MESSAGE FROM THE DEAN

My colleagues and I warmly welcome you to the Faculty of Social Sciences. You are now part of an established community where we focus on lifelong learning for sustainable impact. We are delighted that you have chosen us to partner with you on this journey to achieving your educational goals.

In order to equip you for the journey ahead, we have developed a suite of programmes which are offered across the four (4) Departments of the Faculty – the Department of Behavioural Sciences, the Department of Economics, the Department of Management Studies and the Department of Political Sciences. This booklet provides detailed and useful information on all the Faculty’s programme offerings. This will serve as your roadmap as you explore the varied options available to you to meet your academic needs. You have the option to customize your degree based on the various course offerings that span the diverse disciplines across the Faculty. We encourage you to take full advantage of this opportunity to gain a holistic understanding of the Social Sciences.

As you navigate your way along your chosen path, you may encounter a number of hurdles that may pose a challenge to you in accomplishing your goals. These hurdles may be administrative, academic or personal. Whatever the source, do not suffer in silence! My colleagues and I are committed to supporting you throughout your journey.

We look forward to partnering with you on your journey of self-discovery and academic achievement. We wish you all the very best.

_Acolla Lewis-Cameron, PhD_
Dean, Faculty of Social Sciences

DEFINITIONS

Advising Hold
An Advising Hold may be placed on a student record to indicate that the student must get academic advising prior to registration.

Anti-Requisites
refer to courses where content overlap precludes courses being taken together for credit. Students should consult their department for guidance.

Credit Hours
ONE credit hour is equivalent to three notional hours of learning per week per semester.

For purposes of determining student workload, three notional hours of learning may include:
- ONE contact hour and TWO hours out-of-class student work per week per semester;
- a minimum of TWO hours of supervised laboratory work per week per semester;
- at least THREE hours of directed learning activities (including project work, research work, practicums and internships) undertaken by the student out of class per week per semester.

Revision conducted during the three-week formal examination period at the end of the Semester is subsumed in this definition on a pro-rata basis.”

Co-requisites
Refers to pre-requisite course(s) that can be done together.

Exemptions with Credit
Refers to cases where a student is granted credits for courses completed and passed in other UWI programmes or at other recognized institutions. Permission must be granted by the Faculty. Exemptions with credit will be recorded as “EC” on the student’s academic records. Students are not required to repeat these courses.

Exemptions only
Refers to the UWI courses, required for a student’s current programme, for which credits will not be granted because, the student has already passed these courses in other programmes at the UWI or passed courses of similar content at other recognized institutions. Exemptions only will be recorded as “EX” on the student’s academic records. In these cases the student will be required to replace the courses with courses approved by the student’s Department to meet their credit requirements.

Full-Time (F/T)
A student who is registered to pursue a course of study in a programme for which he/she must register for 5 courses (15 credits hours) in Semester I and Semester II and for which classes are timetabled from Monday to Friday from 8.00am to 8.00pm

Part Time (P/T)
A student who is registered to pursue a course of study as a part time student for which he/she must register for a maximum of 4 courses (12 credit hours) and a minimum of 2 courses (6 credit hours) in Semester I and Semester II.

Level I
In relation to a Faculty other than the Faculty of Social Sciences, this refers to the stage of a degree programme at the end of which a candidate who has completed all the examinations is eligible to complete the programme within the next two years without registering for Summer School sessions.

Prerequisite
A course listed in the Faculty Handbook as one that must be completed before being permitted to register for another course.

Summer School session
Refers to Semester III. This session is governed by the University Summer School Regulations. Students can register for a maximum of nine (9) credit hours. This is an optional semester for Full-time and Part Time students.

i. written examination papers
ii. oral examination (under the conditions in Regulation 12)
iii. practical examinations
iv. coursework (which may include written in-course tests, practical work, dissertations, essays, projects, studies and other forms of coursework as approved by the Faculty Board or the Campus Committee on Examinations).

c. In the Faculty of Social Sciences at the St. Augustine Campus, a course normally constitutes three (3) credits unless otherwise expressed.

d. A student failing a course may, subject to the rate of progress requirements of these regulations, be allowed to substitute another approved course in a subsequent semester or repeat the failed course.

e. All optional courses (electives) listed in the various degree programmes in the Faculty Handbook will not necessarily be available in any one year.

f. Deadlines for changes of registration including withdrawal from or addition of courses will be as prescribed in University Regulations.

g. Not for Credit (NFC)
   Persons wishing to pursue a course(s) to be considered as Not for Credit (NFC) must seek approval prior to registering for the course. All such requests must be made, in writing, or in the required form, to the Dean of the Faculty, through the Assistant Registrar, Student Affairs (Admissions).
   A course designated at registration as Not For Credit (NFC) shall not count for the purpose of assessing Honours. Where a student fails to specify the course which is Not for Credit, the date(s) on which such course(s) were registered shall be used to make a determination.

h. Registration for a course constitutes registration for the examination in that course.

i. A student will be deemed to have registered for a course when his/her financial obligations to the University have been fulfilled.

j. A student who does not take an examination in a course for which he/she is registered is deemed to have failed that examination unless permission to be absent has been granted.

k. A student who, on grounds of illness or in other special circumstances as referred to in Examination Regulation 17, fails to take an examination in a course for which he/she is registered, may be given special consideration by the Board of Examiners to take the examination at the next available opportunity, without penalty.

l. Students are asked to pay special attention to Examination Regulation 19 which states:
   “Any candidate who has been absent from the University for a prolonged period during the year for any reason other than illness or whose attendance at prescribed lectures, classes, practical classes, tutorial or clinical instructions has been unsatisfactory or who has failed to submit essays or other exercises set by his/her lecturers may be debarred by the relevant Academic Board, on the recommendation of the relevant Faculty Board, from taking any University examinations.”

   In accordance with The University of the West Indies General Examination Regulations and Faculty of Social Sciences Regulations, students who attain less than 75% of lecture or tutorial attendance may be debarred from writing the final examination.

m. A candidate who has recorded a pass in a course will not be permitted to re-register for that course.

Coursework

12. a. In the case of examination by coursework a student gaining an overall mark higher than 50% but failing one or more components will be required to repeat at the next available sitting the component(s) failed.

b. Requests to transfer coursework will only be entertained if the student obtained (a minimum of) 50% within one (1) academic year of passing the coursework. Once approval has been granted for transfer of coursework, the coursework should not be attempted, otherwise the approval will become null and void.

c. A student who is absent from a coursework examination may apply to the Dean of the Faculty for an opportunity to re-sit this examination. Such request must be made no later than one (1) week after the date
of the examination in question. He/she in making this request must at the same time submit to the Dean justification for such absence (such as, in case of illness, a medical certificate complying with any applicable Examination Regulations). The Dean shall consider any such request in consultation with the relevant Head of Department and course lecturer.

d. A student may request to submit coursework assignments, essays, etc. after the stipulated deadline date on the basis of appropriate justification (such as, in case of illness, a medical certificate complying with any applicable Examination Regulations). This request must be normally made within forty-eight (48) hours after the stipulated deadline date and must be addressed to the Dean, who in consultation with the relevant Head of Department and course lecturer may allow the extension.

e. A Policy on Pro-rating of Final Examinations from missed Coursework
A request to pro-rate final examination marks for having missed coursework will not be permitted.

Oral Examination for Final Year Students
13. a. The Board of Examiners MAY recommend to the Department concerned that a student who has failed the last one or two course(s) required to complete their degree be offered an oral examination in the course(s) provided that he/she has obtained, in each instance, a mark of at least 45% for the course(s).

b. If an oral examination is granted, the student may choose to decline the offer.

c. The oral examination, which will be of a maximum length of one (1) hour, will be held as soon as possible after the previous examination and within the academic year in which the student is expected to graduate. The student must contact the department concerned immediately so that arrangements can be made for the oral examination.

d. The oral examination will concern the course as a whole, and not be restricted to the questions set in the examination, which the student sat previously. The first examiner and at least one other examiner must be present at an oral examination.

e. If the examination is passed, the student cannot be awarded a grade higher than 50% (C) and this grade will replace the failing grade previously gained for the course.

f. If he/she fails the oral examination, the student will NOT have any right of appeal or review.

g. A student will be allowed only one (1) oral examination for any one (1) course.

“Exams Only” Regulations
14. A student may seek permission to be assessed in a course for which he/she is registered by means of “Exams Only” on medical or financial hardship grounds providing the following are obtained:

a. He/she must have previously passed the coursework for the course(s) in question.

b. He/she has no more than two (2) courses outstanding to complete the requirement for the award of their Certificate/Diploma/Degree.

If permission is granted, the student will be advised in writing by the Student Affairs (Admissions) Office and will be required to pay the requisite per credit fee in accordance with published Undergraduate Financial Information.

Assessment by Exam Only means that the grade for the course will be determined on the basis of 100% Final Exam i.e. coursework marks will not be taken in to consideration.

Missing a Final Exam
15. If a student misses an examination, he/she can register for the course at the next available sitting, once the course is a compulsory requirement for the programme being pursued. In this instance, a student can request a transfer of coursework, once the coursework was passed. If the course in question is an elective course, the student can register for another course.
Special Examination Sitting

15.1 In exceptional circumstances, the Dean may grant a student a deferral from sitting that exam and permission will be given to retake it on a subsequent occasion, by virtue of special assignments overseas for an employer (part-time students only) or by virtue of being selected to represent the country on a National team. In both instances, formal representation will have to be made by the employer/National association.

If permission is granted, students will be advised in writing by the Student Affairs (Admissions) Office and will be required to pay the requisite per credit fee in accordance with published Undergraduate Financial Information.

Policy Statement on the Award of Exemptions Only and Exemptions with Credits for Undergraduate Studies in the Faculty of Social Sciences

Persons applying for Exemptions should make such requests through the Student Affairs (Admissions) Office to the Dean on the appropriate form during the first three (3) weeks of semester I and the first two weeks of Semester II.

16. The granting of exemption only and exemption with credit are as follows:-

a. From UWI Certificates –
   A student who, prior to pursuing the Certificate has:
   (i) normal level matriculation (five (5) ‘O’ Levels and two (2) or more ‘A’ Levels) will receive exemptions with credit for Level I courses successfully completed up to a maximum of thirty (30) credits hours, i.e. 10 courses.
   (ii) lower level matriculation (a minimum of five (5) ‘O’ Levels) will receive exemptions with credit for Level I courses successfully completed up to a maximum of eighteen (18) credits-hours, i.e. 6 courses.
   (iii) no matriculation/mature route (up to four (4) ‘O’ Levels) will receive exemptions with credit for Level I courses successfully completed up to a maximum of twelve (12) credits hours, i.e. 4 courses.

Grating Exemption Only (no Credit) from a particular course means that the student must do another course approved for their degree programme in order to satisfy their credit requirement.

Also, the granting of exemptions (with credit) in no way exempts a student from the University requirement of pursuing and passing nine (9) credits of foundation courses.

The granting of exemptions with credit / exemptions only must be based on equivalency to courses in each degree option.

In keeping with The UWI’s policy, exemptions with credits/exemptions only will only be granted for courses which have been successfully pursued within the last five (5) years.

b. From UWI Diplomas –
   A student who, prior to pursuing a Degree, has successfully completed a Diploma
   (i) will receive exemptions with credit up to a maximum of eighteen (18)-credit hours, i.e. 6 courses, of which nine (9) exemptions must be Level I courses.

c. A student who has successfully pursued both a UWI Certificate and Diploma
   (i) will receive exemptions with credit up to a maximum of twenty-seven (27) credits hours, i.e. 9 courses, of which eighteen (18) credit hours must be Level I courses.

d. A student who is currently enrolled in a Degree programme, and pursues courses in the Summer Programme, will be granted exemptions with credit for all courses pursued towards the completion of his/her degree, providing that the course(s) pursued in the Summer Programme is/are deemed the same or equivalent to that offered in the normal stream.

e. A student who has successfully completed individual courses in the Summer Programme before enrolment in a Degree programme, will be granted up to a maximum of twelve (12) credit hours or 4 courses providing these courses are taken within a five year period.

f. A student seeking exemptions in excess of the limits stated in e. above will be granted exemption only and will be required to pursue a substitute course relevant to the field of study.

g. From three-year Associate Degree Programme Accredited Tertiary Learning Institutions (Tl):
(i) Exemptions will be granted for all courses that have been assessed by UWI (in 1998) for equivalency with specific UWI courses if a minimum B grade (TL grading) has been achieved. *

* This exercise is an on-going one and TLJ courses approved by the relevant Assessment Committee after 1998 will be granted exemptions.

h. From other universities:
(i) A student transferring from another university to register for a UWI degree will have to do a minimum of two years of full-time study (60 credits hours)

(ii) Unless Departments already have a record of the particular courses, course outlines are to be submitted for departments to make an assessment. Any course approved by departments will earn students exemption from UWI equivalent courses – up to the limit indicated by (a) above i.e. up to a maximum of 30 credit hours.

(iii) Exemptions only may be granted for any course(s) in excess of limit indicated.

16.1 Students doing Study Abroad
(i) Students who wish to pursue part of their programme at another university (a maximum of two (2) semesters which must not include the final semester of full-time study) must have the courses they intend to do at the overseas university assessed for equivalence by the relevant department at St. Augustine BEFORE proceeding to study abroad. The request to study abroad and the course approved by the department must then be submitted through the Faculty to obtain Academic Board approval.

(ii) When the student’s results are received from the overseas university, and have been evaluated and approved, the student will then receive credit for the courses as substitutes for the St. Augustine equivalent.

(iii) It should be noted that first year (level 1) courses in a four-year undergraduate programme, will NOT usually warrant any exemption from UWI courses.

16.2 Students pursuing a course(s) at other universities to complete their degree programme:
(i) In an instance where students may be migrating/must be away from the country for a significant period and are in the process of completing their UWI degree there may be discretionary decisions made by the Faculty and sanctioned by Academic Board to accommodate them.

Withdrawal

17.1 A student whose GPA for a given semester is less than 2.00 shall be deemed to be performing unsatisfactorily, and shall be placed on warning. A student on warning whose GPA for the succeeding semester is less than 2.00 will be Required to Withdraw (RTW).

17.2 A candidate who has been required to withdraw from the Faculty may apply to the Faculty for re-admission one (1) year after withdrawal. Each case will be considered on its own merit, but will only succeed if the Faculty is satisfied that the circumstances prior to withdrawal have been altered substantially.

17.3 Students who are readmitted to a Faculty may in accordance with its regulations be granted exemption from Level I courses subject to there being no change in the content of the courses and provided that no more than five (5) years have elapsed since the date of withdrawal. Level II University courses, for the purposes of exemption, may be treated in the same way as Level I Faculty courses.

17.4 Students from one faculty who had been required to withdraw from the University for failing to complete their degree programme within the stipulated period may be admitted to another faculty after a minimum period of one (1) year has elapsed since their withdrawal. Such students may be granted exemption from Level I courses relevant to the new programme subject to regulations 17.2 and 17.3 above.

17.5 Students required to withdraw from the University for failing to complete their Diploma or Certificate programme within the stipulated time period may be re-admitted to the Faculty after a minimum period of one (1) year has elapsed since their withdrawal. Such students shall not be granted exemptions from courses in the programme previously passed.

17.6 A student who voluntarily withdraws from the University and who applies for re-admission within five (5) years shall be granted exemptions with credit for courses previously passed, subject to the time limit for the maintenance of credit stipulated in the relevant Faculty Regulations. All grades previously obtained shall be used in the determination of the student’s GPA.
Leave of Absence

18. i. A candidate who for good reason wishes to be absent from an academic programme for a semester or more must apply for formal leave of absence to the Senior Assistant Registrar, Student Affairs (Admissions), through the appropriate Dean, stating the reason for the application.

ii. The length of such leave of absence, if granted, will be subject to approval by the Academic Board of the Campus concerned, but will not exceed one (1) academic year in the first instance terminating at the end of the academic year for which the application is approved.

iii. Leave of absence will not be granted for more than two (2) consecutive academic years.

iv. Leave of absence may be granted for one (1) semester or for an academic year.

v. Applications for leave of absence for a semester shall normally be submitted by the end of the third week of the relevant semester.

vi. Applications for leave of absence for the academic year shall normally be submitted by the end of the third week of Semester I.

NOTE 1: Students who have been attending classes and then apply for Leave of Absence after the deadline date are liable for payment of full tuition fees for the semester/academic year whether they sit examinations or not.

NOTE 2: Leave of absence grants a student permission to be away from classes and from writing examinations. A student cannot, therefore, be on approved Leave of Absence and at the same time benefit from examination results for that period.

NOTE 3: Coursework marks cannot be transferred for persons who are on Leave of Absence.

(CURRENTLY NOT OFFERED)

The intention of this programme is to sensitize lower level managers within the public sector, and even the private sector to some of the changes taking place within the public sector and hopefully, to equip them to face these changes. In recent years, the public sectors in the Caribbean, as elsewhere, have been involved in attempts at administrative reform.

A critical focus of this new management philosophy is human resource management. Indeed the new thrust is increasingly a change from what was traditionally regarded as personnel administration to what is now perceived as a question of the proper management of human resources. This has necessitated a fundamental restructuring of the various units involved in human resource management within the local and regional public services.

The programme will prove useful particularly to public servants at the levels of Administrative Officer IIs, Cadets, Administrative Assistants and Clerk IVs as well as Supervisors of equivalent status.

UNIVERSITY REGULATIONS ON PLAGIARISM

Application of these Regulations
1 These Regulations apply to the presentation of work by a student for evaluation, whether or not for credit, but do not apply to invigilated written examinations.

Definition of plagiarism
2 In these Regulations, “plagiarism” means the unacknowledged and unjustified use of the words, ideas or creations of another, including unjustified unacknowledged quotation and unjustified unattributed borrowing;

“Level 1 plagiarism” means plagiarism which does not meet the definition of Level 2 plagiarism;

“Level 2 plagiarism” means plagiarism undertaken with the intention of passing off as original work by the plagiariser work done by another person or persons.

3 What may otherwise meet the definition of plagiarism may be justified for the purposes of Regulation 2 where the particular unacknowledged use of the words, ideas and creations of another is by the standards of the relevant academic discipline a function of part or all of the object of the work for evaluation whether or not for credit, for example:
   a) The unacknowledged use is required for conformity with presentation standards;
   b) The task set or undertaken is one of translation of the work of another into a different language or format;
   c) The task set or undertaken requires producing a result by teamwork for joint credit regardless of the level of individual contribution;
   d) The task set or undertaken requires extensive adaptation of models within a time period of such brevity as to exclude extensive attribution;
   e) The task set or undertaken requires the use of an artificial language, such as is the case with computer programming, where the use of unoriginal verbal formulae is essential.

4 It is not a justification under Regulations 2 and 3 for the unacknowledged use of the words, ideas and creations of another that the user enjoys the right of use of those words, ideas and creations as a matter of intellectual property.

Other definitions
5 In these Regulations,
   “Chairman” means the Chairman of the relevant Campus Committee on Examinations;
   “Examination Regulations” means the Examination and other forms of Regulations for First Degrees Associate Degrees Diplomas and Certificates of the University;
   “set of facts” means a fact or combination of facts.

Evidence of plagiarism
6 In order to constitute evidence of plagiarism under these Regulations, there shall be identified as a minimum the passage or passages in the student’s work which are considered to have been plagiarised and the passage or passages from which the passages in the student’s work are considered to have been taken.

Student Statement on Plagiarism
7 When a student submits for examination work under Regulation 1, the student shall sign a statement, in such form as the Campus Registrar may prescribe, that as far as possible the work submitted is free of plagiarism including unattributed quotation or paraphrase of the work of another except where justified under Regulation 3.

8 Quotation or paraphrase is attributed for the purpose of Regulation 7 if the writer has indicated using conventions appropriate to the discipline that the work is not the writer’s own.

9 The University is not prohibited from proceeding with a charge of plagiarism where there is no statement as prescribed under Regulation 7.

Electronic vetting for plagiarism
10 The results of any electronic vetting although capable, where the requirements of Regulation 7 are satisfied, of constituting evidence under these Regulations, are not thereby conclusive of any question as to whether or not plagiarism exists.
Level 1 plagiarism
11 In work submitted for examination where the Examiner is satisfied that Level 1 plagiarism has been committed, he/she shall penalise the student by reducing the mark which would have otherwise been awarded taking into account any relevant Faculty regulations.

Level 2 plagiarism
12 Where an examiner has evidence of Level 2 plagiarism in the material being examined, that examiner shall report it to the Head of Department or the Dean and may at any time provide the Registrar with a copy of that report. In cases where the examiner and the Dean are one and the same, the report shall be referred to the Head of the Department and also to the Campus Registrar.

13 Where any other person who in the course of duty sees material being examined which he or she believes is evidence of Level 2 plagiarism that other person may report it to the Head of Department or the Dean and may at any time report it to the Campus Registrar who shall take such action as may be appropriate.

14 Where a Dean or Head of Department receives a report either under Regulation 12 or 13, the Dean or Head of Department, as the case may be, shall
   a. where in concurrence with the report’s identification of evidence of Level 2 plagiarism, report the matter to the Campus Registrar; or
   b. where not concurring in the identification of evidence of plagiarism, reply to the examiner declining to proceed further on the report; or
   c. where concluding that there is evidence of Level 1 plagiarism, reply to the examiner indicating that conclusion and the Examiner shall proceed as under Regulation 11.

15 Where a report is made to the Campus Registrar under Regulation 14a or 16, the Campus Registrar shall lay a charge and refer the matter to the Campus Committee on Examinations.

16 Where the Campus Registrar receives a report alleging Level 2 plagiarism from the Examiner or any other person except the Dean or Head of Department, the Campus Registrar shall refer the matter to a senior academic to determine whether there is sufficient evidence to ground a charge of plagiarism and where such evidence is found, the Campus Registrar shall proceed as under Regulation 15.

17 Where the matter has been referred to the Campus Committee on Examinations pursuant to Regulation 15, the proceedings under these Regulations prevail, over any other disciplinary proceedings within the University initiated against the student based on the same facts and, without prejudice to Regulation 21, any other such disciplinary proceedings shall be stayed, subject to being reopened.

18 If the Campus Committee on Examinations is satisfied, after holding a hearing, that the student has committed Level 2 plagiarism, it shall in making a determination on the severity of the penalty take into consideration:
   a. the circumstances of the particular case;
   b. the seniority of the student; and
   c. whether this is the first or a repeated incidence of Level 2 plagiarism.

19 Where the Campus Committee is of the view that the appropriate penalty for an offence of Level 2 plagiarism is for the student to:
   (i) awarded a fail mark;
   (ii) excluded from some or all further examinations of the University for such period as it may determine;
   (iii) be dismissed from the University,
   it shall make such recommendation to the Academic Board.

Clearance on a charge of Level 2 plagiarism
20 A determination of the Campus Committee on Examinations that Level 2 plagiarism has not been found will be reported to the Campus Registrar who shall refer it to the Examiner and notify the student. Where the Committee has not identified Level 2 but has identified Level 1, it shall be reported to the Campus Registrar who shall refer it to the examiner.

Level 2 plagiarism: Appeal to the Senate
21 A student may appeal to the Senate from any decision against him or her on a charge of plagiarism made by Academic Board.
Delegation by Dean or Head of Department
22 The Dean or Head of Department, as the case may be, may generally or in a particular instance delegate that officer’s functions under these Regulations.

Conflict of interest disqualification
23 Any person who has at any time been an examiner of work or been involved in procedures for laying charges in relation to which an issue of plagiarism is being considered under these Regulations shall withdraw from performing any functions under these Regulations other than those of supervisor and examiner.

Faculty of Social Sciences General Code of Conduct

Preamble
This code has been granted in line with what is believed to be staff and students’ general perceptions on what may or may not be considered appropriate conduct, and has been formulated through constant consultation with representatives of the relevant groups. This has been done in recognition of the fact that the Faculty and its environs should be associated or seen as being synonymous with activities that uphold the University’s, and by extension its Faculties’, mandate towards the expansion and promotion of pursuits of an academic nature; and that as such persons therein should aspire to conduct themselves in a manner that may be considered socially acceptable. Therefore, wholesale and/or blatant disregard for the stipulations made herein may result in the application of disciplinary action.

Code of Conduct

(a) Areas surrounding lecture rooms and offices are designated quiet zones. Students shall therefore refrain from engaging in loud conversation or any other noise-generating activity that may cause a disturbance. This includes, but is not restricted to singing, recitations, preaching, loud praying, the use of noise-emitting electronic equipment (i.e. radios, phones, etc.), and romping and playing of physical games (e.g. scrimmage). Persons are also to refrain from the use of violent and offensive language.

(b) The Faculty’s space shall be considered as meant for activities of an academic nature. The facilities provided therein should therefore be utilized appropriately and in their rightful fashion.
(c) Persons shall refrain from engaging in behaviour not suited for the Faculty’s space, this being inclusive of the restrooms. This includes, but is not limited to lying down or sleeping on the furniture, public grooming, and the playing of games such as cards, dominoes and other such board games. Persons shall also refrain from engaging in any activity which amounts to an inappropriate public display of affection.

(d) Persons shall refrain from lingering or congregating along designated pathways in a manner that may obstruct free movement along them. This includes the sitting on stairs and railings. Additionally, persons shall avoid walking in or through gardens and related lawns. There shall also be no riding on the pathways, except in the case of disabled persons who utilize mobility aids.

(e) Persons are not to remove furniture from their prescribed locations. This includes removing chairs and/or tables from classrooms, benches from usual positions, etc. An exception may be made in the case where the movement of furniture is necessary to facilitate the instructional programme/process, so long as the furniture is replaced in its original position thereafter.

(f) Persons, in adhering to this General Code of Conduct, shall also be careful to abide by the stipulations of other such Faculty guidelines/policies. These include, but are not limited to the Faculty’s Code of Conduct for Instructional Sessions, as well as the Faculty’s Notice Posting Policy.

STUDENT EXCHANGE & STUDY ABROAD
INTERNATIONAL OFFICE - OFFICE OF INSTITUTIONAL ADVANCEMENT AND INTERNATIONALISATION (OIAI)

The St. Augustine Campus has a range of partnership agreements managed through the International Office, OIAI that facilitates exchanges by UWI students as well as students from our international partners to spend time at each other’s campuses. The Office also enables student mobility with institutions where we do not have such formal partnerships.

The UWI Student Exchange programme will allow you to study at one of our many international partners around the world, including in North America, Europe, South America, Africa, Asia and the Caribbean in addition to other UWI Campuses.

This type of international immersion has many educational and personal benefits. Students who have participated in the past have all spoken about the tremendous experiences and learnings not only in the classroom, but also from the people and places that they were able to interact with. They have become more independent in their thinking, self-sufficient and confident. They have also been able to make new friends, learn new languages and experience the world first-hand as true global citizens. A number of options for student exchanges are available to undergraduate and postgraduate students which are:

Exchange Students – from one semester to one year duration.
Study tours through the “UWI Discover’s” programme – for one to two weeks.
Visiting Students – for postgraduate students doing research on invitation by overseas institution.

Funding is available to assist students with some of these exchange opportunities.

For further information on funding as well as Student Exchange and Student Mobility, please visit our website: http://sta.uwi.edu/internationaloffice/ or visit our Facebook Page for the latest news on mobility opportunities at: https://www.facebook.com/UWIInternationalOffice/, or contact:

POSTGRADUATE STUDIES IN THE FACULTY OF SOCIAL SCIENCES

Before you select your programme of study or your courses for the year, consider whether or not you would like to proceed to the postgraduate level after graduation. In most professions a Bachelor’s degree is only the first step in the learning process that you should continue throughout your professional career. However, your choices at the undergraduate level can affect your postgraduate options. This brief guide provides you with basic Information on the Faculty’s current graduate programme, our research areas and any undergraduate requirements or prerequisites. For more detailed information and advice, please consult the Postgraduate Information Guide and speak with your Academic Advisor.

About Postgraduate Study

The Faculty of Social Sciences at the University of the West Indies offers 6 Diploma programmes, 19 MSc programmes, 11 MPhil programmes and 12 PhD programmes. Our Diploma and Taught Masters programmes (e.g. MSc) are particularly well suited to those who have already embarked upon their professional career and are looking to gain deeper insight into a specialised area in their field. Our research programmes (MPhil and PhD) allow students to follow their passion and provide the opportunity, resources and support for you to develop your own innovative ideas and approaches to the problems facing the Caribbean and the world today.

Definitions and Admission Requirements

Below are brief descriptions of the different types of programmes offered by the Faculty and the general admission requirements. Please consult the Postgraduate Information Guide for more detailed information.

Postgraduate Diplomas - These programmes involve a mix of taught classes, examinations, coursework and a written paper. The duration is generally one year for full-time study and two years for part-time study. To be admitted to the prescribed course of study for the Postgraduate Diploma, candidates must

i. hold a bachelor’s degree from an approved university.
ii. normally the class of degree should be at least lower second class honours.
iii. in some programmes, practical experience or other qualifications of special relevance to the course programme may be required.
iv. in some programmes, applicants may have to write an entrance examination.

MSc Programmes - These are also referred to as “Taught” as opposed to “Research” programmes. To be admitted to the prescribed course of study for the MSc, candidates must

i. hold a bachelor’s degree from an approved university.
ii. normally the class of degree should be at least lower second class honours.
iii. in some programmes, practical experience or other qualifications of special relevance to the course programme may be required.
iv. in some programmes, applicants may have to write an entrance examination or may have to do qualifying courses. In the latter instance, that student will be deemed to be a qualifying student.

MPhil/PhD Programmes - The Master of Philosophy (MPhil) and the Doctor of Philosophy (PhD) degrees are research degrees. Research degrees involve independent study, directed by a supervisor, and the production of a thesis. The essential difference between the Master and Doctoral levels, aside from the length of the registration period, lies in the quality of a successful PhD thesis, which must be judged to be the result of original research, to be an addition to knowledge and to be worthy of publication either in full or in an abridged form in a refereed journal.

The award of a PhD also requires the candidate to defend his/her thesis at a public oral examination. Many research degrees now contain a taught element. The intention of these taught courses is to provide students with research techniques and skills that will not only help them to complete their current research topic, but will also stand them in good stead for life after University.
Students will be considered for the MPhil/PhD programmes having satisfied the criteria set below:

i. Candidates seeking entry to the MPhil programme should hold a Bachelor’s degree (Second Class Honours or above) in the area in which they wish to pursue.

ii. Candidates seeking entry into the PhD programmes should hold a Master’s degree from an approved University with a specialty in the area of study.

iii. Students may be required to attend an interview prior to being accepted.

iv. Students applying for MPhil or PhD degrees must prepare an appropriate research proposal for consideration

FREQUENTLY ASKED QUESTIONS (FAQs) FOR FACULTY OF SOCIAL SCIENCES

General FAQs for All Undergraduate Students (Full Time and Part Time):

- **What should you do to obtain special permission to pursue additional courses beyond your maximum as a full time or part time student?**
  During the online registration period students can submit a request online to exceed the maximum credit limit. If approval is granted, the courses are added to the student’s registration.

- **Can level 3 courses count for level 2 courses?**
  Yes, this can be done but such requests will only be entertained in respect of elective courses.

- **If a student fails a course and repeats it how does this affect their GPA?**
  Failing a course serves to depress one’s GPA. You should therefore do your best to avoid failing a course. If the course is repeated and passed, the grade obtained is also used in the calculation of one’s GPA.

- **Are students required to attend all their lectures and tutorials within a semester?**
  Students who attend less than 75% of lectures or tutorials may be debarred from writing the final examination. Please check the course outline for the courses you are taking to ascertain if this debarment rule will apply.

- **What happens if you get sick before an exam (e.g. midterm & final exams)?**
  Have a medical report completed by a doctor and submit it to the Campus’ Health Service Unit. If the medical is accepted by the Health Services Unit, then you will not be penalized. The grade AM will be assigned to the courses affected.

- **What can you do if you got sick during an exam and are unable to finish it?**
  The Invigilator will take any student complaining of feeling unwell during an examination to the Campus Health Service Unit for assessment. If the case is genuine, you will not be penalized in terms of your GPA. The grade FM will be assigned to the courses affected.

- **How does a student request a course override (from Faculty/Department)?**
  Overrides must be submitted online. It is the responsibility of the student to check the Banner system to see if their override request has been approved / denied. Once approved, the student must then register for the said course(s). Please note that the Faculty personnel cannot register a student for a course, this must be done by the student him/herself.

- **How can students who get a late admission offer access academic advising?**
  By visiting the Departmental Office under which their programme resides.

- **What do you do if you have a question/issue of a financial nature?**
  Please visit the Student Accounts section at the Bursary where the matter will be sorted out.

- **Can a first year student register for level 2 and level 3 courses as electives?**
  Students must seek permission from their Head of Department to do this, and such request will only be granted if the relevant pre-requisites are satisfied.

- **Can students pursue cross faculty majors?**
  Yes, but a formal request in writing must be made to the Senior Assistant Registrar, Student Affairs-Admissions.

- **If students pursue enough credits in any discipline will they automatically be awarded a Minor in that discipline?**
  No, this will not be automatic. The requisite forms must be completed and submitted to the Dean’s Office.

- **When is a Minor declared?**
  Minors must be declared by the end of the registration period of the student's final semester. To declare a minor the student must complete the required form and submit it to the Dean’s Office. If this is not done, and if the student...
does not satisfy the course/credit requirements for the requested Minor, the Minor will not be awarded. For the purposes of this regulation, the end of registration means the “Add/Drop” period.

- **Can a student pursue more than one Minor concurrently?**
  Yes. A Minor in the Faculty of Social Sciences comprises of five courses (15 credits). A student pursuing a Major can use the 10 elective courses at level II/III to pursue up to two Minors if so desired.

- **Will a student who is registered for a Major but who completes the credit requirements for a Special be awarded the Special degree?**
  Not automatically. For this to happen, a request must be submitted to change from a Major to a Special. This request must be submitted in writing to the Senior Assistant Registrar, Student Affairs-Admissions, usually at the end of the second semester of the second year.

- **What is the process to be followed to pursue and declare a double Major?**
  Student must write to the Senior Assistant Registrar, Student Affairs-Admissions seeking approval to pursue a double Major. This request must be submitted prior to the start of the final year of study.

- **How can a student change from one Department/Major after beginning a degree programme?**
  To change an option (major), a student must write to the Senior Assistant Registrar, Student Affairs-Admissions seeking approval and this must be done during the second semester of his/her first year of study.

- **If a student has a GPA below 2.0 after completing all their degree courses will he/she be awarded a degree?**
  No.
  In order to qualify for the award of a degree a student must:
  a. have completed a minimum of ninety (90) credits (normally equivalent to thirty (30) semester courses) of which:
     i. at least thirty (30) credits are from Level I semester courses (including the Foundation course requirements), and
     ii. at least sixty (60) credits from Levels II and III semester courses.
  b. have satisfied the requirements for their specific degree programmes.
  c. have attained a minimum GPA of 2.0 from Level II and III courses.

- **What is a Dean’s hold?**
  A Dean’s hold is placed on a student’s record when his/her GPA is below 2.0 in a semester. At this stage the student is placed on a Warning for the next semester.

- **What does a student do if he/she is placed on a warning?**
  A student is placed on Warning when their GPA is below 2.0. To remove the Dean’s hold the student must seek academic advising from the respective departments before the hold is removed to permit registration.

- **What is RTW status?**
  A student is placed on RTW status after two consecutive semesters of GPA below 2.0. A student on RTW status must stay out of the University system for one academic year and then apply for re-entry to the University (the application period is normally November to March).

- **When a student returns to Campus after he/she was required to withdraw will their current GPA be counted?**
  If the re-entry student registers for a new programme then the GPA record will start anew. If, on the other hand, the re-entry student continues in the programme he/she was pursuing prior to the RTW then the academic record continues.

- **What are students’ options if they are required to withdraw?**
  They can seek to meet with the Dean and to outline a plan to improve their academic standing. A decision will then be made as to whether the RTW can be deferred for a semester.

- **How does the GPA affect GATE coverage for tuition?**
  A student with an OVERALL GPA of less than 2.0 will not be eligible for GATE. If the student brings the GPA up to 2.0 after Semester I, they can seek to get GATE approval for Semester II.

- **Are there circumstances in which a pre-requisite can be waived?**
  Only in compelling circumstances and only the Dean can approve such a request.
• How does a student apply for an exemption based on courses completed at another institution of higher learning?
  A student must complete the requisite Credit and Exemptions application form and attach the relevant course
  outlines from the institution where credits were attained. This request must be submitted to the Senior Assistant
  Registrar, Student Affairs-Admissions.

• What is the difference between a consultation and a remarking of an examination script?
  A consultation is a review of the script by the Examiner/Lecturer with the candidate. Consultations are only permitted
  to students who have failed the course.
  In the case of a remarking, the script is remarked by a new examiner. Marks can be changed (either up or down) and
  the new mark awarded becomes the final mark.

• What steps must be taken to request a consultation or a remarking of an examination script?
  1. A student who is dissatisfied with the results of his/her examination should report his/her dissatisfaction in
     writing to the Campus Registrar. Such a report must be made within two weeks of publication of results, and in
     the case of the Supplemental/Summer School or resit examinations within five days of the publication of results.
  
  2. The Campus Registrar shall forward the student’s request to the Dean of the Faculty concerned.
  
  3. Only students who have failed a course may request consultation to go through his/her script with the Examiner;
     (utilizing an approved electronic teleconferencing system if necessary)
  
  4. Students may request to have their scripts remarked. A student who wishes to have his/her script remarked must
     pay a fee of Bds$125.00 or J$2000.00 or TT$375.00, or US$62.50 (according to campus) to have his/her script re-
     marked by a new Examiner.
  
  5. Where re-marking of a script results in a higher mark than that previously recorded, the fee shall be refunded
     provided that the increased mark results in a change of grade.

• If students pursue a foreign language that is not required for their degree at the Centre for Language and Learning
  (CLL) can they get credit for it to count toward their degree credits?
  Yes, but only to satisfy elective course requirements.

• Will Foundation courses affect a student’s GPA?
  From the 2014/2015 academic year students will be awarded grades for their Foundation courses and these will be
  included in the calculation of the GPA for the determination of Warning, RTW, GATE and the determination of Level I
  prizes.

• How many co-curricular courses/credits are students permitted to register for during their degree programmes?
  A student can pursue a maximum of 6 co-curricular Credits.

COURSE CODE: GOVT 3062
COURSE TITLE: COMPARATIVE PUBLIC ADMINISTRATION
CREDITS: 3
PREREQUISITES: GOVT 1000 OR GOVT 1001 AND GOVT 1006 (GT12C)
DEPARTMENT RESPONSIBLE: POLITICAL SCIENCE
COURSE DESCRIPTION: This course introduces students to the very broad field of comparative public administration. The course should be seen as a sort of fusion of the subfields of comparative politics and public administration. The comparative component emphasizes issues of research methodology and the question of whether and how inferences can be made from a comparative study of bureaucratic institutions. One critique of this field of inquiry is that broad generalization is very problematic due to the unique nature of bureaucratic institutions in different contexts – one practical result of this critique is that scholars tend to differentiate between several sub-classes of bureaucratic contexts. As such, in this class we will look at comparative public administration through two broad contexts: administration in the developed world and administration in the developing world. Another critique of the field is that a strict emphasis on public administration and bureaucratic institutions obscures such issues as the relationship between bureaucracies and other political institutions, and as a result, side-steps the issue of government performance. As such, we will take a broad perspective on the issue of governance and take pains to evaluate administrative capacity within the context of the links between bureaucratic institutions, legislative bodies, executive authorities and civil society institutions. The course will draw from many subfields of public administration, including public finance, public management, intergovernmental relations, etc., and will be particularly useful for students interested in such issues as administrative reform, international development, federalism, comparative research methodology, etc.
