The IFoA Foundation is the dedicated charitable arm of the Institute and Faculty of Actuaries. Our mission is to open every door for the next generation of actuaries and to empower the profession to be transformative in addressing the greatest global challenges of our time.

This **Fullerton-Long Caribbean Scholarship Fund** offers a life-changing opportunity for outstanding young people from the Commonwealth Caribbean, to become actuaries and make a positive difference in the region and wider world, whatever their field of interest.

This scholarship brings together and develops exceptional Commonwealth Caribbean undergraduate students in the fields of actuarial science or mathematics.

Mr Norbert Fullerton and Mr Andrew Long are proud undergraduates of the University of the West Indies and ambassadors to the IFoA Foundation. They established this scholarship primarily to recognise the incredibly positive impact that the UWI had on their education, social impact and spiritual development.

The scholarship is intended to be an annual award to finance the tuition for maths or actuarial students who demonstrate strong academic performance, leadership skills and a commitment to becoming an actuary.

There will be six awards in each year, and applicants can re-apply for a maximum of one more year.

APPLICATION PROCEDURE:

- ✓ Obtain the application form;
- ✓ Complete all applicable sections;
- ✓ Have your referee complete the referee's report/affidavit;
- ✓ Submit the application form and your referee's report/affidavit.
