

THE UNIVERSITY OF THE WEST INDIES
SCHOOL FOR GRADUATE STUDIES AND RESEARCH

GUIDELINES FOR SUBMISSION
OF
TAUGHT GRADUATE PROGRAMME PROPOSALS
(2011)

Objectives and Structure of the Guidelines Document

These guidelines apply to all new taught graduate programmes being proposed for the consideration of the Board for Graduate Studies and Research. The main objectives of the guidelines are: (1) To identify responsibilities and suggest a procedure that should be followed in developing a proposal for the introduction of a new taught graduate programme at the University of the West Indies; (2) To provide a detailed checklist of the pertinent information that Departments and Faculties should consider in their decision to develop and deliver a new taught graduate programme; and (3) To assist the Campus Committees of the School for Graduate Studies and Research, and the Board for Graduate Studies and Research, in determining the appropriateness and viability of proposed new programmes.

This guidelines document consists of a brief section on **Responsibilities and Procedures** and a **Format for Proposals** being prepared for submission to the Board. The format itself has two components:

- (1) **A Cover Page:** which provides summary information about the proposed programme and which must be submitted as part of the programme proposal; and
- (2) **A Programme Description:** which provides the Sections that must be completed and indicates the type of information required in each Section. The Sections are: Aims and Objectives; Rationale; Access and Support; Course of Study and Faculty; Regulations and Assessment; Quality Assurance; and Budget.

Responsibilities and Procedures

It is the responsibility of the proposing Department to:-

- ensure the thorough preparation of the programme proposal;
- initiate the necessary consultation with other Departments that already have or may be considering the development of similar or related programmes;

- foster intra- and inter-Campus collaboration including, where possible, the sharing of resources and collaborative delivery of programmes;
- resolve amicably potential conflict or competition concerns.

Beyond these responsibilities, the proposing Department should pay particular attention to early consultation with:

- (a) The Campus Librarian, with regards to library resources, equipment and access;
- (b) The Campus Bursar, to ensure the development of a realistic budget for the programme;
- (c) The Open Campus, where distance delivery is proposed, and especially if the programme is designed to reach an audience beyond the students registered to the Campus, and
- (d) The IDU for guidance with course outlines, learning outcomes, etc.
- (e) The Computer Centre regarding any additional call on their resources.

Departments are urged to include the persons listed above, or their nominees, in their Programme Planning Committee, so that relevant information may be obtained and expertise shared in a timely manner.

Once a draft Proposal has been prepared, it should be circulated directly to the appropriate Departments and Faculties on all Campuses for comment. It is expected that within thirty days of receipt of the Programme Proposal, Departments and Faculties should respond with comments; these might include general advice and suggestions, possible articulation opportunities, opportunities for collaboration and resource sharing, enrollment trends in related programmes, and problems and concerns. All responses should be addressed to the proposing Dean, with a copy to the Head of Department. Following this exercise, a revised comprehensive Proposal should be prepared and submitted to the Chair, Campus Committee for Graduate Studies and Research for the Committee's review and recommendations; and for onward submission to the Board for Graduate Studies and Research, should the Campus Committee so decide. All proposals so submitted should include the written responses of other Departments and Faculties as Appendices to the Proposal. Any written confirmation of support for the programme received from the Campus Librarian, Campus Bursar, IDU or Open Campus (as appropriate) should also be appended as part of the proposal. Proposals should be submitted to the Campus Committee in the Semester preceding that in which they are to be considered by the Board for Graduate Studies and Research.

The Board for Graduate Studies and Research may: (1) Approve the Programme unconditionally; (2) Approve the Programme conditionally, subject to minor modifications or clarifications to be overseen by the Chair of the Campus Committee and/or the Chair of the Board; (3) Request a resubmission, following major modifications to the Programme or Proposal; (4) Not approve the Programme; in such an event, it is the responsibility of the Board to provide a clear rationale for its decision. In certain circumstances, e.g., where the proposed Programme represents a significant academic departure for the Campus; where it utilizes a new or experimental pedagogical format or mode(s) of delivery; where it may lead to professional licensure; or where it is designed to articulate with licensure programmes; the Board may request expert external advice or evaluation of the Programme. In rare circumstances, and subject to the recommendation of the Chair of the Campus Committee for Graduate Studies and Research, a proposed Programme may be approved administratively by the Chair of the Board for Graduate Studies and Research. In such cases, the Proposal must be brought to the next Meeting of the Board for ratification.

Cross-Campus Consultation – Cave Hill Mona St. Augustine	
Other Departments/Entities	

PROGRAMME DESCRIPTION

A. ACADEMIC AIMS AND OBJECTIVES

1. Describe the academic purpose, goals and objectives of the proposed programme.
2. Indicate if the programme replaces an existing programme(s) or is an entirely new programme, *sensu*, no similar programme previously existed. If the former, indicate whether the programme is primarily or exclusively a restructuring of existing courses.
3. Explain how the programme advances the Departmental, Faculty, Campus and/or the University Strategic Plan, and show how the delivery of the programme will facilitate implementation of the Strategic Plan(s).
4. What is the expected life of the programme? What factors (internal and external) could assure or threaten the sustainability of the programme?

B. RATIONALE

1. Identify existing or projected programmes in the same or related area at any of the Campuses and their possible impact on the proposed programme.
2. Provide evidence of appropriate consultation with other Campuses. Summarise the results of the consultations, emphasizing those from Campuses with similar programmes. Identify opportunities for inter-programme articulation and inter-campus collaboration in programme delivery, as appropriate. Identify how any undue competition or conflicts between the Campuses arising from the delivery of the proposed programme would be resolved.
3. Identify similar programmes, if any, at other institutions outside of the UWI and the possible impact of these on the proposed programme.
4. Justify the need for the programme in terms of the clientele and the developmental needs of the country and region, and indicate how these needs were established.
5. For programmes designed to prepare graduates for immediate employment, assess the likely employment demand. Indicate any employers who have specifically requested the development of the programme.

C. BUSINESS MOTIVATION

Provide a summary statement on the business motivation for the programme outlining the Financial Objectives – what financial objectives are attached to the programme over the short, medium and long term? Is it expected just to cover costs? If expected to generate a surplus are their specific applications planned, e.g. research projects, acquisition of

specialized equipment, supplementary revenue or offset non-UGC funded departmental costs?

If the programme is not expected to generate a surplus within the short or medium term (3-5 years) but has the potential to be a significant contributor in the longer term, the statement must advance compelling justification for the Campus to make the initial business investment, and the proposal must receive the explicit approval of the Principal or relevant committee before submission to the Board for Graduate Studies.

D. ESTABLISH DEMAND

Indicate the likely demand for the programme and estimate enrollment over a three to five year period. Indicate how the estimate of demand was determined, providing summaries of any surveys, focus groups, expert informants, strong inference drawn from relevant primary data and the ability to finance programme fees into sustainable students enrolment, at the very least, over the first three years. Note that anecdotal evidence is not a useful basis for establishing demand and that students' expression of interest is helpful, but not a sufficient indicator of market demand.

E. MARKETING & ADVERTISING

- a) Enumerate the approaches that will be taken to:-
 - initially identify and sensitise the target markets of students and likely sources of financial and other support
 - promote the programme
 - implement an advertising "campaign" to complement the marketing initiatives.
- b) Indicate how and when existing markets will be targeted in succeeding years to assure the sustainability of the programme.
- c) Indicate how marketing and admissions processes might encourage increased participation of persons from the UWI 12 Countries and from extra-regional participants.

F. ACCESS AND SUPPORT

1. Describe the criteria for admission of students to the proposed programme. and how the programme will be marketed.
2. Describe the mode(s) of delivery to be used in the programme and indicate the instructional support arrangements that will be provided. If use of Open Campus resources is envisaged, indicate that the appropriate consultations have been conducted and confirm that the Open Campus has agreed to provide the Distance facilities and resources needed for the programme.

3. Identify the academic staff, administrative support, teaching materials, lecture-, lab- and tutorial facilities, and other campus UGC- and non-UGC-funded resources (e.g. Library) required to support the programme. Itemise the resources required according to expected availability at intra-faculty, inter-faculty and non-campus levels, and an estimate of quantities developed using appropriate units of measurement e.g. hours, student numbers, etc. Indicate whether these are currently available, and if not, how they will be acquired.
(This aspect of the proposal should be carefully reviewed by the Head of Department and Dean to ensure that the resources required can be accommodated within departmental and faculty resource utilisation planning and if not, for the proposal to include the cost of acquiring these resources through special employment arrangements internally and/or externally. The Head and Dean will agree with the Programme Initiator the extent to which the programme will be required to bear the marginal costs of its delivery, and an estimate developed and incorporated in the proposal as a flat figure over a period or as a function of annual revenues. This agreement must be submitted as part of the proposal.)
4. Obtain advice from the Bursary, regarding the basis on which the utilization of Campus bursarial, registrarial and other resources is to be recovered from self-funded programmes. The Bursary will provide this after consultation with the Deans.

G. COURSE OF STUDY AND FACULTY

1. Provide a complete outline of the course of study, including course syllabi, credits and a current and comprehensive reading list for each course. Describe the objectives, scope, duration and credit weighting of any proposed Research Project.
2. Describe proposed arrangements for any required attachments, agency placements, internships, and fieldwork, *inter alia*. Provide a list of prospective affiliates, as appropriate.
3. Provide brief biodata of current faculty members who will implement the programme, and describe the qualifications of any faculty to be hired. Identify the Programme Director or Coordinator.
4. Describe the responsibility and qualifications of non-UWI persons who will be involved in programme delivery, whether in course delivery, supervision of Research Projects, fieldwork, internships or attachments. Indicate the mechanisms for selecting such persons to ensure that students receive a high quality experience.

H. REGULATIONS AND ASSESSMENT PROCEDURES

All Regulations and Assessment Procedures must be consistent with those provided in the University of the West Indies Regulations for Graduate Degrees and Diplomas.

Course load/semester; part-time/full time:	
Number of failures per semester:	
Re-sit Examinations:	
Assessment procedures for courses, coursework, fieldwork, internships, or other:	
Assessment procedures for Research Project (as appropriate):	
Time limits for completion:	

I. QUALITY ASSURANCE

All Quality Assurance procedures described must be consistent with those provided in the University of the West Indies Regulations for Graduate Degrees and Diplomas.

1. Describe how the proposed programme will be assessed and reviewed.
2. Establish a Board of Examiners and indicate the schedule of Examiners' Meetings for the programme.
3. For professional programmes for which accreditation is to be sought, state the accrediting agency and a timetable for completing the accreditation process.

J. BUDGET

This Section must be completed for all programmes, but is of particular importance in the case of non-UGC funded programmes.

PROPOSAL TO ESTABLISH PROGRAMME FINANCIAL VIABILITY

CHECKLIST FOR SUBMISSION OF PROPOSALS FOR ONLINE AND MULTIMODE PROGRAMMES

Introduction:

An increasing number of Online and Multimode programmes are being presented for approval to the Board for Undergraduate Studies and the Board for Graduate Studies and Research. However such programmes have unique features that are not addressed in the standard templates for New and Revised Programmes used by each Board. The following checklist has been developed to ensure that these programmes meet the required standards of development, delivery and student support. It is to be used in conjunction with the standard template for New and Revised Programmes. The completed checklist should be attached to the Programme Proposal for submission to the Board.

1. Programme Development & Delivery:

- Evidence of consultation with online instructional designer, education technologist or other online experts with respect to the design of the programme/courses for online delivery. A confirmation note from the online specialist, including any recommendation is required. A template for the confirmation note is shown below.
- For a multimode programme, the structure should clearly indicate the online components and the associated delivery method (i.e. synchronous or asynchronous)
- Where delivery is largely asynchronous, provisions should be made for e-tutor support. Indicate the proposed etutor : student ratio
- For synchronous delivery (via videoconferencing or webconferencing), state the provisions for students' tutorial support and access to course materials
- Indicate the tools and methodologies that will be employed to create/facilitate a learning community.

2. Technical Preparedness:

Provide evidence to show:

- availability of /or plans to acquire the required technology resources to deliver online teaching and to support online learning. Online delivery platforms include learning management system (such as Moodle), webconferencing system or virtual classroom (such as Blackboard Collaborate), or a videoconferencing system at the delivery and receiving endpoints.
- availability of reliable technical support for lecturers and students before and during synchronous online sessions

- availability of technical services to ensure continued ease of access to curricular materials such as video recordings. Submit confirmation from Campus IT Services of their ability to provide the necessary services, or submit alternative arrangements made/ to be made by Department.

3. Faculty Preparedness for Online Teaching:

Provide evidence of /or plans for training initiatives to develop the competency of faculty to deliver quality online teaching in accordance with established best practices. This includes:

- training in online pedagogy and
- training in the use of the chosen technology platform(s).

4. Assessment and Evaluation:

Indicate:

- the assessment tools that will be used – class tests, exams, projects, etc. and how they will be administered to remote students
- arrangements for proctoring of exams in remote locations
- arrangements for practicum and access to laboratory facilities, where applicable.

5. Student Support:

Indicate:

- arrangements for the training/orientation of students in the use of the relevant technologies
- provisions to ensure that remote students have access to and are able to effectively use the library resources
- provisions for advising students in academic matters.

Template for Confirmation Report

- 1. Programme Name: _____
- 2. Delivery Mode (Online or Blended): _____
- 3. Name and Job Title of Online Consultant: _____

I certify that consultation on the programme has taken place with _____
(Department/Lecturer) and that the proposed programme structure, the instructional materials
and delivery systems are aligned with the learning objectives of the programme.

Recommendations: _____

Signed: _____
Online Consultant
Affiliation (Open Campus, CETL, other)

GUIDELINES FOR REQUESTING GATE APPROVAL FOR NEW PROGRAMMES -UWI

GATE approval for programmes and institutions which have not previously received GATE funding must be sought from the Permanent Secretary, Ministry of Tertiary Education and Skills Training (TEST), Levels 16-18, Tower C, International Waterfront Complex 1A Wrightson Road Port of Spain .

When applying for such approval, institutions should attach the following documents:

1. Letter or Certificate of ACTT/NTA (National Training Agency) Registration or Accreditation; and
2. ACTT/NTA letter of recognition and/or approval for programmes for which GATE funding is being sought.

Institutions are also advised to include the following information in requests for GATE funding:

1. The correct programme title as approved/recognized by the ACTT or NTA;
2. A list of all specializations and/or pathways that may comprise the requested programme/s (where applicable);
3. ACTT/NTA approval/recognition for all specializations and/or pathways that may comprise the requested programme/s (where applicable);
4. Annual tuition and non-tuition fees per programme;
5. Tuition fees per module, course and credit (where applicable);
6. Where applicable please state if programme is subsidised by governments of contributing countries; percentage of tuition subsidised and whether the programme is self-financing or not.
7. Total number of modules, courses or credits (where applicable) required for successful completion of each programme;
8. (For TVET programmes only) An outline of all consumables involved in the delivery of the programme and respective costs;
9. Course Outlines detailing all compulsory and optional courses required for successful completion of each programme;
10. Total (full time) duration of each programme;
11. Entry requirements for each programme;
12. Method of tuition delivery (i.e. online or face to face);
13. Practical components (where applicable);
14. Expected number of student enrolment for each requested programme;
15. Number of graduates for all your programmes (including programmes requested) from the inception of all programmes;
16. Employment status and position of all graduates; and
17. A market case for each programme outlining the possible areas of graduate employment and highlighting the specific skill-sets the programme offers for local socio-economic development.

Should any further information be required, a request will be made upon receipt of your application.
