduce the ways that development is approached throughout the world, as well as how the global economy functions. In doing so, students will explore differing actors involved in the development process, as well as gain insights about how economies operate, what purposes they serve, and how they impact both societies and ecologies. The course also employs a wide array of diverse perspectives to analyse the many ways development is practiced, as well as how the global economy shapes human-environment interactions, patterns of migration, and international relations. In addition, the course focuses on how a geographic perspective yields new insights when trained on environmental management, the exploitation of resources, as well as regulations pertaining to conservation and preservation.

ASSESSMENT:

Coursework	100%
------------	------

YEAR: 1**SEMESTER: 2****COURSE CODE: GEOG 0203****COURSE TITLE: LAND USE AND SUSTAINABILITY****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: The course will provide students with an understanding of the complex processes, engagements, and interactions taking place amongst humans, resources, agricultural production, and the environment. It will unfold so that each weekly theme exposes students to the interdisciplinary nexus of agriculture, energy use, resource extraction, and consumption. Moreover, it will provide students the necessary tools required to assess the use and distribution of environmental resources as they relate to human, community, and ecological health. Students will also gain insight into the negative impacts that environmental degradation has on humans, wildlife, and plants, as well as aquatic and terrestrial ecosystems. The course will also provide students with the knowledge about how resource-use can be altered to minimize, manage, and/or eliminate specific environmental problems. The themes will also address environmental stressors and pollution, their sources in the natural and workplace environments, their modes of transport and transformation, and their effects on ecological systems and differing human populations.

ASSESSMENT:

Coursework	60%
Final Examination	40%

YEAR: 1**SEMESTER: 2****COURSE CODE: GEOG 0204****COURSE TITLE: INTRODUCTION TO SPATIAL MODELING AND FUNDAMENTALS OF GIS****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE CONTENT: Using computers for mapping is prevalent everywhere and one may not even know or recognize it. The smartphone in one's pocket, or tablet in one's bag are location enabled devices tracking ones every move. Some 80% of all data have some type of spatial aspect to it. This course will introduce students to spatial modelling and analysis theory and practice. Topics covered will include scale and generalization, georeferencing, spatial data models, data collection, mapping and spatial analysis. Students will become versed in GIS software. Practical applications of spatial and temporal analysis of geographical concepts taught in other classes in the programme will be undertaken. These include coastline change detection, landcover mapping, sea level rise, hydrological modelling and natural hazard risk and mitigation. By the end of the class students will have a strong foundation in GIS theory and GIS-based solutions for real world problems and issues.

ASSESSMENT:

CERTIFICATE IN HUMAN ECOLOGY

YEAR:1

SEMESTER: 1

COURSE CODE: ENTR 0101

COURSE TITLE: FUNDAMENTALS OF ENTREPRENEURSHIP

NUMBER OF CREDITS: 3

PREREQUISITES: None

COURSE DESCRIPTION: Good ideas alone are not responsible for the success of an entrepreneur in today's competitive environment. This course is designed to provide students with an introduction to the process of business development. Students will cover steps towards building a business, idea generation, launching a business venture, and managing and expanding a business enterprise. The course presents students with the forms of business organization such as sole proprietorship, partnership, and limited liability companies. Students will review all procedures and preparation of documents required for the registration and incorporation of a business under the Companies act of their respective countries and rules and regulations for business operations throughout CARICOM member states. To assist with the conceptualization of business ideas, students will be introduced to business development strategies through brainstorming and other exercises. The course also provides an introduction to financial, organizational and human resource management, marketing, market research, business communication and product development. Students will conclude the course by conducting a practical exercise such as the registration of a business idea under the Companies' Act of their respective country.

YEAR:1

SEMESTER: 1

COURSE CODE: HUEC 0101

COURSE TITLE: FUNDAMENTALS OF FOOD AND NUTRITION I

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: This course aims to provide an understanding of the basic principles of nutrition, nutritional and food preparation skills and newer advances in food technology. It encompasses the safety and social aspects of food and is centred on production of healthy food, food sanitation practices and lifestyle choices throughout the lifecycle. Moreover, the course is focused on the enhancement of student awareness with regards to personal food choices and overall health.

ASSESSMENT:

Coursework	40%
Final Examination	60%

YEAR:1

SEMESTER: 2

COURSE CODE: HUEC 0102

COURSE TITLE: FUNDAMENTALS OF FOOD AND NUTRITION II

NUMBER OF CREDITS: 3

PREREQUISITES: NONE

COURSE DESCRIPTION: This course aims to provide an understanding of the basic principles of the science of eating behaviours, application of dietary guidelines, nutritional standards, and food labelling, and nutrition-related disorders. It encompasses the safety and social aspects of food and is centred on lifestyle choices throughout the lifecycle. Moreover, the course is focused on the enhancement of student awareness with regards to personal food choices and overall health, nutritional principles and values and empowering individuals and communities to exercise control over their health.

ASSESSMENT:

Final Examination	40%

YEAR:1**SEMESTER: 1****COURSE CODE: HUEC 0103****COURSE TITLE: INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY I****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course takes the student on a tour of the human body and how it functions, from the cell and molecular level all the way up to the whole organism. It seeks to introduce the basic anatomy and physiology of cells, tissues, organs, and systems. Knowledge of the processes that enables the body to function is critical to understanding pathophysiological changes that occur in disease states, as well as the level of functioning required for health and well-being. This course introduces the basics in a manner that allows the student to meet the requisite level of competency.

ASSESSMENT:

Final Examination	60%

YEAR:1**SEMESTER: 2****COURSE CODE: HUEC 0104****COURSE TITLE: INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY II****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: This course follows on from the materials taught in Introduction to Human Anatomy and Physiology. It takes an integrated systems approach to understand the structure functions and regulation of cardiovascular, respiratory, excretory, reproductive, skeletal, nervous, and digestive systems. This course introduces you to the basic anatomy and physiology of body systems. It takes integrated systems approach to understand the structure functions and regulation of cardiovascular, respiratory, excretory, reproductive, skeletal, nervous, and digestive systems. It culminates with topic on genetics, molecular biology, and inheritance. For each system covered in the course, the anatomical features are outlined, and the physiological functions are explained.

ASSESSMENT:

Coursework	40%
Final Examination	60%

YEAR:1**SEMESTER: 2****COURSE CODE: HUEC 0105****COURSE TITLE: FOOD AND NUTRITIONAL CHEMISTRY****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: The purpose of this course is to provide a fundamental understanding of the chemical nature of the molecules that make up food, in relation to the role that they play in the human body. It also focuses on the effect of preparation and storage strategies on the nutrient content and bioavailability of key nutrients and the generation of toxicants. In addition, it will provide the fundamentals in chemistry necessary to tackle courses in biochemistry, metabolism, and nutrition.

ASSESSMENT:

YEAR:1**SEMESTER: 2****COURSE CODE: HUEC 0106****COURSE TITLE: INTRODUCTION TO FAMILY AND CONSUMER SCIENCES****NUMBER OF CREDITS: 3****PREREQUISITES: NONE**

COURSE DESCRIPTION: Family and Consumer Sciences are important issues associated with the family. Knowledge of its impact on the function of the family is critical in understanding consumer behaviors and needs as it relates to fashion and consumer products. This course is an introduction to the basics of the multifaceted field of Family and Consumer Sciences. It encourages, fosters, and develops an awareness of human needs and the interrelated factors involved in the management and use of fashion, textiles, and consumer products. It is organized around distinct, yet cohesive units of: Fibers and Fabrics; Fashion and Design and Management of Family Resources.
